Columbia Heights School Board Policy 602

602 ORGANIZATION OF SCHOOL CALENDAR AND SCHOOL DAY

I. PURPOSE

The purpose of this policy is to provide for a timely determination of the school calendar and school day.

II. GENERAL STATEMENT OF POLICY

The school calendar and schedule of the school day are important to parents/guardians, students, employees, and the general public for advance, effective planning of the school year.

III. CALENDAR RESPONSIBILITY

- A. The school calendar shall be adopted annually by the school board, and will be developed pursuant to all provisions of Minnesota statutes pertaining to minimum number of school days, other provisions of law, and any relevant bargaining agreements. The school calendar shall establish days of student instruction, workshop days for staff, provide for emergency closings and other information related to students, staff and parents.

[Note: The annual school calendar must include at least 425 hours of instruction for a kindergarten student, 935 hours of instruction for a student in grades 1 through 6, and 1,020 hours of instruction for a student in grades 7 through 12, not including summer school. The school calendar for all-day kindergarten must include at least 850 hours of instruction for the school year. If a voluntary prekindergarten program is offered by the school district, a prekindergarten student must receive at least 350 hours of instruction for the school year. A school board's annual calendar must include at least 165 days of instruction for a student in grades 1 through 11 unless a four-day week schedule has been approved by the Commissioner of the Minnesota Department of Education under Minnesota Statutes section 124D.126. A school board's annual school calendar may include plans for up to five days of instruction provided through online instruction due to inclement weather. The inclement weather plans must be

developed according to Section V., below.]

[Note: To the extent the school board offers K-12 teachers the opportunity for more staff development training under Minnesota Statute, section 122A.40, Subds. 7 and 7a, or Minnesota Statutes section, 122A.41, subdivisions 4 and 4a, the school district shall adopt as its school calendar a total of 240 days of student instruction and staff development, of which the total number of staff development days equals the difference between the total number of days of student instruction and 240 days. The school board may schedule additional staff development days throughout the calendar year.]

- B. Except for learning programs during summer and flexible learning year programs, the School District will not commence an elementary or secondary school year before Labor Day, except as provided in Section III.B.1., III.B.2., or III.B.3. Days devoted to teachers' workshops may be held before Labor Day.
1. The school district may begin the school year on any day before Labor Day to accommodate a construction or remodeling project of \$400,000 or more affecting a school district school facility.
 2. The school district may begin the school year on any day before Labor Day if the school district has an agreement under Minnesota Statutes section 123A.30, 123A.32, or 123A.35 with a school district that qualifies under Section III.B.1.
 3. The school district may begin the school year on any day before Labor Day if the school district agrees to the same schedule with a school district in an adjoining state.

[NOTE: The 2025 Minnesota legislature enacted the following:

Notwithstanding Minnesota Statutes, section 120A.40, paragraph (a), or other law to the contrary, for the 2026-2027 and 2027-2028 school years only, a school board may vote to begin the school year on September 1 or later. Nothing in this section limits a district's authority to begin the school year on any day before Labor Day under section 120A.40, paragraph (b).]

- C. Employee and advisory groups shall be provided an opportunity to participate in the development of school calendar recommendations

IV. SCHOOL DAY RESPONSIBILITY

- A. The superintendent shall be responsible for developing a schedule for the school day, pursuant to requirements and provisions of Minnesota Statutes and Minnesota Department of Education Rules, and subject to review by the school board.
- B. In developing the school day schedule, the superintendent shall consider such factors as school bus schedules, cooperative programs, differences

in instructional hour requirements at various grade levels, effective utilization of facilities, cost effectiveness, and other concerns.

- C. Proposed changes in the student day schedule are subject to review and approval by the school board.

V. E-LEARNING DAYS-DUE TO INCLEMENT WEATHER

- A. An “e-learning day” is a school day where a school offers full access to online instruction provided by students’ individual teachers due to inclement weather.
- B. A school district may designate up to five e-learning days in one school year.
- C. An e-learning day is counted as a day of instruction and included in the hours of instruction pursuant to Section III.A., above.
- D. A school board may adopt an e-learning day plan after consulting with the exclusive representative of the teachers. The e-learning day plan developed by the school district will include accommodations for students without internet access at home and for digital device access for families without sufficient technology for the number of children in the household. The plan must also provide accessible options for students with disabilities.
- E. The school district must notify parents/guardians and students of its e-learning day plan at the beginning of each school year.
- F. When an e-learning day is declared by the school district, notice must be provided to parents/guardians and students at least two hours prior to the normal school start time that students will need to follow the e-learning day plan for that day.
- G. On an e-learning day, each student’s teacher must be accessible both online and by telephone during normal school hours to assist students and parents/guardians.
- H. When the school district declares an e-learning day, it must continue to pay the full wages for scheduled work hours and benefits of all school employees for the duration of the e-learning period. During the e-learning period, school employees must be allowed to work from home to the extent practicable, be assigned to work in an alternative location, or be retained on an on-call basis for any potential need.
