RESULTS OF VOTING AGE DEMOGRAPHICS

Voting by Age Group

Typically still have school aged children					Can go either way	Most likely no longer have school aged children			
18-19	20-29	30-39	40-49	50-59	60-69	70-79	80-89	90-99	Total
40	152	259	740	550	432	251	92	9	2525
Total Under 60y = 1741 (69% of total voters)					Total Over 60y = 784 (31% of total voters)				2525
60% of Total voters									1,515

RISK ANALYSIS - TOO MUCH OF A RISK TO END UP IN CONTINGENCY

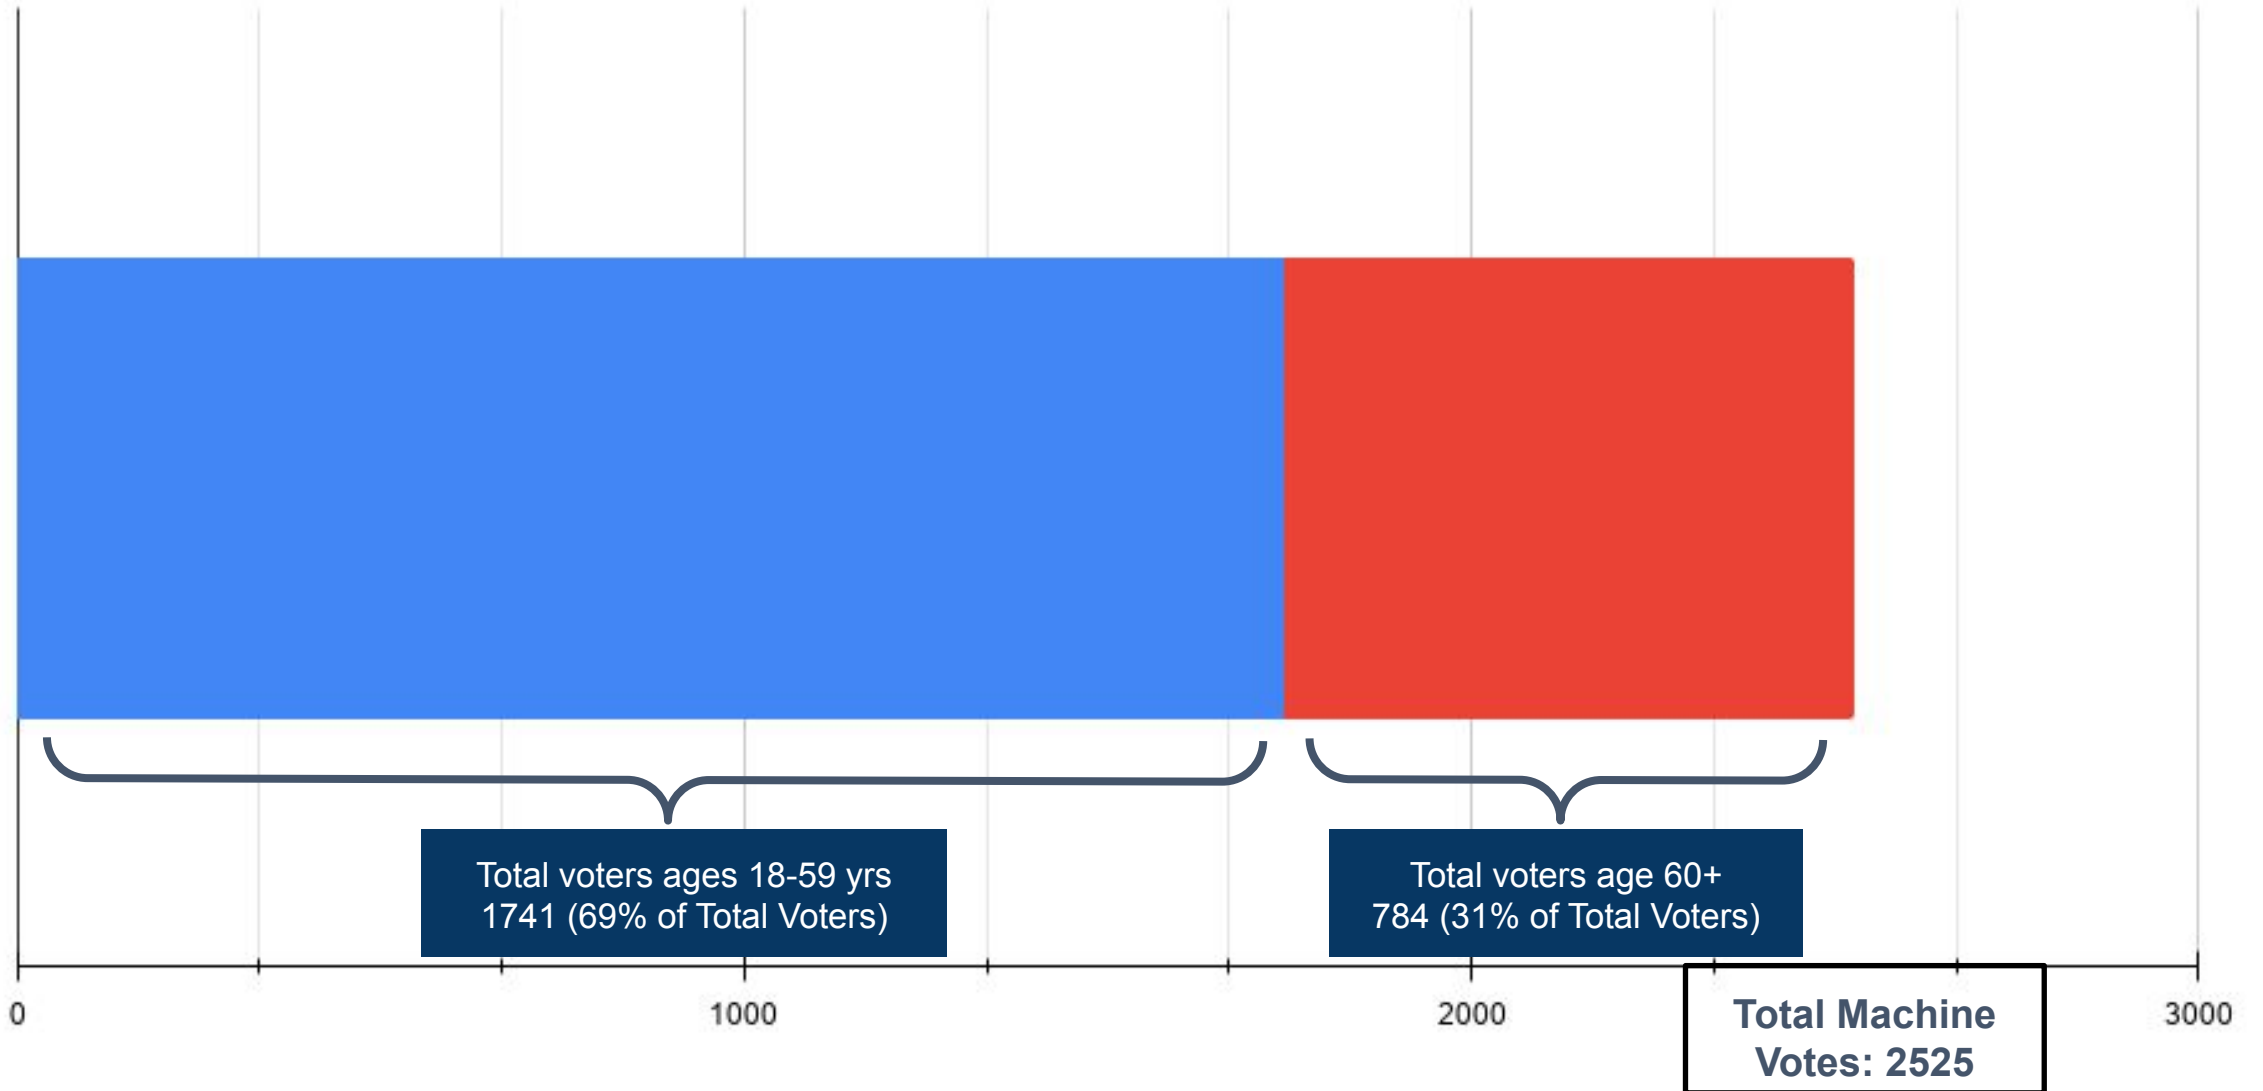

All the Reasons Why We Shouldn't Go to Another SuperMajority Position

- 226 more voters between 18-59 yrs than 60% of the total # of voters
- 1161 voters or 46% voted yes
- 1364 voters or 54% voted no
- **IF all (100%)** of voters over 60 yrs voted **NO**, an **additional 580 voters** **between 18-59 yrs also voted NO** to total 54% of the No vote.
- It is more likely that More than 580 voters between 18-59 yrs voted NO.
- We would need a minimum of **200 more votes** just to get to **50%**
- We would need a minimum of **354 more votes** just to get to **60%**

Will the District Attempt Another Supermajority Vote?

A Risk Analysis

Will we try for a second supermajority?

- A failing budget between 54-59% would've been a strong indicator that a second vote at a lower budget % would have a chance of passing with a supermajority of 60%.
- Because we only earned 46% Yes votes and **failed by 14%** there is **insufficient confidence** to take the risk of piercing the cap for a supermajority of 60% again.
- A contingency budget is DIRE. And the risk of being placed in a contingency budget must be taken pragmatically and seriously.
- **The goal now:** is to ensure we get a **minimum 50%**.

BUSING: ED LAW 3635

To explore all possible busing options, the following questions were explored to ensure we are within Education Law 3635 and the cost analysis of any potential savings for the district moving forward year over year.

1. Is EUFSO Required by law to provide transportation (busing) to students?

Yes EUFSO is required, pursuant to Education Law 3635 to transport students **depending on mileage limits.**

- For K-8 districts have to provide for more than 2 miles.
- For nine through twelve (9-12), it is more than 3 miles.

These limits may be modified by voter proposition to decrease the limits. EUFSO is not allowed to cut **all busing absent complying** with distance limitations of the statute.

2. If so, can EUFSO follow NYS guidelines as written?

Yes, this is possible with change impact to stakeholders. As long as students live within the mileage parameters outlined in Ed Law 3635 as adopted by the district via policy, then you do not have to provide transport to any students outside of those parameters.

3. If EUFSO has to provide transportation - how come districts like Bronxville and Pelham do not have to provide transportation?

The students who attend Bronxville and Pelham all live within Education Law 3635 mileage parameters. Their policy reflects mileage in accordance with State guidelines.

Current District Bus Policy

CURRENT 2025-2026 BUS & WALKING ENROLLMENT

School	Total Student Enrollment	Current 25-26 policy Mileage	Current 25-26 students that walk the current posted mileage	Current 25-26 students that receive busing because they live beyond the posted mileage
EHS	884	0.8 Miles	325	559
EMS	723	0.8 Miles	245	478
AH	435	0.4 Miles	89	346
GV	495	0.4 Miles	46	449
WV	428	0.25 Miles	16	412

Transportation Reduction Scenario to Consider

INCREASE THE
WALKING MILEAGE TO
THE MAXIMUM
ALLOWABLE BY STATE

- 2026/2027 Savings:
~\$2,280,208

The following Mileage Increase scenario will limit the severity of cuts and preserve our goals/student experience.

Requirements To Be Upheld

Please note the following before reviewing the following scenarios:

- Any changes we make to transportation policy/operations impacts ALL EUFSO schools and off district schools (Ursuline, Iona, etc.)
- **Special Education transportation as required by IEP must still be provided.** This means we must maintain buses, vans and specialty vehicle contracts as per IEP requirements.
- **Athletic transportation still needs to be provided.** We have combined JV and Varsity game buses. It would be VERY difficult to require families to provide after school athletic transport to games and contests.
- Of our current 18 bus fleet, if we were to look at eliminating ALL buses, we would still need a minimum of four (4) large yellow buses contracted based on the current enrollment of Waverly children (146 students) and EMS students (11 students) that live beyond the State's mileage requirements.

What are **you** investing in?

What does it mean to invest in the future of your school district? It means we hold on to the time and effort that was put in to grow our students' programs and opportunities over the years. It means we are responsive to how children learn today and the support they need to excel. It means we continue to innovate and push ourselves to think of the future...moving forward one step at a time to continue investing in what it took to get where we are today.
