

BEAUFORT COUNTY SCHOOL DISTRICT

NURSING

Dear Parents,

Beaufort County School District has now adopted several new medication permission forms. These forms are not only different in format but are also different in procedure. We now have the following medication forms;

- BCSD Anaphylaxis Authorization Form
- Asthma Management Plan,
- Diabetic Order, Medication Form,
- Seizure Action Plan
- BCSD Diabetes Parent and School Responsibility Contract

All permission medication forms **must be signed by a physician as well as the parent before any medications will be given.** Any prior permission forms used will not be valid. **Only diabetic and asthma forms from other providers will be accepted.** The medication must be accompanied in the prescription labeled bottle or box with current date. These forms can be found on the BCSD website or obtained from the school nurse. I am attaching one for your convenience so that you may have time to obtain the signed form from the physician during the summer. If your child has more than one medication you will need more than one form. I urge you not to wait until the start of school as the doctors' offices are very busy during that time and you may not be able to get the form completed in time. The forms for next year need to be dated **no earlier than June 1, 2026.**

If you have any questions regarding the medication policy, please feel free to reach out to your school nurse.

Thank you,

School Nurse
