

Pathways to Structured Literacy Pacing Guide

This AIM Pathways course is an International Dyslexia Association (IDA) accredited professional development opportunity designed to translate theoretical models of literacy into the evidence-based instructional practices that support students' achievement. This online coursework continues to strengthen educators' knowledge and understanding of the science of reading by providing multiple opportunities to apply this knowledge to classroom instruction. The content of the course is Orton-Gillingham based and prepares participants for the KPEERI exam. It also offers 30 hours of CEUs and 3 graduate credits are available for transfer with our partner, Arcadia University. To learn more about this course, please visit the AIM Institute webpage HERE. *Prerequisite: Pathways to Proficient Reading course.*

The asynchronous coursework can be completed at your own pace, however, the pacing guide below recommends pacing to help you stay on track and be fully prepared for each live session. These live community-of-practice sessions are pre-scheduled and guided by an AIM facilitator. The sessions are to encourage the application and discussion of the content in the course.
