One time, I had a project and I had to present in front of the whole class. I only had a day to work on this project at home because it was an at home project but I was really busy over the weekends so when I finished the project and presented in front of the whole class, I was so scared. I showed them the project, then explained them how I did it and what I was supposed to do for the project, and I was done. After all I got an A! I was proud of my self.
