Keller**

Comments to: Smart.bond@redjacket.org

Purpose

Funding to support District Security by installing swipe card asset to additional hallways and start to implement for classrooms throughout the District to help with the abundance of master keys especially for those that have left the District.

Funding to Support

Wireless Classroom Locks to include-

Provide and install (90) wireless locksets throughout the school

Provide and install Pim Modules for communication to wireless locks

Provide licensing for additional locks

Network

The Project will need (17) open network ports

Conditions

Demonstration of Need- A high number of master keys not turned in, people who left district
Deficiency in Efficiency during Lock Down Drills
Many Different Door Hardware Providers Across District

Adequate Technology Infrastructure

Sustainability

Capital Projects Support Full District Conversion by December 2027
