Directions for signing into and logging reading on Beanstack

Step 1: Sign into Beanstack

Follow this link – https://ashschool.beanstack.com/reader365

Scroll down and click “Sign in w/ Google”

Choose your @ashrosary.org email address and allow access.

Step 2: Find the Summer Reading Challenge!

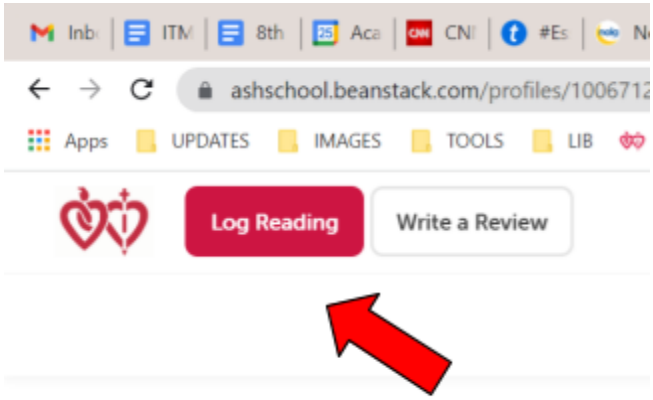

All students are automatically enrolled in the summer reading challenge. If you don't see it on your page, please email me to let me know!

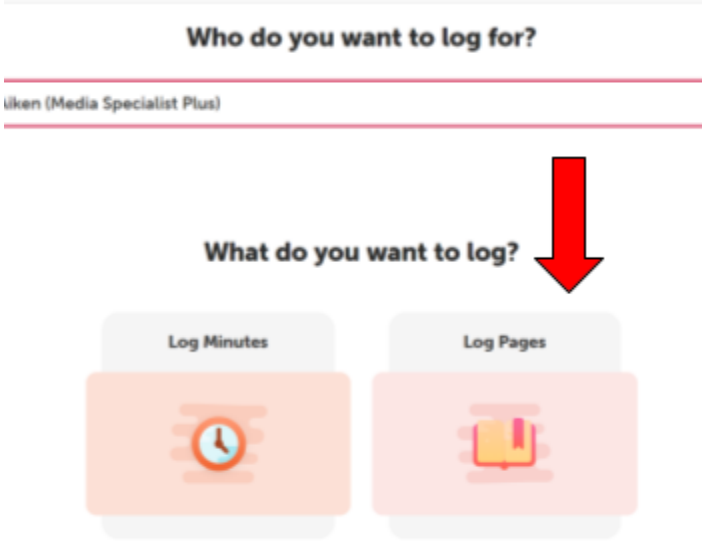

Step 3: Log your reading

Students can choose to either log their reading a few pages at a time or to log all of the pages of their book at one time when they finish. *Please choose only ONE way for logging your pages this summer.*

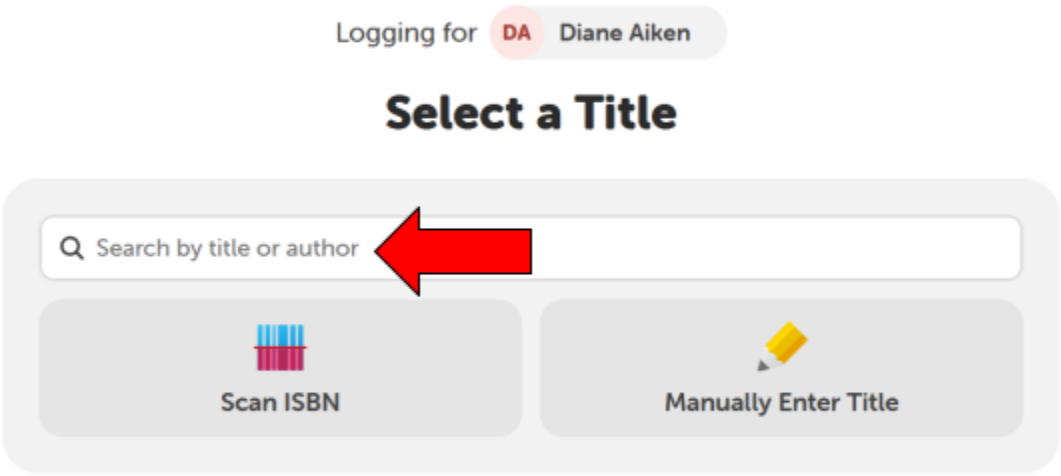

Click the red button that says "Log Reading" on the top left hand corner of your screen.

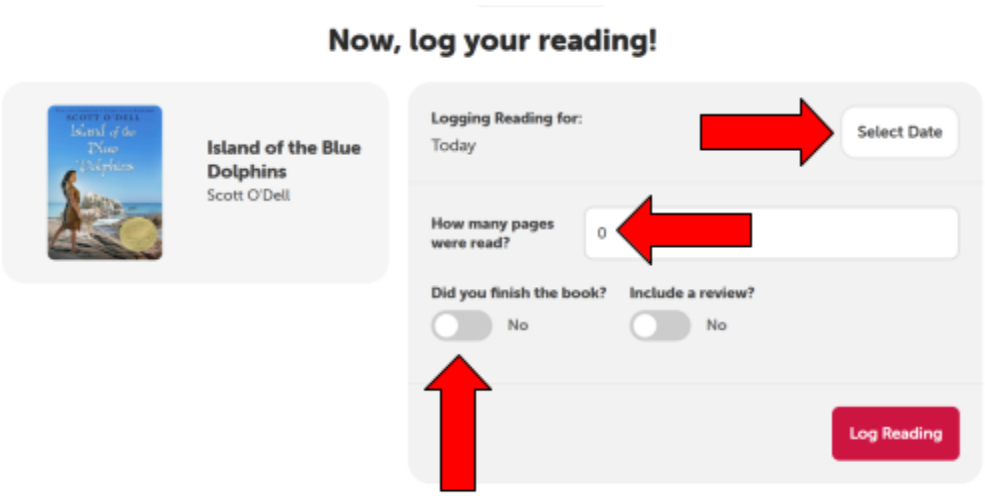

Make sure to choose "Pages" as your logging choice. (If pages is your only option, that's okay!)

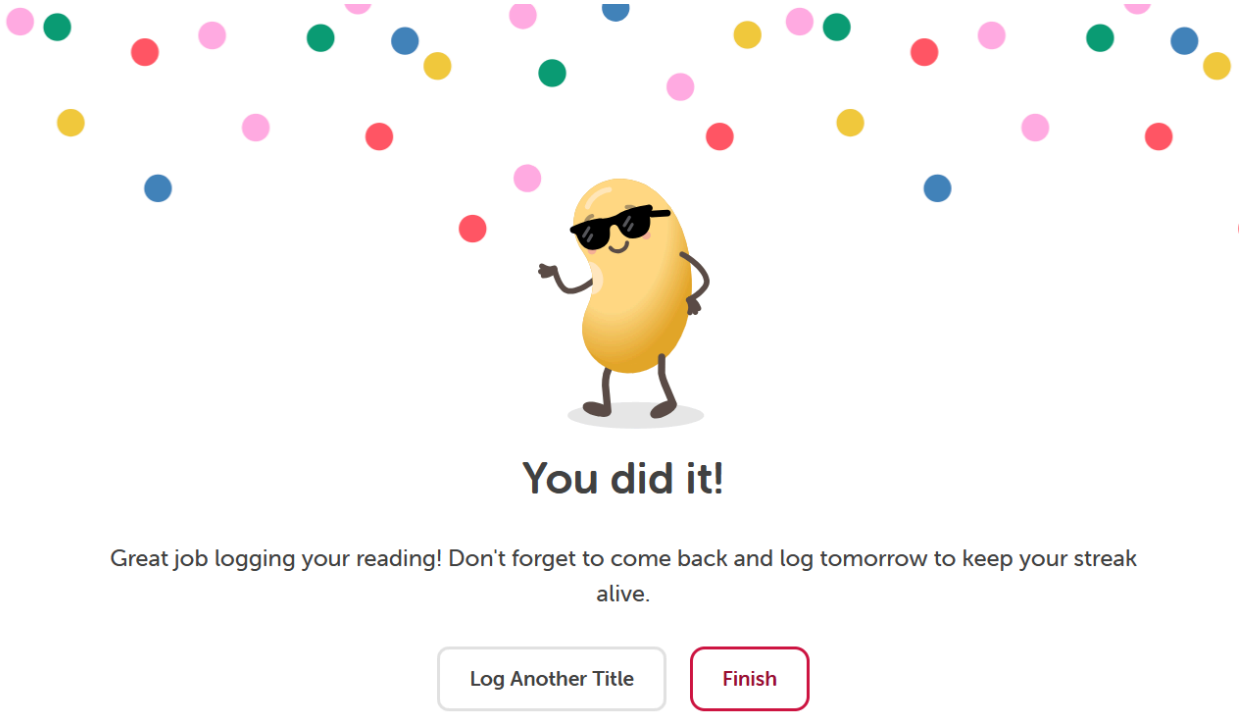

Type in the TITLE of the book you're logging. If you don't see it pop up as one of the suggested options, either hit "Scan ISBN" and scan the barcode on your book OR hit "Manually Enter Title" and add as much of the requested information as you can.

Hit "Select Date" and choose the day you're logging your reading for. It can be today's date or a date earlier in the summer. If you're logging all your pages at the end of a book, choose the last day you read the book as your date. It's okay if you don't remember the exact date, just estimate.

Now, enter in the number of pages you've read. If you've also finished the book, make sure you toggle the button to say "Yes" underneath the pages section. If you'd like, you may also toggle the button to "Yes" to include a quick review of your book, but it is NOT required.

That's it! Make sure to repeat these steps for EVERY book you read this summer.
