

Example Flexible Classroom

Midland Elementary

Level: ES · Service Area: West · April 2026

ANTICIPATED IMPACT ON FACILITY SCORES

Bond 2026 Allocation
\$1,000,000

The proposed scope targets Midland's two Highest Need systems: Building Infrastructure and Code/Security, the categories driving Midland's FCI score.

Bathroom renovations, the creation of a STEAM Lab through flexible classroom conversion, and new flooring directly impact EA performance in Extended Learning (9%), Community (46%), and Environmental Quality (67%).

These improvements address the interior infrastructure conditions that affect both student experience and long-term building performance.

PROJECT PRIORITIES

Bathroom Renovation	HIGH
Renovate the individual stalls and hand washing area.	
Flexible Classroom Creation	HIGH
Create a STEAM Lab.	
New Flooring	MEDIUM
Prioritize classrooms before corridors.	

District Priorities include HVAC projects, roof upgrades, and updates to fire and security systems.
