**Shawnee Elementary School Unveils Student-Created Glass Mosaic Mural in  
Collaboration with Artist-in-Residence Kim Hogan**

Over the past two weeks, students at Shawnee Elementary have participated in a vibrant and hands-on artistic experience led by Artist-in-Residence Kim Hogan, culminating in the creation of a stunning glass mosaic mural that reflects the creativity and unity of the school community.

Every student in the school contributed to the mural, making the project a truly collaborative effort and a meaningful expression of shared pride. The finished piece stands as a lasting symbol of student voice, artistic exploration, and community connection.

The school will celebrate this achievement with an official mural dedication ceremony on **June 3, 2026 at 2:00 p.m.** at Shawnee Elementary School located at 1315 Echo Trail, Easton, PA, 18040. The mural dedication will be streamed live via social media.

Kim Hogan is an accomplished artist who studied at the School of Visual Arts in New York City. Her work has earned numerous awards and is featured in both private and public collections, including Lehigh Valley Hospital, St. Luke's Hospital, Penn State Hospitals, the Sigal Museum, and the Northampton Historical and Genealogical Society, as well as collections internationally.

Beyond her personal artistic practice, Hogan is deeply committed to arts education. Through residencies, workshops, and community-based projects, she brings meaningful artistic experiences to schools, libraries, parks, and community centers. Her current work includes creating art experiences for individuals and families affected by cancer.

Hogan describes her artistic mission as creating work that uplifts and inspires—much like music—bringing joy and connection to those who experience it. This philosophy was at the heart of her residency at Shawnee Elementary School where students not only learned artistic techniques but also experienced the power of collaboration and creative expression.
