

2026-2027
Local Control and
Accountability Plan

Redlands Unified School District

Public Hearing: June 9, 2026

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Redlands Unified School District

CDS Code: 36-67843-0000000

School Year: 2026-27

LEA contact information:

Juan Cabral

Superintendent

juan_cabral@redlands.k12.ca.us

909-307-5300

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Redlands Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Redlands Unified School District is \$363,400,610, of which \$265,865,690 is Local Control Funding Formula (LCFF), \$49,554,699 is other state funds, \$36,974,405 is local funds, and \$11,005,816 is federal funds. Of the \$265,865,690 in LCFF Funds, \$44,724,863 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

DRAFT

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Redlands Unified School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Redlands Unified School District plans to spend \$369,284,122 for the 2026-27 school year. Of that amount, \$126,390,372 is tied to actions/services in the LCAP and \$242,893,750 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

The General Fund Budget Expenditures for the 2025-2026 school year that are not included in the LCAP support the base programs, including expenditures such as site and departmental staffing, operational support, school safety, athletics, Adult Education programs, facilities, and maintenance. Restricted funding is used to support its identified purpose

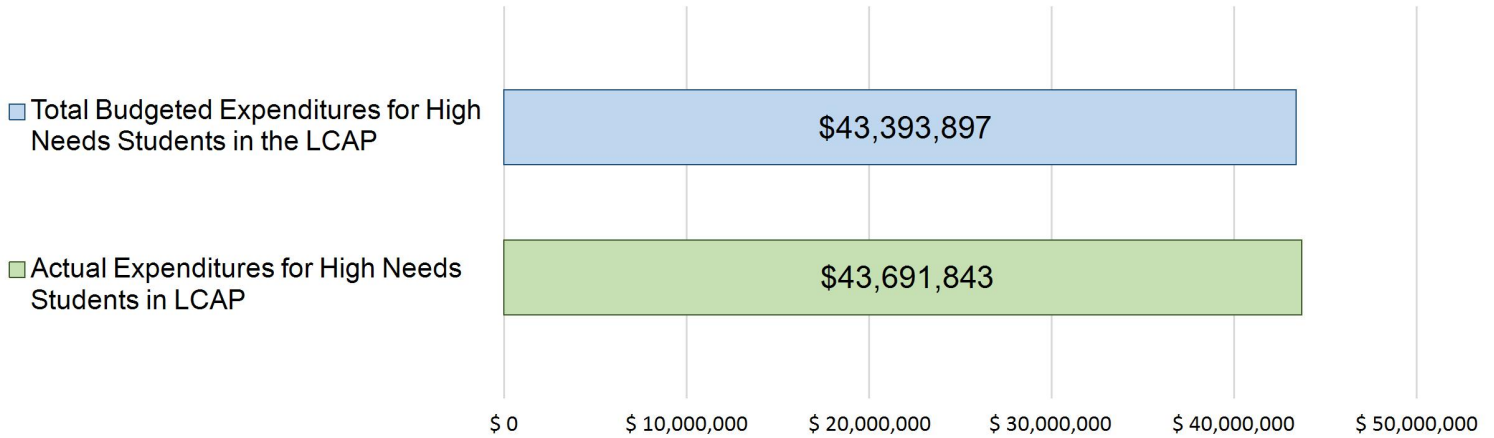

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Redlands Unified School District is projecting it will receive \$44,724,863 based on the enrollment of foster youth, English learner, and low-income students. Redlands Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Redlands Unified School District plans to spend \$44,724,863 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what Redlands Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Redlands Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Redlands Unified School District's LCAP budgeted \$43,393,897 for planned actions to increase or improve services for high needs students. Redlands Unified School District actually spent \$43,691,843 for actions to increase or improve services for high needs students in 2025-26.

DRAFT

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Redlands Unified School District	Juan Cabral Superintendent	juan_cabral@redlands.k12.ca.us 909-307-5300

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Redlands Unified School District (RUSD) serves as a central educational hub for several distinct communities, each with its own rich history and cultural heritage. Redlands Unified School District is committed to preparing every student for success in college, career, and life through its EMPOWER framework. EMPOWER reflects the district’s focus on cultivating key 21st-century skills: Effective Communication & Collaboration, Mindset & Growth, Problem Solving & Critical Thinking, Online Citizenship & Global Awareness, Wellness & Life Skills, Exploration, Curiosity & Creativity, and Reflection & Goal Setting. While RUSD continues to post strong academic outcomes, including high CAASPP and AP performance, it also recognizes the importance of skills that extend beyond traditional measures. Through broad community input, the district is defining a “Profile of a Redlands Graduate” to guide instruction and ensure all students are equipped to thrive in a rapidly changing world.

Spanning 147 square miles, RUSD includes Redlands, Loma Linda, Mentone, Forest Falls, and parts of San Bernardino and Highland, with an enrollment of 18,998 across 25 campuses. This includes sixteen elementary schools, four middle schools—Beattie, Clement, Cope, and Moore—and three high schools: Citrus Valley, Redlands East Valley, and Redlands High School. Alternative and online educational offerings are provided through Orangewood High School, Redlands Independent Study (RISE) Program, and Redlands eAcademy, catering to a diverse student body from six counties.

According to the 2025 Census Day report, the ethnicity of the student population of RUSD is 57.30% Hispanic or Latino, 18.01% White, 7.17% Asian, 5.93% Black or African American, 4.93% Two or More Races, 2.03% Filipino, 0.33% Native Hawaiian or Other Pacific Islander, and 0.19% American Indian or Alaskan Native.

The District serves 1,251 English learners. These students represent 6.58% of the total enrollment. Sixty separate languages comprise the home languages of these students.

The "unduplicated" student percentage for the district is calculated using student data in the following groups: Low Income (Free and Reduced Lunch status), Foster Youth, and English Learners. The 2025 Census Day totals in these student groups are as follows: Low Income - 12,387 students, Foster Youth - 104 students, and English Learner - 1,251 students. This brings the district's unduplicated student percentage to 66.1%. The district currently serves and supports 668 students experiencing homelessness.

Orangewood High School is eligible to receive Equity Multiplier funds for the 26-27 school year. The plan for all Equity Multiplier funds is outlined in Goal 4.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflecting on CA School Dashboard results and local data, RUSD identified several challenges across its schools and student groups, prompting targeted actions within our LCAP to address these needs comprehensively. Key challenges include continued high rates of chronic absenteeism, persistent challenges in math achievement, ongoing efforts to raise performance in English language arts, and concerns about improving graduation and college/career readiness, particularly among vulnerable student groups. The information from the 2023 CA School Dashboard was used to draft the LCAP for the 2024-2027 three-year cycle.

In response, RUSD is continuing to implement specific strategic actions:

- 1) **Chronic Absenteeism:** Initiatives at all schools involve targeted attendance plans aimed at educating and promoting positive daily attendance. Efforts also include family engagement and education about the positive outcomes of improved attendance. Additionally, all schools focus on enhancing engagement and attendance through community and family outreach programs that address socio-economic and cultural barriers.
- 2) **Suspension Rates and Behavioral Supports:** All schools have implemented Positive Behavioral Interventions and Supports (PBIS) to reduce suspensions and improve school climate, directly addressing behavioral challenges and promoting a supportive learning environment. Bryn Mawr Elementary School, Mission Elementary School, Beattie Middle School, and Redlands High School have implemented schoolwide behavior education and supports for all students, including a comprehensive plan for alternatives to suspension.
- 3) **English Learner Progress:** Tailored instructional strategies and additional language support are being provided at schools like Bryn Mawr Elementary School, Franklin Elementary School, Mission Elementary School, Cope Middle School, and Citrus Valley High School to bolster English proficiency and academic performance.
- 4) **Achievement in English/Language Arts and Math:** Specialized instructional programs and professional development for teachers are being expanded to improve instructional quality and student learning outcomes in core academic areas. Judson & Brown Elementary School has established a comprehensive MTSS program for students struggling in reading.
- 5) **Graduation and College/Career Readiness:** Orangewood High School and Redlands High School are focusing on enhanced counseling services and career preparation programs to improve graduation rates and prepare students for post-secondary success.

Each of these actions is being monitored for effectiveness and adjusted based on ongoing assessments and feedback from the community. RUSD remains committed to addressing the needs of all students, particularly those who are at-risk, ensuring that every student has the opportunity to succeed and thrive.

Progress Update

The 2025 California School Dashboard and local STAR data show measurable Year 2 progress alongside persistent gaps. District graduation rose to 92.2% (from 86.2% at baseline) and the College/Career Indicator advanced 15.9 points, with the strongest subgroup gains for Students with Disabilities and English Learners. District-wide ELA improved 2.5 points (from -2.7 to -0.2), nearly closing the gap to standard. The AP Pass Rate climbed to 82.8%, and the High School Dropout Rate fell from 10.1% to 2.7%, with double-digit declines for English Learner and Foster Youth students. District Math performance remained essentially flat at -38.8 distance from standard, and Long-Term English Learners showed minimal movement in either subject; Long-Term English Learners are at the lowest performance level on both indicators. Foster Youth and Homeless Youth chronic absenteeism each rose by more than six points from baseline, the A-G completion rate fell from 83.7% to 72.9% (with steeper drops for English Learners and Low-Income students), and STAR data show widening within-group gaps even as All-student scores improved. These findings frame this year's focus, which includes Students with Disabilities (DA Year 1), Foster Youth (DA Year 2), the Long-Term English Learner plateau, and the within-group gaps visible in local STAR data, and will form the basis of next year's Annual Update.

The following schools received the lowest performance level on one or more of the state indicators on the 2025 Dashboard:

- Chronic Absenteeism: Franklin, Mission, Smiley, Bryn Mawr, Kingsbury, Moore
- Suspension Rate: zero schools at the lowest performance level
- English Learner Progress: Bryn Mawr
- English/Language Arts: Orangewood High School
- Math: Orangewood High School
- Graduation Rate: zero schools at the lowest performance level
- College/Career: zero schools at the lowest performance level

2025 Dashboard – Student Group Performance (District-Level)

The following student groups received the lowest performance level on one or more of the state indicators on the 2025 Dashboard:

- Chronic Absenteeism: LTEL, Homeless, SED, Students with Disabilities, African American, Hispanic, & Pacific Islander
- Suspension Rate: American Indian
- English/Language Arts: LTEL
- Math: LTEL, Students with Disabilities
- Graduation Rate: zero student groups at the lowest performance level
- College/Career: zero student groups at the lowest performance level

In addition to the 2025 Dashboard findings, RUSD also reflects on performance from the 2023 Dashboard, as required for three-year planning alignment.

2023 CA School Dashboard Data:

The following schools received the lowest performance level on one or more state indicators on the 2023 Dashboard:

Chronic Absenteeism: Arroyo Verde Elementary, Bryn Mawr Elementary, Lugonia Elementary, Mariposa Elementary, Victoria Elementary, Clement Middle School, Beattie Middle School, and Moore Middle School

Suspension Rate: Franklin Elementary, Orangewood High School, and Moore Middle School

English Learner Progress Indicator: Bryn Mawr Elementary, Franklin Elementary, Highland Grove Elementary, Kingsbury Elementary, Redlands East Valley High School, Citrus Valley High School

English/Language Arts: Lugonia Elementary

Graduation Rate: Orangewood High School

College/Career Indicator: Orangewood High School

The following student groups received the lowest performance level on one or more state indicators on the 2023 Dashboard at the district level:

Chronic Absenteeism: All students, African Americans, English Learners, Hispanic or Latino students, Pacific Islanders, students with Two or More races, Homeless students, Low-Income students, and Students with Disabilities

Suspension Rate: African American and Homeless students

Math: Foster Youth

English/Language Arts: Foster Youth and Students with Disabilities

Graduation Rate: Foster Youth

College/Career Indicator: English Learners and Students with Disabilities

The following student groups received the lowest performance level on one or more state indicators on the 2023 Dashboard at the school level:

CAASPP (ELA): Bryn Mawr: Students with Disabilities; Crafton: Students with Disabilities; Franklin: English Learner, Homeless, Students with Disabilities; Judson & Brown: Students with Disabilities; Lugonia: English Learner, Hispanic, Homeless, Low-Income, Students with Disabilities; Redlands High: English Learner; Clement: English Learner, Students with Disabilities; Beattie: English Learner, Students with Disabilities; Cope: Students with Disabilities; Moore: African American, English Learner, Students with Disabilities

CAASPP (Math): Franklin: Students with Disabilities; Judson & Brown: Students with Disabilities; Lugonia: Students with Disabilities; Redlands High: English Learner; Beattie: English Learner; Cope: English Learner, Students with Disabilities; Moore: African American, Homeless, Students with Disabilities

English Learner Progress Indicator: Bryn Mawr Elementary, Franklin Elementary, Highland Grove Elementary, Kingsbury Elementary, Redlands East Valley High School, Citrus Valley High School

Chronic Absenteeism: Arroyo Verde: English Learner, Hispanic, Low-Income, Students with Disabilities; Bryn Mawr: English Learner, Hispanic, Homeless, Two or More Races, Low-Income, Students with Disabilities, White; Cram: Low-Income; Franklin: African American; Judson & Brown: Low-Income, Students with Disabilities; Lugonia: English Learner, Hispanic, Homeless, Low-Income, Students with Disabilities; Kimberly: Low-Income; Mariposa: Hispanic, Low-Income, Students with Disabilities, White; McKinley: English Learner, Students with Disabilities; Mentone: Homeless; Mission: English Learner, Two or More Races; Smiley: African American, Asian, Homeless; Victoria: Hispanic, Low-Income; Beattie: English Learner, Hispanic, Homeless, Low-Income, Students with Disabilities; Clement: African American, English Learner, Hispanic, Homeless, Two or More Races, Low-Income, Students with Disabilities, White; Cope: African American, Two or More Races; Moore: African American, English Learner, Hispanic, Two or More Races, Low-Income, Students with Disabilities, White

Graduation Rate: Orangewood: Hispanic, Homeless, Low-Income; Citrus Valley: Students with Disabilities

Suspension Rate: Bryn Mawr: Homeless; Franklin: Hispanic, Homeless, Low-Income, Students with Disabilities; Highland Grove: Students with Disabilities; Kingsbury: Students with Disabilities; Lugonia: African American, Homeless; Orangewood: Hispanic, Low-Income; Redlands East Valley: English Learner; Citrus Valley: African American, Students with Disabilities; Redlands High: African American, Students with Disabilities; Clement: Homeless, Students with Disabilities; Cope: African American; Moore: African American, English Learner, Hispanic, Homeless, Low-Income, Students with Disabilities, White

College/Career Indicator: Orangewood: English Learner, Hispanic, Homeless, Low-Income; Redlands East Valley: Students with Disabilities; Citrus Valley: Students with Disabilities

LREBG Statement

Redlands Unified School District has \$1,437,121 in unexpended Learning Recovery Emergency Block Grant (LREBG) funds issued in July 2025. A comprehensive needs assessment was conducted pursuant to Education Code Section 32526(d) to inform the use of LREBG funds. These funds will be used during the 2026–27 LCAP year to partially fund Goal 2, Action 2.1 – Professional Development to Support Implementation of State Standards.

LREBG funds will support professional development for teachers and instructional staff focused on strengthening standards-aligned instruction in English Language Arts and Mathematics and addressing unfinished learning resulting from the COVID-19 pandemic. This professional learning includes structured opportunities for educators to analyze student performance data, identify learning gaps, and plan and implement targeted instructional strategies and interventions.

Professional development will focus on evidence-based instructional practices including differentiation, scaffolding to grade-level standards, Universal Design for Learning (UDL), and the use of data to inform instruction and intervention planning. This work strengthens high-quality

first instruction (Tier 1) and improves the effectiveness of Tier 2 and Tier 3 supports through ongoing progress monitoring and instructional adjustment. Funding supports staff compensation for participation in professional learning, collaboration, and instructional planning. This approach is grounded in evidence-based research demonstrating that data-driven instruction, collaborative professional learning, and continuous improvement cycles increase teacher effectiveness and student achievement (DuFour et al., 2016; Hattie, 2018). The action aligns with the allowable uses of LREBG funds under Education Code Section 32526(c)(2), specifically Accelerating Learning Progress. This includes staff training on strategies to address learning loss and accelerate student progress in core academic areas. The professional development described supports educators in using data to inform instruction and implement targeted interventions in English Language Arts and Mathematics. The action addresses needs identified through the district's LREBG needs assessment conducted pursuant to Education Code Section 32526(d), including lower mathematics achievement, the need for stronger differentiated instruction and inclusive classroom supports, and the need for stronger tiered intervention systems. Through this work, educators strengthen instructional practices and intervention planning to support improved outcomes for all students

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Based on the 2025 California Dashboard, Redlands Unified School District has improved in areas originally identified for Differentiated Assistance on the 2023 California School Dashboard:

- LCFF Priority 4 - Pupil Achievement - CAASPP - Foster Youth (ELA - Yellow & Math - Orange)
- LCFF Priority 5 - Pupil Engagement - Chronic Absenteeism - Foster Youth (Orange)
- LCFF Priority 6 - School Climate - Suspension Rate - Foster Youth (Yellow), African American (Yellow), Homeless (Green)
- LCFF Priority 8 - Outcomes for a Broad Course of Study - College/Career Indicator - English Learner (Yellow), Students with Disabilities (Yellow)

Improvement in a priority area does not exit a student group from Differentiated Assistance. Per California Department of Education guidance, DA support continues through the release of the next applicable Dashboard.

Based on the 2025 California School Dashboard, Redlands Unified School District has been newly identified as eligible for Differentiated Assistance for Students with Disabilities (Year 1).

Students with Disabilities are eligible for DA Year 1 based on these priority areas:

- LCFF Priority 4 - Pupil Achievement - CAASPP - SWD (ELA - Orange & Math - Red)
- LCFF Priority 5 - Pupil Engagement - Chronic Absenteeism

Foster Youth continue in Year 2 of Differentiated Assistance based on the 2024 California School Dashboard identification, with support continuing through the release of the 2026 Dashboard. Foster Youth were originally identified for DA on the 2024 Dashboard based on these priority areas:

- LCFF Priority 4 - Pupil Achievement - CAASPP - Foster Youth (ELA - Red & Math - Orange)
- LCFF Priority 5 - Pupil Engagement - Chronic Absenteeism
- LCFF Priority 6 - School Climate - Suspension Rate

The District also continues to address Differentiated Assistance needs identified on the 2024 California School Dashboard for English Learners, Homeless Youth, Students with Disabilities, and African American students (Year 2 from 2024 identification). Per CDE guidance, support for these identifications continues until the release of the 2026 Dashboard.

The 2026-2027 LCAP is written as Year 3 of a 3-year plan. For that reason, the areas of need identified from the 2023 California School Dashboard are included in this section to indicate ongoing work. Based on the 2023 California School Dashboard, Redlands Unified School District was identified as eligible for Differentiated Assistance in the following areas for the student groups indicated:

- LCFF Priority 4 - Pupil Achievement - CAASPP - Students with Disabilities (ELA - Red & Math - Orange) and Foster Youth (ELA - Red & Math - Red)
- LCFF Priority 5 - Pupil Engagement - Graduation Rate - Foster Youth; Chronic Absenteeism - African American students, English Learners, Homeless students, and Students with Disabilities
- LCFF Priority 6 - School Climate - Suspension Rate - African American and Homeless students
- LCFF Priority 8 - Outcomes in a Broad Course of Study - College/Career Indicator - English Learners and Students with Disabilities

To address the needs identified in these areas, the District is working in partnership with the San Bernardino County Superintendent of Schools (SBCSS) and East Valley Special Education Local Plan Area (EVSELPA). A team has been formed to outline and implement a plan to provide support to school sites to improve outcomes for the student groups in Differentiated Assistance (DA). The District is simultaneously addressing the needs identified for Compliance and Improvement Monitoring (CIM). While all areas identified through Differentiated Assistance are supported through the LCAP and other district supports, the combined CIM/DA team has selected academic improvement for Students with Disabilities as the primary focus. The team has developed a plan, submitted it, and monitored it as part of the CIM process. The team lead for the district meets with the county liaison on a regular basis for check-in and consultation.

To address the unique needs of our foster and homeless youth, the District maintains a partnership with the San Bernardino County Superintendent of Schools (SBCSS). A critical component of this collaboration involves participating in county-led professional development focused on the specific legal rights and responsibilities mandated for these student populations. This training ensures that District staff are equipped to navigate complex enrollment requirements and provide targeted case management that mitigates the barriers of housing instability. The District lead coordinates with county liaisons on a regular basis to align our internal practices with these specialized training protocols. By integrating these county resources with our internal LCAP goals, we are able to provide a comprehensive and legally compliant safety net that fosters both emotional stability and academic growth for our most vulnerable students.

School sites are provided with monthly data to review for ongoing progress monitoring of all areas of Differentiated Assistance. Education Services meets with principals to analyze benchmark data following each administration. Data is provided and reviewed for all students and for the students in groups identified for differentiated assistance - Students with Disabilities, Foster Youth, African American Students, Homeless Students, and English Learners.

All actions in the 2026–2027 LCAP are written to improve learning conditions and outcomes for all students, with a targeted focus on unduplicated pupils—English Learners, Foster Youth, and Low-Income students—as well as those student groups identified for Differentiated Assistance. The plan includes specific actions aligned to each LCFF Priority area and targeted student group, as outlined below.

Specific Actions in the 2026-2027 LCAP to address areas of DA:

-LCFF Priority 4 - Pupil Achievement – CAASPP:

Students with Disabilities – 2.11, 2.2, 2.3, 2.6, 2.10, 3.4
Foster Youth – 1.5, 2.2, 2.3, 2.6, 2.10, 3.4

DRAFT

-LCFF Priority 5 - Pupil Engagement –

Graduation Rate:

Foster Youth – 2.9

Chronic Absenteeism:

African American students – 1.1, 1.7, 1.13

English Learners – 1.1, 1.7, 1.8, 1.13

Homeless students – 1.1, 1.7, 1.12, 1.13

Students with Disabilities – 1.1, 1.7, 1.12, 1.13, 2.11

Foster Youth – 1.1, 1.5, 1.7, 1.12, 1.13

-LCFF Priority 6 - School Climate - Suspension Rate:

African American – 1.1, 1.2, 1.3, 3.4

Homeless students – 1.1, 1.2, 1.3, 1.5, 3.4

Foster Youth – 1.1, 1.2, 1.3, 1.4, 1.5, 1.11

-LCFF Priority 8 - Outcomes in a Broad Course of Study - College/Career Indicator:

English Learners – 2.4, 2.5, 2.9, 1.9

Students with Disabilities – 2.11, 1.9

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

No Redlands Unified schools have been identified as eligible for Comprehensive Support and Improvement this year.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not Applicable

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not Applicable

DRAFT

THIS PAGE INTENTIONALLY LEFT BLANK

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Students	<p>The District facilitated LCAP Student Advisory Committees comprised of high school students throughout the district. The Committees are representative of unduplicated student groups, students with disabilities, African American students, and students in grades 10-12 from the 3 comprehensive high schools and 1 continuation high school in the district.</p> <p>The Committees met at their respective school sites. Committee work included discussion of the current LCAP actions and a prioritizing activity which allowed students to anonymously identify which actions they consider the highest priority.</p> <p>The Student LCAP Advisory Committees were presented with the LCAP draft in May 2026. In response to questions from the committee, the superintendent provided a written response, which was posted on the website on June 1, 2026.</p>
LCAP Development Meetings: Parents, Community, Teachers, Administrators, Principals, Other School Personnel	<p>The District facilitated opportunities for community involvement and input during the LCAP Process. Opportunities included a virtual overview of the LCAP process, two, in-person collaboration meetings to review data and learn about LCAP funded programs. The final LCAP Development Community Meeting provided attendees with the opportunity to participate in a prioritization activity, allowing them to anonymously identify which actions they consider the highest priority. These meetings were held on January 14, February 4, February 18, and March 4, 2026.</p>
Open to all Educational Partners: Students, Parents, Community, Teachers, Administrators, Principals, Other School Personnel	<p>The District implemented an electronic exchange via ThoughtExchange in December 2025 to gather input from educational</p>

Educational Partner(s)	Process for Engagement
	<p>partners. This platform allowed for ongoing feedback and collaborative processing of community thoughts and ideas regarding the status, growth, and needs of the students and the educational program offered. Within the program, educational partners identified themselves as parents, community members, staff (classified, certificated, management), and students. Additionally in March 2026, the district again utilized ThoughtExchange to survey all educational partners regarding the degree of priority for each LCAP action. During this survey, the district also gathered comments and input related to District needs. The ThoughtExchange program was implemented, and an analysis of the input received was shared with personnel, the Board of Education, the LCAP Advisory Committee, DELAC, and the public via the district web page.</p>
Superintendent's Advisory Committee (Parent Advisory Committee)	<p>The Superintendent’s Advisory Committee served as the Parent Advisory Committee for the LCAP during the 2025–26 development cycle. The committee is comprised of parents and community representatives from across the district, including representation from unduplicated pupil percentage (UPP) groups and parents of students in Special Education, and reflects a range of school sites and student groups.</p> <p>The Committee met on March 18 and May 11, 2026, with both meetings focused on the LCAP. Committee work included a review of current LCAP actions, discussion of district data, and a prioritization activity that allowed members to anonymously identify which actions they consider the highest priority.</p> <p>The Superintendent’s Advisory Committee was presented with the LCAP draft in May 2026. In response to questions from the committee, the Superintendent provided a written response, which was posted on the district website on June 1, 2026.</p>
Local bargaining units of the LEA	<p>The District consulted with the local bargaining units on February 12 and April 28, 2026. Bargaining Unit leadership reviewed the current LCAP and discussed the needs of the district based on data and member input. Leadership encouraged their members to participate in the surveys and forums used by the District to collect input.</p>
Special Education Administration/SELPA	<p>Consultations with East Valley SELPA administrators and the Redlands Unified School District Director of Special Services occurred on March 11 and May 6, 2026. During the consultation, the district</p>

Educational Partner(s)	Process for Engagement
	walked the SELPA administration through the complete LCAP draft. After a thorough discussion, the SELPA administrator expressed full approval and appreciation for the plan.
Differentiated Assistance District Improvement Team	The district team identified to lead efforts to address areas of Differentiated Assistance met in a county workshop on February 4, 2026. Additionally, the team meets at least twice in the fall semester and twice in the spring semester each year. The team lead for the district meets with the county liaison regularly for check-in and consultation. School sites are provided monthly data to review for ongoing progress monitoring. Education Services meets with principals to analyze benchmark data following each administration as a part of the ongoing monitoring process.
Principals	Input from site principals was obtained through a prioritizing activity to identify the priority of LCAP Actions on April 9, 2026.
District English Learner Advisory Committee	The drafted LCAP was presented to DELAC on May 14, 2026. Committee members were provided the opportunity to ask questions and provide input. In response to questions from the committee, the superintendent provided a written response, which was posted on the website on June 1, 2026.
Board of Education	Consultation with the Board of Education provided opportunities for board members and public input. The Mid-Year Update was presented to the Board and public on February 10, 2026. A workshop was conducted with the Board on March 10, 2026. During that workshop, the Board reviewed data from the California School Dashboard and educational partner input from the community-wide Thought Exchange engagement. The Board discussed their goals and priorities. The draft LCAP was presented for public hearing at the June 9, 2026 Board meeting. The Board adopted the LCAP on June 23, 2026.
Educational Partner Groups from Equity Multiplier sites - Orangewood High School	The district implemented an electronic exchange via ThoughtExchange in March 2026 to gather input from educational partners at Orangewood High School, a site identified to receive Equity Multiplier funds. This platform allowed for ongoing feedback

Educational Partner(s)	Process for Engagement
	<p>and collaborative processing of community thoughts and ideas regarding the status, growth, and needs of the students and the educational program offered. Educational partners identified themselves within the program as parents, community members, staff (classified, certificated, management), and students. The results of this exchange highlighted the items and areas rated as most important by the community.</p> <p>Throughout the 2025–2026 school year, site administration continued collaboration with the Site Leadership Team and the School Site Council to develop and refine a cohesive Multi-Tiered System of Support (MTSS) plan, utilizing Equity Multiplier Funds. In addition to these efforts, Orangewood High School established a Student Advisory Committee, which met regularly between September and February. This student group played a vital role in providing direct feedback that informed the development of the LCAP, the Single Plan for Student Achievement (SPSA), and the Equity Multiplier Focus Goal. Through these ongoing engagement strategies, Orangewood High School ensured that the voices of all educational partners meaningfully shaped the school's improvement plans and resource allocation.</p>

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

2026–27 Update: Year 3 Refinements Shaped by Continued Partnership

In Year 3 of the LCAP cycle, Redlands Unified continued to engage a broad coalition of educational partners, including students, parents, certificated and classified staff, site and district administrators, advisory councils (DELAC, DAAPAC, SEPAC, site SACs), and community members. Engagement activities included the annual districtwide LCAP survey (928 respondents), dot-voting sessions with student groups at all four comprehensive high schools, principal workgroups, advisory meetings, and community forums. Feedback reaffirmed the direction set in Years 1 and 2 while surfacing refinements that shaped the 2026–27 LCAP.

Actions Influenced or Refined by 2026 Feedback

Action 1.11 (Redlands Connections League to Middle School Positive School Climate): Verbal feedback at community meetings from parents and teachers, reinforced by multiple written survey comments, called for 1.11 to be repurposed from a middle school athletics–only action into a broader middle school positive school climate action. The refined action now encompasses ASB, WEB, and related programming that supports free or low-cost inclusive events, connectedness, and attendance for all middle school students—particularly unduplicated students who may otherwise face financial barriers to participation.

Action 1.13 (Targeted Attendance Support): Partner feedback identified attendance as the central, shared need across RISE and Home-Hospital student populations. In response, the needs previously addressed through a standalone District Programs Equity Multiplier goal

have been integrated into Action 1.13, aligning these supports with the district's broader attendance strategy rather than maintaining a separate structure.

Action 2.9 (Summer School/Credit Recovery): Students, parents, and staff repeatedly requested that summer programming include credit advancement opportunities alongside credit recovery, particularly for students balancing heavy course loads, athletics, or other extracurricular commitments. This input is informing site-level implementation planning for the 2026–27 summer program.

Priorities Reaffirmed Through Sustained Support

Partners across every engagement channel reaffirmed strong support for the actions launched in Years 1 and 2, with survey data showing high-importance ratings of 70% or greater for Comprehensive School Counseling (1.4, 78%), Recruitment and Retention of Qualified Staff (3.1, 77%), New Teacher Support (3.2, 77%), Positive Behavior Supports (1.2, 75%), Tiered SEL and Mental Health Supports (1.1, 70%), and Academic Case Carriers (1.5, 70%). Student dot-voting placed College and Career Readiness (2.8) as the top priority districtwide, followed by Visual and Performing Arts (1.10), Health and Wellness Services (1.12), and Summer School/Credit Recovery (2.9). Family engagement, literacy supports, and site-based supports delivered through SPSAs (Action 3.4) continued to draw strong endorsement across advisory councils and principal workgroups. These consistent signals supported the district's decision to maintain current investment levels in these actions as they continue to mature.

Conclusion: A Living Document Guided by Partnership

Across three years, the LCAP has grown through an iterative cycle of listening, implementing, and refining. Year 1 introduced new actions in response to partner needs; Year 2 affirmed and stabilized those directions; Year 3 sharpens the plan further through targeted refinements—most notably the repurposing of Action 1.11 and the integration of RISE and Home-Hospital attendance needs into Action 1.13. Each change is grounded in authentic feedback and continues to center the needs of English Learners, Foster Youth, and Low-Income students.

Equity Multiplier Focus

In 2026–27, Orangewood High School remains the only Redlands Unified school site eligible to receive new Equity Multiplier funding. Educational partners at Orangewood reaffirmed the academic and wellness focus established in 2025–26 and emphasized the importance of consistency, allowing targeted strategies time to take hold. Survey results from OHS partners reflected this clearly, with 100% of respondents rating comprehensive school counseling and the recruitment and retention of qualified staff as highly important, along with high-importance ratings of 80% or greater for tiered social-emotional and mental health supports, positive behavior supports, professional development, and access to internet and devices. Student feedback at Orangewood echoed this emphasis, elevating health and wellness services, visual and performing arts, summer school and credit recovery, and staff recruitment and retention among their top priorities.

Based on this input, the 2026–27 Equity Multiplier Focus Goal for Orangewood continues to integrate targeted academic supports with wellness and engagement strategies. Partner feedback reinforced the importance of sustaining the direction established in 2025–26—maintaining strong counseling and case management, professional development that supports academic acceleration, credit recovery and instructional intervention, expanded college and career pathways, access to Career Technical Education, and site-based strategies identified through the School Plan for Student Achievement. Together, these priorities reflect a holistic response to both academic and engagement-related needs identified through local feedback and state performance data.

Goals and Actions

DRAFT

Goal

Goal #	Description	Type of Goal
1	Provide all educational partners with a positive learning environment by creating safe, more inclusive schools that promote equitable access to school programs, activities, and tiered social-emotional and behavioral supports. These supports will foster a sense of connectedness, especially for English Learners, Foster Youth, African American Students, students experiencing homelessness, low income students, students with disabilities, and other student groups whose outcomes indicate the greatest need.	Broad Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Recent feedback from educational partners, gathered through local climate surveys, continues to affirm a predominantly positive perception of the school environment within the Redlands Unified School District. A notable majority of students, staff, and families rate their experience favorably in terms of safety and support. Despite these strong district-wide perceptions, a deeper analysis by ethnicity and other demographics has highlighted areas needing targeted attention.

In response to the evolving needs of our diverse student body, the district has expanded its data collection methodologies. Utilizing advanced survey tools, we have begun to gather detailed insights on various student groups, including English learners, foster youth, students experiencing homelessness, low-income students, students with disabilities, and others showing the greatest need. This refined approach enables a more granular understanding of our students' experiences, focusing on key areas such as relationships, sense of belonging, adult support within the school, growth mindset, emotional and physical safety, support for academic learning, and self-management skills.

Based on the 2023 California School Dashboard, the District was identified as eligible for Differentiated Assistance for these student groups: Students with Disabilities, Homeless students, African-American students, English Learners, and Foster Youth. The following areas of need are addressed in Goal 1:

LCFF Priority 5 - Pupil Engagement: Chronic Absenteeism (African-American students, English Learners, Homeless students, and Students with Disabilities);

LCFF Priority 6 - School Climate: Suspension Rate (African American students and Homeless Students)

(Note: LCFF Priority 4 - Pupil Achievement (CAASPP) and LCFF Priority 8 - Outcomes in a Broad Course of Study (CCI) are addressed in Goal 2.)

Based on the 2025 Dashboard, the District has moved into Year 2 of Differentiated Assistance for Foster Youth. The District is eligible for Differentiated Assistance (Year 1) for Students with Disabilities. The District has moved out of Differentiated Assistance for Homeless students, African-American students, and English Learners.

Emerging research continues to underscore the significant impact of Adverse Childhood Experiences (ACEs) on student well-being and academic achievement, particularly among the most vulnerable student populations. Disparities in the prevalence and impact of ACEs are evident across different ethnic and socioeconomic groups, necessitating a nuanced and proactive approach to support. In light of this, the district is committed to providing comprehensive and tiered support systems that address the diverse needs of our students, particularly those adversely affected by ACEs.

This goal encompasses a broad spectrum of initiatives aimed at enhancing the overall school climate and ensuring a safe, supportive, and engaging learning environment for every student. Through a strategic blend of academic, behavioral, and social-emotional supports, the district is dedicated to fostering student connectedness and enhancing their competencies in various domains. Progress toward this goal will be meticulously tracked using a set of clearly defined metrics, ensuring accountability and continuous improvement in our efforts to support student success.

The insights gained from our educational partners and the latest research have been instrumental in shaping our strategies and interventions. The Redlands Unified School District remains steadfast in its commitment to enhancing student outcomes and ensuring that every student has access to a safe, supportive, and enriching educational experience.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The implementation of the actions within Goal 1 largely aligned with the planned objectives. Significant progress was made in supporting the social-emotional development, engagement, and connectedness of students through the goal's initiatives, and all planned actions were implemented as intended. Tiered Social-Emotional and Mental Health Supports (Action 1.1) continued districtwide, with the Second Step SEL curriculum sustained at elementary sites and Tier 3 mental health staffing maintained, together supporting 472 mental health referrals through March 2026. Positive Behavior Supports (Action 1.2) were implemented across all sites, with every school completing the PBIS

Tiered Fidelity Inventory, and Tier 3 District-level behavior support was provided through a request-for-assistance process, with 186 classroom behavior referrals addressed by March 2026, an increase over the prior year's 145. The Comprehensive School Counseling Program (Action 1.4) was completed as planned across elementary, middle, and high school sites, and Academic Case Carriers (Action 1.5) were implemented at secondary sites to support the comprehensive counseling plan, with Intervention Support Teams (Action 1.6) operating at all schools.

Parent and community engagement (Action 1.7) was strengthened through more than 30 district and site workshops, trainings, and cultural events, including the DAAPAC-hosted Black History Month celebration and the districtwide Multicultural Fair. The Language Assessment Center (Action 1.8) continued to assess new students, administering the Initial ELPAC to 224 students through March 2026, and expanded in-person translation capacity through Habla Me at district meetings and family workshops. Career Technical Education (Action 1.9) was fully implemented, contributing to increased pathway participation, and the Visual & Performing Arts Program (Action 1.10) and the Redlands Connections League for middle school athletics (Action 1.11) were fully executed as planned. Health & Wellness Services (Action 1.12), Targeted Attendance Support (Action 1.13), and Targeted Enrollment Support (Action 1.14) were each delivered as planned. The primary area for continued growth was the consistency of Positive Behavior Supports and Restorative Practices (Actions 1.2 and 1.3) across school sites, where fidelity varied and an ongoing need for professional development and coaching remained. While all actions were delivered, this variation affected the consistency of implementation rather than its completion.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between Budgeted Expenditures and Estimated Actual Expenditures or between Planned and Estimated Actual Percentages of Improved Services for Goal 1, with the exception of Actions 1.3 and 1.8.

For Action 1.3, expenditures were lower than budgeted due to reduced need for additional administrative compensation based on refined implementation practices.

For Action 1.8, expenditures were lower than budgeted due to the use of existing resources to support translation services.

These differences did not result in changes to the scope or effectiveness of the actions or services provided.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Redlands Unified School District's Goal 1 is to create safe, inclusive, and connected school environments for all students, with a special focus on English Learners, Foster Youth, and Low-Income students. This goal supports equitable access to programs, activities, and tiered supports that promote belonging and engagement. As this is the second year of the current three-year Local Control and Accountability Plan cycle, the 14 actions under Goal 1 are assessed for sustained progress using the metrics identified in each action's description.

Note on metrics: The metrics tied to each action are identified in the Goal 1 Metric Reference Table at the end of this section, and complete baseline, year-over-year, and student-group results for every metric appear in the Annual Measurable Outcomes table above. The analysis below assesses the level of effectiveness of each action or group of actions, referencing the metrics that inform each determination.

Social-Emotional Learning, Mental Health, and Behavioral Supports (Actions 1.1–1.4)

These actions support student well-being and reduce behaviors leading to exclusionary discipline. Year 2 results demonstrate sustained progress across attendance, behavior, and school climate. Districtwide attendance improved, with English Learners, Low-Income students, and Foster Youth all gaining ground toward the Year 3 targets (M1.1). Chronic absenteeism declined districtwide and for English Learners

and Low-Income students, approaching the Year 3 target, though rates for Foster Youth and Homeless Youth increased and Long-Term English Learners held steady, identifying a continuing area of focus for targeted support (M1.2). Site-level chronic absenteeism and suspension rates improved across most elementary, middle, and comprehensive high schools (M1.3–M1.19, M1.21–M1.32). Suspension rates fell districtwide, with meaningful reductions for Black/African American students, Homeless Youth, Low-Income students, and Foster Youth; English Learner suspensions also declined, from 4.5% to 2.9%, now below the districtwide rate (M1.20). Expulsions remained at essentially zero across reported student groups (M1.33).

The expansion of tiered mental health and behavior supports underlies these improvements. Through March 2026, district mental health teams responded to 472 referrals and administered 204 Columbia Suicide Severity Rating Scale assessments, while the Tier 3 behavior support team responded to 186 classroom behavior referrals, an increase over the prior year. School counseling implementation strengthened across all levels, with program fidelity scores improving (M1.39). Districtwide academic performance on state assessments improved in both English Language Arts and Math, with notable gains for Foster Youth and English Learners narrowing longstanding gaps (M2.1). All school sites participated in the SEL/Positive Behavior Systems Self-Assessment Survey, with high schools rising to full participation in Year 2 (M1.37), and all sites maintained full participation in the Tiered Fidelity Inventory (M1.38). School climate favorability improved for both students overall and English Learners, while staff favorability declined, identifying a continuing area of focus for staff support structures (M1.36). Middle school dropout remained at essentially zero, and high school dropout declined across student groups (M1.34, M1.35). Club, activity, and enrichment participation rose across the comprehensive high schools, including for English Learners (M1.41).

Effectiveness Determination: Effective — These actions are producing sustained, broad-based improvements in attendance, behavior, and school climate. Full effectiveness by Year 3 will require continued targeted interventions to reduce chronic absenteeism for Foster Youth, Homeless Youth, and Long-Term English Learners, along with attention to staff climate favorability.

Targeted Academic Supports and College & Career Readiness (Actions 1.5, 1.6, 1.9)

These actions provide academic case management, intervention support, and expanded access to career technical education. Dropout rates declined significantly in Year 2, with the districtwide high school dropout rate falling from 10.1% to 2.70%, and English Learner, Low-Income, and Foster Youth dropout rates all dropping sharply to surpass their Year 3 targets (M1.35). Middle school dropout remained at essentially 0% across student groups (M1.34). Graduation rates rose from 86.2% to 92.2% districtwide, with English Learners exceeding the Year 3 target and Foster Youth and Low-Income students both improving (M2.21).

The College/Career Indicator for CTE pathway completion improved substantially districtwide, with strong gains for English Learners and Low-Income students, while Foster Youth CTE-pathway completion declined, reflecting the small cohort size and year-to-year variability for this student group (M1.45). The combined CTE-and-UC/CSU readiness rate also rose, with marked gains for English Learners and Foster Youth (M2.34). The overall College/Career Indicator improved markedly, from 46.9% to 62.8% districtwide, with notable gains for English Learners, Low-Income students, Students with Disabilities, and Foster Youth (M2.25), and site-level College/Career Indicators improved at the comprehensive high schools (M2.26–M2.28). A-G completion presented a mixed picture: districtwide A-G completion declined, with English Learners and Low-Income students losing ground, while Foster Youth A-G completion rose from 50.0% to 100.0%; the districtwide decline remains a continuing area of concern identified in the prior year's analysis that will require renewed focus (M2.24).

Intervention Support Teams operated at full implementation across all school sites, with Student Support Team meetings producing individualized support plans for students facing emotional, social, or academic barriers. Site-level academic performance on state assessments improved at most schools, with several sites posting double-digit gains in distance from standard and narrowing gaps for English Learners and Students with Disabilities, though performance remained below standard at several sites and is an ongoing focus of intervention support (M2.2–M2.12). Academic Case Carriers continued to provide Tier 3 supports for Foster Youth and Low-Income students,

contributing to the site-level improvements in attendance and discipline noted above (M1.16–M1.19, M1.26–M1.32) and to strengthened counseling implementation (M1.39). Career Center teachers at all secondary sites supported FAFSA completion, CTE articulation, pre-apprenticeships, and work-based learning, with the districtwide Career Fair held in April 2026.

Effectiveness Determination: Building Toward Effective — Strong gains in graduation, dropout reduction, and the overall College/Career Indicator demonstrate meaningful progress. Full effectiveness by Year 3 requires renewed focus on reversing the districtwide decline in A–G completion (M2.24), particularly for English Learners and Low-Income students, and sustained support for Foster Youth to stabilize CTE pathway completion.

Family Engagement and Multilingual Access (Actions 1.7, 1.8)

These actions support family communication and multilingual access across the district. Parent engagement standards for input in decision-making (M1.43) and for multiple channels of two-way communication (M1.44) were maintained at full implementation in Year 2. English Learner reclassification improved and total RFEP rose, though Long-Term English Learner reclassification declined, identifying a continuing area of focus (M2.18). English Learner attendance and chronic absenteeism both improved (M1.1, M1.2), and school climate favorability among English Learners rose (M1.36). The Language Assessment Center administered the Initial ELPAC to 224 students through March 2026 and expanded in-person translation capacity through Habla Me at district meetings and family workshops, while more than 30 family engagement events, including the DAAPAC-hosted Black History Month celebration and the districtwide Multicultural Fair, were held across the year.

Effectiveness Determination: Effective — Engagement and multilingual access efforts continue to produce measurable benefits, particularly for English Learners. Continued growth in reclassification and targeted support for Long-Term English Learners will be needed to meet Year 3 targets.

Enrichment and Student Connection (Actions 1.10, 1.11)

These actions expanded access to Visual and Performing Arts programs and middle school athletics. Elementary Visual and Performing Arts enrollment rose districtwide, from 30% to 44.1%, exceeding the Year 3 target, with continued growth for Low-Income students (M1.42). High school club and activity participation rose substantially across all three comprehensive high schools, with English Learner participation also rising at Redlands East Valley and Redlands High (M1.41). Middle school dropout rates remained at essentially 0% across student groups (M1.34). The Redlands Connections League served 478 middle school students through the first three quarters, including 231 Low-Income students, a slight increase over the prior year, with overall participation rising to 14.24% districtwide (M1.40). Chronic absenteeism and suspension rates continued to decline at sites with strong VAPA and RSCL participation (M1.3–M1.15, M1.16–M1.19, M1.21–M1.25).

Effectiveness Determination: Building Toward Effective — High school club participation shows strong gains, and RSCL engagement for Low-Income students continues to grow.

Foundational Supports for Health, Attendance, and Enrollment (Actions 1.12–1.14)

These actions maintain the foundational services that support student access to school. Districtwide attendance rose to 94.0%, with improvement for English Learners, Low-Income (Socioeconomically Disadvantaged) students, and Foster Youth (M1.1). Chronic absenteeism improved for All Students and for most groups, including English Learners and Low-Income students, while Foster Youth and Homeless Youth chronic absenteeism worsened, underscoring the need for more targeted intervention for these groups (M1.2). School climate favorability among students rose (M1.36). Health and Wellness Services (Action 1.12) continued to provide school-based nursing and health aide coverage, and the Enrollment Center (Action 1.14) sustained timely enrollment processing during peak periods through additional clerical and substitute support.

Effectiveness Determination: Building Toward Effective — Core conditions for attendance and enrollment are improving, with full effectiveness by Year 3 requiring full implementation of Action 1.13 (Targeted Attendance Support) and more intensive, coordinated support for Foster Youth and Homeless Youth to reduce chronic absenteeism.

Goal 1 Metric Reference Table

2025-2026 Action

	Metrics
1.1 Tiered Social-Emotional and Mental Health Supports	M1.1–1.19, M1.34–1.38
1.2 Positive Behavior Supports	M1.20–1.33, M1.36–1.38, M1.41
1.3 Restorative Practices	M1.20–1.33
1.4 Comprehensive School Counseling Program	M1.1–1.19, M1.39, M2.1
1.5 Comprehensive School Counseling: Academic Case Carriers*	M1.16–1.19, M1.26–1.32, M1.34–1.35, M1.39; M2.21, M2.24, M2.25
1.6 Intervention Support Teams*	M1.34, M1.35, M2.1–2.12
1.7 Parent & Community Involvement	M1.2, M1.36, M1.43, M1.44
1.8 Language Assessment Center & Translation Services	M1.1, M1.43, M1.44, M2.18
1.9 Career Technical Education (CTE)	M1.35, M1.45, M2.24–2.28
1.10 Visual & Performing Arts	M1.3–1.15, M1.21–1.25, M1.42
1.11 Redlands Connections League*	M1.16–1.19, M1.34, M1.40
1.12 Health & Wellness Services	M1.1–1.19, M1.36
1.13 Targeted Attendance Support	M1.1–1.19
1.14 Targeted Enrollment Support	M1.1, M1.2

*Action Titles changed in 2026-2027 Plan as described in Prompt 4, Planned Changes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on implementation, analysis of local data, and educational partner input, several updates have been made to Goal 1 actions for the 2026–27 LCAP to improve clarity, alignment, and responsiveness to student needs.

Action 1.5 was revised to clarify that services are implemented at the school site level. The title was updated to “Comprehensive School Counseling: Targeted Supports,” and language was modified from “The Academic Case Carrier Program will...” to “The District will...” to better reflect current implementation. The 2026-27 expenditure for Action 1.5 reflects the consolidation of Tier 3 staffing previously delivered through dedicated Academic Case Carriers into the broader Comprehensive School Counseling Program (Action 1.4). Functions formerly funded under Action 1.5, including coordinated Tier 3 case management for Foster Youth and Low-Income students, continue under the redefined site-based scope. The metric set for Action 1.5 (M1.16-1.19, M1.26-1.32, M1.34-1.35, M1.39, M2.21, M2.24, M2.25) is unchanged.

Action 1.6 was updated to reflect current terminology, changing “Intervention Support Team (IST)” to “Student Study Team (SST).”

Action 1.7 was revised to remove references to liaison positions due to staffing decisions.

Action 1.11 was updated to reflect a broader focus on middle school climate rather than solely intramural programming (RSCL), in response to educational partner feedback indicating a need to strengthen student connectedness and engagement. Participation in RSCL (M1.40) will remain as one of the metrics used to determine efficacy.

Action 1.13 was expanded to include coordination and staffing to support Independent Study (RISE) and Home/Hospital Education (HHE) programs, as well as enhanced communication and coordination with families, schools, and community agencies. These updates reflect a shift to district-supported funding following the conclusion of Equity Multiplier funding and are intended to strengthen attendance and engagement supports for students. In 2026-27, Action 1.13 absorbs the attendance and engagement staffing functions previously funded under Goal 5 (Equity Multiplier: District Programs) for RISE and Home/Hospital Education students. This integration is consistent with supplement-not-supplant: Equity Multiplier funding for District Programs concluded at the close of 2025-26, and the function is now sustained through LCFF Supplemental and Concentration Grants under an action principally directed to English Learners, LowIncome students, and Foster Youth.

Several Year 2 outcomes have already met or exceeded their Year 3 targets, including English Learner graduation rate (83.1% vs. Year 3 target of 80%), Comprehensive School Counseling Program enrollment metrics, and selected attendance metrics. The district has chosen to retain the original Year 3 targets through the close of the 2024–2027 cycle to preserve baseline-to-target comparability across the three-year plan. The district will revisit baseline-setting and target-setting in the 2027–2030 cycle.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Tiered Social-Emotional and Mental Health Supports	<p>The Educational Services Division is equipping schools with social-emotional learning curriculum and tiered SEL/mental health supports for students, to build competency in self-management, self-awareness, social awareness, relationship skills, and responsible decision making to create positive and inclusive learning environments. When students have a healthy sense of socio-emotional well-being and feel included in a positive learning environment, there is a greater likelihood they will build connections at school resulting in an increase in attendance rates, a decrease in chronic absenteeism, and lower drop-out rates. Although all students will benefit from these supports and services, this action is principally directed to Foster Youth, English Learners, and Low-Income students.</p> <ul style="list-style-type: none"> • Provide Tier 3 staffing (e.g., FTE: director, licensed mental health provider, support staff; Hourly: mental health associate clinicians) • Provide professional development and training 	\$816,833.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Provide instructional materials and supplies (i.e., SEL curriculum, wellness materials) <p>The efficacy of this action will be reflected in these metrics: M1.1-1.19, M1.34-1.38</p>		
1.2	Positive Behavior Supports	<p>The Educational Services Division is equipping school sites with tools and support for promoting positive student behaviors, to increase student connectedness and improve attendance while reducing undesired behaviors. Increased connectedness can be seen through greater participation in clubs, activities, and school events as well as a decrease in suspension rates. While all students will benefit from positive behavior supports and services, this action is principally directed to support Foster Youth, English Learners, and Low-Income students.</p> <ul style="list-style-type: none"> • Provide Tier 3 staffing (e.g., BCBA coordinator, paraprofessionals) • Provide professional development and training • Provide subscriptions and fees (i.e., PBIS Apps, 5Star, ASB) • Provide materials and supplies <p>The efficacy of this action will be reflected in these metrics: M1.20-1.33, M1.36-1.38, M1.41</p>	\$852,031.00	Yes
1.3	Restorative Practices	<p>The Educational Services Division is providing support systems, staffing, and training in restorative practices for schools to manage conflict and build relationships, especially to support Foster Youth, English Learners, and Low-Income students, who are disproportionately affected by ACEs.</p> <ul style="list-style-type: none"> • Provide professional development and training • Provide materials and supplies • Provide staffing (e.g., administrators, support staff) <p>The efficacy of this action will be reflected in these metrics: M1.20-1.33</p>	\$2,000,391.00	Yes
1.4	Comprehensive School Counseling Program	<p>The District will provide additional site-based counseling support at elementary and secondary school sites, targeting at-promise academic conferencing, college and career readiness lessons and activities, and</p>	\$6,608,233.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>focused social-emotional learning groups for unduplicated students. This effort is primarily designed to meet the specific needs of Low-Income students, Foster Youth, and English Learners, aiming to enhance student connectedness and improve attendance.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., counselors, program specialists, support staff) • Provide materials and supplies • Provide professional development and training opportunities <p>The efficacy of this action will be reflected in these metrics: M1.1-1.19, M1.39, M2.1</p>		
1.5	Comprehensive School Counseling: Targeted Supports	<p>The District will continue to offer Tier 3 supports, primarily directed toward foster youth and low-income students. This initiative aims to enhance attendance and academic success, build resiliency, and facilitate connections with community resources for these students.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., counselors, administrators, support staff) • Provide materials and supplies to support foster youth and low-income students <p>The efficacy of this action will be reflected in these metrics: M1.16-1.19, M1.26-1.32, M1.34-1.35, M1.39; 2.21, 2.24, 2.25</p>	\$606,488.00	Yes
1.6	Student Study Teams	<p>School sites will utilize the Student Study Team (SST) process to analyze data, identify students in need of support, and conduct collaborative educational partner planning sessions in order to develop individual success plans. These plans will be unique to student need and will be principally directed toward English Learners, Foster Youth, and Low-Income students performing below grade level standards. The intent of this action is to identify and mitigate barriers to student success.</p> <ul style="list-style-type: none"> • Provide hourly compensation for site SST leadership • Provide training and support materials <p>The efficacy of this action will be reflected in these metrics: M1.34, M1.35, M2.1-2.12</p>	\$116,554.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.7	Parent & Community Involvement	<p>The District will provide staff focused on equity, communication, and family connection support to implement capacity-building opportunities and family outreach to partner in increasing student engagement and reducing chronic absenteeism, with a focus on English Learner, Foster Youth, and Low-Income student families.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., equity coordinator, communications team, Special Projects staff) • Provide parent/family training and engagement opportunities • Provide materials and supplies for parent & community advisory groups (i.e., DELAC, DAAPAC, SEPAC) <p>The efficacy of this action will be reflected in these metrics: M1.2, M1.36, M1.43, M1.44</p>	\$1,242,598.00	Yes
1.8	Language Assessment Center & Translation Services	<p>The Language Assessment Center will provide translation and interpretation services, and coordinate assessment programs for English learners, to improve communication with families and support student reclassification and attendance. Additionally, the Language Assessment Center staff conducts the initial screening and assessment of students identified through the enrollment process as possible English Learners. The screening and assessment determines if a student is classified as English-Only or at a level of English learner when they enter school. As such, this action is principally directed to support low-income and foster youth students from families who speak languages other than English, in addition to English Learners.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., translators, language assessment staff, bilingual stipends) • Provide contracted translation services • Provide materials and supplies <p>The efficacy of this action will be reflected in these metrics: M1.1, M1.43, M1.44, M2.18</p>	\$622,356.00	Yes
1.9	Career Technical Education (CTE)	<p>Educational Services will provide support for academic services and progress monitoring, to support increases in student A-G and Career</p>	\$2,397,618.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Technical Education (CTE) completion rates. Although all students will benefit from additional personnel, this action is principally directed toward Low- Income students, English Learners, and Foster Youth.</p> <ul style="list-style-type: none"> • Provide staffing to support College and Career (i.e., Career Center Teachers, extra hourly staff compensation) • Provide instructional materials and equipment • Maintain the contract with CRY-ROP to provide additional pathways and support at Redlands USD schools • Provide admission and transportation for field trips which promote college and career preparedness <p>The efficacy of this action will be reflected in these metrics: M1.35, M1.45, M2.24-2.28</p>		
1.10	Visual & Performing Arts	<p>Education Services will provide for students to engage in Visual and Performing Arts programs districtwide to improve school engagement and provide a sense of belonging especially for students in unduplicated student groups. This action principally supports Low-Income students, Foster Youth, and English Learners.</p> <ul style="list-style-type: none"> • Provide staffing to support VAPA (including FTE: Music Teachers, support staff) • Provide hourly support for VAPA programs • Provide instructional materials to support VAPA (i.e., sheet music, instruments, consumable materials, etc.) • Provide transportation to educational field trips and showcases <p>The efficacy of this action will be reflected in these metrics: M1.3-1.15, M1.21-1.25, M1.42</p>	\$1,300,500.00	Yes
1.11	Middle School Engagement	<p>The Student Services department will support middle school connectedness through intramural programs, student engagement activities, and positive school climate initiatives designed to increase students' sense of belonging and social-emotional competencies. This action principally supports Low-Income students and Foster Youth by expanding access to structured engagement opportunities and reducing participation barriers to school activities and events.</p>	\$437,440.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Staffing to support site-based intramurals and student engagement activities (i.e., coaching, supervision) • Materials and services to support activities and climate initiatives (i.e., equipment, supplies, event materials) • Transportation to inter-site engagement opportunities and events • Support for student participation in school activities and events by reducing or covering participation costs (i.e., ASB activities, student events, or program-related fees) <p>The efficacy of this action will be reflected in these metrics: M1.16-1.19, M1.34, M1.40</p>		
1.12	Health & Wellness Services	<p>The Student Services Department will improve the physical wellness of students by providing health supports including nurses and health aides at school sites. Although all students will benefit from health services, the action is principally directed at Low-Income students and Foster Youth. This action will support positive attendance rates and a sense school connectedness for low-income and foster youth students.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., registered nurses, health aides) • Provide materials and supplies <p>The efficacy of this action will be reflected in these metrics: M1.1-1.19, M1.36</p>	\$723,369.00	Yes
1.13	Targeted Attendance Support	<p>The District will improve student attendance and engagement by providing attendance staffing and coordinated program supports at all school sites, principally directed toward English Learners, Low-Income students, and Foster Youth.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., attendance clerks, attendance technicians) • Provide coordination and staffing to support Independent Study (RISE) and Home/Hospital Education (HHE) programs (e.g., counselor, program specialist) • Facilitate communication and coordination with families, schools, and community agencies to support student attendance and engagement 	\$472,939.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The efficacy of this action will be reflected in these metrics: M1.1-1.19		
1.14	Targeted Enrollment Support	<p>The Enrollment Department will provide targeted enrollment support principally directed at Foster Youth. This will promote positive attendance and enrollment without undue delays. While all students will benefit from this support, it is principally directed to the support the unique needs of Foster Youth.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., clerical additional time) • Provide Materials <p>The efficacy of this action will be reflected in these metrics: M1.1, M1.2</p>	\$151,027.00	Yes

Goals and Actions

DRAFT

Goal

Goal #	Description	Type of Goal
2	All students will progress toward meeting standards in academics through tiered supports and services.	Broad Goal

State Priorities addressed by this goal.

- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Recent analyses of student performance through local progress monitoring assessments have highlighted areas of concern and opportunity within our academic programs. While there have been improvements in some areas, ongoing assessments indicate that a significant portion of our 3rd-5th and 6th-8th grade students continue to face challenges in meeting or exceeding grade-level standards in English Language Arts (ELA) and Mathematics. Although there has been a recovery from the initial setbacks caused by the transition to remote learning during the COVID-19 pandemic, the performance in these core subjects remains below our district-wide aspirations.

The latest data reveal nuanced challenges across different student demographics, with certain groups requiring more focused support to bridge academic gaps. English learners, foster youth, African American students, students with disabilities, and low-income students have shown varying degrees of academic progress, underscoring the need for tailored interventions and resources to address their specific needs.

Further examination of the California Dashboard data related to college and career readiness has brought to light disparities in preparedness among our graduating students. The readiness levels across different student groups indicate a pressing need to enhance our educational programs and support systems to ensure all students have the opportunity to succeed post-graduation.

Based on the 2023 California School Dashboard, the District was identified as eligible for Differentiated Assistance for these student groups: Students with Disabilities, Homeless students, African-American students, English Learners, and Foster Youth. The following areas of need are addressed in Goal 2:

LCFF Priority 4 - Pupil Achievement (CAASPP) - English/Language Arts (Foster Youth and Students with Disabilities), Math (Foster Youth);
LCFF Priority 8 - Outcomes in a Broad Course of Study (CCI) (African-American students, English Learners and Students with Disabilities)
(Note: LCFF Priority 5 - Pupil Engagement: Chronic Absenteeism and LCFF Priority 6 - School Climate: Suspension Rate are addressed in Goal 1.)

Based on the 2025 Dashboard, the District has moved into Year 2 of Differentiated Assistance for Foster Youth. The District is eligible for Differentiated Assistance (Year 1) for Students with Disabilities. The District has moved out of Differentiated Assistance for Homeless students, African-American students, and English Learners.

In response to these findings, the district is committed to advancing academic excellence and ensuring equitable opportunities for all students. Our approach includes the implementation of a strategic, tiered system of support focused on elevating ELA and math performance, along with bolstering graduation rates and the percentage of students meeting the College and Career Indicator benchmarks.

Feedback from our educational partners, coupled with insights from current research, has been instrumental in shaping our strategic priorities and actions. These include setting high expectations for all students and providing them with access to high-quality, research-based learning opportunities tailored to their unique needs and potential.

Through targeted interventions, enhanced instructional strategies, and a commitment to data-informed decision-making, we aim to address the diverse academic needs of our student population. Our goal is not only to improve performance metrics but also to foster a nurturing and inclusive educational environment where every student is empowered to achieve their fullest potential.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The implementation of the actions within Goal 2 closely aligned with the planned objectives, successfully supporting academic achievement and college and career readiness across various initiatives. The district continued to invest in professional learning to strengthen Tier 1 instruction, expanded tiered academic and literacy supports, sustained and deepened multilingual programming, and maintained robust college and career preparation pathways across all comprehensive high schools.

Notable successes included the completion of the CORE Reading Academy for every teacher by April 2026 and districtwide Math Frameworks training for secondary math staff and the elementary math adoption committee, supported by Reading and Math Teachers on Assignment who provided ongoing content-area coaching (Action 2.1). Tier 2 supports in Reading and Math were delivered at all elementary schools through small-group instruction and cycles of data-driven intervention, and a Middle School Math Intervention Pilot was launched to support students struggling with math (Action 2.2). Tiered Literacy Supports were fully implemented, with librarians, paraprofessionals, and hourly staff in place alongside intervention and instructional materials at every school (Action 2.3). Supplemental instructional supports expanded, with Benchmark Phonics Intervention implemented at 8 of 16 elementary sites, and online Reading and Math platforms continuing to support targeted learning and progress monitoring (Action 2.6).

Multilingual programming expanded meaningfully, with 218 students earning the California State Seal of Biliteracy across 20 different languages, 82% of English Learners having begun the ELPAC and Alternate ELPAC, and 139 students meeting district criteria for reclassification. Monthly English Learner representative meetings continued, and secondary EL support teachers integrated Summit K-12 to focus on Long-Term English Learners (Actions 2.4 and 2.5).

College and career readiness actions operated at full scale. All AVID schools maintained positive certifications, with monthly walk-throughs, site AVID Coordinator collaboration, and weekly secondary AVID tutoring (Action 2.7). PSAT and SAT exams were offered to 8th, 10th, 11th, and 12th grade students at no cost to families; AP exams were available at all comprehensive high schools with pass rates improving between 2024 and 2025; and Summer School and Credit Recovery for summer 2026 were staffed and advertised through a mix of Edgenuity online and in-person instruction (Actions 2.8 and 2.9). The Instructional Technology and Innovation department delivered a full calendar of STEAM programming, including the District Science Fair, GIS Day, National Geography Bee, Filmfest, Innovation Labs, and emerging Artificial Intelligence instruction, alongside ongoing application vetting, Digital Storytelling, online safety, and daily teacher technology support (Action 2.10).

Targeted Special Education Supports continued across the district, with Extended School Year in July 2025 serving more than 150 students, related services delivered at all school sites, and the Adult Transition Program earning the California School Boards Association's Golden Bell award during the school year (Action 2.11). The Expanded Learning Opportunities Program engaged more than 1,500 TK–6 students daily in academic practice, social-emotional connectedness, and enrichment, including off-site experiences such as the Disney Imagination Campus and STEAM programming like coding with Ozobots (Action 2.12).

Implementation challenges included sustaining academic gains for Long-Term English Learners, who continued to perform in the "yellow" range on the English Learner Progress Indicator in both English Language Arts and Math (Actions 2.4 and 2.5). Continued districtwide concerns about A-G completion are addressed in the Effectiveness analysis (Actions 2.7, 2.8, and 2.9).

Overall, all planned actions were implemented as described in the adopted LCAP, with meaningful progress toward strengthening high-quality instruction, targeted interventions, and expanded opportunities for all students, particularly English Learners, Foster Youth, and Low-Income students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between Budgeted Expenditures and Estimated Actual Expenditures or between Planned and Estimated Actual Percentages of Improved Services for Goal 2, with the exception of Action 2.2. For Action 2.2, expenditures exceeded the budgeted amount because the district used Action 2.2 funds to cover teacher salaries that fell within the scope of Tiered Academic Support but had been anticipated to draw on general district funds. These costs were absorbed within Action 2.2 using savings from other Goal 1 and Goal 2 actions that were overbudgeted relative to actual spending, together with an adjustment to the actual Supplemental and Concentration Grant allocation for 2025–26. This reallocation did not change the scope or effectiveness of the actions or services provided.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Redlands Unified School District's Goal 2 focuses on providing high-quality instruction, targeted interventions, and expanded opportunities to ensure academic success and long-term readiness for all students, with a special emphasis on English Learners, Foster Youth, and Low-Income students. This goal aims to address barriers to learning, elevate teaching practices, and prepare students for future opportunities, particularly those who have historically faced challenges. As this is the second year of the current three-year Local Control and Accountability Plan cycle, the 12 actions under Goal 2 are assessed for sustained progress using the metrics identified in each action's description.

Note on Metrics Referenced: Each action includes specific metrics, all of which are referenced in the analysis below. The table at the end of this section lists the complete set of metrics tied to each action. Additional performance details can be found in the "Measuring and Reporting Results" section of the Local Control and Accountability Plan.

Tier 1 Instructional Quality and Multilingual Access (Actions 2.1, 2.4, 2.5, 2.10)

These actions strengthen classroom instruction and support English Learners through professional development, targeted language programs, and technology integration. Year 2 results show sustained progress in Tier 1 instruction and notable gains in English Learner outcomes. English Language Arts performance improved from 2.7 points below standard to 0.2 points below standard districtwide, with English Learners improving from 58.4 to 51.5 points below standard, Foster Youth from 87.6 to 66.6 points below standard, Low-Income students from 26.3 to 24.2 points below standard, and Students with Disabilities from 92.7 to 85.2 points below standard (M2.1). Long-Term English Learner ELA performance declined slightly from 99.5 to 100.4 points below standard, indicating a continuing area of focus. Mathematics performance remained largely unchanged at approximately 38 points below standard overall, with English Learners improving from 85.1 to 79.4 points below standard, Low-Income students improving slightly (-64.4 to -63.2), and Foster Youth improving from 154.2 to 104.9 points below standard (M2.1). California Science Test performance improved from 31.46% to 33.70% of students meeting or exceeding standards districtwide, though Foster Youth declined from 6.6% to 0% and English Learners declined slightly from 3.11% to 2.68% (M2.12).

English Learner progress measured by the ELPI improved districtwide from 47.6% to 49.7%, approaching the Year 3 target of 55%, with Long-Term English Learner ELPI performance improving substantially from 41.7% to 50.3% (M2.13). School-level ELPI gains were particularly strong at Bryn Mawr Elementary (14.6% to 30%), Highland Grove Elementary (32.6% to 60.6%), Citrus Valley High School (11.6% to 36.4%, with L-TEL only rising from 11.8% to 37%), and Redlands East Valley High School (44.2% to 63.8%) (M2.14–M2.17, M2.32–M2.33). Reclassification improved from 12% to 14.71% on the annual rate, and Total RFEP rose from 45.7% to 49.7%, though L-TEL

reclassification declined from 23.6% to 19.7% (M2.18). The Long-Term English Learner rate districtwide declined from 13.2% to 11.4% (M2.19). Common Core State Standards implementation was maintained at 100% for all students, including English Learners (M2.31). Effectiveness Determination: Building Toward Effective — These actions are producing sustained gains in ELA, ELPI, and reclassification, with particularly strong results for English Learners at multiple school sites. Full effectiveness by Year 3 will require targeted attention to Math performance for English Learners and Students with Disabilities, the persistent gap for Long-Term English Learners on the most intensive ELA measures, and the decline in L-TEL reclassification.

Tiered Academic Supports and Intervention (Actions 2.2, 2.3, 2.6)

These actions provided academic interventions, literacy supports, and supplemental materials to address learning gaps. STAR Assessment results in Year 2 show strong overall growth, with districtwide Reading proficiency rising from 42.0% to 49.9% (+7.9 points) and Math proficiency rising from 31.3% to 39.0% (+7.7 points) (M2.30). Program lead data indicates 61.3% of students showing growth in STAR Reading, 60.5% in STAR Math, and 59.9% in STAR Early Literacy. However, performance for unduplicated student groups on STAR Reading declined for English Learners (9.1% to 8.3%), Foster Youth (15.8% to 8.3%), and Low-Income students (34.7% to 27.9%), even as overall scores rose, indicating that the literacy gap for these students requires renewed attention. STAR Math results were more mixed, with Foster Youth improving from 6.3% to 13.0%.

Site-level Smarter Balanced results reflect the broader pattern of overall gains alongside subgroup variability. Strong ELA growth was observed at Moore Middle School (+19.2 points overall, with Black/African American students +20.4 and English Learners +31.5), Lugonia Elementary (+17.7 points overall, with English Learners +44.5 and Low-Income students +17.5), and multiple other sites; however, several sites saw ELA declines among particular student groups (M2.2–M2.11). The Early Assessment Program overall ELA performance declined slightly, with the percentage of 11th graders meeting or exceeding standard moving from 63.67% to 62.02% districtwide and Low-Income students declining slightly to 54.08%, though English Learners improved from 10.98% to 12.68%. In Math, the percentage meeting or exceeding standard held roughly steady districtwide at 41.71%, with English Learners improving to 10.82% and Low-Income students at 32.98% (M2.29). Full implementation of tiered literacy supports, including school librarians, paraprofessionals, intervention materials, and ongoing data analysis, continued districtwide, and Benchmark Phonics Intervention expanded to 8 of 16 elementary sites.

Effectiveness Determination: Building Toward Effective — These actions show meaningful overall gains in STAR Reading and Math and site-level ELA growth. Full effectiveness by Year 3 requires addressing the decline in STAR Reading proficiency for English Learners, Foster Youth, and Low-Income students, and continuing the momentum of the Benchmark Phonics rollout and Middle School Math Intervention Pilot.

College and Career Readiness Supports (Actions 2.7, 2.8, 2.9)

These actions supported college and career preparation through AVID, college readiness programs, and summer school/credit recovery. Year 2 results demonstrate substantial impact on graduation and college/career readiness. Graduation rates rose from 86.2% to 92.2% districtwide, with English Learners increasing from 68% to 83.1% (exceeding the Year 3 target of 80%), Foster Youth from 55% to 58.3%, and Low-Income students from 84.4% to 91.4% (M2.21). Orangewood High School's graduation rate improved dramatically from 57.1% to 85.7%, with all reported subgroups (Hispanic, Homeless Youth, and Low-Income students) gaining between 28 and 30 percentage points (M2.22). Citrus Valley High School's graduation rate rose from 91.2% to 94.4%, with Students with Disabilities rising from 61.7% to 80.8% (M2.23).

The College/Career Indicator improved from 46.9% to 62.8% districtwide, with English Learners rising from 9.7% to 29.6%, Foster Youth from 10.5% to 25.0%, Low-Income students from 41.1% to 57.0%, and Students with Disabilities from 5.9% to 28.2% (M2.25). Site-level CCI gains were notable at Redlands East Valley (50% to 64.3%, with Students with Disabilities rising from 4.5% to 22.4%) and Citrus Valley

(51.1% to 69.5%, with Students with Disabilities rising from 2.1% to 35.5%) (M2.27–M2.28). Orangewood's overall CCI moved marginally from 1.3% to 1.5% (M2.26), indicating continued focus is needed. The combined rate of CTE pathway completion and UC/CSU requirement completion rose from 9.0% to 13.2% overall, with English Learners at 29.6%, Foster Youth at 25.0%, and Low-Income students at 12.3% (M2.34). Advanced Placement pass rates increased from 69.4% to 82.8% overall; however, pass rates declined for English Learners (0.4% to 0.2%), Foster Youth (0.1% to 0.0%), and Low-Income students (41.3% to 33.7%) (M2.20).

A-G completion declined from 83.7% to 72.9% districtwide, with English Learners declining from 64.3% to 45.0% and Low-Income students from 80.8% to 69.3% (M2.24), a continuing area of concern identified in the prior year's analysis that requires focused, system-level attention. Foster Youth A-G completion rose from 50% to 100%, reflecting the small cohort size and high year-over-year variability for this student group. AVID enrollment among unduplicated groups showed slight declines for English Learners (2.7% to 1.4%) and Low-Income students (68.9% to 63.7%), with a small gain for Foster Youth (0.2% to 0.5%) (M2.36). AVID's site-based supports also contributed to the broader attendance, suspension, and academic-performance improvements reported at AVID schools, reflected across multiple site-level chronic absenteeism and suspension measures and in early academic indicators for participating student groups (M1.3, M1.9, M1.11, M1.12, M1.15–M1.19, M1.26–M1.32, M2.3, M2.7–M2.11, M2.30).

Effectiveness Determination: Effective — These actions are producing substantial, broad-based gains in graduation, College/Career Indicator performance, and the combined CTE/UC–CSU rate. Full effectiveness by Year 3 requires reversing the decline in A-G completion, closing the AP pass rate gap for unduplicated student groups, and sustaining targeted outreach to increase AVID enrollment for English Learners and Low-Income students.

Specialized Supports and Expanded Learning (Actions 2.11, 2.12)

These actions provided targeted support for Students with Disabilities and expanded learning opportunities for elementary and sixth-grade students. Special education supports and services were delivered districtwide, with Extended School Year serving more than 150 students in July 2025 and the Adult Transition Program earning the California School Boards Association's Golden Bell award during the year. Related services — including language and speech, occupational therapy, adaptive physical education, and transportation — were provided at all school sites in accordance with IEP team determinations. The College/Career Indicator for Students with Disabilities improved substantially from 5.9% to 28.2% districtwide (M2.25), with particularly strong gains at Citrus Valley (+33.4 points) and Redlands East Valley (+17.9 points).

The Expanded Learning Opportunities Program engaged more than 1,500 TK–6 students daily with academic practice, social-emotional connection, and enrichment opportunities, including field trips to Disney Imagination Campus and STEAM experiences such as coding with Ozobots.

Effectiveness Determination: Building Toward Effective — Early indicators of program strength are clear, including the Golden Bell recognition for the Adult Transition Program and substantial CCI gains for Students with Disabilities at secondary sites.

Goal 2 Metric Reference Table

Action	Metrics
2.1 Professional Development to Support Implementation of State Standards	M2.1–2.12, M2.31
2.2 Tiered Academic Support Staff	M2.1–2.12, M2.29, M2.30
2.3 Tiered Literacy Supports	M2.1–2.12, M2.29, M2.30
2.4 Tiered Academic Supports for Multilingual Students	M2.13–2.18, M2.32–2.33
2.5 English Learner Programs	M2.13–2.19, M2.32–2.33

2.12 Expanded Learning Opportunities Program	M2.1–2.12

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on implementation, analysis of local data, and operational adjustments, a revision was made to Action 2.1 for the 2026–27 LCAP. Action 2.1 was updated to reflect staffing decisions, including the removal of Teachers on Assignment positions. In addition, the action was revised to incorporate Learning Recovery Block Grant (LREBG) funding received in July 2025 to support continued implementation.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Professional Development to Support Implementation of State Standards	<p>The Educational Services Division will provide professional development - training, coaching, and collaboration - for teachers and instructional staff to implement effective instruction in state standards (TK-12) which includes evidence-based strategies for intervention, differentiation, scaffolding to standards, and Universal Design for Learning (UDL); focusing on meeting increasing academic achievement in ELA and Math of English Learner, Foster Youth, and Low Income students.</p> <ul style="list-style-type: none"> • Provide compensation to staff to lead professional development (e.g., Teachers, Administration, Support Staff) • Provide hourly pay and daily compensation to attend professional development • Provide staff with training to be able to: <ul style="list-style-type: none"> • differentiate instruction based on students’ needs • implement standards-aligned curriculum • implement instructional best practices 	\$2,272,210.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The efficacy of this action will be reflected in these metrics: M2.1-2.12, M2.31</p> <p>This is an LREBG Action with \$1,437,121 of funds from the Learning Recovery Emergency Block Grant.</p>		
2.2	Tiered Academic Support	<p>The District will provide additional core academic staff dedicated to providing specialized Tier 2 support to address the academic needs of students, particularly those not meeting grade-level expectations. This measure aims to ensure that every student receives the attention and instruction they need to thrive academically. This initiative is especially aimed at English Learners, Foster Youth, and Low-Income students, ensuring they receive the targeted assistance necessary to elevate their academic performance.</p> <ul style="list-style-type: none"> • Provide additional teachers to school sites (all levels) <p>The efficacy of this action will be reflected in these metrics: M2.1-2.12, M2.29, M2.30</p>	\$3,503,595.00	Yes
2.3	Tiered Literacy Supports	<p>The Educational Services Division will promote literacy and increase reading proficiency by providing sites with supports for school libraries principally directed to English Learners, Foster youth, and Low-Income students. Well-resourced libraries and knowledgeable staff foster reading skills, which are expected to improve performance on assessments like the CAASPP SBAC and Star reading tests, as well as support overall academic achievement, including in mathematics.</p> <ul style="list-style-type: none"> • Provide staffing (e.g., librarians, paraprofessionals, and hourly compensation) • Provide intervention and instructional materials and supplies <p>The efficacy of this action will be reflected in these metrics: M2.1-2.12, M2.29, M2.30</p>	\$613,870.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.4	Tiered Academic Supports for Multilingual Students	<p>The Education Services Division will increase English language proficiency and reclassification rates for English Learners. District staff will provide staff development to increase implementation of the ELD standards across all grade-levels and content areas and develop tiered systems of support to ensure success for students not making adequate progress. Staff will review ELD content-area classes and Long-Term EL intervention classes to build pathways to multi-literacy.</p> <ul style="list-style-type: none"> • Provide staffing to support English Learner Student Achievement (e.g., Director, Program Specialists, support staff) • Provide staff with training to be able to address the needs for reclassification of English Learners (i.e., conferences, workshops, etc.) <p>The efficacy of this action will be reflected in these metrics: M2.13-2.18, M2.32-2.33</p>	\$881,314.00	Yes
2.5	Long-Term English Learner Program	<p>The district will provide dedicated EL staff specifically aimed at addressing the academic needs of Long-Term English Learners (L-TELEs), focusing on tiered support for these students who are not meeting academic standards. District staff will provide staff development to increase implementation of the ELD standards across all grade-levels and content areas and develop tiered systems of support to ensure success for L-TEL students not making adequate progress. Staff will review ELD content-area classes and Long-Term EL intervention classes to build pathways to multi-literacy. The purpose of this action is to increase English language proficiency to reduce the number of L-TELEs in the district.</p> <ul style="list-style-type: none"> • Provide secondary EL teachers • Provide instructional materials <p>The efficacy of this action will be reflected in these metrics: M2.13-2.19, M2.32-2.33</p>	\$1,196,109.00	Yes
2.6	Supplemental Instructional Supports	<p>The Education Services Division will provide supplemental, evidence-based instructional materials to support the implementation of academic programs and target learning recovery efforts for underperforming student groups. The purpose is to close academic achievement gaps and ensure</p>	\$550,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>all students have access to high-quality instructional resources tailored to their needs. Although all students will benefit from supplemental materials, the action is principally directed at English Learners, Low-Income, and Foster Youth students.</p> <ul style="list-style-type: none"> • Provide instructional materials (i.e., access to digital materials, consumable materials, books, intervention programs, subscriptions/licenses, etc.) <p>The efficacy of this action will be reflected in these metrics: M2.1-2.12, M2.31</p>		
2.7	Advancement Via Individual Determination (AVID)	<p>The Educational Services Division will increase college and career preparedness by implementing Advancement Via Individual Determination (AVID) programs at school sites districtwide (elementary, middle, and high school). Although all students will benefit from the implementation of the AVID program at sites, this action is principally directed toward Low-Income and Foster Youth students.</p> <ul style="list-style-type: none"> • Provide hourly support for the implementation of AVID (e.g., college tutors) • Provide staff for the implementation of AVID (e.g., site lead teachers) • Provide staff with training to be able to address the needs of Low-Income students (i.e., conferences, workshops, etc.) • Provide instructional materials to support instruction (i.e., digital access to AVID materials, AVID program fees, instructional supplies, etc.) <p>The efficacy of this action will be reflected in these metrics: M1.3, M1.9, M1.11, M1.12, M1.15-1.19, M1.26-1.32, M2.3, M2.7-2.11, M2.21, M2.25, M2.30, M2.36</p>	\$1,427,388.00	Yes
2.8	College and Career Readiness Programs	<p>Educational Services will provide professional development and support various programs to ensure no financial barriers prevent full participation of unduplicated student groups in college readiness activities. While all student will benefit from this support, this action is principally directed toward Low-Income and Foster Youth students.</p>	\$1,500,042.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Provide access to Advanced Placement (AP), PSAT, and SAT exams (i.e., fees, boot-camps, materials) • Provide staff with training to be able to address the needs of Low-Income students (i.e., conferences, workshops, etc.) • Offer Dual Enrollment (DE) programs through partnerships with the Community College District • Provide access to additional courses through telepresence (staffing - teacher and paraprofessionals) • Provide field trips to local colleges and universities to cultivate a college-going culture <p>The efficacy of this action will be reflected in these metrics: M2.20-2.28, M2.34</p>		
2.9	Summer School/Credit Recovery	<p>High School sites will offer programs for students off-track for graduation, focusing on accelerating progress for Foster Youth, English Learners, and Low-Income students. This is measured by an increase in graduation rates and college/career preparedness for these students.</p> <ul style="list-style-type: none"> • Provide staff for summer school opportunities (i.e. teachers, support staff) • Provide staff compensation for providing credit recovery courses • Provide instructional materials for summer school and credit recovery <p>The efficacy of this action will be reflected in these metrics: M2.21-2.28, M2.34</p>	\$807,412.00	Yes
2.10	Instructional Technology and Innovation	<p>The Instructional Technology and Accountability Department will support schools with innovative technology programs, professional development, and technology tools designed to provide students equitable access to meet or exceed grade level content standards. While all students will benefit from this action, it is principally directed to support English Learners, Foster Youth, and Low Income students.</p> <ul style="list-style-type: none"> • Provide district staff to provide professional development, data analysis, and support for implementation of innovation initiatives 	\$1,538,012.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>(i.e., Directors, Coordinators, Teachers on Assignment, support staff)</p> <ul style="list-style-type: none"> • Provide instructional materials, equipment, and supplies for instructional technology and innovation programs (i.e., specialized technology, maker space consumables, etc.) • Provide ongoing data analysis and progress monitoring to inform instruction <p>The efficacy of this action will be reflected in these metrics: M2.1-2.12, M2.30</p>		
2.11	Targeted Special Education Supports	<p>District and site-based staff will provide targeted Special Education supports for students in general education and separate class settings for students age 3-22. Additional supports and services include: extended school year (ESY), adult transition program (metric M2.35 shows participation outcomes), language and speech services, occupational therapy, adaptive physical education, and transportation provided based on IEP team determination to address disability needs and close the achievement gap.</p> <ul style="list-style-type: none"> • Provide specialized district and site staff (including Redlands USD employees and contracted services) • Provide instructional materials, equipment, and supplies • Provide coaching, professional development, and administrative support 	\$64,167,930.00	No
2.12	Expanded Learning Opportunities Program	<p>The Expanded Learning Opportunities (ELO) Program provides funding for after school and summer school enrichment programs for kindergarten (including transitional kindergarten) through sixth grade. ELO-P will allow schools to increase service offerings that focus on developing the academic, social, emotional, and physical needs and interests of pupils and give unduplicated pupils and families the flexibility to participate based on their needs and interests.</p> <ul style="list-style-type: none"> • Provide designated district and site staff • Provide instructional materials, equipment, and supplies 	\$15,651,978.00	No

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Provide expanded learning opportunities through assemblies and field trips, including opportunities during school breaks and on weekends • Provide coaching, professional development, and administrative support 		

Goals and Actions

DRAFT

Goal

Goal #	Description	Type of Goal
3	Redlands Unified School District will implement the actions described below, which relate to teachers, materials, and facilities, in order to ensure that progress made within Goal 1, Engagement and School Climate, and Goal 2, Tiered Academic Supports and Services, will be maintained over the next three years. These metrics will be evaluated using multiple measures on an annual basis to ensure maintenance of progress.	Maintenance of Progress Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 3: Parental Involvement (Engagement)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

In the Redlands Unified School District, our commitment to providing an exemplary educational experience is unwavering, with a focus on academic excellence, safe and supportive learning environments, innovative approaches to education, strong community and parent partnerships, and a steadfast dedication to equity.

A cornerstone of our strategy is the recognition that all students, including those facing the greatest challenges such as English learners, foster youth, students experiencing homelessness, and low-income students, benefit significantly from instruction by highly qualified educators. To this end, RUSD is dedicated to not only attracting but also retaining top-tier professionals who are equipped to cater to the diverse needs of our student body. We are also committed to offering robust support for educators new to our district or to the teaching profession, ensuring they have the resources and guidance necessary to thrive.

Equitable access to education is a fundamental right, and as such, we ensure that every student has the tools needed for academic success. This includes full access to both core and supplemental instructional materials that adhere to the highest standards. Our efforts extend beyond the classroom to ensure that our school facilities are not only well-maintained but also conducive to learning, reflecting our belief that the physical environment plays a critical role in student achievement.

Our analysis of school data reveals that while our facilities generally provide welcoming and effective learning spaces, continuous attention is needed to address specific needs and undertake special projects. This is essential to guarantee that all students, regardless of their circumstances, have equal opportunities to succeed.

The role of individual school sites is pivotal in bringing our district-wide objectives to fruition. By developing and rigorously monitoring school plans that align with our overarching goals, we ensure a cohesive and equitable educational experience across our district. These plans are crafted and executed in a manner that fosters engagement and inclusivity among all members of our educational community.

In pursuit of these objectives, RUSD remains steadfast in its mission to elevate every aspect of our students' educational journey, ensuring that our strategies and actions are inclusive, innovative, and impactful.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Teacher Assignment/Rate of teacher misassignment, District Wide: Percentage of Redlands Unified teachers who are fully credentialed and appropriately assigned Source: CA Dashboard - Local Indicator	2022-2023 School Year 88.1% of teachers are fully credentialed and appropriately assigned	2023-2024 School Year 87.3% of teachers are fully credentialed and appropriately assigned	2024-2025 School Year 86.9% of teachers are fully credentialed and appropriately assigned	100% of teachers fully credentialed and appropriately assigned	Year 2 -1.2%
3.2	Instructional Materials Aligned to State Standards/Student access to standards-aligned instructional materials, District Wide: Percentage of students with access to the current board adopted materials Source: CA Dashboard - Local Indicator	2022-2023 School Year 100% of students have the current board adopted materials	2023-2024 School Year 100% of students have the current board adopted materials	2024-2025 School Year 100% of students have the current board adopted materials	100% of students have the current board adopted materials	Year 2 Maintained - no difference
3.3	SARC Reporting FIT Reports, District Wide:	2023-2024 School Year	2024-2025 School Year	2025-2026 School Year	100% of schools met "Exemplary" or "Good" standard	Year 2

		to reach and seek input from any underrepresented groups (including unduplicated student groups and students with exceptional needs) in the school community: FULL IMPLEMENTATION	Parents/Families provided with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups (including unduplicated student groups and students with exceptional needs) in the school community: FULL IMPLEMENTATION	Parents/Families provided with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups (including unduplicated student groups and students with exceptional needs) in the school community: FULL IMPLEMENTATION		

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2025–26 school year, all 7 actions within Goal 3 were implemented as planned, with the district sustaining the foundational operational systems (staffing, facilities, technology, transportation, and program coordination) that enable progress in Goals 1 and 2. The district continued recruitment and retention strategies, new teacher induction, access to technology and supplemental materials, facilities improvements, transportation services, and LCAP coordination.

Notable successes included the full implementation of the New Teacher Support Program (Action 3.2) under the Human Resources Division, which included weekly coaching for approximately 90 induction candidates, two professional development sessions for induction coaches, and emerging integration of AI-supported coaching conversations. Six induction candidates completed the program mid-year, with remaining candidates on track to complete Year 1 or Year 2 phases in May 2026. The district retained all but one participating teacher through the induction year, an early indicator of program strength. Candidates and coaches were matched by grade level, subject area, and site to maximize the relevance of coaching support.

Action 3.5 (Enhanced Facilities Projects) advanced with the completion of the Mariposa Elementary outdoor learning space, which converted an underutilized and difficult-to-maintain area into a multi-functional space accessible to all students throughout the day, including space for students with specialized needs to de-escalate and reset. The space is supervisable from multiple angles, supports after-school programming and events, and will continue to benefit students across the school day.

Action 3.6 (Transportation) addressed a long-standing staffing challenge through the introduction of increased guaranteed driver hours, resulting in more successful driver hires. The expanded staffing now supports zero-period, seventh-period, and ELOP transportation along with bus maintenance; while some routes remain waitlisted, overall service capacity increased over the prior year.

There were no substantive challenges in the implementation of the Goal 3 actions; all actions were implemented as planned.

Overall, all planned actions were implemented as described in the adopted LCAP, with core conditions of learning maintained and operational systems continuing to support student access and district equity goals.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between Budgeted Expenditures and Estimated Actual Expenditures or between Planned and Estimated Actual Percentages of Improved Services for Goal 3, with the exception of Action 3.6.

For Action 3.6, expenditures were higher than budgeted due to increased transportation staffing levels.

These differences did not result in changes to the scope or effectiveness of the actions or services provided.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Redlands Unified School District remains deeply committed to providing the foundational conditions that allow all students to thrive, with an emphasis on ensuring equitable access to high-quality learning environments and services for English Learners, Foster Youth, and Low-Income students. Goal 3 centers on operational excellence, including the recruitment and retention of qualified staff, equitable access to technology and facilities, transportation services, and the coordination of programs across the system. These structural supports have proven essential in sustaining student achievement and supporting long-term readiness. As this is the second year of the current three-year Local Control and Accountability Plan cycle and Goal 3 is a Maintenance of Progress goal, the 7 actions under Goal 3 are assessed for sustained performance and continuing reliability of the district's foundational systems. To assess impact, actions are grouped into three strategic categories: recruitment, support, and retention; equitable access to resources; and coordinated services and supports.

Note on Metrics Referenced: Each action includes specific metrics, all of which are referenced in the analysis below. The table at the end of this section lists the complete set of metrics tied to each action. Additional performance details can be found in the "Measuring and Reporting Results" section of the Local Control and Accountability Plan.

Recruitment, Support, and Retention of Qualified Staff (Actions 3.1, 3.2)

Actions 3.1 and 3.2 continued to support the district's capacity to recruit, develop, and retain a highly qualified teaching staff. The rate of fully credentialed and appropriately assigned teachers moved from 88.1% to 86.9% in Year 2 (M3.1), a slight decline that underscores the ongoing competitive pressures of the regional and statewide labor market and the importance of continued investment in recruitment strategies.

Action 3.2 continued to deliver robust support for new teachers through the Induction program. The program provided weekly coaching to approximately 90 induction candidates, two professional development sessions for induction coaches, and strategic candidate-coach

matching by grade level, subject, and site. Six candidates completed the program mid-year; remaining candidates are on track to complete Year 1 or Year 2 phases by May 2026. The district retained all but one participating teacher through the induction year, indicating that the coaching and mentoring structures are meeting the needs of early-career educators. Coaches integrated emerging tools, including AI-supported coaching conversations, to provide more targeted instructional guidance. Administrator observation data for induction candidates continued to inform program improvements, and candidates will complete an end-of-year survey to inform 2026–27 program design. By strengthening the quality and stability of instruction, the New Teacher Support Program supports student academic achievement in English Language Arts and Mathematics. In English Language Arts, districtwide performance improved to 0.2 points below standard, with English Learners improving from 58.4 to 51.5 points below standard, Foster Youth from 87.6 to 66.6, and Low-Income students from 26.3 to 24.2 points below standard. In Mathematics, performance held largely steady at approximately 38 points below standard districtwide, with English Learners improving from 85.1 to 79.4 points below standard, Low-Income students improving slightly (-64.4 to -63.2), and Foster Youth improving from 154.2 to 104.9 points below standard (M2.1). Site-level Smarter Balanced results reflected the same overall pattern of gains alongside subgroup variability across schools (M2.2–M2.11).

Effectiveness Determination: Building Toward Effective — New teacher induction is producing strong retention outcomes and sustained instructional support, while the slight decline in credentialed and appropriate assignment rates indicates that recruitment and retention efforts require renewed focus. Full effectiveness by Year 3 will depend on reversing the M3.1 trend and adapting induction support structures to the reduced staffing planned for 2026–27.

Equitable Access to Resources and Learning Environments (Actions 3.3, 3.4, 3.5, 3.6)

Equity in access remained a cornerstone of Goal 3 implementation in Year 2. Through Action 3.3, all secondary students and a majority of elementary and middle school students continued to have access to laptops and digital learning platforms, with technology infrastructure and helpdesk support maintained districtwide. Action 3.4 continued to distribute supplemental funding to every school through School Plans for Student Achievement (SPSAs), allowing site leaders to implement locally driven supports responsive to each site's data and community context.

Action 3.5 advanced facilities improvements targeted at Equity Support Program sites with high concentrations of unduplicated students, including the completion of the Mariposa Elementary outdoor learning space described above. These learning spaces support student engagement, provide flexible instructional environments, and offer spaces for students with specialized needs to reset and de-escalate.

Action 3.6 increased transportation capacity through expanded guaranteed driver hours, resulting in more successful driver hires and greater service coverage, though some routes remain waitlisted.

Districtwide, access metrics were sustained. All students continued to have access to board-adopted instructional materials aligned to state standards (M3.2), 100% of schools continued to meet "Exemplary" or "Good" standards on SARC Facility Inspection Tool reports (M3.3), and all students continued to have access to and enrollment in a broad course of study (M3.4). These foundational supports, including equitable technology, facilities, transportation, and a broad course of study, underpinned districtwide gains in attendance and reductions in chronic absenteeism across student groups, including English Learners, Foster Youth, and Low-Income students (M1.1, M1.2). They likewise supported academic achievement in English Language Arts and Mathematics. In ELA, districtwide performance improved to 0.2 points below standard, with English Learners improving to 51.5, Foster Youth to 66.6, and Low-Income students to 24.2 points below standard; in Mathematics, performance held steady at approximately 38 points below standard, with English Learners improving to 79.4, Foster Youth to 104.9, and Low-Income students improving slightly to 63.2 points below standard (M2.1). Site-level Smarter Balanced results reflected the same overall pattern of gains alongside subgroup variability (M2.2–M2.11). Reclassification continued to improve and the College/Career Indicator rose substantially for unduplicated student groups, each analyzed in detail under Goal 2 (M2.12, M2.13, M2.18, M2.25).

Effectiveness Determination: Effective — Actions 3.3 through 3.6 continued to deliver the materials, facilities, technology, and transportation access that make equitable participation in school possible. Full effectiveness by Year 3 will depend on continued facility investment, sustained transportation staffing, and reduction of waitlisted transportation routes.

Coordinated Services and Supports (Action 3.7)

Action 3.7 continued to coordinate the district's LCAP development, implementation, and monitoring across departments and educational partner groups. The LCAP Advisory process maintained full representation of educational partner groups, and the Student LCAP Advisory Committee continued to provide student voice from the three comprehensive high schools and Orangewood Continuation. District progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making, including families of unduplicated student groups and students with exceptional needs, was maintained at full implementation (M3.5).

Effectiveness Determination: Effective — Coordination across departments, sites, and educational partner bodies continues to produce transparent, responsive LCAP development and implementation.

Goal 3 Metric Reference Table

Action	Metrics
3.1 Recruitment and Retention of Qualified Staff	M3.1
3.2 New Teacher Support Program	M3.1, M2.1–2.11
3.3 Access to Internet and/or Devices	M3.2, M3.4, M2.1–2.11
3.4 Access and Opportunities	M1.1, M1.2, M2.1, M2.12, M2.13, M2.18, M2.25, M3.2, M3.4
3.5 Enhanced Facilities Projects	M1.1, M1.2, M3.3
3.6 Transportation	M1.1, M1.2
3.7 LCAP Program Coordination	M3.5

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on reflection on implementation, analysis of local data, and operational adjustments, a revision was made to Action 3.2 for the 2026–27 LCAP.

Planned staffing reductions anticipated for 2026–27 include the elimination of the Induction Lead Teacher on Assignment position supporting Action 3.2, and will require the Human Resources Division to redesign how induction support is delivered while maintaining program quality.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Recruitment and Retention of Qualified Staff	<p>The Human Resources Department will recruit, hire, and retain highly qualified, experienced staff for schools with the highest Unduplicated Pupil Percentage (UPP) to improve achievement in ELA, Math, and ELD. Although all students will benefit from an experienced staff, this action is principally directed at English Learners, Low-Income, and Foster Youth students.</p> <ul style="list-style-type: none"> • Provide staff to support hiring and retention of highly qualified staff: (e.g., personnel support staff) • Develop coaching and mentoring structures • Host recruitment fairs and actively seek experienced staffing candidates <p>The efficacy of this action will be reflected in these metrics: M2.1-2.11, M3.1</p>	\$1,353,126.00	Yes
3.2	New Teacher Support Program	<p>The Human Resources Division will support new teachers, especially those in schools with a higher Unduplicated Pupil Percentage (UPP), by bolstering the new teacher induction program, which includes professional development and evidence-based strategy modeling to improve student outcomes on state assessments. Although all students will benefit from well trained teachers, this action is principally directed at English Learners, Low-Income, and Foster Youth students.</p> <ul style="list-style-type: none"> • Provide staff to support new teachers: (e.g., support staff; hourly compensation for induction coaches) • Develop coaching and mentoring structures (training, professional development, induction support) <p>The efficacy of this action will be reflected in these metrics: M2.1-2.11, M3.1</p>	\$308,039.00	Yes
3.3	Access to Internet and/or Devices	<p>The Technology Services and Innovation, Technology, and Innovation Departments will supplement online programs and services to improve student achievement in ELA and Math by providing additional technology and support, above and beyond the Williams requirement. Although all students will benefit from additional support, this action is principally directed toward Low-Income students and Foster Youth.</p>	\$3,930,254.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Provide staffing to support technology (e.g., Director, systems and network specialists, helpdesk staff) • Provide access to online programs and services (i.e., Google, Gaggles, etc.) • Provide access to educational technology to support classroom instruction (i.e. laptops, tablets, desktops, Newline boards, etc.) <p>The efficacy of this action will be reflected in these metrics: M2.1-2.11, M3.2, M3.4</p>		
3.4	Access and Opportunities	<p>The Educational Services Division will provide site-based personnel, supplemental instructional programs and materials, technology, professional development, and parent-family engagement opportunities, based on the needs of individual schools as outlined in each school’s School Plan for Student Achievement (SPSA), to support and improve the English Language Arts and Mathematics instructional programs. To promote positive school climates, improve attendance, and reduce suspensions, plans will include strategies and activities to address social-emotional, behavioral, and mental health needs as identified through a comprehensive needs assessment. SPSAs are aligned to this LCAP. Although all students will benefit from access and opportunities, this action is principally directed at English Learners, Low-Income students, and Foster Youth.</p> <ul style="list-style-type: none"> • Provide staffing (i.e. administration, support staff, family engagement staff, teachers, aides, substitute teachers, extra hourly compensation) • Provide staff with training (i.e. conferences, consultants, books, coaching) • Provide instructional materials (i.e. instructional supplies, intervention consumable materials, technology) • Provide entrance fees and transportation costs for educational field trip opportunities <p>School Plans can be found here: https://www.redlandsusd.net/fs/resource-manager/view/f102e1f7-66d0-4c9d-b0a1-c3a5bc56edec</p>	\$3,469,495.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The efficacy of this action will be reflected in these metrics: M1.1, M1.2, M2.1, M2.12, M2.13, M2.18, M2.25, M3.2, M3.4</p>		
3.5	Enhanced Facilities Projects	<p>The Business Services Division will implement enhanced facilities projects to develop innovative learning spaces, such as Garner Holt labs, Z-Space labs, Outdoor Learning Spaces, and enhanced innovation library spaces, principally directed toward Equity Support Program (ESP) sites with high numbers of unduplicated student populations. These innovative learning spaces aim to create enthusiasm for learning, support student connectedness to school sites, and provide equitable access and opportunities for foster youth, English learners, and low-income students. Sites will be identified for these projects through the use of data on unduplicated student groups and achievement gaps. While all students will benefit from these innovative learning spaces, the action is principally directed to support the needs of foster youth, English learners, and low-income students by targeting schools with high concentrations of these student groups and addressing contributing factors to achievement gaps.</p> <ul style="list-style-type: none"> • Provide staffing (i.e., managers and support staff) • Provide materials and supplies (i.e., construction materials, technology, furniture) • Provide contracted services for facility improvement <p>The efficacy of this action will be reflected in these metrics: M1.1, M1.2, M3.3</p>	\$795,000.00	Yes
3.6	Transportation	<p>The Transportation Services Department will ensure access to in-person instruction by providing transportation services. Although all students will benefit from transportation services, this action is principally directed to Low-Income and Foster Youth students.</p> <ul style="list-style-type: none"> • Provide staff to support transportation (e.g., Director, drivers, bus aides, support staff) • Provide transportation (i.e., district transportation, city bus passes) <p>The efficacy of this action will be reflected in these metrics: M1.1, M1.2</p>	\$3,354,848.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.7	LCAP Program Coordination	<p>The District will provide staffing and resources to all Redlands USD educational partner groups to ensure equity in the development, implementation, and monitoring of the Local Control Accountability Plan to support the unique needs of and improve academic, SEL, and behavioral outcomes of low-income students, foster youth, and English learners.</p> <ul style="list-style-type: none"> • Provide staffing (i.e. Coordinator and support staff) • Provide materials and supplies <p>The efficacy of this action will be reflected in these metrics: M3.5</p>	\$312,893.00	Yes

Goals and Actions

DRAFT

Goal

Goal #	Description	Type of Goal
4	<p>By the end of the 2026–27 school year, Redlands Unified School District will reduce academic and college/career readiness gaps for underserved student groups at Orangewood High School, including Hispanic, Low-Income, and English Learner students, through targeted supports funded by the LCFF Equity Multiplier. Specifically, the school will:</p> <ul style="list-style-type: none"> -- Improve ELA average Distance from Standard by at least 15 points (Priority 4) -- Improve Math average Distance from Standard by at least 20 points (Priority 4) -- Increase the College/Career Indicator rate from 3% to at least 10% (Priority 8) -- Improve school attendance and school connectedness through behavioral, counseling, and social-emotional supports (Priorities 5 & 6) <p>This goal is designed to eliminate disparities in outcomes and ensure students most impacted by systemic barriers receive focused academic, social-emotional, and postsecondary readiness support.</p>	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The District identified this goal for continued focused attention based on analysis of available data from the California School Dashboard and ongoing input from educational partners at Orangewood High School. Site administration collaborated with Site Leadership, the School Site Council, and the Student Advisory Committee to review Dashboard data and educational partner feedback in order to identify areas of greatest need and to ensure Equity Multiplier resources remain aligned to students experiencing the greatest barriers to success. This goal continues to support the creation of a more equitable educational environment that recognizes and addresses the specific needs of Orangewood High School’s underserved student population, consistent with the intent and purpose of the LCFF Equity Multiplier.

Orangewood High School exited Comprehensive Support and Improvement (CSI) status during the 2025–26 school year and is currently in year 2 of Targeted Support and Improvement (TSI) based on the California School Dashboard. While improvements have occurred in

suspension and graduation outcomes, the 2025 California School Dashboard demonstrates that significant performance gaps remain in academic achievement and college and career readiness indicators, supporting the continued need for a focused Equity Multiplier goal.

Based on the 2025 California School Dashboard, Orangewood High School student groups continue to perform in the lowest performance range in the following indicators:

English Language Arts (ELA) – Distance from Standard

All Students: –86.1 points below standard

Hispanic Students: –82.7 points below standard

Low-Income Students: –83.6 points below standard

EL and L-TEL: Fewer than 11 students - data not displayed on the California School Dashboard for privacy

Mathematics – Distance from Standard

All Students: –190.2 points below standard

Hispanic Students: –181.8 points below standard

Low-Income Students: –184.6 points below standard

EL and L-TEL: Fewer than 11 students - data not displayed on the California School Dashboard for privacy

College/Career Indicator (CCI)

All Students: 1.5% prepared

Hispanic Students: 1.9% prepared

Low-Income Students: 1.5% prepared

EL and L-TEL: 0% prepared - student groups too small to have a performance color indicator on the California School Dashboard

Although progress has occurred in other indicators, academic performance and college and career readiness outcomes remain significantly below state standards for all students and for identified student groups. These results demonstrate the continued need for targeted academic intervention, structured monitoring of student progress, and increased engagement supports to improve achievement outcomes and readiness for postsecondary opportunities.

Educational partner input gathered through parent surveys, site leadership meetings, and the Student Advisory Committee consistently identified the need for increased academic support, stronger student connections to school, and expanded social-emotional and mental health supports to promote engagement and persistence toward graduation. Educational partners emphasized the importance of individualized academic planning, consistent monitoring of credit completion, and targeted instructional support to address learning gaps.

In response to these identified needs, Orangewood High School continues to implement a cohesive Multi-Tiered System of Supports (MTSS) framework supported through Equity Multiplier funding. The actions associated with this goal focus on academic case conferencing, credit recovery opportunities, targeted instructional support in English Language Arts and Mathematics, and culturally responsive engagement

strategies designed to improve student engagement and academic outcomes. These actions directly address the Dashboard indicators demonstrating the greatest need by increasing access to academic intervention and strengthening systems that support graduation and college and career readiness.

Equity Multiplier funds will continue to be used to increase and improve services beyond those provided districtwide by strengthening coordinated academic and social-emotional supports, improving monitoring of student progress toward graduation, and expanding opportunities for students to successfully complete coursework aligned with postsecondary pathways. The continuation of this focused goal ensures that resources remain targeted toward the student groups and performance indicators demonstrating the greatest need as identified through Dashboard data and educational partner input.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	Suspension Rate, Orangewood: Percentage of students suspended 1 or more times during the school year by student group Source: CA School Dashboard	2023 Dashboard ALL: 12.3% Hispanic: 12.6% Low Income: 11.9%	2024 Dashboard ALL: 5.9% Hispanic: 5.1% Low Income: 5.8%	2025 CA Dashboard ALL: 2.7% Hispanic: 2.5% Low Income: 3.1%	ALL: 5.5% Hispanic: 5.5% Low Income: 5.5%	Year 2 ALL: -9.6% Hispanic: -10.1% Low Income: -8.8%

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The implementation of Goal 4 actions at Orangewood High School during the 2025-2026 school year aligned closely with planned objectives, successfully leveraging LCFF Equity Multiplier funds to address educational disparities. School climate continues to increase significantly, driven largely by the intensified focus on Tier I supports.

Tier I: Behavioral and Attendance Supports (Action 4.1) This action was fully implemented and yielded substantial improvements in the school environment. The comprehensive tiered support system, combined with effective alternative suspension practices, directly contributed to stabilizing our reduced suspension rates and steadily decreasing our chronic absenteeism. Additionally, our continued community engagement strategies helped to stabilize our parent and caregiver involvement for Back to School Night and Open House. Our community service requirement of all seniors added more than 1,000 hours of community service within the local community.

Tier II & III: Counseling and Mental Health (Actions 4.2 & 4.3) Tiered interventions remained a cornerstone of the site's success. Tier II Counseling Supports (Action 4.2) were executed as planned. The MTSS team met regularly to provide focused interventions for credit recovery, mental health, and academic needs, utilizing small-group sessions and individual counseling to boost student well-being. Tier III Social-Emotional Supports (Action 4.3) were successfully implemented, with personalized SEL support fostering stronger staff-student relationships and connecting high-needs students to critical external resources.

Professional Development (Action 4.4) Adjustments were made to the delivery of professional learning to better suit site needs. Action 4.4 was implemented with a focus on internal capacity building; professional development took place on campus with direct support from teacher leads. This site-based approach ensured that training was immediately applicable and responsive to the specific dynamics of the Orangewood classroom, rather than relying solely on external funding sources or off-site conferences.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For Goal 4, there was one material difference between budgeted and actual expenditures. Supplemental Professional Development (Action 4.4) was implemented using a site-based model, where training was delivered on campus by teacher leads rather than through external providers or off-site conferences. Because this internal approach did not require the originally projected Equity Multiplier allocation, the funds will be carried into the 2026-2027 school year to support the new action related to College & Career Readiness. All other actions under Goal 4 were implemented as planned and closely aligned with budget projections.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Based on a review of 2025 outcome data and implementation evidence, the actions included in Goal 4 were effective in improving several key student outcomes at Orangewood High School, particularly in the areas of suspension, graduation, school climate, and academic achievement. Some actions demonstrated partial effectiveness, indicating areas for continued refinement.

Action 4.1 (Tier I Behavioral and Attendance Supports) – Effective

Action 4.1 was effective in reducing suspension rates and improving school climate through the implementation of schoolwide behavioral supports and alternative discipline practices.

Suspension Rate (Metric 4.1): Decreased from 12.3% to 2.7% (–9.6 percentage points) overall, with reductions for Hispanic students (–10.1 points) and Low-Income students (–8.8 points).

School Climate (Metric 4.4): Increased from 84% to 88% favorable (+4 percentage points).

While overall attendance (Metric 4.5) declined from 86.1% to 84.2% (–1.9 points), increases for African American students (+4.2 points) and English Learners (+2.9 points) suggest that Tier I engagement strategies were effective for some student groups. Continued attention to universal attendance strategies is needed.

Action 4.2 (Tier II Targeted Supports) – Effective

Action 4.2 was effective in improving outcomes for identified student groups through targeted interventions and progress monitoring.

Graduation Rate (Metric 4.2): Increased from 57.1% to 85.7% (+28.6 percentage points) overall, with gains for Hispanic students (+28.2 points), Homeless Youth (+30.4 points), and Low-Income students (+29.4 points).

Attendance (Metric 4.5): Targeted gains for African American students (+4.2 points) and English Learners (+2.9 points) indicate that Tier II supports contributed to improved engagement for specific student groups.

These data indicate that targeted supports were effective in improving student persistence and completion outcomes.

Action 4.3 (Tier III Intensive Supports) – Effective

Action 4.3 was effective in supporting students with the highest needs through individualized interventions and intensive case management.

Graduation Rate (Metric 4.2): Significant increases for Homeless Youth (+30.4 points) and Low-Income students (+29.4 points) indicate that intensive supports contributed to improved outcomes for highly vulnerable student groups.

College/Career Indicator (Metric 4.3): Increased from 1.3% to 1.5% overall,. Growth from the Baseline to Year 2 was limited (+0.2 percentage points), indicating that while initial gains were strong, continued focus is needed.

These results suggest that intensive supports were effective in improving graduation outcomes, with partial effectiveness in sustaining growth in college and career readiness.

Action 4.4 (Professional Development and MTSS Implementation) – Effective

Action 4.4 was effective in building staff capacity to implement instructional and intervention strategies aligned to MTSS, contributing to improved academic outcomes.

ELA Achievement (Metric 4.6): Improved from –128.2 to –86.1 (+42.1 points) overall, with gains for Hispanic students (+56.4 points) and Low-Income students (+45.7 points).

Math Achievement (Metric 4.7): Improved from –212.4 to –190.2 (+22.2 points) overall, with gains for Hispanic students (+40.6 points) and Low-Income students (+25.1 points).

These data indicate that professional development and instructional supports contributed to measurable academic improvement.

Overall Determination of Effectiveness

Overall, the actions included in this Equity Multiplier goal were effective in improving student outcomes at Orangewood High School. Significant progress was observed in reducing suspension rates, increasing graduation rates, improving school climate, and strengthening academic performance.

At the same time, attendance and college/career readiness outcomes indicate areas of partial effectiveness, requiring continued focus to ensure consistent improvement across all student groups. Continued implementation and refinement of these actions will support sustained progress toward long-term goals.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Drawing upon findings from the 2025 California School Dashboard, which revealed critical gaps in the College and Career Indicator (CCI), Orangewood High School (OHS) will evolve its support structure. While the site will maintain the successful behavioral and attendance components of the Multi-Tiered System of Support (MTSS) that have improved school climate, the 2026–27 plan includes a strategic expansion into academic acceleration.

Action 4.4 as written in the 2025-26 plan will be discontinued. The District is supporting the professional development needs of Orangewood High School using alternative funding.

Therefore, Action 4.4 will be changed to secure staffing dedicated to the implementation and management of Dual Enrollment courses on campus. By embedding college-level coursework directly into the OHS schedule, the school aims to remove transportation and administrative barriers for students. This action is explicitly designed to increase the percentage of students graduating as "Prepared" on the Dashboard by ensuring they earn college credit prior to graduation, thereby directly addressing the disparities identified in the CCI data. This action is in direct response to student request to expand offerings at Orangewood High School. While dual enrollment has been offered at the comprehensive high school sites, OHS has been focused on credit recovery and preparing students to return to their school of residence. However, input from the educational partners, including students, supports adding this supplemental opportunity to increase student success.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Tier I: Behavioral and Attendance Supports	<p>Orangewood High School will develop and implement Tier I behavior and attendance supports for all students designed to reduce the rate of suspension and increase attendance.</p> <ul style="list-style-type: none"> • Provide additional staff to coordinate implementation (e.g. Assistant Principal, counselor) • Develop and implement Tier 1 supports • Implement alternatives to suspension, restorative justice, and attendance recovery procedures <p>The efficacy of this action will be reflected in these metrics: M4.1, M4.5</p>	\$270,000.00	No

Action #	Title	Description	Total Funds	Contributing
4.2	Tier II: Counseling Supports	<p>Orangewood High School will develop and implement Tier II counseling supports for all students designed to increase attendance and promote student well-being leading to increased engagement. OHS will hire an additional 60% counselor to serve all students at the site level like the service of the Academic Case Carriers (Action 1.5) at the district level. This focused and readily available support will be able to address the immediate and unique needs of students attending continuation high school.</p> <ul style="list-style-type: none"> • Provide supplemental staffing (e.g. 60% FTE counselor, additional hourly compensation for support staff) • Provide tiered interventions including enhanced communication, counseling, access to SEL and mental health supports, and meeting with administration • Support positive attendance (i.e. Attendance committee, incentives) • Provide materials and supplies for adequate program facilitation <p>The efficacy of this action will be reflected in these metrics: M4.1-M4.5</p>	\$10,480.00	No
4.3	Tier III: Social-Emotional and Mental Health Supports	<p>Orangewood High School will provide Tier III social-emotional and mental health support on campus for all students designed to promote student well-being leading to increased engagement. These on-campus Tier III supports are in addition to existing district-level supports.</p> <ul style="list-style-type: none"> • Provide support materials and supplies <p>The efficacy of this action will be reflected in these metrics: M4.4</p>	\$8,000.00	No
4.4	College and Career Readiness	<p>Orangewood High School will develop and implement Dual Enrollment opportunities designed to increase access to college-level coursework and improve college and career readiness outcomes for students attending a continuation high school. Supplemental Dual Enrollment opportunities will support students in earning college credit while completing high school requirements and increase the number of students graduating “Prepared” as measured by the California College and Career Indicator.</p>	\$120,000.00	No

Action #	Title	Description	Total Funds	Contributing
		<p style="text-align: center; font-size: 48px; opacity: 0.3; font-weight: normal;">DRAFT</p> <ul style="list-style-type: none"> • Provide supplemental Dual Enrollment courses in partnership with Crafton Hills College • Provide coordination and support for student enrollment, academic advising, and progress monitoring • Provide supplemental staffing necessary to implement Dual Enrollment opportunities <p>The efficacy of this action will be reflected in these metrics: M4.2, M4.3, M4.6 & M4.7</p>		

Goals and Actions

DRAFT

Goal

Goal #	Description	Type of Goal
5	<p>Redlands Unified School District will leverage the LCFF Equity Multiplier funds to systematically address the educational disparities and barriers faced by underserved students, including low-income students, English learners, students with disabilities, African-American students, and foster youth, thereby promoting academic achievement and well-being for all students in District programs including Redlands Independent Study Education (RISE) and Home/Hospital Education (HHE) by the end of the 2026-2027 school year.</p> <p>Since "District Programs" is not a school site identified on the California Schools Dashboard, local data was compiled and reviewed. The need to support positive attendance was identified. Progress will be monitored through Metrics 5.1 and 5.2.</p> <p>Attendance Rates: Home/Hospital Education - All students, Low-Income students, English Learners, Foster Youth, African American students, and Students with Disabilities (metric 5.1) Redlands Independent Study (RISE) - African American students (metric 5.1)</p> <p>Chronic Absenteeism (elementary only for RISE): All, Low-Income students, and African American students (metric 5.2)</p>	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The district implemented an electronic exchange via ThoughtExchange in January 2025 to gather input from educational partners in District Programs identified to receive Equity Multiplier funds. This platform facilitated ongoing feedback and collaborative processing of community thoughts and ideas regarding the status, growth, and needs of the students and the educational programs offered. Educational partners, including parents, community members, staff (classified, certificated, management), and students, actively participated in this exchange. Program administrators reviewed the results, which highlighted needs and areas for improvement that educational partners rated highly. Social-emotional and mental health supports were identified as highly important by all groups.

Given that a significant portion of the District Programs population comprises students in Home/Hospital Education, collaboration between site administration, Health Services, and Special Services, including the Special Education Parent Advisory Committee, provided crucial insights. Input from East Valley SELPA, Redlands Special Services, and local medical facilities highlighted the need to enhance timely

communication with residential medical facilities within the district boundaries to ensure that eligible students receive the appropriate supports and services promptly.

The district identified this goal for focused attention based on the analysis of available data and comprehensive input from educational partners. Since "District Programs" is not a school site identified on the California Schools Dashboard, local data was compiled and reviewed. Need can be identified in the following areas for the student groups listed.

Attendance Rates:

Home/Hospital Education - All students, Low-Income students, English Learners, Foster Youth, African American students, and Students with Disabilities (metric 5.1)

Redlands Independent Study (RISE) - African American students (metric 5.1)

Chronic Absenteeism (elementary only for RISE): All, Low-Income students, and African American students (metric 5.2)

Suspension Rates:

Home/Hospital Education - While it seems that low-income students have a disproportionately high suspension rate, it must be noted that the population is too small for the data to be significant (metric 5.5)

RISE - All students, While it seems that English learners and Students with Disabilities have a disproportionately high suspension rate, it must be noted that the population is too small for the data to be significant (metric 5.5)

The analysis revealed the need for increased and improved support in positive attendance rates, which can be considered when reviewing the Chronic Absenteeism Indicator of the California School Dashboard.

The actions of this goal aim to address this need through the addition of staff dedicated to outreach, communication, counseling, and tiered supports. Furthermore, tiered interventions, including the availability of tutoring, will promote academic progress and facilitate smooth transitions back to comprehensive school sites. By the nature of the Independent Study and Home/Hospital Education programs, academic progress and attendance are highly correlated. As such, positive progress noted in attendance will also indicate academic progress.

By incorporating the valuable feedback from educational partners, the district aims to create a more equitable educational environment that recognizes and addresses the specific challenges faced by the underserved student population in district programs, aligning with the principles of the LCFF Equity Multiplier. No new consultation required because District Programs are no longer eligible for Equity Multiplier funding and the original allocation has been fully expended.

The Equity Multiplier Funds for this goal have been fully expended. While the actions of this goal will not continue in the 2026-2027 LCAP, some of the supports will be integrated into the other goals of the plan (see Action 1.13).

		<p>meets their child’s academic and social-emotional needs.</p> <p>88.9% of parents are likely to recommend the program to other families.</p> <p>*Baseline established Spring 2025</p>	<p>provided to their student.</p> <p>66.7% of parents believe the program meets their child’s academic and social-emotional needs.</p> <p>88.9% of parents are likely to recommend the program to other families.</p> <p>*Year 1 serves as the establishing administration = baseline</p>	<p>provided to their student.</p> <p>100% of parents believe the program meets their child’s academic and social-emotional needs.</p> <p>100% of parents are likely to recommend the program to other families.</p>	<p>80% of parents believe the program meets their child’s academic and social-emotional needs.</p> <p>95% of parents are likely to recommend the program to other families.</p>	<p>provided to their student.</p> <p>+33.3% of parents believe the program meets their child’s academic and social-emotional needs.</p> <p>+11.1% of parents are likely to recommend the program to other families.</p>

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2025–2026 school year, all four actions in Goal 5 were fully implemented in support of students enrolled in Redlands Independent Study Education (RISE) and Home/Hospital Education (HHE). This was the final year of LCFF Equity Multiplier funding for District Programs, and the staffing, intervention, instructional, and material-support structures established in 2024–2025 were sustained through 2025–2026. Action 5.1 staff continued to coordinate enrollment and services with local medical facilities and community agencies for HHE-eligible students. Action 5.2 program facilitators, counselors, and support staff maintained tiered interventions, family communication, and access to social-emotional and mental health supports across both programs. Action 5.3 delivered scheduled and on-demand tutoring for students in RISE and HHE, with priority for students performing below grade level. Action 5.4 supplied the supplemental instructional materials, intervention resources, and technology used in both programs. Tiered intervention implementation (M5.3) remained at full implementation as confirmed by the third-quarter local survey.

There were no instances during 2025–2026 in which a planned Goal 5 action was not implemented or was implemented in a manner that differed substantively from how it was described in the adopted LCAP. The principal implementation challenge in 2025–2026 stemmed from the inherent population dynamics of Independent Study and Home/Hospital Instruction. Both programs serve small, highly mobile student populations whose enrollment shifts continuously throughout the year as students enter for medical, family, or programmatic reasons and exit back to comprehensive school sites, transfer out, or graduate. This fluctuation affects the consistency of services delivered to any given cohort and produces significant variability in metric values from one reporting period to the next, particularly for student groups whose n-size in District Programs is small. Notable implementation successes for Year 2 included sustained operation of the community-agency communication structures established in Year 1, continuous tiered-intervention coverage across both programs, and uninterrupted delivery of tutoring and enrichment services through the close of the Equity Multiplier funding period.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For Goal 5 in 2025–2026, there were no material differences between Budgeted Expenditures and Estimated Actual Expenditures for any of the four actions; each was implemented at the planned expenditure level. The Equity Multiplier funds carried forward from 2024–2025 were fully expended by the close of the year, completing the multi-year allocation as adopted in the LCAP. The component of this prompt addressing Planned Percentages of Improved Services does not apply to Goal 5, as none of the four actions are designated as contributing.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

This goal is in Year 2 of a three-year cycle. The four Goal 5 actions are assessed below in two clusters that group related strategies, with effectiveness determined against the metrics each action's description identifies. The full action-to-metric crosswalk appears in the Goal 5 Metric Reference Table at the close of this analysis.

Community Connections and Program Support (Actions 5.1 and 5.2)

These actions provided the staffing and tiered-intervention infrastructure for District Programs: Action 5.1 maintained communication and coordination with medical facilities and community agencies for HHE enrollment; Action 5.2 funded the program facilitator, counselor, and support staff who delivered family communication, social-emotional and mental health supports, and tiered interventions in both RISE and HHE.

For HHE, the Year 2 attendance data (M5.1) shows continued progress overall, with the all-students rate moving from 73.6% (baseline) to 80.0% (Year 1) to 81.3% (Year 2), and English Learner attendance rising from 64.5% to 100% across the same period. Students with Disabilities attendance reached 83.5%, approaching the Year 3 target of 85%. Two HHE student groups moved away from target in Year 2: African American attendance fell from 77.2% to 59.3%, and the Foster Youth value reported as 0.0% reflects an n-size too small to be meaningful. For RISE, African American attendance gained substantial ground, moving from a baseline of 80.4% to 92.9% in Year 2. RISE chronic absenteeism (M5.2) is the primary area of concern: the elementary all-students rate moved from 41.2% to 21.4% in Year 1 and reversed to 47.8% in Year 2 — above baseline and well off the Year 3 target of 9%. RISE suspension rate (M5.5) remains substantially below baseline at 3.7% (down from 5.2%), and HHE suspension rose to 4.3% from a 2024-25 low of 1.5%. Tiered-intervention implementation (M5.3) was confirmed at full implementation.

Effectiveness determination for Actions 5.1 and 5.2: Partially Effective. The infrastructure these actions established is producing sustained gains in HHE attendance overall and meaningful gains for two RISE and HHE student groups previously identified as needing focused support (HHE English Learners and RISE African American students). However, the actions have not produced consistent progress toward the Year 3 chronic-absenteeism target for RISE elementary, and HHE attendance for African American students moved away from target in Year 2. The volatility of metric values reflects in part the small, mobile populations these programs serve, but the M5.2 reversal is significant enough that the District is integrating the staffing and outreach functions of these actions into Action 1.13 (Targeted Attendance Support) for 2026-27, as discussed in Prompt 4.

Academic Intervention and Enrichment (Actions 5.3 and 5.4)

Action 5.3 provided scheduled and on-demand tutoring and the staffing and instructional space to deliver it; Action 5.4 supplied the technology, instructional materials, and supplemental intervention resources used across both programs.

The RISE exit rate (M5.4) — the percentage of students returned to their home school during the year, moved from 90.9% at baseline to 76.7% in Year 1 to 61.2% in Year 2, well past the Year 3 target of 50%. This indicates strengthening program stability and a closer match between students' programmatic needs and the services RISE delivers. Tiered-intervention implementation (M5.3) remained at full implementation. Suspension rates referenced under these actions (M5.5) remained substantially below baseline for RISE; HHE suspension rose to 4.3% as noted above. Attendance and chronic absenteeism outcomes (M5.1, M5.2) are addressed in the cluster above.

Effectiveness determination for Actions 5.3 and 5.4: Effective. The exit rate result demonstrates that the academic-intervention and enrichment infrastructure is producing the program-stability outcome the action was designed to support, and tiered-intervention implementation has held at full implementation across both years. The parent satisfaction with academic support metric is approaching its Year 3 target, and the academic and social-emotional needs item is the principal area where additional progress is needed in the closing year of the cycle.

Goal 5 Metric Reference Table

Action Title	Metrics
5.1 Community Connections	M5.6
5.2 Program Facilitation and Tiered Interventions	M5.1–M5.6
5.3 Additional Instructional Opportunities	M5.3, M5.4, M5.6
5.4 Academic Intervention and Enrichment	M5.1–M5.6

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 5 will not continue beyond the 2026–2027 LCAP. The LCFF Equity Multiplier funds that supported this goal — designated for District Programs (RISE and Home/Hospital Education) based on 2024–2025 eligibility — have been fully expended over the two-year implementation period. With the funding source closed, the goal as constituted will sunset at the conclusion of the current three-year LCAP cycle. No changes have been made to the Goal statement, the four actions, the metrics, or the Year 3 target outcomes for the closing year, so that the goal can be reported against on its original terms.

Identification of an action that has not proven effective and the new or strengthened approach. The Year 2 reversal in RISE elementary chronic absenteeism (M5.2) — from 21.4% in Year 1 to 47.8% in Year 2, against a Year 3 target of 9% — places the attendance-focused components of Actions 5.1 and 5.2 in the category of actions that have not, over the three-year period, produced the targeted result on this

metric. The reasons for the limited effectiveness on M5.2 reflect the structural realities of small, mobile alternative-education populations and the constraint that Equity Multiplier funding for District Programs was time-limited and is now expended; sustained, district-wide attendance infrastructure was not within the scope of these actions to provide.

The new and strengthened approach for 2026–2027 and forward is the integration of the attendance-related staffing and outreach functions developed under Goal 5 into Action 1.13 (Targeted Attendance Support) in the broader LCAP. Action 1.13 is funded through LCFF Supplemental and Concentration Grants as a contributing action principally directed to English Learners, Low-Income students, and Foster Youth, and it places attendance staff at all school sites, including support that reaches students enrolled in District Programs. This integration moves attendance support for RISE and HHE students from a time-limited, program-specific funding stream onto a sustained, LEA-wide funding base, and it places the function within an action whose effectiveness is monitored against the full M1.1–M1.19 attendance metric set. The integration is consistent with the supplement-not-supplant requirement: it is occurring as Equity Multiplier funding for District Programs concludes, not in place of EM funding, and Action 1.13 was already established in the LCAP as an LCFF-funded contributing action.

Notes on the metric table for the closing year. No new metrics or student groups have been added to Goal 5 for 2026–2027, and no Year 3 target outcomes have been revised. Two reporting notes apply to the Year 2 outcomes: the M5.1 HHE Foster Youth value of 0.0% and the M5.1 RISE Foster Youth value of 78.5% reflect n-sizes too small to be considered statistically meaningful, consistent with the cohort fluctuations described in Prompt 1; these values are reported as required but should be interpreted with that caveat. No asterisk-based target adjustments were applied, as the Year 3 targets remain those adopted in the 2024–2025 LCAP.

The Action table for Goal 5 is left blank intentionally for the 2026-2027 school year.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
----------	-------	-------------	-------------	--------------

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2026-27]

Total Projected LCFF Supplemental and/or Concentration Grants	Projected Additional 15 percent LCFF Concentration Grant
\$44,724,863	\$16,055,217

Required Percentage to Increase or Improve Services for the LCAP Year

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Tiered Social-Emotional and Mental Health Supports</p> <p>Need: Educational partners highlighted the need for robust mental health resources. In response, this action is dedicated to social-emotional and mental health support to provide more comprehensive services, including the hiring of specialized staff and the provision of targeted</p>	<p>To effectively support socio-economically disadvantaged students, foster youth, and English learners, recent studies underscore the importance of social-emotional education and mental health support. Research consistently demonstrates that Social-Emotional Learning (SEL) programs significantly enhance academic achievement, social behavior, and emotional well-being, fostering a conducive learning environment. SEL programs have been proven to boost academic performance, engagement, and social</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>professional development. An analysis of current data supports the need for improved services as mental health and social-emotional needs often create a barrier to positive school attendance. Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Scope: LEA-wide</p>	<p>competencies, which contribute to reduced behavioral issues and improved classroom dynamics (Durlak et al., 2011; Jones et al., 2017). Tiered mental health supports, facilitated through interventions like the School-Wide Positive Behavioral Interventions and Supports, show positive outcomes in student behavior and teacher-student interactions (Bradshaw et al., 2010; Atkins et al., 2010). Professional development for teachers enhances their social and emotional competence, crucial for fostering a positive classroom environment (Jennings & Greenberg, 2009). The effectiveness of SEL instructional materials and programs for early education settings is well-documented, particularly in benefiting targeted student groups (CASEL, 2013). A 2024 report by the Learning Policy Institute synthesizes data from multiple meta-analyses, affirming the broad impact of SEL across all educational levels on academic and social outcomes. Yale School of Medicine's 2023 study further supports the critical role of SEL in addressing the mental health crisis among youth, emphasizing its substantial benefits in academic performance and student well-being. The Education Development Center (2021) discusses the long-term benefits of SEL, including career and family success, highlighting the importance of integrating community and family in SEL efforts. CASEL's 2024 guidance on advancing SEL stresses the need for systemic integration into school culture, continuous professional</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>development, and community involvement for sustainable implementation.</p> <p>SEL and mental health supports play a critical role in improving educational outcomes and addressing broader social and emotional challenges among vulnerable student populations. This action is a part of the district's overall effort to improve the culture and climate of the district at the classroom, school, and community levels. Together with actions 1.2 and 1.4, this action is focused on providing both students and staff the training, skills, and tools they need to establish and maintain a positive school climate and culture. It also intended to develop each individual's social and emotional capacity to be successful in college, career, and life. While a positive school culture and climate are important, they are particularly important for unduplicated pupils who have historically experienced and continue to experience disproportionate discipline and other unhealthy impacts of a negative school climate and culture. Research shows that adverse childhood experiences (ACEs) disparately affect student groups, including foster youth, students from low-income families, including students experiencing homelessness. Furthermore, students and their families who reside in low-income neighborhoods are more vulnerable to the effects of ACEs on students' social-emotional learning and mental and physical health (Goldstein, 2020). Through these actions and services, data will demonstrate an increase in school connectedness and attendance for unduplicated student groups. This action includes Tier III staff operating from the District office to</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>provide targeted and specialized support to school sites, professional development, social-emotional curriculum, and mental health support materials. Additionally, this action includes mental health associate clinicians who are able to provide intensive counseling and therapy to students in need.</p> <p>Fostering positive school climates and attending to students' social-emotional needs is crucial across all campuses. However, this action principally provides tiered supports tailored to the trauma, stressors, and inclusion challenges disproportionately faced by foster youth, English learners, and low-income groups. An LEA-wide structure ensures consistent implementation of evidence-based SEL curricula and intervention protocols districtwide. It enables equitable distribution of specialized mental health staffing based on student need data. Centralized resources facilitate procurement and staff training specific to unduplicated pupils' experiences. Though benefiting all students, an LEA-wide approach systematically cultivates positive school environments validating high-need populations. This cohesive model proactively increases attendance, connectedness, and achievement among vulnerable groups.</p>	
1.2	<p>Action: Positive Behavior Supports</p> <p>Need: Analysis of disciplinary data reveals that unduplicated student groups, particularly foster youth and low-income students, are disproportionately subject to school discipline. This pattern indicates a need for behavioral</p>	<p>To enhance school climate and decrease suspension rates among socio-economically disadvantaged students, foster youth, and English learners, Positive Behavioral Interventions and Supports (PBIS) have proven effective. The research supports the implementation of PBIS, indicating significant improvements in student behavior and school safety.</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>interventions that address underlying causes rather than punitive measures. A review of available data from the 2023 CA School Dashboard shows a disparity between unduplicated student groups and the overall district average in suspension rates. Additionally, while the suspension rate for English Learners is equal to all students, it is a higher rate than the state average of 3.5%. The suspension rate for all students and for English Learners was 4.5%, Foster Youth faced a much higher rate at 9%, and Low-Income students were also higher at 5.6%. Educational Partner input continues to support the addition of the Positive Behavior and Supports (PBIS) initiative at all levels to improve school climate and increase student engagement.</p> <p>Scope: LEA-wide</p>	<p>Studies indicate that PBIS implementation in elementary and middle schools significantly reduces disciplinary referrals and promotes a positive school environment (Bradshaw et al., 2008; Simonsen et al., 2008). The adoption of PBIS has been linked to an increase in prosocial behaviors and academic achievement through professional development and training (McIntosh et al., 2009). Technological tools and materials supporting PBIS, such as apps and educational materials, facilitate effective implementation and help maintain low rates of office discipline referrals (Sugai & Horner, 2009; McIntosh et al., 2013). The Center on PBIS in 2024 emphasized PBIS's role in creating equitable and positive school environments, demonstrating its effectiveness across various U.S. schools. In 2024, a significant federal investment of \$21 million was allocated to enhance PBIS programming, reflecting strong governmental support for its role in improving educational outcomes (UConn Today, 2024). Recent randomized controlled trials (RCTs) and comprehensive studies have shown that PBIS not only improves overall school climate and classroom management but also enhances academic performance, particularly for students with behavioral challenges (Center on PBIS, 2023).</p> <p>These findings highlight PBIS as an essential framework for fostering better behavioral and academic outcomes, making it a critical component of strategies aimed at supporting vulnerable student populations. This action is a</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>part of the district's overall effort to improve the culture and climate of the district at the classroom, school, and community levels. Together with actions 1.1 and 1.4, this action is focused on providing both students and staff the training, skills, and tools they need to establish and maintain a positive school climate and culture. This strategy, particularly focused on supporting Foster Youth, English Learners, and Low-Income students, includes the provision of specialized Tier 3 staffing such as a BCBA coordinator and paraprofessionals. Additionally, the district will invest in professional development and training for staff, subscriptions to key resources like PBIS Apps and 5Star, and the necessary materials and supplies to ensure the effective implementation and sustainability of these positive behavior supports and services.</p> <p>Promoting positive student behaviors and school connectedness is essential across all campuses. However, this action principally provides multi-tiered systems of support tailored to the challenges disproportionately faced by foster youth, English learners, and low-income students in feeling engaged. An LEA-wide approach enables consistent implementation of evidence-based PBIS frameworks and data tracking districtwide. It facilitates equitable access to engagement resources like clubs/activities and specialized behavior intervention staffing. Centralized oversight allows for strategic deployments based on disciplinary and participation data around high-need groups. Though benefiting all students, an LEA-wide structure systematically fosters inclusive, supportive school climates for underserved</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		populations. This cohesive model increases attendance, decreases suspensions, and improves overall outcomes for these vulnerable student groups.	
1.3	<p>Action: Restorative Practices</p> <p>Need: Disproportionate rates of suspensions among unduplicated student groups highlight a critical need for equitable disciplinary practices. Restorative practices are identified as a need based on the disciplinary data and feedback from community focus groups emphasizing the importance of non-punitive discipline methods. A review of available data from the 2023 CA School Dashboard shows a disparity between unduplicated student groups and the overall district average in suspension rates. The suspension rate for all students and for English Learners was 4.5%, Foster Youth faced a much higher rate at 9%, and Low-Income students were also higher at 5.6%. Additionally, while the suspension rate for English Learners is equal to all students, it is a higher rate than the state average of 3.5%. Educational Partner input continues to support the implementation of Restorative Practices at all levels to improve school climate and increase student engagement with the feedback from high school students expressing the need for increased use of strategies.</p> <p>Scope:</p>	<p>To address conflicts and reduce suspension rates, particularly among socio-economically disadvantaged students, foster youth, and English learners, the implementation of restorative practices has proven effective. The following research highlights the positive outcomes associated with restorative practices in educational settings: Case studies and quasi-experimental studies illustrate that restorative practices significantly reduce school suspensions and enhance the school climate by promoting positive student behavior (Hopkins et al., 2016; Morrison et al., 2018). Professional development and training resources such as restorative circles facilitate the successful adoption of these practices, aiding in community building and conflict management within schools (Wachtel & McCold, 2014; Thorsborne & Blood, 2013). Materials and guides for implementing restorative practices are crucial, providing educators with the necessary tools to conduct restorative circles and conflict resolution activities effectively (Hopkins et al., 2016). A 2023 study by the University of Chicago Education Lab confirmed that restorative practices in Chicago Public Schools effectively reduce suspensions and arrests, positively influence school climate, and notably reduce racial disparities in discipline.</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	<p>The Learning Policy Institute in 2023 highlighted the broader benefits of restorative practices, including improved academic engagement and performance, particularly among racially marginalized student groups, thereby addressing systemic inequities.</p> <p>Restorative practices are effective in creating safer, more inclusive school environments. The evidence strongly supports the inclusion of restorative practices in strategies aimed at improving disciplinary outcomes and relationships in schools serving vulnerable student populations. Learning in Safe and Secure Environments is one of the five initiatives outlined in the Redlands 2025 vision. This goal provides additional staff and programmatic support at schools with high numbers of unduplicated student groups. Additional staffing provides more access to resources and support to vulnerable populations, such as foster youth, English learners, and students in low-income families, who are disproportionately affected by adverse conditions. Restorative Practices strategies used by these staff members address the limited sense of belonging and school connectedness that unduplicated pupils experience, which stems at least partly from the dissonance between their learning opportunities and their lived experiences. Developing restorative discipline approaches benefits school climates across the district. However, this action principally provides training and systems to support foster youth, English learners, and low-income students disproportionately impacted by adverse childhood experiences (ACEs). An LEA-wide model ensures consistent implementation of evidence-based</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>restorative justice protocols districtwide. It allows for equitable deployment of specialized staff based on data around high-need populations. Centralized resources facilitate procurement and staff development tailored to unduplicated pupils' trauma-informed needs. Though benefiting all students, an LEA-wide structure systematically builds positive relationships and alternatives to punitive discipline for vulnerable groups. This cohesive approach proactively improves school connectedness, reduces suspensions, and increases achievement for high-risk populations.</p>	
<p>1.4</p>	<p>Action: Comprehensive School Counseling Program</p> <p>Need: Data from academic performance and student surveys indicate that unduplicated students, including English learners and low-income students, face unique challenges in academic planning and emotional support which affect their school performance and post-secondary readiness. Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated</p>	<p>This action is a part of the district's overall effort to improve the culture and climate of the district at the classroom, school, and community levels. Together with actions 1.1 and 1.2, this action is focused on providing both students and staff the training, skills, and tools they need to establish and maintain a positive school climate and culture. A comprehensive approach focused on American School Counselor Association (ASCA)-aligned school counseling programs enhances the support structures in schools This approach is designed to provide data-driven, tiered support systems that encompass Academics, Social Emotional Learning, and College/Career Readiness, ensuring a holistic development approach for students. Included in this action is the provision of professional development and support for all counselors, enabling them to effectively implement and manage these ASCA-aligned programs. To specifically address the needs of unduplicated student groups, including English Learners, Low-Income students, and Foster Youth, the plan includes site-based counseling support. These supports are geared towards offering Tier 2</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below.</p> <p>Educational partners strongly support the continued implementation of a Comprehensive Counseling Program as input emphasizes the importance of addressing both the academic and mental/wellness health needs of our students to ensure they remain in school and actively engaged in learning.</p> <p>Scope: LEA-wide</p>	<p>services such as at-risk conferencing, college and career awareness activities, and focused social-emotional learning groups, all aimed at enhancing student connectedness and improving attendance rates.</p> <p>The implementation of a Comprehensive School Counseling Program is aimed at improving attendance and academic performance, particularly focusing on low-income students, foster youth, and English learners. Here's a summary of key research findings supporting this initiative:</p> <p>Lapan et al. (2012) provide an overview of comprehensive school counseling programs, noting their significant impact on academic achievement and attendance.</p> <p>Sink and Stroh (2003) discuss the effectiveness of the Recognized ASCA Model Program (RAMP) in enhancing school counseling services, leading to improved student outcomes.</p> <p>Carey and Dimmitt (2012) demonstrate that increased counseling staffing correlates with improved student outcomes, such as academic achievement and regular attendance.</p> <p>Whiston et al. (2017) confirm the efficacy of school counseling interventions in boosting school success metrics, including academic and attendance rates.</p> <p>The ASCA National Model outlines essential materials and resources needed to implement effective school counseling programs, which include tools for academic conferencing, college and career readiness, and social-emotional learning.</p> <p>Dollarhide and Lemberger (2015) emphasize the necessity of ongoing professional development for</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>school counselors to effectively meet the diverse needs of students.</p> <p>Carey et al. (2017) discuss how professional development aids school counselors in reducing dropout rates by equipping them with the necessary skills to support at-risk students. A 2023 systematic review in the Professional School Counseling Journal advocates for the integration of counseling services into the core educational framework, highlighting their positive impact on students' academic and social-emotional skills.</p> <p>The American School Counselor Association (2023) notes the continued benefits of school counseling programs in improving student outcomes, underscoring the counselors' role in linking academic support with social-emotional learning.</p> <p>The District will enhance support for Low-Income students, Foster Youth, and English Learners by implementing counseling services at both elementary and secondary school sites. This initiative targets at-promise academic conferencing, college and career readiness activities, and specialized social-emotional learning groups to foster student connectedness and improve attendance. To achieve these goals, the district will employ counselors and support staff, provide necessary materials and supplies, and offer professional development and training opportunities to ensure effective implementation and sustainability of the support programs. Student access to comprehensive counseling services is essential across all schools. However, this action principally expands academic,</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>college/career, and social-emotional counseling support tailored to low-income, foster, and English learner students facing systemic barriers. An LEA-wide approach ensures consistent counseling standards, curricula, and intervention protocols districtwide. It allows the strategic deployment of additional counselors to sites with the highest concentrations of unduplicated pupils based on data analysis. Centralized resources facilitate specialized training for staff on trauma-informed practices benefiting these student groups. Though benefiting all students, an LEA-wide model provides focused counseling interventions to improve connectedness, attendance, and achievement for vulnerable populations. This cohesive system efficiently increases critical counseling services for high-need groups.</p>	
<p>1.5</p>	<p>Action: Comprehensive School Counseling: Targeted Supports</p> <p>Need: Educational partner input continues to support the Academic Case Carrier Program. Input from survey data from school counselors and feedback from foster youth indicate a specific need for personalized academic support and guidance. Foster youth and low-income students often face unique educational challenges, including frequent school changes and gaps in academic progress, which can hinder their ability to succeed academically. Overall, 46.9% of graduates were placed in the 'Prepared' level, with Foster Youth at 10.5%, and Low Income students at 41.1% (2023 CA School Dashboard). As seen on the</p>	<p>This action builds upon the district's comprehensive school counseling program by providing Tier 3, intensive interventions for students who require support beyond Tier 2 services. These supports are designed to address the complex and overlapping academic, attendance, and social-emotional needs of foster youth and low-income students in grades 6–12. Tier 3 services are delivered by site-based staff, including counselors and other trained personnel, allowing for immediate, relationship-centered support within the student's school environment. This site-based approach is coordinated through the Student Services department to ensure consistency in implementation, alignment of practices, and effective use of data across the district. Services may include individualized case management, ongoing academic progress</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>2023 CA School Dashboard, all students had an A-G completion rate of 83.7%, while Foster Youth completed at a lower rate of 80.8%, and Low-Income students at 50.0%. On the 2023 CA School Dashboard for Redlands Unified School District, the graduation rate for all students was 86.2%, with Foster Youth at 55%, and Low Income students at 84.4%. Based on data from the 2023 CA School Dashboard, the overall high school dropout rate in Redlands Unified was 10.1%, but it rose sharply for Low-Income students at 11.7% and was extremely high for Foster Youth at 36.8%.</p> <p>Scope: Schoolwide</p>	<p>monitoring, targeted family outreach, coordination with community-based agencies, and access to mental health or social-emotional supports. These interventions are designed to reduce barriers to attendance and engagement by addressing both in-school and out-of-school factors impacting student success.</p> <p>Research supports the effectiveness of intensive, individualized interventions and coordinated systems of support in improving attendance, engagement, and academic outcomes for students with the greatest needs (McIntosh & Goodman, 2016; Balfanz & Byrnes, 2012). Additionally, strong student–adult relationships are a key factor in re-engaging students experiencing chronic absenteeism and instability (Bryk & Schneider, 2002).</p> <p>By embedding Tier 3 supports within school sites while maintaining district-level coordination, the district ensures that services are both responsive to individual student needs and consistent across schools.</p> <p>Providing intensive case management support for at-promise youth is a critical need across the district. However, this program principally offers Tier 3 services tailored to the unique challenges faced by foster youth and low-income secondary students (grades 6-12). A "schoolwide" approach ensures consistent case carrier protocols, training, and data tracking across secondary schools districtwide. It enables strategic staffing placements based on foster/low-income student locations and needs analysis. Centralized resources facilitate access to community partnerships and wraparound services benefiting these vulnerable groups. Though focused on high-</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		need populations, this structure strengthens the entire system of care. This comprehensive model increases attendance, connectedness, academic persistence, and resilience among foster and low-income youth through personalized interventions.	
1.6	<p>Action: Student Study Teams</p> <p>Need: Performance data indicate significant gaps in literacy and math skills among English learners and low-income students. Regular assessments and feedback from teachers highlight these students' struggles with foundational skills necessary for academic progress. Based on data from the 2023 CA School Dashboard, the overall high school dropout rate in Redlands Unified was 10.1%, but it rose sharply for English Learners at 26.0%, Low-Income students at 11.7%, and was extremely high for Foster Youth at 36.8%. Furthermore, the data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points</p>	Student StudyTeams are established at each school throughout the district to provide targeted support in literacy and math. These teams focus on identifying and assisting students who are behind academically, with a special emphasis on low-income students, English learners, and foster youth, ensuring they receive the necessary resources and interventions to close achievement gaps. Adverse childhood experiences (ACEs) can have a significant impact on cognitive skills and academic achievement (Jimenez, 2016). By building positive and nurturing relationships and developing an engaging learning environment, teachers can help to minimize the negative effects of ACEs (Burns, 2020). Because ACEs can disproportionately affect student groups, such as students from low-income families, providing strategic interventions will help students build the confidence, resiliency, and necessary cognitive skills to reach their academic potential (Burns, 2020). School sites will utilize the Student Study Team (SST) process to analyze data, identify students in need of support, and conduct collaborative educational partner planning sessions in order to develop individual success plans. Focusing on individual academic and social-emotional needs and providing necessary resources will increase student achievement, as measured by state and local data, and improve graduation and attendance rates. The intent of this action is to identify and mitigate barriers to student	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below.</p> <p>Scope: LEA-wide</p>	<p>success for low-income students, foster youth, and English learners.</p> <p>A consistent, data-driven process for identifying and supporting struggling students is needed across all schools. An LEA-wide approach ensures fidelity to SST protocols and infrastructures districtwide. It facilitates the sharing of best practices and collaborative planning time across sites. Centralized resources enable the procurement of progress monitoring tools and specialized staff training. Though benefiting all students, an LEA-wide model allows for systematic identification and intensive intervention for high-need groups. This cohesive process pinpoints and mitigates factors hindering achievement for vulnerable student populations.</p>	
1.7	<p>Action: Parent & Community Involvement</p> <p>Need: Feedback from educational partners stresses the importance of family involvement in education, which is instrumental in improving student engagement and, ultimately reducing absenteeism to promote greater student success. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate for Redlands Unified School District was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Scope: LEA-wide</p>	<p>Increasing parent engagement is crucial for enhancing student engagement, especially among English learners, foster youth, and low-income families.</p> <p>Henderson and Mapp (2002) provide evidence that parent engagement significantly boosts student achievement and academic outcomes. Fan and Chen (2001) highlight through a meta-analysis that parental involvement has a substantial effect on students' academic achievement.</p> <p>Sheldon (2007) discusses how family liaisons and community partnerships can improve student attendance and engagement.</p> <p>Epstein et al. (2002) offer a handbook on developing effective partnerships among schools, families, and communities, emphasizing the need for dedicated staff to facilitate these interactions.</p> <p>Sanders (2008) finds that school-family-community partnerships enhance student achievement in rural</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>elementary schools, underlining the importance of parent training and engagement.</p> <p>Hoover-Dempsey and Sandler (1997) explore why parents become involved in their children's education and how to effectively encourage their involvement.</p> <p>The California Department of Education (2018) provides a guidebook for establishing and maintaining parent advisory committees, such as DELAC and SEPAC.</p> <p>The National Parent Teacher Association offers resources to support the functioning of parent advisory committees, facilitating increased parent engagement.</p> <p>Linda Darling-Hammond (2013) underscores the necessity of providing equitable access to educational resources for low-income students. She recommends comprehensive support structures, including health, nutrition, and after-school programs, to close the achievement gap and ensure equity and excellence in education.</p> <p>The Harvard Graduate School of Education (2023) emphasizes that effective parent engagement strategies are vital for improving academic outcomes and reducing absenteeism, advocating for strong home-school partnerships.</p> <p>The National Association for Family, School, and Community Engagement (2023) presents case studies showing that enhanced parent involvement in school governance leads to noticeable improvements in school climate and student engagement.</p> <p>These references collectively underscore the importance of parent engagement in fostering student success. They highlight the necessity of staffing, training, and providing materials for parent</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>involvement initiatives to create a supportive educational environment for vulnerable student populations, with an added focus on equitable access to educational resources. The District is dedicated to enhancing the educational experience by fostering strong connections between schools, families, and the community, aligning with the District's vision of Equality through Equity and Strong Parent & Community Partnerships. This effort is supported by key roles such as the Coordinator of Diversity and Equity and the District Communications team all of whom play a crucial role in facilitating these vital connections.</p> <p>A core aspect of this initiative involves continuous family outreach aimed at bolstering student engagement and addressing the issue of chronic absenteeism, especially among unduplicated student groups. The significance of this partnership cannot be overstated, as parental involvement is a critical component in advancing students' social-emotional development and academic achievements, as highlighted in research by Young, Austin, & Grove (2013). Furthermore, fostering resilience within families and students serves as a powerful means to mitigate the adverse effects of Adverse Childhood Experiences (ACEs), subsequently enhancing student engagement, as evidenced by Bethell et al. (2014).</p> <p>To ensure that these efforts are equitable and inclusive, resources are designated to provide support across all Redlands USD educational partner groups. This strategic approach is designed to guarantee that the development, implementation, and monitoring of district</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>programs are equitable, addressing the unique needs of all student groups and aiming to improve student outcomes. This action will provide specialized staff, including an equity coordinator and a communications team, to implement capacity-building opportunities and family outreach aimed at increasing student engagement and reducing chronic absenteeism, particularly among English Learners, Foster Youth, and Low-Income student families. Additionally, the District will offer training and engagement opportunities for parents and families, as well as provide necessary materials and supplies for parent and community advisory groups such as DELAC, DAAPAC, and SEPAC.</p> <p>Increasing family partnership and student engagement is a priority across all district schools. This action principally expands capacity-building, communication, and outreach tailored to English learner, foster youth, and low-income families facing participation barriers. An LEA-wide approach ensures consistent, culturally responsive engagement standards and parent training opportunities districtwide. It allows for strategic deployment of equity and community engagement staff to sites with high concentrations of target groups. Centralized resources facilitate language access, advisory group support, and tailored content for underrepresented populations. Though benefiting all families, an LEA-wide structure systematically empowers and validates high-need communities. This cohesive model proactively increases engagement, reduces chronic absenteeism, and improves outcomes for vulnerable student groups.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.8	<p>Action: Language Assessment Center & Translation Services</p> <p>Need: Data from English learner performance and feedback from families who speak languages other than English indicate a continued need for support to access educational materials and communications, which can hamper student support at home and limit parental engagement when not in place. Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. The annual reclassification rate for English learners in 2023 was 12% according to district data analysis. DataQuest shows that 45.7% of EL students are classified as RFEP and 23.6% as L-TELS. Feedback from educational partners reveals that some families of foster youth and low-income students both require and benefit from the Language Assessment Center and translation services as not all students from homes where other languages are spoken are classified as English Learners. The Language Assessment Center staff conducts the initial screening and assessment of students identified through the enrollment process as possible English Learners. The screening and assessment determines if a student is classified as English-Only or at a level of English learner when they enter school. As such, this action is principally directed to support low-income and foster</p>	<p>Increasing parent engagement, particularly for families speaking languages other than English, is crucial for enhancing student engagement. Fan and Chen (2001) indicate that parental involvement has a significant impact on academic achievement. This relationship emphasizes the need for translation services to ensure non-English-speaking parents can effectively engage in their children's education. Hoover-Dempsey and Sandler (1997) discuss the factors influencing parent engagement, suggesting that language services could mitigate barriers and enhance involvement for families who speak languages other than English. Epstein et al. (2002) provide guidelines on establishing effective partnerships that include the need for bilingual family liaisons. These staff members play a critical role in facilitating communication and understanding between schools and non-English-speaking families. The California Department of Education (2018) underlines the importance of having multilingual materials and resources for parent advisory committees like DELAC, which specifically supports families of English learners. Linda Darling-Hammond (2013) advocates for comprehensive support structures that include language services to help close the achievement gap for non-English-speaking students. This approach ensures that all families, regardless of home language, have equitable access to educational resources. The Harvard Graduate School of Education (2023) highlights the effectiveness of parent engagement strategies that include language support services. These strategies are crucial for improving</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>youth students from families who speak languages other than English, in addition to English Learners. The additional language support provided to parents, guardians, and families is critical in maintaining consistent and meaningful school-to-home communication, which results in greater student engagement.</p> <p>Scope: LEA-wide</p>	<p>academic outcomes and reducing absenteeism among students from non-English-speaking households.</p> <p>The National Association for Family, School, and Community Engagement (2023) shows that increased involvement of non-English-speaking parents in school governance, facilitated by language support, leads to improvements in school climate and student engagement. Incorporating dedicated translation and language assessment services in schools is essential. These services ensure that non-English-speaking families are not only informed but are also active participants in their children's education, which is vital for fostering a supportive and inclusive educational environment. The Redlands Unified School District Language Assessment Center is committed to enhancing communication with families and supporting the academic progress of English learners by providing comprehensive translation and interpretation services. This initiative includes hiring qualified staff such as translators and language assessment personnel, as well as offering bilingual stipends. Additionally, the district will contract with external agencies for specialized translation services and allocate resources for essential materials and supplies, ensuring that all students and families receive the support they need for successful engagement and reclassification.</p> <p>Ensuring language access and appropriate English learner identification/assessment is essential across the entire district. However, this action principally supports low-income, foster youth, and English learner students/families who speak languages other than English. An LEA-wide</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>approach enables consistent translation/interpretation standards and assessment protocols districtwide. It facilitates efficient procurement of contracted translation services based on district language needs analysis. Centralized staffing and resources streamline the intake screening process for potential ELs upon enrollment. Though focused on multilingual communities, these services improve communication and instructional programming for all students/families. This systematic model increases engagement, attendance, and equitable reclassification for underserved linguistic populations in a cohesive manner.</p>	
<p>1.9</p>	<p>Action: Career Technical Education (CTE)</p> <p>Need: Consistent with educational partner priorities, the LCAP maintains a strong emphasis on college and career readiness programs, including Career Technical Education (CTE) Pathways, providing necessary resources to help students prepare for post-secondary opportunities. Feedback from students and families indicates a need to promote and support CTE pathways and career awareness opportunities. Pathway completion can be measured by an improved CCI rating on the California School Dashboard. Based on data from the 2023 CA School Dashboard, the overall high school dropout rate in Redlands Unified was 10.1%, but it rose sharply for English Learners at 26.0%, Low-Income students at 11.7%, and was extremely high for Foster Youth at 36.8%. As seen on the 2023</p>	<p>Career Technical Education (CTE) pathways are an important part of the district's plan to provide all students access to relevant and rigorous work-based learning experiences that increase post-secondary success. The district will continue its contract with CRY-ROP to provide CTE pathways and support at Redlands USD schools. To enhance A-G and Career Technical Education (CTE) completion rates, this action provides career center teachers to provide support and guidance to high school students, with a particular focus on supporting low-income students, English learners, and foster youth. This action also includes an investment in instructional materials and equipment, along with funding for admissions and transportation for field trips, which will further promote college and career preparedness among students. This is considered a schoolwide action rather than district-wide since it is targeted to address the needs of a particular grade span - 9th-12th graders. All three comprehensive high</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>CA School Dashboard, all students had an A-G completion rate of 83.7%, while English Learners completed at a lower rate of 64.3%, Foster Youth at 80.8%, and Low-Income students at 50.0%. Overall, 46.9% of graduates were placed in the 'Prepared' level, with English Learners at 9.7%, Foster Youth at 10.5%, and Low Income students at 41.1% (2023 CA School Dashboard).</p> <p>Scope: Schoolwide</p>	<p>schools, along with the continuation high school, are supported by this action. Promoting college and career readiness through CTE pathway completion benefits all high school students districtwide. However, this action principally provides academic services, progress monitoring, and experiential learning opportunities tailored to the needs of low-income, English learner, and foster youth populations underrepresented in higher education and high-skill careers. A "schoolwide" approach for grades 9-12 ensures consistent CTE program quality standards across high school sites. It facilitates strategic staffing placements, centralized materials procurement, and efficient partnerships like CRY-ROP based on student interest and outcome data. Though serving all high school students, this model systematically increases achievement and post-secondary preparedness for these historically marginalized groups. This cohesive structure expands equity and bridges opportunity gaps in college and career attainment.</p>	
1.10	<p>Action: Visual & Performing Arts</p> <p>Need: Support for the Visual and Performing Arts remains a priority for the Board of Education and the whole of the Redlands Unified School District. As seen in the following statements, student engagement metrics and feedback highlight a lack of exposure to arts education among unduplicated students, which is important for holistic development and academic motivation. Involvement in school-based programs, such as VAPA, promotes</p>	<p>The impact of Visual and Performing Arts programs on school attendance, particularly for low-income students, English learners, and foster youth, is supported by significant research. Brian Kisida and Daniel H. Bowen (2019) conducted a large-scale study as part of Houston's Arts Access Initiative, focusing on the early implementation years. This research found that arts education notably impacts students' academic and social development. The engagement in arts was linked to increased school attendance, based on data from thousands of students. This demonstrates the substantial benefits of integrating arts programs in schools, especially those serving disadvantaged</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>regular school attendance. English Learners and Foster Youth are underrepresented in Visual and Performing Arts programs based on enrollment of 4th and 5th grade students in elementary band and orchestra. (30% overall participation; 5.4% of participants are English Learners and 0.3% are Foster Youth) Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Educational Partner feedback supports providing VAPA programs to ensure students are engaged with enriching programs. This continues to be a priority of focus for the School Board.</p> <p>Scope: LEA-wide</p>	<p>communities. Further, Adam Winsler (2019) at George Mason University, Winsler explored the effects of participation in arts elective courses—music, dance, visual arts, drama—on middle school students. His findings indicated that these students exhibited better academic performance and increased school participation, which often leads to improved attendance rates. The study tracked a diverse cohort of students, providing insights into the specific benefits for low-income students and English Language Learners. This underscores the value of arts education in promoting student engagement and improving attendance. The inclusion of robust arts programs in schools especially support those students who are most at risk of disengagement and absenteeism. To foster school engagement and a sense of belonging, especially among Low-Income students, Foster Youth, and English Learners, this action maintains support to the Visual and Performing Arts (VAPA) programs in the district. This initiative includes employing full-time music teachers and additional support staff dedicated to VAPA. Furthermore, the district will provide hourly support for these programs and supply essential instructional materials such as sheet music, instruments, and consumables. Transportation for educational field trips and showcases will also be provided, ensuring students have the opportunity to participate fully and benefit from the enhanced VAPA offerings.</p> <p>Increasing access to VAPA programs fosters creativity, belonging, and engagement for all students districtwide. However, this action principally expands arts participation and resources for low-income, foster youth, and</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>English learner populations often underrepresented in VAPA. An LEA-wide approach ensures equitable staffing, instructional materials, and transportation for arts programming across all school sites. It enables centralized procurement of instruments, curriculum, and experiential learning opportunities tailored to diverse student interests. Though benefiting all students, an LEA-wide model systematically removes barriers and increases arts engagement for historically marginalized groups. This cohesive structure elevates school connectedness, attendance, and expression outlets for these target populations.</p>	
<p>1.11</p>	<p>Action: Middle School Engagement</p> <p>Need: Educational partner input and site-level feedback indicate a need to strengthen school climate and increase student connectedness at the middle school level. Students who feel disconnected from their school community are more likely to experience challenges with engagement, behavior, and attendance, particularly among Low-Income students and Foster Youth. Participation data from middle school engagement opportunities indicate disparities among student groups. Of the students participating in middle school athletics programs (13.26% of all 6th–8th grade students), only 2.09% are English Learners and 0.35% are Foster Youth, while Low-Income students comprise 48.34% of participants. These data indicate that some</p>	<p>This action is designed to strengthen positive school climate and increase student connectedness at the middle school level by expanding access to intramural programs, student engagement activities, and schoolwide leadership and culture-building initiatives, such as Associated Student Body (ASB) and Where Everybody Belongs (WEB) programs. These efforts are intended to promote students’ sense of belonging and build social-emotional competencies that support engagement and overall student success. Educational partner input and site-level feedback have identified a need to improve school climate and increase opportunities for meaningful student engagement, particularly for Low-Income students and Foster Youth who may face barriers to participation in school activities. A lack of connection to school has been linked to increased absenteeism, disengagement, and negative behavioral outcomes, underscoring the importance of creating inclusive and engaging school environments.</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>student groups, particularly English Learners and Foster Youth, are underrepresented in structured activities that promote belonging and connection to school.</p> <p>Additionally, based on the 2023 California School Dashboard, the district's chronic absenteeism rate was 24% for all students, with higher rates among English Learners (26.4%), Low-Income students (29.1%), and Foster Youth (26.1%). These data reinforce the need to strengthen student engagement and connectedness as part of a broader strategy to improve attendance and student outcomes.</p> <p>These factors demonstrate the need for expanded, inclusive, and accessible opportunities that promote student engagement, foster positive peer relationships, and strengthen school connectedness through intramural programs, student activities, and school climate initiatives.</p> <p>Scope: Schoolwide</p>	<p>To address this need, the district will support site-based implementation of intramurals, student activities, and leadership programs such as ASB and WEB that provide structured opportunities for students to connect with peers and staff. These programs foster positive peer relationships, leadership development, and a sense of belonging, while also promoting schoolwide culture and student voice. Staffing, materials, transportation, and financial support will be provided to reduce participation barriers and ensure equitable access to these opportunities. Research supports the role of school connectedness and positive school climate in improving student outcomes. Studies have found that students who feel a strong sense of belonging at school demonstrate higher levels of engagement, improved attendance, and better academic outcomes (Blum, 2005; Centers for Disease Control and Prevention, 2009). Participation in extracurricular and leadership activities, such as student government and peer mentoring programs, has also been linked to increased motivation, improved social-emotional skills, and stronger school attachment (Fredricks & Eccles, 2006; Mahoney et al., 2005). Programs like WEB, which focus on peer connection and transition support, have been shown to improve school climate and reduce feelings of isolation among middle school students.</p> <p>By expanding beyond a single program to a comprehensive set of engagement and climate-building strategies, the district ensures that schools can respond to the diverse needs and interests of their students while creating inclusive environments that promote belonging and</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>connection. This approach is designed to improve student engagement, reduce absenteeism, and strengthen school climate, particularly for unduplicated pupils.</p> <p>Providing opportunities for student engagement and school climate development benefits all middle school students. However, this action principally expands access to structured engagement opportunities for Low-Income students and Foster Youth, who may face barriers to participation.</p> <p>A schoolwide approach ensures that all students have access to inclusive opportunities while allowing schools to implement programs that reflect the needs of their student populations. By reducing participation barriers through staffing, transportation, and cost support, the district increases access for unduplicated pupils.</p> <p>Though these efforts benefit all students, this action is principally directed toward unduplicated pupils and is effective in increasing participation and strengthening school connectedness.</p>	
1.12	<p>Action: Health & Wellness Services</p> <p>Need: In response to educational partners stressing the importance of physical health in academic and personal development, this action is aimed at enhancing health and wellness programs. In particular, low income and foster youth students frequently face greater challenges to sustained health and wellness, which can affect their attendance and learning readiness. Analysis of district data shows that all students had a 93.4% attendance rate,</p>	<p>Providing comprehensive health services in schools, particularly through the presence of school nurses, is critical for supporting attendance and enhancing student well-being, especially among low-income populations and foster youth. Research by Basch (2011) highlights the crucial link between addressing health barriers such as chronic conditions and limited healthcare access, and improving both student attendance and academic performance. Further emphasizing the importance of nurse staffing, Maughan et al. (2019) demonstrate that having registered nurses in schools significantly boosts students' comfort and perceived empathy when discussing health</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Scope: LEA-wide</p>	<p>concerns, which can positively affect their engagement and attendance. Supporting these findings, a systematic review by Maughan et al. (2020) shows that school nurse availability during school hours leads to better health-related outcomes and improved student attendance. These studies collectively underline the necessity of integrating effective health services within schools to ensure that students, particularly those from disadvantaged backgrounds, can achieve better health and educational outcomes. To enhance health support at school sites, this action includes the provision of registered nurses and health aides to ensure accessible and effective health care for all students. By strengthening these services, the district aims to support positive attendance rates and foster a sense of school connectedness among Low-Income students. Additionally, this action supports supplying the necessary materials and equipment to fully equip these health professionals to provide the best possible care.</p> <p>Access to school-based health services promotes wellness and attendance for all students districtwide. However, this action principally provides nursing staff and resources tailored to the health needs of low-income and foster youth facing disproportionate barriers to medical care. An LEA-wide approach ensures consistent staffing ratios, clinical protocols, and supply procurement across school sites. It enables data-driven allocation of nurses and health aides to campuses with high concentrations of target student groups. Though benefiting all students, an LEA-wide model proactively identifies and supports the physical health needs of underserved populations.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		This cohesive structure increases access to care, reduces health-related absences, and fosters connectedness for low-income and foster youth.	
1.13	<p>Action: Targeted Attendance Support</p> <p>Need: Feedback from educational partners pointed to absenteeism as a significant barrier to academic success. This attendance action was created to specifically address and reduce chronic absenteeism and improve attendance rates, ensuring that interventions are in place to support at-risk students. Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Scope: LEA-wide</p>	<p>To improve attendance and reduce chronic absenteeism, the district will implement a comprehensive system of support that includes site-based attendance staffing and coordinated program services designed to address barriers to consistent school participation. Attendance staff at all school sites will monitor attendance, conduct outreach, and implement early intervention strategies to address patterns of absenteeism. These staff will collaborate with school teams and families to identify the underlying causes of absences and provide targeted supports to re-engage students in consistent school attendance. For students who are unable to attend school regularly due to medical, social-emotional, or other significant challenges, the district will provide structured alternative education pathways through Independent Study (RISE) and Home/Hospital Education (HHE). These programs ensure continuity of instruction while maintaining a focus on student engagement, attendance, and academic progress. Coordination of these services includes communication with families, collaboration with community agencies and medical providers, and coordination across district departments to ensure that students receive appropriate and timely supports. This action also includes tiered interventions such as personalized outreach, counseling, and access to social-emotional and mental health supports. These interventions are designed to address the root causes of absenteeism and disengagement</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>by providing individualized and responsive support based on student need.</p> <p>Research supports the effectiveness of comprehensive attendance systems that integrate early intervention, family engagement, and coordinated supports. Studies demonstrate that consistent communication, individualized interventions, and collaborative approaches between schools and families are essential for improving attendance outcomes and re-engaging students experiencing chronic absenteeism (Kearney, 2008; Kearney & Graczyk, 2014). Additionally, providing alternative instructional pathways for students with significant barriers to in-person attendance supports continued academic engagement and reduces the risk of long-term disengagement.</p> <p>This action is principally directed toward English Learners, Low-Income students, and Foster Youth, who experience disproportionately higher rates of chronic absenteeism and face greater barriers to consistent school attendance. This action is effective in meeting the needs of these student groups by providing targeted outreach, individualized interventions, coordinated services, and alternative pathways that increase access to instruction, improve engagement, and reduce barriers to regular attendance.</p> <p>Providing attendance support is essential for all students; however, this action principally addresses the needs of English Learners, Low-Income students, and Foster Youth, who experience disproportionately higher rates of chronic absenteeism and face greater barriers to consistent school attendance.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>An LEA-wide approach ensures consistent attendance systems, staffing, and intervention strategies across all school sites, while also enabling coordination of specialized programs that support students with significant attendance barriers. Centralized coordination supports alignment of practices, communication systems, and partnerships with community agencies and service providers.</p> <p>While services are available to all students based on need, this action is principally directed toward unduplicated pupils and is effective in addressing the specific barriers they face.</p>	
1.14	<p>Action: Targeted Enrollment Support</p> <p>Need: Educational Partner feedback reveals that unduplicated students, particularly foster youth, often encounter obstacles during the enrollment process, affecting their access to educational opportunities. Due to the nature of foster placement, records from the previous school may not be readily available which can add unnecessary delay to enrollment. Analysis of district data shows that all students had a 93.4% attendance rate, whereas Foster Youth had a lower rate at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among Foster Youth at 26.1%.</p> <p>Scope: LEA-wide</p>	<p>This action provides targeted enrollment support specifically designed to meet the unique needs of Foster Youth, aiming to promote positive attendance and ensure timely enrollment. This focused initiative will facilitate smoother transitions for Foster Youth. This action includes allocating additional clerical time at peak enrollment periods to ensure enrollment procedures for foster youth are completed, and providing personalized assistance in obtaining all necessary enrollment documents from previous school sites. While this support will benefit all students, the principal focus remains on removing barriers for Foster Youth. Supported enrollment procedures are crucial to enhance school attendance and reduce chronic absenteeism among foster youth. These procedures are designed to address the specific barriers that foster youth often face during the school enrollment process, which can significantly impact their academic success and attendance.</p> <p>The Children's Defense Fund (2015) highlights these challenges in a policy brief that examines</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>the complexities of the enrollment process for foster youth. The brief emphasizes the need for supported enrollment procedures that streamline the process and ensure that foster youth can start school without delays, thus promoting better attendance and engagement from the outset. Additionally, a study by Osher et al. (2018) discusses the broader context of chronic absenteeism, particularly its detrimental effects on academic achievement. The study underscores the importance of addressing enrollment barriers that contribute to absenteeism, particularly for vulnerable student populations like foster youth. By facilitating easier access to school enrollment, these students are more likely to attend school regularly and achieve better academic outcomes. These references collectively advocate for the implementation of supported enrollment strategies tailored to the needs of foster youth, helping to mitigate the educational disruptions they face and improving their overall school attendance and success. The general consensus from research on the benefits of addressing enrollment barriers is clear, highlighting the need for focused efforts in this area.</p> <p>Ensuring timely, smooth enrollment processes benefits all students transitioning into or between district schools. However, this action principally provides specialized enrollment assistance tailored to the unique needs and educational rights of foster youth, who face disproportionate instability and delays in school placements. An LEA-wide approach ensures consistent protocols, training, and inter-agency collaboration to expedite foster youth enrollment districtwide. It allows for strategic deployment of enrollment staff time and resources</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>based on data identifying sites with higher concentrations of foster students. Though supporting all enrollees, an LEA-wide model enables proactive, individualized support to minimize educational disruptions for this highly mobile, vulnerable population. This cohesive structure increases school connectedness, attendance, and academic progress for foster youth through responsive enrollment practices.</p>	
<p>2.1</p>	<p>Action: Professional Development to Support Implementation of State Standards</p> <p>Need: Teacher assessments and performance data highlight a gap in effectively implementing state standards, particularly to unduplicated student groups performing below grade level. The CAASPP/SBAC results displayed on the CA School Dashboard reveal a considerable disparity between the district average and the scores of English learners, foster youth, and low-income students in both English-Language Arts and Math. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below</p>	<p>The Educational Services Division is committed to elevating academic achievement among English Learners, Foster Youth, and Low-Income students in ELA and Math through a comprehensive professional development program for teachers and instructional staff. This program will offer training, coaching, and collaborative opportunities focused on effective instruction that adheres to state standards, employing evidence-based strategies such as intervention, differentiation, scaffolding, and Universal Design for Learning (UDL).</p> <p>To facilitate this initiative, the division will allocate staff including administrators and support personnel to lead these professional development efforts. Additionally, participating staff will receive hourly pay and daily compensation for their involvement in professional development sessions. The training provided will equip staff with the skills to differentiate instruction based on student needs, implement standards-aligned curriculum effectively, and adopt instructional best practices to enhance teaching outcomes and student learning experiences.</p> <p>Professional development for educators is pivotal in improving academic outcomes for English learners, foster youth, and low-income students.</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. District assessment data (Star) show the following differences in average academic performance between “all” students and students in unduplicated student groups. Reading: The proficiency rate for all students was 42.0%, with English Learners at 9.1%, Low-Income students at 34.7%, and Foster Youth at 15.8%. Math: The proficiency rate for all students was 31.3%, with English Learners at 10.6% and Foster Youth at 6.3%.</p> <p>Educational Partner input from site staff indicates a continued need for professional development to address a wide range of learners.</p> <p>Scope: LEA-wide</p>	<p>Research consistently highlights the direct impact of teacher training on student achievement, providing a robust foundation for supporting diverse learning needs through specialized instructional strategies. Yoon et al. (2007) provide a systematic review of the effectiveness of teacher professional development in elevating student achievement, underscoring the positive correlation between well-trained teachers and improved educational outcomes. Desimone (2009) calls for improved methodologies in studying the impact of professional development, emphasizing that precise measures and conceptualizations are crucial for understanding and enhancing the efficacy of teacher training programs. Tomlinson et al. (2003) discuss the importance of differentiating instruction based on student readiness, interests, and learning profiles, which is particularly beneficial in academically diverse classrooms. Polloway et al. (2003) offer practical strategies for adapting teaching methods to meet the varied needs of students, including those from marginalized groups such as English learners, foster youth, and low-income families. Darling-Hammond et al. (2017) highlight the significance of implementing a standards-aligned curriculum that supports high-quality teaching and learning, providing essential guidance for educators and policymakers. Hiebert & Morris (2012) emphasize focusing on teaching practices and curriculum implementation rather than solely on teacher qualities to improve classroom instruction and student learning outcomes. Marzano (2003) synthesizes research on effective instructional techniques, offering actionable strategies for educators to enhance classroom practices.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>These studies collectively affirm the importance of comprehensive professional development programs that equip teachers with the skills to implement differentiated instruction, adhere to a standards-aligned curriculum, and apply best instructional practices. Such training is crucial for effectively addressing the unique educational needs of English learners, foster youth, and low-income students, thereby improving their academic outcomes and overall school experience.</p> <p>This action focuses on providing professional development for teachers on state standards with an emphasis on differentiation and inclusivity in instruction. By training educators LEA-wide, the district ensures that all students, especially unduplicated students, benefit from high-quality, standards-aligned teaching. Developing teacher capacity to provide high-quality, standards-aligned instruction benefits all students across the district. However, this action is principally directed at improving outcomes for English learners, foster youth, and low-income populations facing achievement gaps. An LEA-wide approach ensures consistent access to training on evidence-based practices like UDL, differentiation, and scaffolding skills tailored to unduplicated pupils' needs. It allows for coordinated, job-embedded coaching and collaboration time dedicated to addressing instructional gaps. Centralized implementation promotes systematic implementation of curriculum and strategies districtwide while strategically targeting high-need schools and subjects. This systematic PD model increases the quality of Tier 1 instruction for</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		underperforming groups in a cohesive, equitable manner.	
2.2	<p>Action: Tiered Academic Support</p> <p>Need: Academic performance data indicate that unduplicated students lag behind in core subjects. These gaps are particularly pronounced in math and English, as identified through regular academic assessments. For English learners, foster youth, and low-income students, the CAASPP/SBAC scores in English-Language Arts and Math, as reported on the CA School Dashboard, are notably lower than the district average. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. District assessment data (Star) show the following</p>	<p>The District is enhancing its commitment to educational equity by deploying additional core academic staff focused on providing specialized Tier 1 and 2 support across all school levels. This initiative is designed to address the specific academic needs of students who are not meeting grade-level expectations, with a particular emphasis on supporting English Learners, Foster Youth, and Low-Income students. By allocating additional teachers to school sites, the district aims to provide the targeted assistance necessary to elevate the academic performance of these students, ensuring that every student receives the personalized attention and instruction needed to succeed academically.</p> <p>Providing additional core academic staff, such as teachers, to address the academic needs of students, particularly English learners, foster youth, and low-income students, is crucial for enhancing academic outcomes. Research highlights the significant impact of staff-to-student ratios on student achievement and the benefits of smaller class sizes and adequate staffing levels. Finn et al. (2003) provide a comprehensive overview of the relationship between school class size and academic outcomes, demonstrating that smaller class sizes are associated with improved student achievement. Achilles et al. (2003) further support this finding by examining the specific impacts of class size on student achievement, noting that smaller class sizes can significantly enhance academic outcomes by allowing more personalized attention and support. The National Research Council (2011) discusses the critical role</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>differences in average academic performance between “all” students and students in unduplicated student groups. Reading: The proficiency rate for all students was 42.0%, with English Learners at 9.1%, Low-Income students at 34.7%, and Foster Youth at 15.8%. Math: The proficiency rate for all students was 31.3%, with English Learners at 10.6% and Foster Youth at 6.3%</p> <p>Educational Partner input has been very supportive of continuing intervention/targeted assistance at all levels and in all subject areas and maintaining class sizes that are conducive to student learning.</p> <p>Scope: LEA-wide</p>	<p>of additional teachers in meeting the diverse educational needs of students, emphasizing the importance of tailored academic support for fostering success in the 21st-century learning environment. Taylor et al. (2018) explore how the teacher-student ratio affects both student achievement and teacher workload, suggesting that lower ratios not only improve student outcomes but also reduce teacher burnout, thereby enhancing the overall educational environment.</p> <p>This initiative is especially aimed at unduplicated student groups, ensuring they receive the targeted assistance necessary to elevate their academic performance. Secondary teachers will be appointed to deliver focused Math and English support through supplementary classes scheduled before, during, and after school hours. These sessions are designed to address students' specific areas of weakness, as pinpointed by STAR assessments in middle schools or through progress reports and quarterly grades in high schools. To mitigate the challenges associated with combined classes at the elementary level and to maintain manageable class sizes across all grades (TK-12), a strategic allocation of teachers to schools will be implemented. This measure aims to ensure that every student receives the attention and instruction they need to thrive academically.</p> <p>The research underscores the importance of increasing the number of academic staff to provide the necessary support for vulnerable student groups. Such measures are essential for promoting personalized learning and addressing the specific challenges faced by English learners,</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>foster youth, and low-income students, ultimately leading to better academic performance and increased educational equity.</p> <p>Providing targeted Tier 2 academic interventions is crucial for addressing achievement gaps across all schools. However, this staffing action principally supports English learners, foster youth, and low-income students who disproportionately lack access to individualized instructional support. An LEA-wide structure allows for equitable distribution of intervention teachers based on comprehensive needs data analysis districtwide. It ensures consistent training in evidence-based intervention curricula and strategies tailored to unduplicated pupils. Though benefiting all students, centralized scheduling enables strategic deployment of Tier 2 staff to sites with higher concentrations of underperforming student groups. This systematic approach increases and improves supplemental services for high-need populations in a cohesive manner.</p>	
2.3	<p>Action: Tiered Literacy Supports</p> <p>Need: Feedback from students and parents emphasizes a strong desire for accessible library resources and support services that are crucial for literacy development and academic support. School libraries are identified as vital spaces where students can engage in learning outside of the classroom, especially before, during, and after school. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth</p>	<p>Supporting school libraries is a critical strategy for enhancing academic outcomes, particularly for English learners, foster youth, and low-income students. The research underscores the positive influence of well-resourced libraries and knowledgeable staff on student literacy and academic performance. Lance et al. (2005) present evidence showing that school librarians significantly boost student achievement, particularly in reading proficiency. The presence of librarians not only enhances access to reading materials but also improves overall academic outcomes. Neuman & Celano (2001) explore how access to print resources in school libraries correlates with reading achievement in low-income</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. District assessment data (Star) show the following differences in average academic performance between "all" students and students in unduplicated student groups. Reading: The proficiency rate for all students was 42.0%, with English Learners at 9.1%, Low-Income students at 34.7%, and Foster Youth at 15.8%. Math: The proficiency rate for all students was 31.3%, with English Learners at 10.6% and Foster Youth at 6.3%</p> <p>Scope: LEA-wide</p>	<p>communities. Their findings suggest that well-stocked libraries are essential for promoting literacy among disadvantaged groups. Hughes-Hassell & Harada (2007) discuss the crucial role of library media specialists in promoting literacy and supporting academic achievement. They argue that effective library programs depend heavily on the presence of skilled staff. Krashen (2004) highlights the importance of access to books and other reading materials in fostering literacy and academic success. He advocates for well-equipped libraries as foundational to encouraging a culture of reading. Todd (2008) stresses the need for advocacy to ensure school libraries receive adequate funding for instructional materials and supplies. This support is crucial for libraries to function as effective educational resources, particularly in schools serving disadvantaged students. These references collectively affirm the value of investing in school libraries to support the educational needs of English learners and low-income students. By providing sufficient staffing, instructional materials, and supplies, school libraries can serve as vital resources that promote literacy development and contribute to improved academic achievement. This action involves providing staffing, including qualified librarians and paraprofessionals, who are essential for maintaining a stimulating and resource-rich library environment. Staff may also receive hourly compensation to ensure dedicated service and support for students' reading development. Additionally, this action may supply instructional materials and necessary supplies to these libraries, enhancing their ability to foster crucial</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>reading skills. This strategic enhancement of library resources is aimed at improving students' performance on key assessments such as the CAASPP SBAC and Star reading tests and supporting overall academic achievement, including in mathematics. The investment in well-resourced libraries and knowledgeable staff is expected to create a robust foundation for lifelong learning and academic success.</p> <p>Promoting literacy and providing access to high-quality library resources benefits all students across the district. However, this action principally supports English learners, foster youth, and low-income students who often lack equivalent exposure to books and reading instruction outside of school. An LEA-wide approach allows for consistent library staffing, collections, and instructional program standards at every site. It enables centralized procurement, equitable distribution based on student needs data, and specialized training for library staff. Though focused on underperforming student groups, centralized management facilitates cost-effective, systematic literacy support districtwide. This cohesive model increases access to critical reading resources and instruction for high-need populations in a way that uplifts the entire district.</p>	
2.6	<p>Action: Supplemental Instructional Supports</p> <p>Need: Analysis of test scores and classroom performance may indicate that unduplicated students, especially those in low-income brackets, lack access to additional learning resources, which hampers their ability to</p>	<p>Redlands Unified School District is committed to closing achievement gaps and accelerating learning recovery for English Learners, Low-Income, and Foster Youth by providing targeted, evidence-based instructional materials and technology resources. Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>compete academically with their peers. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. District assessment data (Star) show the following differences in average academic performance between "all" students and students in unduplicated student groups. Reading: The proficiency rate for all students was 42.0%, with English Learners at 9.1%, Low-Income students at 34.7%, and Foster Youth at 15.8%. Math: The proficiency rate for all students was 31.3%, with English Learners at 10.6% and Foster Youth at 6.3%</p> <p>Educational Partner input continues to support providing supplemental learning materials and online programs.</p> <p>Scope:</p>	<p>ensure access to the latest learning tools. A key component involves the use of supplemental online instructional programs, like Dreambox Math and Lexia Core5, which provide adaptive learning experiences tailored to individual student needs. These initiatives are supported by regular reviews of instructional effectiveness and resource appropriateness, aiming for measurable improvements in academic achievement across essential assessments like STAR and CAASPP. To enhance academic outcomes for English learners, low-income, and foster youth students, providing supplemental instructional materials and online programs is essential. Research highlights the effectiveness of these resources in supporting underperforming student groups and closing achievement gaps.</p> <p>Gersten et al. (2008) review the impact of universal screening measures and supplemental interventions on reading outcomes, particularly for English learners, low-income, and foster youth students. The findings suggest that targeted supplemental materials can significantly improve reading skills in these groups.</p> <p>The National Center on Intensive Intervention (2017) outlines the crucial components of intensive intervention programs, including the use of evidence-based instructional materials. These interventions are designed to meet the specific needs of students who are struggling academically, ensuring they receive the necessary support to succeed.</p> <p>Pape & Adams (2012) discuss the utility of online learning resources across different content areas. Their review indicates that online resources can enhance learning by providing diverse and</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	<p>engaging educational content, which is particularly beneficial for students who may need alternative approaches to learning.</p> <p>This action stresses the importance of integrating high-quality supplemental instructional materials and online programs into the educational strategies for English learners, low-income, and foster youth students. By tailoring these resources to the unique needs of underperforming groups, schools can effectively support their academic growth and contribute to their overall success. Ensuring all students have access to high-quality, standards-aligned instructional resources is essential across the district. However, this action principally provides tailored materials to accelerate learning recovery for underperforming English learners, low-income, and foster youth groups. An LEA-wide approach enables consistent vetting and adoption of evidence-based, supplemental programs and curricula districtwide. It facilitates centralized procurement, equitable distribution, and aligned professional development on effective implementation. Though targeting high-need populations, centralized materials management promotes cohesive, content-rich instruction benefiting all students. This systematic model increases the availability of customized academic resources and intensive interventions for closing achievement gaps among unduplicated pupils.</p>	
2.7	<p>Action: Advancement Via Individual Determination (AVID)</p> <p>Need: An analysis of data disaggregated from the College and Career indicator indicates that</p>	The Advancement Via Individual Determination (AVID) program is a notable educational initiative designed to support populations typically underrepresented in postsecondary education, including low-income students, foster youth, and English learners. The effectiveness of AVID is well-documented through various studies and data	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>unduplicated students are underrepresented in college preparatory programs, impacting their post-secondary opportunities. Additionally, the data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA, all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low-Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low-Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. In addition to the need displayed in the district-wide Dashboard data, a review of 1st semester grades for AVID students (grades 6-12) compared to their peers shows the efficacy of the program. 83.9% of students in AVID received marks of C- or better in Math for 1st semester. Comparatively, 75% of students not in AVID received a C- or better. Similar results can be seen in 1st semester English grades with 91% of AVID students and 79% of non-AVID students receiving a C- or better. Educational partner input continues to support maintaining AVID programs at all grade levels.</p>	<p>collections, highlighting its role in enhancing academic success and college readiness for these groups.</p> <p>The Field Report on AVID (APA PsycNet) details the AVID program's approach, which includes consistent academic support and rigorous coursework tailored to help students achieve educational success. It outlines the strategies employed by AVID to engage students and their families, emphasizing the program's effectiveness in improving educational outcomes for low-income students and English learners. The report illustrates how AVID equips students with the necessary skills and knowledge to excel academically and prepares them for challenges in higher education.</p> <p>According to data collected by AVID, 42% of first-generation, low-income college students who participated in the AVID program graduated with a four-year degree within six years. This statistic is significant, showcasing AVID's impact in supporting disadvantaged students to not only pursue higher education but also succeed in completing their degrees. The data underscores the value of AVID in fostering higher educational achievements among students from marginalized backgrounds.</p> <p>By providing targeted support and challenging academic opportunities, AVID effectively bridges the gap between these students and their more advantaged peers, enhancing their prospects for postsecondary success. This action is designed to elevate opportunities for those who may face greater academic and economic challenges. To effectively implement AVID, the division will provide hourly support for roles such as college</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: Schoolwide</p>	<p>tutors, who are instrumental in guiding students through college preparation tasks. Additionally, designated site lead teachers will be appointed at secondary sites to oversee the program's execution and integration into the school curriculum. The district will also invest in targeted professional development for staff, including conferences and workshops specifically tailored to equip them with the skills and knowledge necessary to address the unique needs of Low-Income students. Supporting instructional materials is another critical component of this action. This includes providing digital access to AVID materials, covering AVID program fees, and supplying essential instructional supplies. These resources are fundamental to the program's success, ensuring that students receive a comprehensive and supportive educational experience that fosters their academic and career aspirations.</p> <p>Increasing college and career preparedness benefits all students across the district. However, this AVID program action principally targets low-income students who often lack access to rigorous academics and support for post-secondary planning. An LEA-wide approach ensures consistent AVID implementation, from elementary through high school, with fidelity to proven instructional methodologies. It enables centralized procurement of materials, tutoring, and staff training tailored to AVID's structures. Centralized oversight allows for strategic site prioritization based on data about low-income populations. Though benefiting all students, an LEA-wide model provides equitable pathways to advanced</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		coursework and comprehensive postsecondary guidance for underrepresented groups.	
2.8	<p>Action: College and Career Readiness Programs</p> <p>Need: Consistent with educational partner priorities, our LCAP maintains a strong emphasis on college and career readiness programs, providing necessary resources to help students prepare for post-secondary opportunities. On the 2023 CA School Dashboard for Redlands Unified School District, the graduation rate for all students was 86.2% with Foster Youth at 55%, and Low Income students at 84.4%. As seen on the 2023 CA School Dashboard, all students had an A-G completion rate of 83.7%, while Foster Youth completed at a lower rate of 80.8% and Low-Income students at 50.0%. Overall, 46.9% of graduates were placed in the 'Prepared' level, with Foster Youth at 10.5% and Low-Income students at 41.1% (2023 CA School Dashboard). An analysis of district data shows that all students had an average AP pass rate of 69.4%, while the rates for Foster Youth were significantly lower at 0.1% and Low-Income students at 41.3%. Continued support for college readiness programs was highly rated across all educational groups as seen on advisory committee surveys. Performance and participation data reveal that unduplicated students often have limited access to advanced learning opportunities, which are important for comprehensive educational experiences.</p>	<p>This action is dedicated to promoting college readiness by removing financial barriers for unduplicated student groups, particularly Foster Youth and Low-Income students. The initiative ensures these students have free access to Advanced Placement (AP), PSAT, and SAT exams and includes preparatory boot camps and necessary materials to excel. Additional efforts include expanding Dual Enrollment (DE) programs through partnerships with Community Colleges and arranging college field trips to foster a college-going culture.</p> <p>The research underscores the significant impact of college readiness programs and Advanced Placement (AP) courses on the educational prospects of low-income students and foster youth. The College Board advocates for AP courses as pivotal opportunities for high school students to undertake college-level work, providing both rigorous academic challenges and potential college credit and placement advantages. Studies indicate that participation in these courses is linked to enhanced college success rates, with students who engage in AP exams showing a greater likelihood of excelling in higher education settings.</p> <p>A study available through ERIC further explores the relationship between AP courses and college graduation rates, revealing that students who perform well in AP courses and exams typically achieve higher college graduation rates. This correlation holds particular significance for minority and low-income students, offering them critical</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: Schoolwide</p>	<p>access to challenging academic experiences that prepare them for college. Additionally, research highlighted in Springer's work on "Preparing Students for Postsecondary Success" indicates that college readiness programs, which often include AP courses, substantially boost the chances of postsecondary success for students from underserved backgrounds. These programs are crucial in enhancing college readiness and increasing graduation rates.</p> <p>These findings illustrate the vital role of AP courses and college readiness programs in bridging the educational gap for disadvantaged students. They also emphasize the importance of supportive measures such as FAFSA completion assistance and college application help, which are essential in facilitating the transition from high school to college for these vulnerable student groups.</p> <p>Promoting a college-going culture and removing financial barriers to participation benefits all students across the district. However, this action is principally directed at low-income students and foster youth who often face significant obstacles to accessing college preparatory activities and coursework. A "schoolwide" approach ensures equitable access to fee waivers, testing preparation, and dual enrollment opportunities for all high school students. It facilitates partnerships with colleges/universities and centralized administration of college campus visits. Centralized oversight allows for data-driven targeting of outreach to low-income populations. Though benefiting all students, a schoolwide model provides comprehensive pathways to make</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		college more attainable for this historically underrepresented group of students in grades 9-12. This systematic approach increases post-secondary preparedness and matriculation among low-income pupils.	
2.9	<p>Action: Summer School/Credit Recovery</p> <p>Need: On the 2023 CA School Dashboard for Redlands Unified School District, the graduation rate for all students was 86.2%, with English Learners at 68%, Foster Youth at 55%, and Low-Income students at 84.4%. As seen on the 2023 CA School Dashboard, all students had an A-G completion rate of 83.7%, while English Learners completed at a lower rate of 64.3%, Foster Youth at 80.8%, and Low-Income students at 50.0%. Overall, 46.9% of graduates were placed in the 'Prepared' level, with English Learners at 9.7%, Foster Youth at 10.5%, and Low-Income students at 41.1% (2023 CA School Dashboard). Input from educational partners strongly commends and endorses the continuation of credit recovery offerings both in summer school and throughout the year, with feedback that summer school offerings could be expanded.</p> <p>Scope: Schoolwide</p>	<p>The district is taking proactive steps to assist students who are off-track for graduation by offering specialized programs that focus on accelerating academic progress, particularly for Foster Youth, English learners, and Low-Income students. This targeted approach is designed to improve graduation rates and enhance college and career readiness for these students. To support these initiatives, the schools will provide staffing for summer school programs, including qualified teachers and necessary support staff. Additionally, compensation will be offered to staff who provide credit recovery courses, recognizing the extra effort required to help students catch up on missed credits effectively. The schools will also ensure that all necessary instructional materials for both summer school and credit recovery courses are readily available. This includes textbooks, digital resources, and classroom supplies that facilitate an effective learning environment and support students in achieving their academic goals. Through these measures, the district aims to create more equitable opportunities for success among its most vulnerable student populations. The role of summer school and credit recovery programs is crucial in promoting higher graduation rates and enhancing college readiness, especially for low-income students, foster youth, and English learners. Two significant pieces of research underscore the effectiveness of these educational interventions.</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>The first, a report by the American Institutes for Research (2023) titled "Credit Recovery Programs: Providing a Second Chance for High School Completion," emphasizes the importance of credit recovery programs in improving graduation rates among high-risk high school students. These programs are particularly beneficial for students who have fallen behind, including low-income and English learner groups. By offering these students opportunities to regain missed credits, credit recovery programs help keep them on track for graduation and prepare them for college.</p> <p>The second study, published in the "Journal of Education for Students Placed at Risk" (2023), discusses "The Effectiveness of Summer School Programs in Bridging the Achievement Gap." This research demonstrates that summer school programs are significantly effective in helping students from disadvantaged backgrounds catch up academically. The study highlights that well-structured summer school programs, which combine academic instruction with enrichment activities, can mitigate summer learning loss, enhance academic skills, and boost readiness for the subsequent school year.</p> <p>Together, these studies provide strong empirical support for the effectiveness of structured academic interventions like summer school and credit recovery programs. These programs are essential for assisting vulnerable student populations in achieving educational success, ultimately leading to higher graduation rates and improved college readiness.</p> <p>Increasing graduation rates and college/career readiness is a priority across all high schools. However, this action principally provides</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>accelerated learning opportunities for off-track foster youth, English learners, and low-income students facing barriers to timely graduation. A "schoolwide approach for grades 9-12 ensures consistent programming standards and equitable access to credit recovery and summer offerings to high school students districtwide. It allows for centralized hiring, training, and procurement of effective intervention materials. Centralized data tracking identifies and prioritizes schools/students most in need of targeted support. Though benefiting all struggling students, an LEA-wide structure provides cohesive pathways to get underrepresented groups on track for graduation. This systematic model increases college eligibility and postsecondary options for high-need populations.</p>	
<p>2.10</p>	<p>Action: Instructional Technology and Innovation</p> <p>Need: By increasing engagement and broadening access to instructional technology, STEM/STEAM curricula, and innovations in learning, schools can bridge the experiential learning divide seen between all learners and unduplicated student groups, especially low-income students, English learners, and foster youth. Academic data supports the need to provide additional supports for struggling students. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced</p>	<p>Recent research supports the positive impact of innovation and instructional technology on student engagement and academic outcomes. One study found that technology integration in education can significantly improve student learning outcomes by enhancing engagement and providing personalized learning experiences. This is particularly effective in environments where technology is used to facilitate interactive and student-centered learning activities (ResearchGate, 2023). Additionally, another study highlighted that technology-based education improves student engagement and learning outcomes, identifying the importance of technical support and addressing potential classroom distractions to maximize the benefits of educational technology (IEEE Xplore, 2023). These studies underline the crucial role of technological integration in modern education</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low-Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low-Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. District assessment data (Star) show the following differences in average academic performance between “all” students and students in unduplicated student groups. Reading: The proficiency rate for all students was 42.0%, with English Learners at 9.1%, Low-Income students at 34.7%, and Foster Youth at 15.8%. Math: The proficiency rate for all students was 31.3%, with English Learners at 10.6% and Foster Youth at 6.3%. Educational partner feedback and Board input continue to endorse the implementation and expansion of innovative learning experiences throughout the district.</p> <p>Scope: LEA-wide</p>	<p>strategies, particularly in enhancing student engagement and learning achievements. This is especially critical for students from low-income families, English learners, and foster youth who may not have access to innovative experiences outside of school due to socio-economical or language barriers.</p> <p>This action is designed to enhance equitable access to innovative technology programs, professional development, and essential technology tools. This initiative is designed to empower students, particularly English Learners, Foster Youth, and Low-Income students, to meet or exceed grade-level content standards through the integration of cutting-edge educational technologies. To effectively implement and support these innovation initiatives, the department will provide a team of dedicated district staff, including a Director, Coordinators, Teachers on Assignment, and support staff. These professionals will be responsible for delivering professional development, conducting data analysis, and facilitating the smooth integration of technology in classroom settings. Additionally, the department will supply schools with the necessary instructional materials, equipment, and supplies to support instructional technology and innovation programs. This includes specialized technology tools and consumables for maker spaces, which foster hands-on learning and creativity. To ensure that these technological interventions are effectively enhancing student learning outcomes, the department will also conduct ongoing data analysis and progress monitoring. This continuous evaluation will help tailor instruction to meet the needs of students more precisely, ultimately</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>supporting significant improvements in academic achievement across targeted student groups. Integrating innovative technology programs equitably enhances teaching and learning across the district. However, this action principally expands access to cutting-edge tools and instruction for English learners, foster youth, and low-income students who disproportionately lack such opportunities. An LEA-wide structure allows for consistent implementation of hardware, software, and pedagogical practices districtwide. It facilitates centralized procurement, professional development, and strategic deployments tailored to high-need populations. Though benefiting all students, centralized oversight enables continuous monitoring and adaptation based on unduplicated pupils' evolving needs. This cohesive model increases equitable access to transformative, technology-rich learning experiences for underserved groups.</p>	
3.1	<p>Action: Recruitment and Retention of Qualified Staff</p> <p>Need: Staffing data and turnover rates indicate difficulties in retaining qualified educators, especially in schools with high populations of unduplicated students. This challenge affects the consistency and quality of educational delivery, which, in turn, impacts student outcomes particularly in academics. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for</p>	<p>Recruiting, hiring, and retaining highly qualified staff are crucial for improving academic outcomes for English learners, low-income students, and foster youth, as evidenced by several research studies. Clotfelter et al. (2007) highlight that teacher qualifications significantly affect student achievement, demonstrating that highly qualified staff can help reduce the academic achievement gap. Similarly, Goldhaber and Brewer (2000) find that teacher certification positively influences student outcomes, underscoring the importance of qualified teachers. Supporting the development of these teachers, Knight (2007) and Killion (2009) discuss the vital roles of instructional coaching and mentoring in enhancing professional practice and, consequently, student achievement. Additionally,</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. Educational partner feedback indicates the importance of employing qualified educators and minimizing turnover, especially at schools with high needs.</p> <p>Scope: LEA-wide</p>	<p>competitive salaries are crucial for attracting and retaining skilled educators, as shown by Ladd and Sorensen (2017) who link teacher experience with student success, and Loeb et al. (2005) who emphasize the importance of adequate compensation in recruiting competent early childhood educators. Effective recruitment strategies are also essential, with Stoddard and Corcoran (2010) offering insights into optimizing teacher placement for English learners, and Guarino et al. (2006) providing recommendations for attracting and maintaining quality teachers. Collectively, these studies illustrate the need for well-thought-out hiring practices, supportive professional environments, and competitive compensation to ensure schools have access to educators who can significantly elevate student learning experiences and outcomes. The district is committed to improving academic achievement in ELA, Math, and ELD by strategically recruiting, hiring, and retaining highly qualified and experienced staff at schools with the highest Unduplicated Pupil Percentage (UPP). This effort is particularly directed at enhancing educational outcomes for English Learners, Low-Income students, and Foster Youth students. To support this crucial initiative, the district will allocate personnel support staff to oversee the hiring and retention processes. These staff members will ensure that recruitment and retention strategies are effectively implemented and aligned with district goals. Additionally, the district will implement coaching and mentoring structures to support new and existing staff, fostering professional growth and enhancing teaching effectiveness. This approach not only supports</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>teachers in their current roles but also contributes to long-term staff retention. Recruitment efforts will be targeted to identify individuals who are not only skilled but also passionate about working with high-need student populations, ensuring a committed and impactful teaching staff. Attracting and retaining highly qualified, experienced educators is essential across all district schools. However, this action principally targets high-UPP sites facing significant staffing challenges that impact unduplicated student achievement. An LEA-wide approach ensures consistent recruitment practices, competitive compensation, and mentoring support regardless of the school site. It allows for strategic incentives and intensive coaching deployments at hard-to-staff schools with high English learner, low-income, and foster youth populations. Though benefiting all students, centralized implementation focuses resources on addressing instructional quality gaps correlated with unduplicated pupil concentrations. This systematic staffing model increases services for high-need groups in a cohesive, equitable manner districtwide.</p>	
3.2	<p>Action: New Teacher Support Program</p> <p>Need: Informal feedback from new teachers and performance evaluations suggest that new educators, particularly in high-needs areas, often feel inadequately prepared to address the specific challenges faced by unduplicated students. Disparity can be seen in academic outcomes on state testing. The data on the 2023 California School Dashboard indicates</p>	<p>The district will continue to provide support for new teachers, particularly those serving in schools with a higher Unduplicated Pupil Percentage (UPP), by supporting the new teacher induction program. This initiative focuses on providing comprehensive professional development and modeling evidence-based strategies to improve student outcomes on state assessments, with a special emphasis on English Learners, Low-Income, and Foster Youth students. To effectively implement this initiative, the district will provide dedicated staff to support new teachers. The district will offer hourly</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic support and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below.</p> <p>Scope: LEA-wide</p>	<p>compensation for induction coaches who play a crucial role in guiding new teachers through their initial years in the classroom. Additionally, the district is committed to developing robust coaching and mentoring structures. These structures will include training and ongoing professional development tailored to the needs of new teachers, ensuring they receive the guidance and support necessary to succeed. Induction support will be designed to help new teachers integrate into their roles effectively, fostering their professional growth and enhancing their ability to impact student learning positively.</p> <p>Supporting new teachers in schools with high Unduplicated Pupil Percentages (UPP) is essential for enhancing educational outcomes. Recent research highlights the effectiveness of structured support systems such as induction and mentoring programs, coaching, and professional development in aiding new educators. Research underscores the importance of induction and mentoring programs for beginning teachers. Ingersoll and Strong (2011) critically review these programs, showing they improve teaching effectiveness and positively impact student outcomes. Similarly, Fletcher and Strong (2017) investigate effective coaching practices, revealing that these can enhance teacher practice and lead to better outcomes for all learners. These findings affirm the critical role of comprehensive support systems in helping new teachers meet the needs of diverse student populations, including English learners, low-income, and foster youth students, thereby enhancing their effectiveness and student academic outcomes.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>A strong new teacher induction program is critical for developing effective educators across all schools. However, this action principally supports high-UPP sites facing staffing challenges with new, under-qualified teachers. An LEA-wide structure ensures consistent training, coaching, and mentorship standards regardless of school assignment. It facilitates targeted deployment of induction resources and intensive support to sites with concentrations of English learners, low-income, and foster youth. Though benefiting all teachers, the centralized implementation allows for data-driven professional development tailored to address achievement gaps among unduplicated pupils. This systematic approach increases instructional quality and academic outcomes for high-need groups in a cohesive, equitable manner districtwide.</p>	
<p>3.3</p>	<p>Action: Access to Internet and/or Devices</p> <p>Need: Response to district surveys and requests for technology show that unduplicated students disproportionately lack reliable access to the internet and digital devices, which are crucial for completing assignments and accessing educational resources. This results in a significant divide in academic performance which can be readily seen from state testing outcomes. The data on the 2023 California School Dashboard indicates lower academic achievement for Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources</p>	<p>To enhance academic outcomes, particularly for low-income students and foster youth, providing additional technology and support is crucial. Several studies highlight the effectiveness of these interventions in facilitating educational improvements. Research by DiSalvo et al. (2014) demonstrates the significant impact that access to technology has on learning outcomes. The study discusses how technology can support systemic changes in education, suggesting that providing devices and internet access can open new avenues for learning and engagement. Further emphasizing the role of technology, Ertmer et al. (2012) explore the relationship between teacher beliefs and technology integration practices. They highlight the importance of staffing solutions that support teachers in effectively incorporating technology into their instructional practices. This is</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low Income students, 26.3 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low Income students, 64.4 points below; and Foster Youth, 154.2 points below. This action will provide access to online programs and services to improve student achievement in ELA and Math by providing additional technology and support, above and beyond the Williams requirement. Educational partner feedback indicates an appreciation for and a need to continually support providing for the technological needs of students.</p> <p>Scope: LEA-wide</p>	<p>complemented by Fullan's (2013) discussion on the role of leadership and staffing in enhancing technology integration efforts within schools, indicating that effective support systems are essential for successful technology adoption. Additionally, a meta-analysis by Means et al. (2013), commissioned by the U.S. Department of Education, evaluates the effectiveness of online learning programs. The analysis confirms that these programs significantly improve student outcomes, underscoring the importance of access to online programs and services. These references collectively provide strong empirical evidence supporting the necessity of technology access, skilled staffing to assist with technology integration, and robust online programs to improve educational outcomes. By leveraging these resources, schools can substantially enhance learning opportunities and support academic success for low-income students and foster youth, ensuring they have the necessary tools to succeed in an increasingly digital world.</p> <p>This action is designed to enhance student achievement in ELA and Math by supplementing online programs and services with additional technology and support, going above and beyond the Williams requirement. It is particularly aimed at benefiting Low-Income students and Foster Youth, ensuring they have the necessary resources to succeed. To support this action, the district will provide adequate staffing, including a Director to oversee technology initiatives, systems and network specialists to ensure robust and reliable technology infrastructure, and helpdesk staff to assist with troubleshooting and user support. These roles are crucial for maintaining the smooth</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>operation of technology services and ensuring that students and staff can fully leverage the tools provided. Furthermore, the district will enhance access to a variety of online programs and services that are essential for modern education, such as Google Workspace for collaboration and Gaggle for ensuring student safety online. These tools are vital for enriching the educational experience and facilitating effective learning. Additionally, the departments will provide essential educational technology to support classroom instruction. This includes laptops, tablets, desktop computers, and interactive Newline boards. These technologies are designed to engage students more effectively in their learning processes and provide teachers with versatile tools to deliver high-quality instruction tailored to the needs of each student.</p> <p>This action is being implemented LEA-wide because equitable access to technology is a foundational need for all students in today's educational landscape. However, low-income and foster youth often lack the same technology resources at home as their peers. An LEA-wide approach ensures all students receive the technology tools, support staff, and digital services required for modern learning. It allows for consistent standards, infrastructure, and centralized, cost-effective implementation. While principally directed at supporting unduplicated pupils by bridging the digital divide, the LEA-wide nature provides a comprehensive technological foundation that benefits all students. This systematic approach increases and improves services for high-need groups in a way that uplifts the entire district.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
3.4	<p>Action: Access and Opportunities</p> <p>Need: Individual school needs, as detailed in each school's School Plan for Student Achievement (SPSA), highlight specific requirements for enhanced instructional programs, materials, and support services to improve English Language Arts and Mathematics. These needs are particularly pronounced in schools serving high populations of English Learners and low-income, and Foster Youth students, who may face significant barriers in accessing quality education. The data on the 2023 California School Dashboard indicates lower academic achievement for English Learners, Low-Income students, and Foster Youth compared to the district average. This discrepancy underlines the necessity for enhanced academic supports and resources tailored to uplift these groups' performance. On the CAASPP ELA all students averaged 2.7 points below standard while unduplicated student groups averaged significantly lower - Low-Income students, 26.3 points below standard; English Learners, 58.4 points below standard; and Foster Youth, 87.6 points below standard. In Math, all students averaged 39.9 points below standard with unduplicated student groups lagging significantly behind -- Low-Income students, 64.4 points below; English Learners, 85.1 points below; and Foster Youth, 154.2 points below. Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners</p>	<p>The district will enhance its English Language Arts and Mathematics instructional programs by tailoring resources to individual school needs as detailed in each School Plan for Student Achievement (SPSA) (https://www.redlandsusd.net/fs/resource-manager/view/f102e1f7-66d0-4c9d-b0a1-c3a5bc56edec). These resources include site-based personnel, instructional materials, technology, and professional development opportunities, alongside strategies to promote positive school climates and address social-emotional, behavioral, and mental health needs. These initiatives, aligned with the LCAP, focus particularly on supporting English Learners, Low-Income, and Foster Youth students. The district will provide staffing, training, necessary classroom supplies, and cover costs for educational field trips. This comprehensive approach aims to improve attendance, reduce suspensions, and ensure all students, especially those facing greater challenges, have access to quality educational opportunities.</p> <p>Disaggregated data from each school site reveals that unduplicated students achieve at lower rates compared to their peers. Consequently, each school tailors supplemental curricula and supports to address the unique needs of these students, as outlined in their individual school plans. This approach involves the identification, analysis, and adoption of evidence-based curriculum supports suitable to their specific student demographics and school context. The effectiveness of these supplemental curricula is assessed through a continuous improvement process, which includes setting specific student goals, monitoring progress,</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Educational partner feedback enthusiastically endorses ongoing support for school plans that address the unique needs identified at each site.</p> <p>Scope: LEA-wide</p>	<p>and making necessary adjustments based on individual needs. Enhanced academic performance among these students will be measured by closely monitored individual plans and standardized district/state assessments. Additionally, the implementation of site-based plans aims to strategically use data to pinpoint and address the educational requirements of unduplicated student groups, especially those identified in "red" areas on the California School Dashboard for each school.</p> <p>While tailored to individual school needs, an LEA-wide approach ensures consistent standards and equitable access to supplemental staffing, programs, and resources across all sites. It allows for cohesive professional development, curriculum adoption, and centralized procurement of effective intervention materials. Data-driven SPSAs target high-need student populations, but LEA oversight promotes strategic service alignment with LCAP goals benefiting all students. Though principally directed at English learners, low-income, and foster youth, centralized implementation increases staff capacity to address common achievement gaps and climate/engagement needs districtwide. An LEA-wide structure leverages site flexibility within unifying district systems of support, ultimately increasing and improving services for high-need groups in a comprehensive manner.</p>	
3.5	<p>Action: Enhanced Facilities Projects</p> <p>Need: As indicated by school climate surveys and a review of the data pertaining to facility requests, schools serving high numbers of</p>	<p>The district will implement enhanced facilities projects to create innovative learning spaces, such as Garner Holt labs, Z-Space labs, Outdoor Learning Spaces, and enhanced innovation library spaces. These projects are primarily directed toward Equity Support Program (ESP) sites that serve high numbers of unduplicated student</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>unduplicated students often have outdated or insufficient facilities, which can impact the learning environment and student morale, leading to a decline in attendance. Analysis of district data shows that all students had a 93.4% attendance rate, whereas English Learners had a lower rate at 92.3%, Low-Income students at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among English Learners at 26.4%, Low-Income students at 29.1%, and Foster Youth at 26.1%.</p> <p>Scope: LEA-wide</p>	<p>populations, including foster youth, English learners, and low-income students. The aim of these spaces is to foster enthusiasm for learning, enhance student connectedness to school sites, and provide equitable access to educational opportunities. The selection of sites for these enhancements will be data-driven, focusing on schools with significant achievement gaps and high concentrations of the targeted student groups.</p> <p>To implement this action, the district will provide managers and support staff to oversee the development and maintenance of these spaces. Essential materials and supplies, such as construction materials, technology, and furniture, will be procured to ensure these spaces are well-equipped and conducive to learning. Additionally, the district will engage contracted services for facility improvements, ensuring that all new and renovated spaces meet the specific needs of students and enhance their learning environment. This comprehensive approach is designed to not only benefit all students but specifically target and support the needs of foster youth, English learners, and low-income students by transforming their educational spaces and experiences.</p> <p>To support positive academic outcomes and reduce chronic absenteeism among foster youth, English learners, and low-income students, implementing enhanced facilities projects to develop innovative learning spaces is crucial. Research strongly supports the link between the quality of school facilities and student performance and engagement. Earthman (2002) explores the</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>relationship between school facility conditions and student academic achievement. His findings underscore the importance of well-maintained and optimally designed facilities in supporting student success. Haggerty et al. (2010) offer policy recommendations through the Coalition for Community Schools, advocating for safe and healthy learning environments that not only support learning but also student well-being, emphasizing the critical role of the physical school environment in educational outcomes. Prince (2004) reviews the effectiveness of active learning strategies facilitated by innovative learning spaces. His research indicates that these spaces significantly enhance student engagement and learning outcomes. Scott-Webber et al. (2011) investigate the impact of formal learning environments, including innovative spaces, on student learning. Their study confirms that thoughtfully designed educational spaces can profoundly influence academic performance. The National Council on School Facilities (2015) compiles research that connects the adequacy and equity of school facilities with student outcomes, highlighting that equitable access to high-quality facilities is essential for all students. DeLuca and Rosenblatt (2010) emphasize that equity in educational environments is crucial for the success of all students, particularly those from marginalized communities. These studies collectively provide empirical evidence of the positive impact that enhanced and innovative facilities have on student attendance, engagement, and academic outcomes, particularly for vulnerable student groups. They underline the importance of investing in high-quality, equitable</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>educational spaces as a fundamental component of educational strategies aimed at promoting student success and reducing absenteeism. While principally targeting high-need ESP sites, developing engaging innovative learning spaces benefits all students district-wide. An LEA-wide approach ensures consistent design standards, procurement, and construction oversight across sites. It allows for strategic prioritization of facilities projects based on data around unduplicated student concentrations and achievement gaps. Though focused on schools with more foster, English learner, and low-income populations initially, an LEA-wide model provides a cohesive, long-term vision for enhancing learning spaces comprehensively. This increases access and enthusiasm for learning among targeted groups in a way that uplifts the entire district.</p>	
<p>3.6</p>	<p>Action: Transportation</p> <p>Need: Transportation barriers, as indicated by attendance data and parent feedback, disproportionately affect unduplicated students, impacting their ability to consistently attend school and participate in school-related activities. Analysis of district data shows that all students had a 93.4% attendance rate, whereas Low income students had a lower rate at 92.6%, and Foster Youth at 91.0%. Based on data from the 2023 CA School Dashboard, the chronic absenteeism rate was 24% for all students, higher rates were observed among Low-Income students at 29.1%, and Foster Youth at 26.1%.</p>	<p>The importance of transportation in school districts is profoundly underscored by recent research, which highlights its critical role in enhancing student attendance and academic achievement. The 2023 study published by MIT Press, titled "Another One Rides the Bus: The Impact of School Transportation on Student Outcomes," provides compelling evidence that reliable and safe school transportation significantly boosts student attendance and achievement. Utilizing a detailed panel of student-level enrollment and address data from Michigan public schools, the study demonstrates that transportation policies have a substantial effect on educational outcomes.</p> <p>Additionally, the Urban Institute's 2023 report "Student Transportation and Educational Access" discusses the vital role of transportation in</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>ensuring educational access, especially in larger and more geographically dispersed districts. The findings from this report emphasize that adequate transportation services are crucial for providing equal access to educational opportunities, affecting students' ability to regularly attend school and engage in school-related activities.</p> <p>Together, these studies highlight the significant role of transportation in supporting educational equity and access, illustrating its direct impact on enhancing student attendance and fostering academic success.</p> <p>The district is committed to ensuring access to in-person instruction by enhancing transportation services, particularly for Low-Income and Foster Youth students. While all students will benefit from improved transportation options, this initiative focuses on providing equitable access to those who may face significant barriers in reaching school facilities.</p> <p>To facilitate this commitment, the district will employ a dedicated staff including a Director of Transportation, drivers, bus aides, and support staff. These personnel are essential for the operation and management of safe and efficient transportation services. The district will provide various transportation options, including district-operated buses for direct routes to and from schools, and city bus passes to accommodate students who require more flexible travel schedules. This comprehensive approach ensures that all students, especially those from underserved backgrounds, have reliable and</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>accessible means to attend school, fostering greater educational equity and attendance stability.</p> <p>Reliable transportation access is essential for students to attend school and receive in-person instruction. However, low-income and foster youth often lack consistent transportation means. Providing transportation services LEA-wide ensures equitable access for all students to get to school. A centralized approach allows for efficient deployment of bus routes, staff scheduling, and vehicle maintenance districtwide. While principally directed at unduplicated pupils, an LEA-wide model provides this foundational service benefiting all families. This systematic implementation increases access to educational opportunities for high-need groups in a way that supports the entire district.</p>	
<p>3.7</p>	<p>Action: LCAP Program Coordination</p> <p>Need: Feedback from educational partners indicates a continued need to maintain positive collaboration with families and community members to ensure positive outcomes for students. The LCAP Advisory Committee expressed an appreciation for and the need to maintain inclusive and equitable involvement in the development, implementation, and monitoring of the Local Control Accountability Plan (LCAP). Ensuring that all educational partners have a voice is crucial to address and support the unique needs of low-income students, foster youth, and English learners effectively.</p>	<p>The district is committed to promoting equitable development and effective implementation of the LCAP by coordinating support across school sites and district programs, ensuring comprehensive community and parental involvement. Dedicated staff facilitate educational partner participation, making sure all voices contribute to the planning process, thereby enhancing educational policies and practices that affect students. The district supports this engagement by providing necessary materials and aligning district programs with community needs to improve academic, social-emotional, and behavioral outcomes.</p> <p>Research from the Harvard Graduate School of Education (2023) and Detroit URC (2011) underscores the significant benefits of involving families and community members in school</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>decision-making. These benefits include improved staff morale, greater teacher retention, increased community support, and enhanced student outcomes like reduced suspensions and increased after-school participation. By incorporating a broad range of perspectives, including a diverse 45-member LCAP Advisory Committee and a Student LCAP Advisory Committee, the district strengthens its goals, actions, and services, fostering a more inclusive environment. This approach not only deepens school-community ties but also supports the district's vision to inspire, equip, and support all members of the Redlands USD community. The effectiveness of these initiatives is monitored through continuous feedback and participation in the LCAP advisory process, ensuring that the voices of diverse educational partners are heard and valued.</p> <p>This action ensures equitable LCAP development and monitoring across the district. However, it is principally directed at low-income, foster, and English learner student groups who often face barriers to inclusion. An LEA-wide approach enables consistent outreach, training on engaging underrepresented voices, and targeted interventions for these student populations. It allows leveraging centralized resources efficiently while benefiting all groups through increased transparency. Streamlining as an LEA-wide action coordinates improved services for high-need students in a cohesive manner. The district-wide structure uplifts the entire LCAP process through meaningful engagement of all educational partners.</p>	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<p>2.4</p>	<p>Action: Tiered Academic Supports for Multilingual Students</p> <p>Need: Analysis of recent data from the California School Dashboard and DataQuest underscores persistent academic achievement challenges faced by multilingual learners, particularly English Learners (ELs), in the Redlands Unified School District. These challenges, primarily stemming from language barriers, cultural differences, limited vocabulary, high academic expectations, and emotional stress, continue to impact their academic performance and integration into mainstream classrooms. In 2023, the California School Dashboard reported that 47.6% of ELs in Redlands Unified demonstrated progress toward English language proficiency, as measured by the English Language Proficiency Assessments for California (ELPAC). In 2024, this progress was maintained at 48.8%, making progress, a slight increase. This performance places the district in the “maintained” status category and color yellow, indicating a need for targeted interventions to support ELs in achieving language proficiency. The academic challenges faced by ELs are further evidenced by their performance in English Language Arts (ELA) and</p>	<p>The Educational Services Division is committed to enhancing English language proficiency and improving reclassification rates for English Learners. This effort involves comprehensive staff development aimed at expanding and refining the implementation of ELD standards across all grade levels and content areas. Additionally, the division ensures ongoing monitoring and will develop tiered systems of support to effectively assist students who are not making adequate progress in their language acquisition.</p> <p>The division will provide specialized staffing to support this initiative, including a Director of Special Projects, Program Specialists, and necessary support staff. These roles are crucial for English Learner achievement, overseeing the program's effectiveness and providing targeted assistance where needed.</p> <p>Furthermore, the division will offer extensive professional development opportunities for administration and staff, including participation in conferences and workshops specifically focused on strategies for supporting English Learners towards reclassification. These training sessions are designed to equip staff with the latest methodologies and insights to address the unique needs of English Learners and to foster an environment conducive to multiliteracy, thereby enhancing academic success and equitable access to educational opportunities.</p>	<p>as listed in action description</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Mathematics (Math). According to the 2023 California School Dashboard, ELs in Redlands Unified scored 58.4 points below the standard in ELA assessments compared to 61.2 points in 2024, placing them in the "orange" performance color. In addition, ELs scored 85.1 points below the standard in Math in 2023, compared to 89.9 points in 2024, placing them in the "orange" performance color.</p> <p>These data points highlight the ongoing need for comprehensive support systems and instructional strategies tailored to the unique needs of ELs. The District English Learner Advisory Committee (DELAC) annual needs assessment demonstrated feedback focused on tutoring or intervention for students, literacy instruction for families, professional development for teachers, and translation support for all school sites. By addressing the needs and providing targeted academic interventions, the district can work towards improving educational outcomes and ensuring equitable opportunities for all EL students.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Linda Darling-Hammond's advocacy for comprehensive support structures, including language services, highlights the need to bridge the achievement gap for non-English-speaking students. This approach ensures equitable access to educational resources for all families, regardless of their home language. Building on this foundation, recent studies emphasize the critical importance of specialized language acquisition programs and targeted teacher training to support English Learners (ELs).</p> <p>The report "Preparing All Teachers to Meet the Needs of English Language Learners," available through ERIC, underscores the necessity for all educators to be equipped to meet the diverse needs of ELs. It focuses on the importance of training teachers in understanding language variation and dialectical differences and their impact on learning. This training is vital for enabling educators to support ELs effectively in the classroom by adapting instructional techniques to enhance language acquisition and educational outcomes.</p> <p>Additionally, the publication "7 Programs for English Learners in Grades Pre-K to 12" by the National Academies Press provides a comprehensive review of effective programs and practices for English learners, covering both English-only and bilingual options. This review assesses the outcomes of these educational strategies, advocating for well-designed programs that support language acquisition among ELs. It details the benefits of various instructional models</p>	

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		<p>and the critical role of teacher training in improving the educational experiences of ELs.</p> <p>According to the California EL Roadmap, the diversity of ELs—including newcomers, potential long-term ELs, long-term ELs, those with interrupted schooling, and ELs with disabilities—requires pedagogy and educational support services that are differentiated and responsive. The roadmap outlines the importance of equitable, rigorous, and positive environments and ensures ELs have access to high-quality education. Furthermore, effective and consistent processes for identifying, placing, monitoring, and exiting ELs, alongside enhancing staff capacity, are fundamental for improving both linguistic and academic outcomes for ELs. The California Practitioners' Guide for Educating English Learners with Disabilities provides legal requirements, best practices, and resources to assist ELs with disabilities.</p> <p>Services for English Learners are designed primarily for unduplicated pupils and families facing language barriers. The work of EL program specialists, EL paraprofessionals, and other staff who deliver targeted interventions is crucial. These professionals also conduct related parent workshops and provide technical assistance to schools. They focus on both Integrated and Designated English Language Development based on assessments, including interviews and surveys with EL students and their parents/guardians. Interventions are specifically tailored to foster English language proficiency and mastery of grade-level content standards, thereby enhancing</p>	

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		<p>the support that students might otherwise receive in other academic interventions.</p> <p>Implementing these actions is expected to significantly boost students' academic proficiency as measured by state assessments and increase the English Learner reclassification rate, marking substantial progress in educational equity and effectiveness for English Learners.</p>	
2.5	<p>Action: Long-Term English Learner Program</p> <p>Need: Assessment data from the California School Dashboard and DataQuest highlight ongoing challenges faced by Long-Term English Learners (LTELs) in Redlands Unified School District, affecting their academic progress and integration into mainstream classrooms. According to the 2023 California School Dashboard, 47.6% of English Learners in Redlands Unified were making progress toward English language proficiency, as measured by the English Language Proficiency Assessments for California (ELPAC). The same CA Dashboard comparison revealed that in 2024, 48.8.% of English Learners in Redlands Unified were making progress toward English language proficiency which corresponds to a "Yellow" performance level on the Dashboard. This figure is slightly above the statewide average of 45.7% for English Learner Progress. As a L-TEL student group in 2024, the overall performance color for ELPI was green,</p>	<p>The district is implementing a focused initiative to address the specific academic needs of Long-Term English Learners (L-TELs) by providing dedicated EL staff and tiered support systems. This action is designed to increase English language proficiency and effectively reduce the number of L-TELs within the district.</p> <p>To achieve this, the district will designate secondary EL teachers who are specially trained to meet the specific needs of L-TELs, including socio-emotional, academic, literacy, and language proficiency. These teachers will implement targeted instructional strategies that are designed to accelerate English language acquisition and close academic gaps.</p> <p>Additionally, the district will ensure that these specialized teachers are equipped with the necessary professional development and instructional materials to support their teaching. These materials will be specifically tailored to enhance learning for L-TELs, incorporating both language development and content mastery to facilitate better academic outcomes and progress toward English proficiency.</p>	as listed in action description

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>however the same group scored far below the standard in both ELA and Math with a performance color of Red. DataQuest reflects 23.6% L-TELEs were reclassified in 2023 compared to 21.7% in 2024 which is a slight decline. The District English Learner Advisory Committee (DELAC) annual needs assessment demonstrates feedback focused on tutoring or intervention for students, literacy instruction for families, professional development for teachers, and translation support for all school sites. There is a need to focus on English Learners with a high concentration on supporting the L-TEL student group. Currently, L-TELEs constitute 12.7% of the English Learner population compared to 13.2 % last year, showing a slight improvement. Addressing the specific needs of this group is essential for promoting equitable educational outcomes and ensuring their successful integration into mainstream academic settings.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Research shows that Long-Term English Learners have a unique set of needs. "Long-term English Learners: Predictors, Patterns, & Outcomes," a study, released by the Houston Education Research Consortium, examines the predictors and outcomes associated with students who have been classified as English learners for seven years or more. It highlights the academic challenges LTELs face and suggests strategies for more effective language instruction and support, aiming to accelerate their language acquisition and academic achievement (Houston Education Research Consortium). "Supporting Emergent Bilingual Learners Labeled Long-Term English Learners," published in the International Multilingual Research Journal, this article discusses the characteristics and educational experiences of LTELs, emphasizing the necessity of tailored educational approaches. It outlines the importance of providing LTELs with specific instructional strategies that address both their language development and academic content needs, which are crucial for improving their educational outcomes (Olsen, 2010). These studies provide insight into the unique challenges faced by long-term English learners and underscore the importance of specialized instructional strategies to support their continued language development and academic success.</p>	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

not applicable

DRAFT

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

3 Redlands USD elementary schools and 1 TK-12 virtual academy have an Unduplicated Pupil Percentage (UPP) below 55%.

21 Redlands USD schools have an Unduplicated Pupil Percentage (UPP) above 55%.

The District increased or ensured continued staffing at school sites with a UPP above 55% using a methodology determined by Business Services which included a review of current staffing, student group program offerings, academic data, and school site needs. As a result of this review funds were used to ensure continued staffing of general education instructional paraprofessional positions, instructional support specialist/intervention teachers, counselors, and academic case carriers. To meet the requirement to increase the number of staff who provide direct services to students at school with an enrollment of unduplicated students that is greater than 55%, the District is implementing supports with additional personnel for Comprehensive School Counseling (Goal 1, Actions 1.4 & 1.5), promoting college and career readiness (Goal 1, Action 1.9; Goal 2, Actions 2.7 & 2.8), Tiered Academic Supports (Goal 2, Action 2.2), Tiered Literacy Supports (Goal 2, Action 2.3), Tiered Academic Supports for Multilingual Learners (Goal 2, Action 2.4), and English Learner Programs (Goal 2, Action 2.5).

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	Elementary School Ratio 1:28/No Secondary Schools Below 55%	Elementary School Ratio 1:25/Secondary School Ratio 1:42
Staff-to-student ratio of certificated staff providing direct services to students	Elementary School Ratio 1:21/No Secondary Schools Below 55%	Elementary School Ratio 1:16/Secondary School Ratio 1:21

2026-27 Total Planned Expenditures Table

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

DRAFT

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

DRAFT

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

DRAFT

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of EC Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

DRAFT

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. *This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.*

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

DRAFT

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

DRAFT

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
