

NATALIE MICKAL

Portrait Of A Graduate

My Best Self:

- Kind to others
- Happy to help
- Interested in learning
- compassionate and caring

Portrait of a graduate: Self Directed Learner

I believe I am a self directed learner, because i like to try new things in my work.

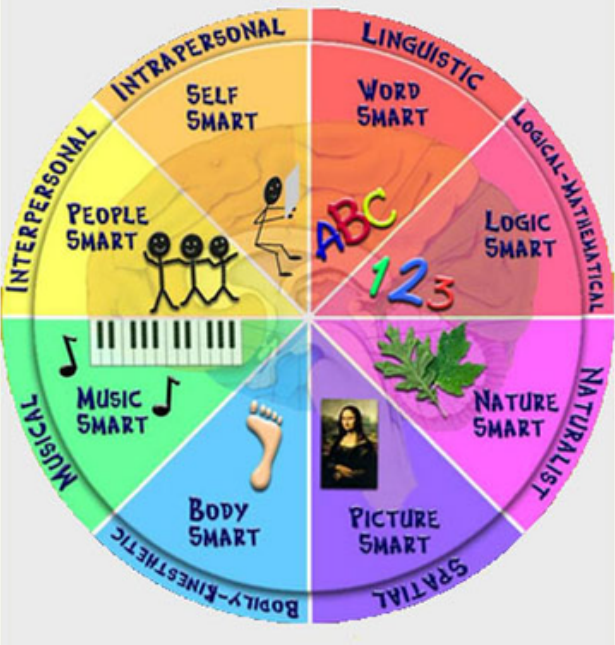

Multiple intelligences:

PEOPLE SMART:

I feel like I have people smart because I like making new friends and am really empathetic.

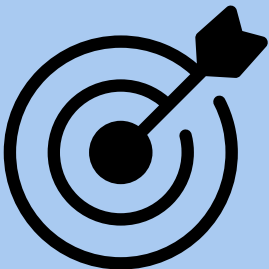

MUSIC SMART:

I am music smart because I play the viola, I do theater, enjoy singing and also in my school’s music/ performing arts programs (Orchestra,chorus and drama club)

GOALS:

- My short term self goal is to get all A’s for the year.
- My long term self goal is to be nice to people. Especially the people I really care about.

Effective Communicator Skills:

GROW

- Talking clearly
- Getting my words together
- thinking more before I speak

GLOW:

- Listen well
- Stay on topic
- Respectful with my words

How many days my birthday is into the year

EFFECTIVE COMMUNICATOR

A time I felt that I was an effective communicator was when I was presenting my Invention Convention project in 5th grade. The judges where walking around looking at everyone's projects and then they would stop at mine. They asked me many questions about my project. I would answer all the questions and also tell them how hard I worked, my inspiration, the tools I used and much more. Sometimes I would stumble over my words but I would stop take a quick breath and keep talking. I was excited in the moment. I was also nervous thinking about what the judges might be thinking. The challenge I faced was taking my time talking because I was so excited. I learned how to get myself back after I stumbled a bit.
