

Temporary Workaround for Benchmark textbox size issue

Issue: Benchmark text box too small

Path: Student Information > Special Ed > Special Ed Document Editor

Go to the *Unique Needs/Present Levels/Annual Goals and Benchmarks* editor, click on a Unique Need

The screenshot shows a web application window titled "Unique Needs/Present Levels/Annual Goals and Benchmarks" with a status of "IN PROGRESS" and "Editor 14 of 29". It features a table with three columns: "Sequence", "Area of Unique Need", and "Statement of Unique Need". The first row is highlighted with a pink border and contains the values "1", "reading comp", and "gkjdsagfkdlj". The second row contains "2", "reading comp", and "sfadfs". Below the table is a pagination control showing "1 - 2 of 2 Items". At the bottom of the window are buttons for "New", "Cancel", "Complete", "Print", "Editors", "Previous", and "Next".

Sequence	Area of Unique Need	Statement of Unique Need
1	reading comp	gkjdsagfkdlj
2	reading comp	sfadfs

Scroll to the bottom to the *Measurable Annual Goals and Benchmarks* section and click on an Annual Goal. In the Benchmarks section, the Benchmark 'column' is much smaller than the Sequence and Marking Period columns.

The screenshot shows the "Measurable Annual Goal and Benchmarks" section of the "Special Ed Document Editor". It includes a sidebar with "Favorites" and a main content area. The "Annual Goal" section has a "Sequence Number" dropdown set to "1", checkboxes for "ESY", "Reading ESY", and "Related Service Goal", and a text box for the "Annual Goal" containing "test1". Below this is the "Benchmarks" section, which is a table with three columns: "SEQUENCE", "BENCHMARK", and "MARKING PERIOD". The first row has "1", "test1", and "25-26 MP1: (08/25/2025 - 10/28/2025)". The second row has "2", "test1", and "25-26 MP2: (10/29/2025 - 01/23/2026)". Each row has a "Remove" button. At the bottom are buttons for "Save & Stay", "Close", and "Delete".

SEQUENCE	BENCHMARK	MARKING PERIOD
1	test1	25-26 MP1: (08/25/2025 - 10/28/2025)
2	test1	25-26 MP2: (10/29/2025 - 01/23/2026)

Temporary Workaround for Benchmark textbox size issue

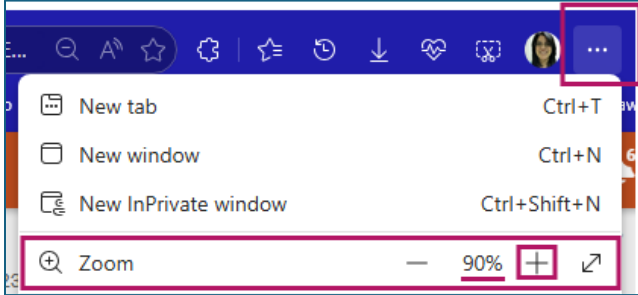

ECR/DDOE requested that Infinite Campus make the Sequence and Marking Period columns smaller and the Benchmark column larger and it is planned for a future release.

Temporary work around:

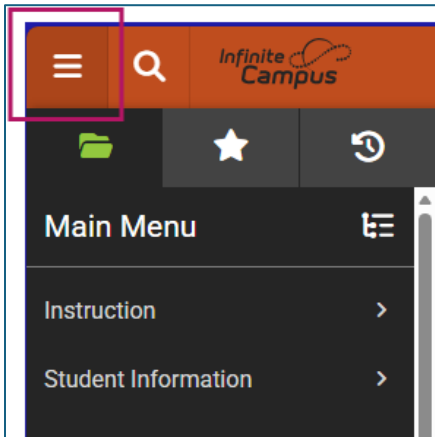

- 1) After opening Make the browser full screen

- 2) Make sure the page is 100% (this screenshot is Edge and the Zoom setting is listed under the three dots)

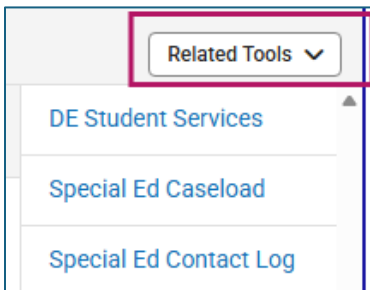

- 3) Then hide the left navigation panel, by clicking on the three lines

Note: just doing these two things makes the benchmark column larger:

Benchmarks			
SEQUENCE	BENCHMARK	MARKING PERIOD	
1	test1	25-26 MP1: (08/25/2025 - 10/28/2025)	Remove
2	test1	25-26 MP2: (10/29/2025 - 01/23/2026)	Remove

- 4) Then hide the Related Tools list on the right by clicking on the 'button'

Temporary Workaround for Benchmark textbox size issue

- 5) To make it easier to type, click on the bottom right corner to resize the textbox to make it longer vertically. (it does not resize horizontally.)

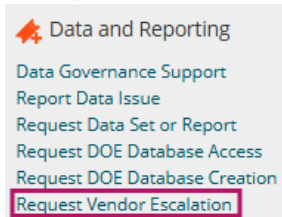

Benchmarks			
SEQUENCE	BENCHMARK	MARKING PERIOD	
1	test1	25-26 MP1: (08/25/2025 - 10/28/2025)	Remove
2	test1	25-26 MP2: (10/29/2025 - 01/23/2026)	Remove

Feedback needed: When testing this with Infinite Campus on call, the original textbox size was different for some of us and Campus has asked for our help by asking for LEA's feedback. We don't need everyone to respond but would like to see if this helps your users.

If it does not – and the textbox is still small or narrow, can you please gather the information below

- The browser used
- Mac or PC
- Computer monitor or laptop screen

and either email kim.walsh@doe.k12.de.us or submit a DDOE Help Desk ticket in the Data & Reporting queue to escalate to vendor, mention Kim Walsh to get it assigned and information relayed to IC quickly.

Campus would especially like to know If it works differently in Chrome, Edge, Firefox, or Safari.
