Increases in
+ Safety and Security
+ Extended Learning
+ Community

The proposed scope targets Buena Vista's two Highest Need systems: Building Infrastructure and Code/Security, the categories driving Buena Vista's FCI score.

A small addition directly addresses the school's utilization, easing pressure on core instructional spaces. Bathroom renovations address aging infrastructure conditions that impact both student experience and long-term building performance.

A new flexible classroom and the relocation of the main office directly impact EA performance in Safety and Security (58%) and Extended Learning (20%).
