Work includes careful demolition of current siding, inspection of wall sheathing, and preparation of surfaces for new installation. A continuous water-resistant barrier (Tyvek or equivalent) and 1/2-inch foam insulation will be installed to improve moisture protection and energy efficiency. New vinyl siding (Alside Odyssey or equivalent) will be installed along with all required trim components, including corner posts, J-channels, undersill trim, and custom aluminum-wrapped fascia, rake boards, and window/door casings. All penetrations (lights, outlets, vents, and fixtures) will be properly integrated using mounting blocks and sealed for weatherproofing. Existing exterior fixtures will be removed and reinstalled as needed. All work will be performed in accordance with the Connecticut State Building Code and local requirements, with permits obtained and inspections coordinated as required.
