

CHEROKEE HIGH SCHOOL

Thank you for coming to our First Look at Cherokee High School! This is a large campus composed of several buildings. The main building (front entry) is three stories, and houses the majority of classrooms—plus the media center, student support services, special education classrooms, administrative offices and two Global Learning Centers (these are the curved windows in the center when looking at the front, on the second and third floors). The third floor of the main building is an exact replica of the second floor and is not open for the event today. Band, chorus and fine arts are on the first floor. Our Career Pathway classes are housed in a two-story building to the east of the main building. The competition (main) gym is to the west. The cafeteria (Café 56), auditorium and auxiliary gym are to the north adjacent to a large turfed courtyard. Enjoy your visit— and see the other side of this map for some photo moments around campus!

Athletic facilities are open to view,
but we ask that you please do not
walk on the turf field or the main
gym floor
