Rising Fourth Grade Summer Math Packet 2026

First Name _____ **Last Name** _____

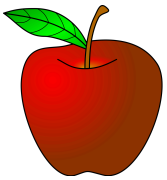

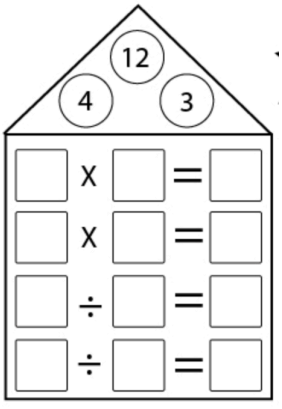

Welcome to Summer Math

Your child has learned so much in math class this year. To keep those skills sharp, we are asking that your child works on one page a week during the summer. Each page should take about 20 minutes to complete. **To retain the math skills learned this school year, it is much better to work on the pages a little at a time rather than waiting until the end of summer.** The math covered in these pages includes topics they learned last year. No new material is introduced in this packet.

Please return the packet with your student in the fall.
