

Moundridge USD 423
COPPA Compliance Form
2026-2027

Dear Parents,

In order for USD 423 to continue to be able to provide your student with the most effective web-based tools and applications for learning, we need to abide by federal regulations that require a parental signature as outlined below.

USD 423 utilizes several computer software applications and web-based services, operated not by USD 423, but by third parties. These include Google Apps for Education, Lexia, and similar educational programs.

In order for our students to use these programs and services, certain personal identifying information, must be provided to the website operator. Under federal law, these websites must provide parental notification and obtain parental consent before collecting personal information from children under the age of 13.

The law permits schools to consent to the collection of personal information on behalf of all of its students, thereby eliminating the need for individual parental consent given directly to each web service.

This form will constitute consent for USD 423 to provide personal identifying information for your child to any of the web-based educational programs and services utilized by USD 423.

Please be advised that without receipt of this signed form, your enrollment package will not be considered complete as USD 423 will be unable to provide your student with the resources, teaching and curriculum necessary.

Revised July 2015
