VALEDICTORIAN TULIP WRAY

By Ella Herran
Cub Reporter

With school ending and summer fast approaching, we must applaud our Seniors who are now beginning a new and exciting chapter of their lives, college.

Eighteen-year-old Tulip Wray is the proud Valedictorian for the 2026 graduating class.

Along with having the title of Valedictorian for the graduating class, Tulip is Co-President of SAGA, wrote a very interesting math paper and if you look hard enough, you'll see that she's in the Online Encyclopedia of Integer Sequences.

Tulip started off at Disney Elementary school, then Dolores Huerta Middle School and now is graduating here at JBHS.

For college she will be majoring in Social and Behavioral Sciences at Pasadena City College and then transfer to a UC to major in Sociology.

In the four years that Tulip has attended John Burroughs High School, she's taken a lot of classes and courses. Of everything that she's done, the classes she's loved the most were Mrs Arjoyan (English 9), Mr. Myers (Honors English 10), Ms. Carlton (AP Physics and Chemistry), Mr. Kuglen (AP Lang), Mr. Peebles (AP Calculus AB and BC), Mr. Hatch (AP AFAM and Psych) Ms. Hacker (AP Econ) and Ms. Permenter (AP Lit).

Tulip says that when it comes to role models, the people she admires the most are "Noelle Holiday" (Deltarune), "Z" (Psycholonials), "Terezi Pyrope," "Tavros Nitram", "ALT", "Calliope" (Homestruck), "Virginia" (Monument Mythos), "Heart" (CCCC), "Pathos" (Fallen London), "El" (Stranger Things), "Alastor" (Hazbin Hotel), "Little Orphan Annie", Norman Rockwell, and to wrap up the list, Tulip's friend, Sarah DeBarros, who is a Junior here at JBHS.

SALUTATORIAN AMY HARKINS

By Zoey Pickens
Cub Reporter

Congratulations to eighteen-year-old Amy Harkins for becoming the Class of 2026's Salutatorian! Achieving the feat takes hard work and dedication, which Harkins actively put forth into her high school career.

As of currently, Amy is involved in a rigorous schedule. She's enrolled in AP Calculus BC, AP Government, AP Biology, AP Chemistry, and AP Literature; she takes AP Physics II online. Clearly, it's obvious as to why she's renowned in the spheres of science and math. Additionally, she also holds the Scholar Athlete Award for all eight semesters of high school. Hence, the role of Salutatorian became a no-brainer.

"I have always been quite the perfectionist, but when I became a Freshman I heard that high school was really hard, so I prepared myself to not be disappointed if I got some Bs or Cs. However, after my Freshman year, it still hadn't happened, and I started to really believe in myself—that I could continue my academic record and get all As throughout high school. At the time, I didn't know much about class ranks. When my sister graduated from high school, Nana Bhambi did the Salutatorian speech, and I really loved it. I thought it would be cool for me to give a speech like that at my graduation," she commented.

However, with grades that only improved, Amy began to truly challenge herself. She continued, adding that "After my first semester of Junior year, my class rank moved from 3rd to 2nd, and I knew that I could keep it that way. This year I only wanted to take 5 APs, but I ended up having to add 2 to take 7 so I could remain in 2nd place." As a result, her efforts were rewarded: "Though I was scared at first, I'm actually so happy that the class rank system motivated me to challenge myself and take those two other classes that I otherwise wouldn't have signed up for!" Her dream of speaking at graduation has evolved into a reality, one that she's overjoyed by.

But there's more to Amy than just a title. As an individual, she participates in Irish dance, Girl Scouts, the Fellowship of Christian Athletes, and Cross Country and Track and Field at JBHS. Irish dance has long been a passion of hers, and it even drove her to enroll in athletics. Amy explained, noting that "When I got to high school, I wanted to find a sport that would help me become a better dancer, so I chose Cross Country and Track, because they help with endurance and overall athleticism. Once I started running Cross Country, I immediately fell in love, especially because there are opportunities to challenge yourself as an individual and as a team." In Cross Country, Amy won the Second Team all League award for the 2024 season.

Plus, she spends her free time knitting, sewing, and crocheting. "They're mainly just things I do to keep my hands busy and take my mind off of school and sports for a while. I think everyone needs to have something they can do where there's no pressure or competition, just to have a bit of a break sometimes," she remarked.

The award-winning athlete also possesses a job at Mathnasium, where she's tutored since Sophomore year. Working as a math tutor helped solidify her enthusiasm for math as a field of study.

Nevertheless, leaving JBHS can come as a bittersweet feat. For Amy, her favorite memories were running in the CIF finals with the Cross Country Varsity team, and being able to take AP Chemistry with her best friends.

Moving forward, she longs to become a math professor, a marathon runner, and a mother. And, as a first step in her journey, Amy plans to attend Harvey Mudd College! "I just want to do what I love!" she beamed.

Thus, congratulations again to Amy Harkins for her well-deserved achievement.The future awaits, and JBHS can only be proud to honor such a positive light in the community. Happy graduation to the Salutatorian!

SPRING ROUNDUP

Swim had an amazing season, ending with a 1st Place Championship at CIF in the Varsity 4x50 Yard Freestyle Relay, with the team of Roy Yuzna, Matthew Rodriguez, Lincoln Morrow, and Jack St. Pierre.

Many students participated in Skills USA this season, including the above pictured (photo credit - special thanks to Ian Campbell), in competitions such as Commercial Drone, Urban Search and Rescue, Robotics, and Culinary competitions.

You don't have to love everyone... but everyone has a right to be on this planet."

The JBHS Drama Department won Jerry Herman Awards in Best Musical Staging or Choreography and Best Supporting Actor went to Jasper Jemison as Dennis in *All Shook Up.* Congratulations*!*

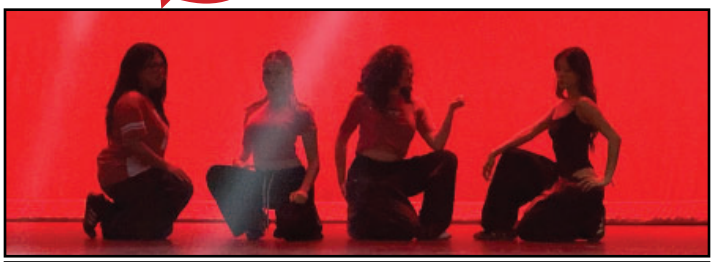

Track and Field has been having a great season so far, and it's not over yet! Athletes are still competing in CIF as of the time of publication. In their Pacific League Finals, many athletes placed in the top 3, including Zoe Ben-Yair (3rd in the 100, 200 and 1st in the 100 Hurdles), Saida Getz (2nd in the 800 and 1st in the 1600), Elisha Hill (3rd in the 800), Cayenne Magdlen (2nd in the Pole Vault), Dana Pitsker (3rd in the High Jump), Elizabeth Browngardt (2nd in the Triple Jump), Seven Elkin (3rd in the 100), Ethan Rivas (2nd in the 200), Avery Koenig (2nd in the 400), Liam Ellingsworth (3rd in the 3200), and Seven Elkin (3rd in the Long Jump). On April 29th, Dual Immersion Disney Students came to Burroughs on a field trip to visit our AP Literature Spanish Classes as part of an ongoing pen pal program.

PROM

By Alana Gay
Opinion Editor

As the school year begins to wind down and graduation inches closer for Seniors, students gathered on Saturday, May 2 for one of the most anticipated nights of the year, Prom!

Held from 7PM to 11PM at the Natural History Museum, the evening brought together music, fashion, friendship, and memories in a venue unlike any other.

Long before students stepped onto the dance floor, the excitement had already begun. Throughout the afternoon and early evening, groups of friends and couples met at Johnny Carson Park and Brand Park to take photos before heading to the venue. Dresses flowed across grassy hills, bouquets matched carefully planned outfits, and camera flashes filled the parks as students captured moments they had been looking forward to for months.

From sequins and satin gowns to classic tuxedos and colorful suits, students fully embraced the glamour of Prom night. Many attendees incorporated unique colors, textures, and designs into their looks, helping bring the night's theme to life while showcasing their own personal styles.

Once inside the venue, students were welcomed into an atmosphere that felt both elegant and exciting. One of the most talked-about features of the night was the museum itself. Unlike a traditional ballroom setting, Prom attendees were able to walk through exhibits throughout the evening, giving the event a unique energy. Students could explore displays, admire the exhibits, and even pose for pictures near the museum's famous dinosaur fossils, creating a memorable backdrop that made this Prom stand out from years past.

Another favorite spot throughout the evening was the museum's rose garden, where students gathered before the dance to take photos with friends and dates. With warm weather, glowing lights, and flowers surrounding the area, the garden quickly became one of the most popular places to capture memories from the night.

The venue also offered plenty of activities outside of dancing. A game area with a pool table gave students a place to relax and socialize, while the photobooth stayed busy throughout the night as groups squeezed together for funny pictures and keepsakes. Tables were arranged throughout the venue, allowing students to sit, eat, and talk comfortably without taking away from the lively atmosphere surrounding the dance floor.

Dinner and desserts kept students fueled throughout the evening, with food options including penne pasta, rice, chicken, cookies, lemonade, and water.

While students spent much of the night dancing and taking pictures, many also gathered around tables to catch up with friends, laugh about the school year, and enjoy the final weeks of senior celebrations together.

The dance floor itself remained packed for most of the night thanks to an energetic DJ who played a mix of current hits, throwbacks, and crowd favorites. From singing along with friends to jumping in circles during popular songs, students kept the energy high from the beginning of the night until the final song played.

For many upperclassmen, prom represented more than just a dance. It served as one of the final opportunities to come together as a class before graduation and summer plans pull everyone in different directions. With its unique venue, exciting atmosphere, and memorable moments shared between classmates, this year's Prom became a night that students are unlikely to forget anytime soon.

PROM COURT KING SKYY ALSTON

By Lilian Peña
Cub Reporter

In an evening defined by elegance and celebration, Senior Skyy Alston was named Prom King on May 2nd, 2026, adding a royal title to an already distinguished high school career.

Alston, accompanied by his date Hailey Hoang, arrived in a sophisticated gray double breasted paired with a pink tie and polished black oxfords.

The nomination was surprising for Alston, who was absent from school due to illness on the day nominations were released.

"I was sick the day it happened, but a couple of friends sent me the news, and I saw the nomination on peoples stories. I was very excited."

Known for his dominance on the volleyball court. Alston has been a pillar of the Varsity team for three years. His commitment to the sport extends year round through his participation in both beach and club volleyball.

Alston is also widely recognized as a top tier scholar, maintaining a schedule of AP courses.

In his free time he enjoys playing video games, his favorite being Marvel Rivals.

The win serves as one of the final milestones in Alston's high school chapter before he heads to UCLA. Having already secured admission into the university's chemistry program, Alston intends to try out for the volleyball team there. Hoang was also accepted into UCLA´s Human Biology program.

As the school year winds down, Alston's legacy as a scholar athlete remains firmly intact, next to a crown and a night to remember.

QUEEN RAQUEL BROGMUS

By Sophia Menjivar
Cub Reporter

This year on Prom Court, we have the very special Raquel Brogmus, a Senior at John Burroughs High School.

Raquel is most known for her Choir and Drama roles, such as being in Powerhouse, starring as Satine in Powerhouse's "Moulin Rouge!" during Burroughs on Broadway, and starring in many Drama productions like *Everybody* and *All Shook Up*.

Raquel's plans to continue performing in whichever way possible. She says, "Sometime in my future I hope to be at the Oscars."

She hopes to do more projects alongside her sister, to continue to advocate for change, and pursue a higher education. She also says, "Also I should definitely get a job."

Raquel's favorite class is AP Literature, she says, "I love to act and write so AP Literature is sort of the best of both worlds in the way Ms. Permenter teaches." Although she has struggled with her grades over the past year she says she really loves all her classes.

When Raquel has free time it is usually spent with her family going to see whatever is new in theaters, but other times she's spending time with her four dogs and either writing music or poetry.

She went with one of her best friends, Charlie Redmond. She says, "He is the best friend to take to Prom. We had so much fun! He is absolutely hilarious and knows how to have a good time."

He had told her family to pretend they were taking family photos so she could be dressed up and he had a sign saying " Can-Can you be my diamond at Prom?" She thought it was so sweet because he had referenced *Moulin Rouge*, which they were both in.

Raquel's goals for the end of her Senior year is to end the year strong and she says, "I honestly hope to feel secure in where I'm heading."

Raquel said she was really surprised and shocked that she got nominated, but also honored that people thought of her.

Raquel didn't really know what to wear to the Prom until the day of but she says, "I'm not sure what I'm wearing quite yet, It will most likely be blue." She also said she would be wearing her grandmother's jewelry and a homemade corsage.

Afterwards they went to a friend's house in a party bus, just hanging out and playing board games.

Raquel says, "Prom is so fun. And to be honored and just the thought of such kindness makes me feel so loved. Thank you for making an unforgettable night even more so. I am genuinely so grateful for every person who has graced my life with their presence. Thank you for a wonderful end to a wonderful high school experience. Class of 2026, we got this."

Congratulations to Raquel and everyone else who got nominated on Prom Court! We hope everyone had an amazing night at Prom.

PROM COURT PRINCE ZACKARY GUEVARA

By Koda Dominguez
Cub Reporter

On Saturday, May 2nd, John Burroughs High School hosted Prom at the Natural History Museum of LA and it was a night to remember.

A big congratulations to Zackary Guevara on being crowned this year's Prom Prince!

Zack attended with his date, Natalie Montes, keeping his look simple with a classic suit. He paired it with a gold tie to match her champagne-colored dress and finished it off with a corsage for a clean, coordinated style.

When asked about the nomination, Zack said it "felt pretty cool", adding that he had gotten a small heads up beforehand through a friend in ASB, but it was still exciting when he found out he had been nominated.

Looking back on the night, Zack said, "Yeah. I'll say Prom is definitely one of my favorite Senior memories. I went to Prom Sophomore year, but it felt more special this time because it was my Senior year, my Senior Prom."

To get there, Zack and a group of friends all rode together on a party bus, making the ride part of the fun before the night even started.

When it came to asking Natalie to Prom, Zack got creative, designing a superhero themed poster inspired by Spider-man and Doctor Doom, typing it into the excitement around the new *Avengers* movie.

After Prom, the celebration kept going with an after party where everyone continued hanging out and enjoying the night.

Known around campus for baseball, Zack said it's been a big part of his High School experience, sharing that it's, "kind of what I built my social circle around," with many of his friends coming from the team and something he stayed committed to all four years.

Academically, Zack shared that he's always enjoyed his English classes the most, saying the books they read kept things interesting. He added that one of his favorite teachers over the years was his freshman English teacher, Mrs. Weiner, though he noted he's had several great teachers throughout high school, and overall considers English his favorite subject.

Outside of school, Zack said most of his time is spent at practice, which can run up to four hours a day. When he does have free time, he keeps it lowkey, playing Xbox, working out, and just relaxing.

Looking ahead, Zack said his primary goal is to win a championship with his baseball team, which he described as a shared objective among teammates. He also noted that he hopes to secure additional financial aid for college, as he will be attending Sacramento State, and spend as much time as possible with friends before graduation.

As a final note, he gave a shout out to Jack Smith and Natalie Montes.

Noël Mason, the beloved president of Burroughs' Vocal Music Association and member of Play Production, was one of the Prom Princesses this year, much to her surprise! Though she was out-of-town for choir when the initial nomination came out, Noël had no expectation to be included on that list and was even more stunned to win a spot on the Prom court.

Noël was incredibly excited to go to Prom and had extensive plans with her friend group. First, they all got ready together. After getting all dressed up, they took photos together at Johnny Carson Park and drove together to the dance in a big car that they rented together. Then, after the dance itself, they all went to In-N-Out together for dinner.

For her dress, Noël went with a beautiful backless halter gown in dark red. Noël also wore gold jewelry and shoes for accessories and for hair had a gorgeous updo with a few strands framing her face.

After high school Noël is planning on attending Berklee College of Music. Though she was accepted as a Songwriting major, Noël is hoping to study Music Production or Music Industry there. Before attending Berklee's Boston campus, for her first year, Noël is going abroad to Spain through the college's study abroad program.

The Paw Print wishes Noël many congratulations for her spot on the Prom Court and bright future ahead of her!

Congratulations to Alex Haddon for making it on Prom Court!

On the night of prom, Alex showed up in a black and red tux, accommodated by his friend Charlie partying the night away in their party bus.

Alex asked Charlie with a poster, decorated with a pink moon from both of their favorite albums 'Pink Moon' by Nick Drake. Alex didn't expect to get on Court, he felt very surprised and also confused for a while, while his friend was saying how they can't wait for Alex to see the poster. After Prom Alex and Charlie went to a Prom after party with a bunch of their friends.

Academically, Alex is pretty successful, having an average of all A's and a B. His favorite class is Film.

Alex plans on going to the University of Oregon, majoring in cinema studies. One of Alex's favorite teachers is his American Sign Language teacher, Mrs. Rincon, because she's an easy and understandable teacher and makes learning ASL fun.

Some things Alex enjoys doing in his free time is making music and chilling with his friends. He currently works at his music school, Burbank Music Academy. Alex is most known for his British accent and his band, After Saturday. Some of his goals for his Senior year are just to have fun and live in the moment.

Alex is super excited for the upcoming graduation night. Some of Alex's biggest inspirations are his friends and family.

PRINCESS NATALIE MONTES

By Hailie Alvarez
Creative Director

On Prom Court this year is Natalie Montes, a Senior at John Burroughs High School whose warmth and positive energy have made her a familiar and appreciated presence on campus.

For Prom, Natalie attended with her date, Zackary Guevara. The two arrived together on a party bus alongside friends, something Natalie was especially excited about as it added to the overall experience. Reflecting on the experience, she shared that going to Prom with Zackary made everything feel even more special, and that she truly enjoyed every moment of it.

Natalie's look for the night reflects her love for all things glam. She chose a gold sparkly strapless dress that she found in Downtown Los Angeles, a piece that perfectly matches the celebratory feel of Prom. It's clear that, for Natalie, Prom isn't just about the event itself, it's about the full experience, from getting ready to capturing memories that will last long after the night ends.

After Prom, Natalie kept the celebration going by attending an event with friends, describing it as a fun and lively way to close out such a big night.

Being nominated for Prom Court was something Natalie never expected. She described the moment as shocking, but also incredibly exciting and meaningful. It's something she's actually dreamed about since she was younger, inspired by the kinds of scenes she would see in movies and TV shows. "I would always watch and think, 'Oh my gosh, I want to be that,'" she shared. Even with that dream in the back of her mind, the reality of being nominated still caught her off guard. When asked about winning, Natalie explained that she wouldn't have expected it but would simply feel grateful for the people who supported her along the way.

Known for being friendly and approachable, Natalie believes that if there's one thing people recognize her for, it's her kindness. She values being someone others feel comfortable around, and that shows through her involvement on campus. She is a member of the Dance team, where she channels both her energy and passion, and she also serves as a College Peer Mentor. In that role, she has stepped into a leadership position, helping guide and support other students as they plan for their futures. Her involvement reflects a balance of creativity, leadership, and genuine care for others.

Academically, Natalie pushes herself by taking AP classes, embracing the challenge even when it isn't easy.

Outside of school, Natalie enjoys spending time doing things that allow her to relax and express herself. She loves doing her own nails, a hobby that lets her be creative and detail-oriented.

As graduation approaches, Natalie's goals are centered around appreciating the present. Rather than rushing ahead, she wants to fully take in these final weeks of high school, spending time with friends, making memories, and enjoying the moments that won't come again. It's a mindset that reflects both maturity and gratitude, recognizing how meaningful this chapter of life really is.

Looking toward the future, Natalie is considering attending San Francisco State University or starting at a community college, as she continues to explore the best path for herself. No matter where she begins, she plans to study business, a field that aligns with her interests and goals. She's keeping her options open, allowing herself the space to grow and make the decision that feels right.

Above all, Natalie credits her mom as her biggest inspiration. She looks up to her for guidance, strength, and motivation, and it's clear that this relationship plays a big role in shaping her outlook on life and her ambitions moving forward.

Natalie Montes represents the kind of student who makes a lasting impact not through one single achievement, but through her consistent kindness, involvement, and genuine spirit. Whether she's dancing, mentoring, or simply spending time with friends, she brings a sense of positivity to those around her. It's exciting to see someone like Natalie on Prom Court this year. Congratulations to Natalie Montes and to all of the nominees who made this year's Prom so memorable.

PROM COURT PRINCE JACKSON PALMER

By Emma Friedman
Cub Reporter

Prom has come yet again for JBHS students. It's one of the biggest moments in high school for many and holds a special place in many hearts. This year, Jackson Palmer, Court Prince, will be remembering this special dance forever just like many others have.

When Jackson found out he was nominated, he felt super excited. Then when he realized his girlfriend and Prom date, Julieta Caloca Escalante, got nominated for Prom Court, "I felt super happy that my girlfriend and I got nominated together," says Jackson. Now that he's won Prom Prince, he feels extremely fortunate with getting the chance to be a part of this year's Prom Court.

Jackson arrived at Prom in a black suit with an oasis colored tie to match Julieta's dress and a white boutonniere. He describes the color oasis as, "It's like a dark turquoise shade." He got there in a party bus with his friends and with Julieta.

He asked Julieta out to Prom on a picnic date at a park where he had a brownie that had the words "Prom?" spelled on it where she said yes. Afterwards, they both spent the rest of the day together doing things they both loved.

Jackson is currently eighteen years old and is most commonly known for being on JBHS' Varsity Soccer Team, having played Soccer all four years. He also is a coach for a soccer team for younger kids every weekend.

Jackson's biggest inspiration is his mom. He says, "She's always pushing me to do my best." She has made a great impact on Jackson's life and is who he strives to be like everyday.

His main goal is to graduate with good grades and to hang out with his friends as much as possible before summer break where he'll then head off to college.

Jackson has very good grades so there's no doubt he'll achieve his goal of graduating with good grades. In fact, he's currently in the top 50 for grade point average in the whole Senior class.

When Jackson graduates, he is planning on going to Santa Clara College located in Santa Clara, California. He wants to major in Civil Engineering, specifically Structural Engineering.

In his free time, he likes to do a variety of different things, like playing soccer, working out in the gym, swimming, hanging out with either friends, or going on dates with Julieta.

Out of all Jackson teachers he's had at JBHS, his favorite teacher is Mr. Everhart.

Jackson is very thrilled to get to be on Prom Court this year as Prince and to have this memory to look back on for many years to come.

PRINCESS ZOEY GOULD

By Aniana Ad Vincula

Congratulations to Zoey Gould for making it on this year's Prom Court!

This year she wore a green ruched dress with a mermaid cut from Newly and went with her boyfriend, Wyatt Howe. To get to Prom, she and her friends rented a party bus.

When asked about getting nominated, she said, "I wasn't actually at school, I was on a flight. I got a bunch of texts from my friends sending me photos of the results and I was very shocked!"

At school, she's most known for participating in Varsity Tennis, Junior State of America Executive Court, and her club, Indoor Gardening Club. She is also involved in Portraits of Kindness and CSF.

Gould is quite academic, holding a strong GPA and participating in many extracurriculars and academic classes. Gould says, "The most difficult thing about school is balancing procrastination. In the past years I've had a really bad issue with putting off work, but Senior and Junior year really taught me to have a better work ethic." Gould adds, "I've developed a lot of great relationships with teachers and a strong circle of friends who were also academically committed, which made for an environment that really supported academics."

Outside of school, she hangs out with friends, goes to random events, and visits the beach semi-often. Gould is also an avid reader and gardener.

Sometimes, she works as a babysitter and math tutor. Her goals for the year are to get her driver's license before summer (good luck Zoey!).

Her inspirations include Ms. Permenter and her older sisters. "My goals are just to emulate their intelligence and their general career."

After high school, Gould is heading to UC San Diego to study Psychology and English!

Congratulations Zoey for making Prom Court!

PROM COURT PRINCE RYAN WALSH

By Ethan Salcedo
Cub Photographer

This year's Prom was full of memorable moments, and nominee Ryan Walsh definitely added to the night's energy. Showing up in a clean blue tuxedo paired with a pink tie, Walsh kept his look sharp but fun. He completed the outfit with sunglasses and a watch, adding a bit of personality to the formal vibe. Matching accessories with his date, including a corsage and boutonniere, tied everything together.

Walsh attended Prom with his girlfriend, Elisabeth Hoffman, and the two shared what he described as a "very fun" night. Their Prom story actually started before the dance, when Walsh asked Hoffman in a creative way—showing up to her workplace with the help of puppies.

From there, the night only got better, as the couple arrived in style on a party bus with a large group of friends. After Prom, Walsh kept the celebration going, ending the night at Elliott's party, where he said he had a great time. Reflecting on his nomination, Walsh admitted he felt honored and surprised, not expecting the recognition at all.

Known around campus as both a dedicated baseball player and someone who enjoys spending time with friends, Walsh balances athletics with academics. He currently holds a 4.6 GPA while taking four AP classes, showing strong commitment in the classroom.

When it comes to favorite teachers, he gave a shout-out to Mrs. Clark and Ms. Hacker for making an impact on his high school experience.

Outside of school, Walsh spends most of his time playing baseball or hanging out with friends, and he even works at the John Burroughs baseball field.

Looking ahead, he plans to attend Syracuse University, where he will major in sports management with hopes of one day working for a professional sports franchise.

As Senior year comes to a close, Walsh's main goal is simple: enjoy the time he has left and make the most of it with the people around him. Inspired by his family—especially his parents—and his close friends, Walsh continues to push himself both on and off the field. From a standout Prom night to big plans for the future, Ryan Walsh is making the most of his final year.

PRINCESS GIOVANNA MARTINEZ

By Haven Dunn

Among this year's Prom Court winners is Giovanna Martinez, a Senior at John Burroughs High School. She attended Prom with her boyfriend Dominic Saraceno, who Promposed with an adorable Chick-fil-A themed ask.

Giovanna, best known as Gio, is widely recognized around campus for her lively personality. Many friends and classmates have described her as energetic and incredibly humorous.

Despite her well known charisma Gio expressed that even being nominated was a huge surprise, saying "It was just really surprising and I didn't expect it." Ultimately being selected as a winner made the experience even more meaningful, turning what began as a surprise into a truly unforgettable moment.

Throughout her time at Burroughs she participated in a wide range of extracurricular activities. This year she joined the first Varsity Girl's Flag football team at Burroughs. She described the experience as both exciting and rewarding. She also played on the Varsity Girls Water Polo team this year, saying that her season was great.

Academically she said her current favorite subject was French with Ms. Oliver, saying "she teaches the class in a very nice way, you know?" She mentioned how much she loved her 3rd period Musical Theater class with Ms. Meberg, saying that Ms. Meberg was "an amazing teacher who teaches her students a lot.

She reflected on past classes as well, specifically thanking Mr. Mesquita for all he taught her in English class.

Outside of school, Martinez balances her schedule with a part-time job at Zankou Chicken, where she enjoys working alongside her coworkers and interacting with customers. She loves the friendships she has formed there and appreciates the work environment.

When she isn't at school or work, Martinez spends her free time with friends and family, often going out to eat or relax together. They love to go get food together, Korean Barbecue and Starbucks have been their favorite recently. She also added that getting ice cream with those she cares about is one of her favorite activities.

Gio also credits much of her success and motivation to her family. She spoke especially highly of her mother, whom she considers a major source of inspiration and a strong role model. She also acknowledged her younger sister as an important influence in her life, offering support and encouragement along the way.

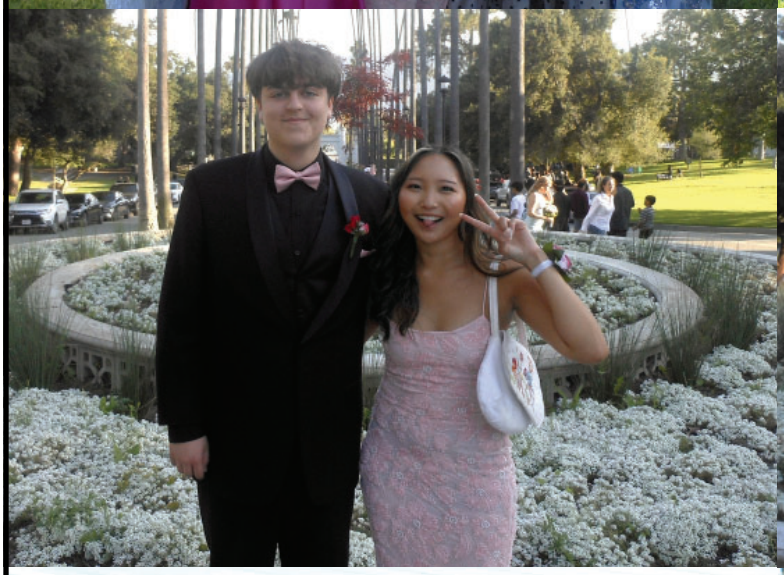

To start Senior year, Gio really only had one goal, make her "final year as fun as possible." And as her fourth and final year at Burroughs has been coming to an end she reflected and shared that she really believes she made that possible this year.

Giovanna's Prom Court win was truly a magical experience for her and something she'll never forget! Congrats Giovanna!

Sadly halfway through the race I couldn't keep up with him. I kept babbling back as I saw the clock and I was overjoyed! I was on race to PR! Even though my competitor who I later found out was named Edgar, had beat me by a second, I PR'd by 4 seconds! DANCE

Dance Team

Hailie Alvarez - My favorite memory with Dance Team was at the end of Hip Hop Explosion my Senior year when we all walked off screaming and crying and hugging each other. We all got in a circle and our coaches were telling us how proud they were and it really connected us as a family.

Jocelyn Anglade - One of my favorite memories every year is Nationals. The energy backstage before going on is a mixture of nerves and excitement, but the moment we get on the floor everything just clicks. I remember looking down the line and seeing all my teammates faces so determined, knowing how many hours of practice, sweat, and small setbacks we all had to push through together as a team. At the end, hearing the crowd, it was never only about the performance but about the bond we had built. That moment reminded me why I truly love dance. It's the connection and passion behind it all :)

Christy Basmadjyan - My favorite memory from Dance Team this year was when we performed at our first competition and the relief we all had right after. We were tired, sweaty and glad we finally did it.

Frankie Cistone - My favorite memory on Dance Team was at our Glendale Games competition. During awards, I was dancing in the middle of our circle in the blazing hot gym with a burger costume on and as much as I hated the temperature, I was having so much fun. Just being around my team and dancing with the people I now see as family is such a joy and a privilege to have. Shoutout to my twin Thirdy with the hotdog costume.

Alyah De La Torre Flores - My favorite memory will always be the mutual feeling the team shared as a whole of getting off the floor seconds after competing. The strong feelings of relief, fulfillment, and pure happiness will forever be in my heart.

Jada Graham - My favorite Dance team memory is team dinner for Nationals last year at CPK.

Ellie Guererro - Having classes with my friends. Being in the same class made school more enjoyable because we could experience everything together. It was nice having my friends there made even difficult classes feel less stressful. Those classes became some of the best memories I had in school.

Chase King - The friends I made and the good grades I worked hard for. I met people who always made me laugh and helped make school more fun every day. I was also proud of getting good grades because it showed that all my hard work paid off. Seeing my grades improve made me feel more confident and motivated to keep trying my best.

Andrea Perez - Working on group projects where everyone had a role and we all helped each other finish the assignment. It was fun coming together, sharing ideas and figuring things out as a team. Even when it was stressful we still managed to laugh and make it a good experience.

Ethan Salamoff - Hanging out with my friends at lunch every day. Lunch was one of the best parts of the day because it gave us time to relax and enjoy being around each other. Those moments made school feel more exciting and made memories.

Robert Schackne - Waking up at 5AM just to get to school before anyone. My alarm would go off while it was still dark outside and I would feel super tired getting out of bed. The house would be quiet because everyone else was still asleep. Getting there before everyone was the best and getting to feel the nice morning breeze. Being the few people there first was the best

Nicholas Shi - Being able to have the high school experience and a good school year with my friends.

Jazzy Woods - Spending time with my friends. They make every day more fun and memorable.

ACTIVITIES MEMORIES JOURNALISM

Aniana Ad Vincula - Junior year when Hailie and I were doing makeup in class even though we were not supposed to.

Hailie Alvarez - I think just talking with Alana and Aniana, while making everyone listen to our conversations, while annoying Mr. Fitz everyday.

John Anderegg - Going to Universal with the Editorial Board last year on a Saturday.

Henry Avatyan - When I wrote about the local Burbank restaurants.

Zoe Belknap - My favorite memory from Journalism was covering events at Universal during my Freshman year because I had an academic excuse to ride all of my favorite rides.

Melanie Cartagena-Mixco - Doing the Girls Soccer article since it was focused on the Senior Girls, and about how it was their last time doing it.

Koda Dominguez - Speaking, writing with friends, and the class in general.

Alana Gay - Our first days together in Senior year since we were introduced to the class.

Angelise Gilbert - When I got to interview Ms. Clark about the Disney Animation field trip.

Finch Monroe - When I wrote my first article about Geeky Teas moving locations.

Alan Rodriguez - Writing about Karen Bass being a bad mayor.

PLAYS AND MUSICALS

Evan Baker - Thank you Ms. Meberg, Jenny Strattan, and Mr. Jennings. Drama provided the final piece to help me figure out what I wanted to do with my life. The environment they created and the experiences and the support the students had for each other was always super fun.

Annie Boyke - My favorite memory from Drama was the Christmas potluck and finding out that we had received a perfect ranking from every single judge that year.

Raquel Brogmus - JBHS Drama opens doors to new worlds and I am so grateful to have lived in so many. In my final year in this program, I have found so much hope and light in *All Shook Up, Everybody,* and our upcoming production of *Museum*. This community has allowed me to grow into my love for the art of storytelling and seen it through so many different lenses. Thank you Drama.

Georgia Dadekian - I think my favorite memory would be all the back stage time I got to spend with my cast mates on *All Shook Up.* I think the closeness we had backstage was a really special thing. I would like to thank Ms. Meberg and Mr. Jennings.

Maddie Grossnickle - *Everybody* was a really cool show and it was something different than what we've done in the past and I had a very fun take on it because I was a club manager and was able to sing. It was really fun to do, something a little jazzy. I was a part of the dance ensemble and usually a play doesn't have that and it was really meaningful to me and I got to do make and costume and Evan's death makeup and it was something very different but very fun.

Jack Guest - *All Shook Up* was a lot of fun. It's was one of those shows that's a lot of fun especially because the show had a very silly nature. It also made people feel welcome and had deep moments despite the silliness.

Rose Hemingway - Thank you so much to this program for giving me so many opportunities over the last four years. I'm so grateful that I get to continue to do this out of high school and I'll always remember this program is where it started for me.

Soren Khitikian - My favorite memory from Drama was two years ago when we performed *The Play That Goes Wrong.* The set was so cool, especially when the walls fell on Harrison and squished him.

Noël Mason - Drama has given me so many beautiful opportunities and helped me grow and learn as a performer and a person.

Violet Muñoz - My favorite memory from Drama was stage managing Marian while sitting next to my friend who was programming the show.

Isabell Ng - My favorite memory from Drama was being part of all the shows.

H. O'Briant - My favorite memory from Drama was performing in *Everybody* because everyone came together, and it was fun working with friends.

Rasienna Orozco Willars - My favorite memory from Drama was talking in the green room with my friends while we were backstage.

Maya Parikh Romero - This year in Drama has been super exciting and I'm grateful for all the opportunities I've been given! I've worked behind the scenes working on set, props and stage management on various shows since my Sophomore year in Drama. I've really enjoyed meeting new friends and working with them to make the shows come to life.

Jillian Pirruccello - Overall I think *All Shook Up* is my favorite part of the Drama program. Getting to play a character so outrageous is phenomenal, she is so fun to play and it's something you usually don't get to do, especially with the community. It came together so well and since we were so ahead in time we really got to know and play the characters.

Isola Serena - *Everybody* was the first show I got to perform that went to CETA and it was a incredible opportunity. Me and Ms. Meberg try to push for more community and growth in our program and I think that's what is great about Play Pro and Drama as a whole that we're so close and we are all together, especially with Ms. Meberg. My goal as President this year was to really keep fostering the positivity throughout this program. Thank you.

Lila Strobl - Normally the first run-throughs of a show don't go very well, but miraculously this one did. I remember how excited everyone was when we finished that day and everything just came together so easily. It was like the stars aligned to have the perfect cast for the perfect show! Lorraine has a special place in my heart, not just because she was my first big role in a musical but also because she was everything I wanted to be. It gave me an excuse to work on my confidence amongst other things all while doing what I love. The show itself seems relatively simple but every person in that cast has such a deep connection with it. I honestly think we are bonded forever in some weird way. It genuinely meant so much to me and I'm so sad it's over. Having the opportunity to perform for the Jerry Herman's and the JRays allowed me to hold on to this show for as long as possible. I couldn't have asked for a better Senior year musical. Rest in peace *All Shook Up,* you will always be famous!

Clementine Toronto - The musical was very special to me. It felt the most collaborative and welcoming and everyone seemed to have fun together. I loved the art we were making together and it solidified my dreams of what I wanted to do.

Daphne Walker - I think my favorite memory from Drama was my Sophomore year, Tech week of *Shrek,* and I got pulled out of a bunch of classes to paint the castle all day and got to mess around the set. We managed to get nothing and everything done that day.

James Cunha - From Freshman nerves to Senior year confidence, Choir has shaped who I am. I'm grateful for every rehearsal, every performance, every laugh, failure, victory, and every person who stood beside me through it all. I will be forever grateful to Mr. Jennings, Jen O, Dan, Jenny, Dom, Jen S, Corey, Emily, Tech Krew, Kevin, and our parent volunteers. I'm bound to keep the party alive. XOXO.

Nick Joven - Freshman year my pants ripped during BOB, Sophomore year my shoe flew into the audience, Junior year I ate "The Reaper" from Dave's Hot Chicken before Nationals. Finally, Senior year during a Men@Work audition, my pants drop in front of everyone, my bad Dom. As a wise man full of wisdom once said, "The VMA has been very good to me" - Dan Scoville 2024 at Virginia. Thank you mother.

My experience of these past four years in Choir have been invaluable and will undoubtedly stay with me as I continue to grow. From laughs to cries, I wouldn't trade a single moment of this once-in-a-lifetime experience.

Camilla Lujan - If there is one thing I learned from Choir it's to always express yourself. It sounds super corny but it's true. If you're yourself you will see who you really are and others will also see that.

My high school career wouldn't have been the same if I didn't make my friends through Tennis. With every class of people that joined, it was the same sport, but different vibes.
