

May 31, 2026

Beginning on Monday, June 1st, roadway construction will begin on the intersection of Mountain Avenue and Fishkill Avenue. This is a FEMA recovery project from the July 2023 flooding, and it will bring much-needed stormwater and pedestrian safety upgrades at this intersection. The work is estimated to take 4-6 weeks, depending on weather conditions.

Of note for Haldane families, students, faculty and staff:

- the intersection may be closed intermittently to pedestrian and vehicular traffic during work hours – Monday-Friday from 7am-4pm
- the area is anticipated to be re-opened for safe evening passage and parking
- the “cut-through” to/from Haldane at the north of Fishkill will be closed off at all times
- pedestrians must access Haldane via the 9D/Craigside and Mountain Avenue entrances

Thank you for your patience and tolerance as this much-needed work is completed. Please contact the Village Clerk with any questions or concerns (845 265 3611, ext 9 or vcsclerk@coldspringny.gov).

Thank you,
Mayor Foley
