Professional Development for Educators

Advance in your current career or take the first step onto a new path with Fisher College's Early Childhood Education online courses. These convenient, affordable classes are available on eight-week rotations. Learn from the comfort of your home in online courses that facilitate hands-on practice and collaboration with your peers.

Why Take Early Childhood Education Courses at Fisher?

Affordable and Flexible Learning

Enroll in online classes for early childhood education as a non-degree-seeking student that are priced for your success! Fisher's eight-week learning opportunities are available at a special discounted rate of \$550 per course. This accessible online format allows you to study on a schedule and in the environments that work best for you.

Quality Online Classes

Engage deeply with learning material in hands-on early childhood education courses that involve simulations, presentations, and collaborative projects. Every early childhood education online course involves interactive opportunities for you to learn from experienced peers and expert faculty whose valuable skills and knowledge can enhance your learning and influence your career choices.

Your Path to Credentials and Degrees

Every credit you earn in Fisher's Early Childhood Education program can be applied toward our Early Childhood Education certificate, associate degree, or bachelor's degree programs.
