- Multiplication flashcards to study <u>at home</u> (1-12 facts)

Dear Future 4th Graders,

Welcome to 4th grade! We are so excited for you to join us next year. Fourth grade is full of fun learning, exciting projects, and new challenges.

To be ready for a great year, there are a few important things you should practice over the summer:

- **Read every day.** Reading helps you become a stronger student in every subject. Try to read books, magazines, or stories that you enjoy.
- **Write in a journal.** Write about your day, your adventures, your thoughts, or even make up stories. Writing often will help you become a better writer and thinker.
- **Know your multiplication facts.** In 4th grade, we use multiplication every day in math. Practice your facts so you can answer quickly and confidently.

If you work on these skills, you will be ready to have a successful and exciting year in 4th grade. We cannot wait to meet you!

Have a wonderful summer!

Sincerely,
Your Future 4th Grade Teacher
