

Practices in Play: Bringing CS to Every Subject

Unleash the power of computer science without adding one more thing to your plate. In this interactive professional learning session, move beyond isolated coding to explore how CS practices naturally amplify deeper learning across all content areas.

Workshop Highlights:

- Experience integrated activities
- AI-powered lesson design
- Connect CS to literacy and math

Target Audience:

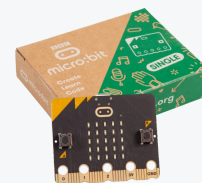

- Teachers in TK-5th grade, TOSAs, Coaches, ELOP instructors
- No previous coding experience needed

June 15

8:00 a.m. - 3:00 p.m.

Upon Completion of Full Day Workshop, Participants Receive:

**TK-2 Indicars
3-5 Microbits**
