This programme is open to children not enrolled at EIB de La Jonchère and offers them the opportunity to benefit from our expertise in English language education. Developed in collaboration with our English Department, it is designed to introduce young beginners (starting from age 5) to English or to support learners (level A1, from age 7) in strengthening their skills while nurturing their cultural curiosity. The approach is collaborative and interactive. Official Cambridge English Qualifications preparation materials will serve as the foundation for instruction. Cultural exchange with British pen pals (A1 level) will further enrich the learning experience.

LEARNING AND GROWING

From Kindergarten *(Grande Section)*

Through stories, music, crafts, games and sports activities, children discover and naturally acquire the structures used by children their own age in their native language.
