8

My lucky number!

How can you effectively communicate?

I am a effective communicator I am open to sharing and talking about my feelings thing I like a don't like. I also am an effective communicator when I share or speak to the class or teacher for help so I can understand what we are doing. I can effectively communicate when we are working in partners and when I'm talking to my partner, my partner is listening and when my partner is talking I'm listening.
