## ANTICIPATED IMPACT ON FACILITY SCORES

### FCI

### EA

The investment at Jenkins directly impacts building infrastructure through roof projects, and site improvements through hardscape, landscaping, and sport field improvements, two factors driving the FCI score.

Additionally, entry improvements will increase scores in Safety and Security (76%) and Flexible Classrooms Creation will improve Extended Learning (34%).

These improvements address the interior and exterior infrastructure conditions that affect both student experience and long-term building performance.
