Report on the Audit of the Financial Statements***Opinions***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Encinitas Union School District, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Encinitas Union School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Encinitas Union School District, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Encinitas Union School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter***Change in Accounting Principle***

As described in Note 1 to the financial statements, the Encinitas Union School District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements (continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Encinitas Union School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user of the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Encinitas Union School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Encinitas Union School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis, budgetary comparison information, schedule of changes in total OPEB liability and related ratios, schedules of proportionate share of net pension liability, and schedules of district contributions for pensions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Encinitas Union School District's basic financial statements. The supplementary information listed in the table of contents, including the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR)* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Local Education Agency Organization Structure but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2025 on our consideration of the Encinitas Union School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Encinitas Union School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Encinitas Union School District's internal control over financial reporting and compliance.

ENCINITAS UNION SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

INTRODUCTION

Our discussion and analysis of Encinitas Union School District's (District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2025. It should be read in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's net position was \$16,695,852 at June 30, 2025. This was an increase of \$3,347,567 from the prior year, after restatement.
- Overall revenues were \$92,283,865, which exceeded expenses of \$88,936,298.

OVERVIEW OF FINANCIAL STATEMENTS (continued)

Components of the Financial Section (continued)

This annual report consists of three parts – Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives:

- ▶ **Government-wide financial statements**, which comprise the first two statements, provide both short-term and long-term information about the entity's overall financial position.
- ▶ **Fund financial statements** focus on reporting the individual parts of District operations in more detail. The fund financial statements comprise the remaining statements.
 - ▶ **Governmental Funds** provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.
 - ▶ **Proprietary Funds** report services for which the District charges customers a fee. Like the government-wide statements, they provide both long- and short-term financial information.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The basic financial statements are followed by a section of required and other supplementary information that further explain and support the financial statements.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health. Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

The government-wide financial statements of the District include governmental activities. All of the District's basic services are included here, such as regular education, food service, maintenance and general administration. Local control formula funding and federal and state grants finance most of these activities.

FINANCIAL ANALYSIS OF THE DISTRICT'S MAJOR FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed this year, its governmental funds reported a combined fund balance of \$132,101,427 which is more than last year's ending fund balance of \$67,196,085. The District's General Fund had \$1,761,723 more in operating revenues than expenditures for the year ended June 30, 2025. The District's Building Fund had \$2,468,072 less in operating revenues than expenditures for the year ended June 30, 2025. Additionally, the District's Building Fund had \$60,000,000 in other sources related to the issuance of 2024 Series A General Obligation Bonds for a net increase in fund balance of \$57,531,928. The District's Bond Interest and Redemption Fund had \$150,576 less in operating revenues than expenditures, combined with \$3,199,450 in other sources related to the bond issue premium on the 2024 Series A General Obligation Bonds, for a net increase of \$3,048,874 and an ending fund balance of \$26,507,379 for the year ended June 30, 2025.

CURRENT YEAR BUDGET 2024-2025

During the fiscal year, budget revisions and appropriation transfers are presented to the Board for their approval on a periodic basis to reflect changes to both revenues and expenditures that become known during the year. In addition, the Board of Education approves financial projections included with the Adopted Budget, First Interim, and Second Interim financial reports. The Unaudited Actuals reflect the District's financial projections and current budget based on State and local financial information.

*Compensated Absences for 2024 was restated in order to record the District's compensated absences in accordance with GASB Statement No. 101 which supersedes GASB Statement No. 16 for the year ended June 30, 2025.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Several economic and fiscal factors could influence the District's financial condition in the coming year, including continued enrollment declines, uncertain federal and state revenues, high pension obligations, and a cooling California economy.

Long-Term Declining Enrollment

California's K-12 system continues to experience enrollment decline. Statewide enrollment fell another 0.5% in 2024-25 to about 5.8 million students, roughly 420,000 fewer than a decade ago. The Department of Finance projects an additional 586,000-student decline by 2033-34. Lower birth rates, high housing costs, and out-migration are key drivers, along with growing competition from charter and private schools. Because many costs—such as staffing and facilities—cannot easily adjust, revenue loss from declining Average Daily Attendance (ADA) creates structural fiscal challenges that require multi-year planning.

**ENCINITAS UNION SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS, continued
FOR THE YEAR ENDED JUNE 30, 2025**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET (continued)

Revenue Uncertainties

- **Status of Proposition 98:** The 2025–26 State Budget sets the Proposition 98 guarantee at \$114.6 billion, slightly below earlier projections. To maintain K–12 funding commitments amid weaker tax receipts, the State relied on reserve drawdowns, internal borrowing, and limited deferrals. The outlook remains fragile since Proposition 98 revenues are highly sensitive to income-tax and capital-gains fluctuations. A market slowdown could trigger future adjustments. The Legislative Analyst's Office urges districts to budget cautiously and preserve flexibility given ongoing volatility.
- **Federal Funding Uncertainties:** Federal funding for K–12 education remains uncertain heading into 2025–26. Several large federal programs—including Title I, Title II, IDEA, and after-school and enrichment grants—face potential reductions or delays under current federal budget proposals and continuing appropriations negotiations. The U.S. Department of Education has also paused or delayed disbursement of certain previously approved formula and competitive grants, creating short-term cash-flow and planning challenges for districts. Analyses by nonpartisan agencies such as the Congressional Budget Office and the Learning Policy Institute note that up to \$5–6 billion in K-12 formula funds nationwide remain at risk of reduction or deferral if congressional appropriations are not finalized. While districts are expected to continue receiving baseline allocations during temporary funding resolutions, long-term federal support levels for education could decline modestly in real terms, requiring districts to plan for possible funding interruptions or reductions in future years.

Pension Liabilities and Employer Rates

The District participates in CalSTRS and CalPERS, both of which remain underfunded and continue to exert upward pressure on budgets. For 2025–26, the CalSTRS employer rate is 19.10%, and the CalPERS Schools Pool rate is 26.81%. These elevated rates—well above pre-2014 levels—will likely persist through the decade as both systems address unfunded liabilities. Districts must continue to account for escalating pension costs in long-range projections.

Economic and Market Conditions

California's economy has cooled following its post-pandemic rebound. High interest rates, weaker venture investment, and commercial-real-estate softness have slowed growth, especially in tech-dependent regions. The UCLA Anderson Forecast (Fall 2025) expects subdued growth into 2026, with unemployment near 5%. Inflation has eased, but interest-rate uncertainty continues to constrain housing and business investment.

Because the State's tax base depends heavily on capital-gains income, stock-market volatility remains a major risk to General Fund and Proposition 98 revenues. Fiscal advisors therefore recommend that districts maintain prudent reserves and avoid long-term commitments based on one-time revenue gains.

Summary

Declining enrollment, volatile revenues, persistent pension costs, and broader economic uncertainty all contribute to a challenging fiscal environment for California school districts. The District's 2025–26 budget reflects these conditions through conservative revenue assumptions, strong reserves, and continued monitoring of State fiscal trends.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. ENCINITAS UNION SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET
POSITION
JUNE 30, 2025

Total Fund Balance - Governmental Funds \$ 132,101,427

Amounts reported for assets and liabilities for governmental activities in the statement of net position are different from amounts reported in governmental funds because:

Capital assets:

In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets and accumulated depreciation:

Capital assets	\$ 191,683,610	
Accumulated depreciation	<u>(112,195,118)</u>	79,488,492

Unmatured interest on long-term debt:

In governmental funds, interest on long-term debt is not recognized until the period in which it matures and is paid. In the government-wide statement of activities, it is recognized in the period that it is incurred. The additional liability for unmatrued interest owing at the end of the period was:

(1,124,227)

Long-term liabilities:

In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

Total general obligation bonds	\$ 143,381,912	
Compensated absences	2,468,133	
Total OPEB liability	8,956,369	
Net pension liability	<u>55,900,300</u>	(210,706,714)

Deferred outflows and inflows of resources relating to pensions:

In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported.

Deferred outflows of resources related to pensions	\$ 21,559,051	
Deferred inflows of resources related to pensions	<u>(8,767,890)</u>	12,791,161

Deferred outflows and inflows of resources relating to OPEB:

In governmental funds, deferred outflows and inflows of resources relating to OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to OPEB are reported.

Deferred outflows of resources related to OPEB	\$ 548,244	
Deferred inflows of resources related to OPEB	<u>(3,111,783)</u>	(2,563,539)

Internal service funds:

Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to operate for the benefit of governmental activities, assets, deferred outflows of resources, liabilities, and deferred inflows of resources of internal service funds are reported with governmental activities in the statement of net position. Net position for internal service funds is:

6,709,252

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2025**

Net Change in Fund Balances - Governmental Funds \$ 64,905,342

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

Capital outlay:

In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay:	\$	2,984,122	
Depreciation expense:		(6,312,113)	(3,327,991)

Debt service:

In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were:

3,155,000

Debt proceeds:

In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium or discount, were:

(63,199,450)

Unmatured interest on long-term debt:

In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period, was:

(276,135)

Accreted interest on long-term debt:

In governmental funds, accreted interest on capital appreciation bonds is not recorded as an expenditure from current sources. In the government-wide statement of activities, however, this is recorded as interest expense for the period.

(989,175)

Compensated absences:

In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amount earned. The difference between compensated absences paid and compensated absences earned, was:

(277,306)

Postemployment benefits other than pensions (OPEB):

In governmental funds, OPEB expenses are recognized when employer OPEB contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. This year, the difference between OPEB expenses and actual employer OPEB contributions was:

(463,860)

In governmental funds, pension costs are recognized when employer contributions are made. In the government-wide statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and employer contributions was: 3,075,258

Amortization of debt issuance premium or discount:

In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized over the life of the debt. Amortization of premium or discount for the period is: 79,867

Internal Service Funds:

Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to benefit governmental activities, internal service activities are reported as governmental in the statement of activities. **ENCINITAS UNION SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The **Encinitas Union School District** (the “District”) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

The District operates under a locally elected Board form of government and provides educational services to grades K-6 as mandated by the state. A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student-related activities.

B. Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. The District has no such component units.

C. Basis of Presentation

Government-Wide Statements. The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements. The fund financial statements provide information about the District's funds, including its proprietary funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Proprietary funds are used to account for activities that are more business-like than government-like in nature. Proprietary funds are generally intended to be self-supporting.

ENCINITAS UNION SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued
JUNE 30, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Presentation (continued)

Major Governmental Funds

General Fund: The General Fund is the main operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund. In keeping with the minimum number of funds principle, all of the District's activities are reported in the General Fund unless there is a compelling reason to account for an activity in another fund. A District may have only one General Fund.

Building Fund: This fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code Section 15146*) and may not be used for any purposes other than those for which the bonds were issued. Other authorized revenues to the Building Fund are proceeds from the sale or lease-with-option-to-purchase of real property (*Education Code Section 17462*) and revenue from rentals and leases of real property specifically authorized for deposit into the fund by the governing board (*Education Code Section 41003*).

Bond Interest and Redemption Fund: This fund is used for the repayment of bonds issued for the District (*Education Code Sections 15125–15262*). The board of supervisors of the county issues the bonds. The proceeds from the sale of the bonds are deposited in the county treasury to the Building Fund of the District. Any premiums or accrued interest received from the sale of the bonds must be deposited in the Bond Interest and Redemption Fund of the District. The county auditor maintains control over the District's Bond Interest and Redemption Fund. The principal and interest on the bonds must be paid by the county treasurer from taxes levied by the county auditor-controller.

Non-Major Governmental Funds

Special Revenue Funds: Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The District maintains the following special revenue funds:

Cafeteria Fund: This fund is used to account separately for federal, state, and local resources to operate the food service program (*Education Code Sections 38090–38093*). The Cafeteria Fund shall be used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code Sections 38091 and 38100*).

Capital Project Funds: Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund: This fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development (*Education Code Sections 17620–17626*). The authority for these levies may be county/city ordinances (*Government Code Sections 65970–65981*) or private agreements between the District and the developer. Interest earned in the Capital Facilities Fund is restricted to that fund (*Government Code Section 66006*).

Special Reserve Fund for Capital Outlay Projects: This fund exists primarily to provide for the accumulation of General Fund moneys for capital outlay purposes (*Education Code Section 42840*).

ENCINITAS UNION SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued
JUNE 30, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Presentation (continued)

Non-Major Governmental Funds (continued)

Permanent Funds: Permanent funds were introduced as part of the governmental financial reporting model established by GASB Statement 34 to account for permanent foundations that benefit a District.

Foundation Permanent Fund: This fund is used to account for resources received from gifts or bequests pursuant to *Education Code Section 41031* that are restricted to the extent that earnings, but not principal, may be used for purposes that support the District's own programs and where there is a formal trust agreement with the donor.

Proprietary Funds

Internal Service Funds: Internal service funds are created principally to render services to other organizational units of the District on a cost-reimbursement basis. These funds are designed to be self-supporting with the intent of full recovery of costs, including some measure of the cost of capital assets, through user fees and charges.

Self-Insurance Fund: Self-insurance funds are used to separate moneys received for self-insurance activities from other operating funds of the District. Separate funds may be established for each type of self-insurance activity, such as workers' compensation, health and welfare, and deductible property loss (*Education Code Section 17566*).

D. Basis of Accounting – Measurement Focus

Government-Wide and Proprietary Fund Financial Statements

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Net Position equals assets and deferred outflows of resources minus liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. The net position should be reported as restricted when constraints placed on its use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities results from special revenue funds and the restrictions on their use.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service fund are charges to other funds for self-insurance costs. Operating expenses for internal service funds include the costs of insurance premiums and claims related to self-insurance.

Governmental Funds

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Governmental funds use the modified accrual basis of accounting.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting – Measurement Focus (continued)

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, "available" means collectible within the current period or within 60 days after year-end. However, to achieve comparability of reporting among California school districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for school districts as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from the grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received that have not met eligibility requirements are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position

Cash and Cash Equivalents

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Inventories

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time the individual inventory items are requisitioned. Inventories are valued at historical cost and consist of expendable supplies held for consumption.

Capital Assets

The accounting and reporting treatment applied to the capital assets associated with a fund is determined by its measurement focus. Capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined in GASB Statement No. 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. All reported capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings and Improvements	20 to 50 Years
Furniture and Equipment	5 to 15 Years
Vehicles	5 to 15 Years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due from other funds/Due to other funds." These amounts are eliminated in the governmental activities columns of the statement of net position.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)

Compensated Absences

In accordance with GASB Statement No. 101, *Compensated Absences*, accumulated unpaid employee vacation and sick leave benefits are accrued as a liability in the government-wide financial statements as the benefits are earned, provided they accumulate and are more likely than not to be used or paid. The measurement of this liability includes estimated salary amounts and the employer's share of related taxes and benefits, as applicable, that are directly related to these compensated absences.

For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. For accumulated sick leave benefits, a liability is recognized for the portion that employees have earned and that are more likely than not to be used or paid. The District's policy for sick leave recognition aligns with this criterion, accruing the liability based on historical usage patterns and other relevant factors.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources related to OPEB and deferred inflows of resources related to OPEB, and OPEB expense have been determined by an independent actuary. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2025
Measurement Date	June 30, 2025
Measurement Period	July 1, 2024 – June 30, 2025

Gains and losses related to changes in total OPEB liability are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the source of gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over five years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) at the beginning of the measurement period.

Premiums and Discounts

In the government-wide and proprietary fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)

Deferred Outflows/Deferred Inflows of Resources

In addition to assets, the District will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the District will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans (the Plans) of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification reflects amounts that are not in spendable form. Examples include inventory, lease receivables (net of related deferred inflows), prepaid items, the long-term portion of loans receivable, and nonfinancial assets held for resale. This classification also reflects amounts that are in spendable form but that are legally or contractually required to remain intact, such as the principal of a permanent endowment.

Restricted - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Governing Board. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. In contrast to restricted fund balance, committed fund balance may be redirected by the government to other purposes as long as the original constraints are removed or modified in the same manner in which they were imposed, that is, by the same formal action of the Governing Board.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)

Fund Balance (continued)

Assigned - The assigned fund balance classification reflects amounts that the government *intends* to be used for specific purposes. Assignments may be established either by the Governing Board or by a designee of the governing body and are subject to neither the restricted nor committed levels of constraint. In contrast to the constraints giving rise to committed fund balance, constraints giving rise to assigned fund balance are not required to be imposed, modified, or removed by formal action of the Governing Board. The action does not require the same level of formality and may be delegated to another body or official. Additionally, the assignment need not be made before the end of the reporting period, but rather may be made any time prior to the issuance of the financial statements.

Unassigned - In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

F. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental activities columns of the statement of activities.

G. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For purposes of the budget, on-behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

I. Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County Auditor-Controller bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

J. New Accounting Pronouncements

GASB Statement No. 101 – In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This statement is effective for periods beginning after December 15, 2023. The District has implemented this Statement as of June 30, 2025.

GASB Statement No. 102 – In December 2023, GASB issued Statement No. 102, *Certain Risk Disclosures*. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. This statement is effective for periods beginning after June 15, 2024. The District has implemented this Statement as of June 30, 2025.

GASB Statement No. 103 – In April 2024, GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The statement is effective for periods beginning after June 15, 2025. The District has not yet determined the impact on the financial statements.

B. Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the state; U.S. Treasury instruments; registered state warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies; certificates of participation, obligations with first priority security; collateralized mortgage obligations; and the County Investment Pool.

Investment in County Treasury – The District maintains substantially all of its cash in the County Treasury in accordance with *Education Code Section 41001*. The San Diego County Treasurer’s pooled investments are managed by the County Treasurer who reports on a monthly basis to the board of supervisors. In addition, the function of the County Treasury Oversight Committee is to review and monitor the County’s investment policy. The committee membership includes the Treasurer and Tax Collector, the Auditor-Controller, Chief Administrative Officer, Superintendent of Schools Representative, and a public member. The fair value of the District’s investment in the pool is based upon the District’s pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Cash with Fiscal Agent – The District maintains cash balances with US Bank related to its 2020 General Obligation Refunding Bonds, Series A (2022 Crossover) and Series B (2025 Crossover).

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains a pooled investment with the County Treasury with a fair value of approximately \$120,312,607. The average weighted maturity for this pool is 562 days.

E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in the County Treasury are not required to be rated.

ENCINITAS UNION SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued

NOTE 2 – CASH AND INVESTMENTS (continued)

F. Custodial Credit Risk – Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2025, the District's bank balance was not exposed to custodial credit risk.

G. Fair Value

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, either directly or indirectly.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonable available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the San Diego County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements at June 30, 2025 were as follows:

	<u>Uncategorized</u>

A. Plan Description

The Encinitas Union School District's defined benefit OPEB plan, Encinitas Union School District Retiree Benefit Plan (the Plan) is described below. The Plan is a single-employer defined benefit plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

B. Benefits Provided

The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the Plan. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements. The following is a description of the current retiree benefit plan:

	<u>Certificated</u>	<u>Classified</u>	<u>Superintendent</u>
Benefit types provided	Medical*	Medical*	Medical*
Duration of Benefits	5 years	5 years	5 years
Required Service	15 years	14 years	10 years

Dependent Coverage	No	No	No
District Contribution %	100%	100%	100%
District Cap	\$930 per month	\$930 per month	\$930 per month

*At age 65 the retiree is eligible to receive a District contribution for the medical premium and a Medicare Part B premium reimbursement.

*At age 65 the retiree is eligible to receive a District contribution for the medical premium and a Medicare Part B premium reimbursement.

The contribution requirements of Plan members and the District are established and may be amended by the District, Teachers of Encinitas (TOE), and the local California Service Employees Association (CSEA), and unrepresented groups. The benefit payment is based on projected pay-as-you-go financing requirements as determined annually through the agreements with the District, TOE, CSEA, and the unrepresented groups.

C. Contributions

For the measurement period, the District contributed \$376,263 to the Plan, all of which was used for current premiums. There is no actuarially determined contribution, nor any contribution requirement established by statute or contract. The District's contribution is currently based on a projected pay as-you-go funding method, that is, benefits are payable when due.

D. Plan Membership

Membership of the Plan consists of the following as of the June 30, 2025 valuation date:

	<u>Number of participants</u>
Inactive employees receiving benefits	50
Inactive employees entitled to but not receiving benefits*	-
Participating active employees	504

E. Total OPEB Liability

The Encinitas Union School District's total OPEB liability of \$8,956,369 was measured as of June 30, 2025 and was determined by an actuarial valuation as of that date.

F. Actuarial Assumptions and Other Inputs

The total OPEB liability as of June 30, 2025 was determined by an actuarial valuation as of June 30, 2025 using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

Economic assumptions:

Inflation	2.50%
Salary increases	2.75%
Discount rate	5.20%
Healthcare cost trend rates	4.00%

Mortality rates were based on the 2020 CalSTRS Mortality Table for certificated employees and the 2021 CalPERS Active Mortality for Miscellaneous Employees Table for classified employees.

The discount rate was based on the Bond Buyer 20 Bond Index. The actuary assumed contributions would be sufficient to fully fund the obligation over a period not to exceed twenty-two years.

G. Changes in Total OPEB Liability

A. California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the California State Teachers' Retirement System (CalSTRS); a cost-sharing multiple employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate annual comprehensive financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, P.O. Box 15275, Sacramento, CA 95851-0275.

Benefits Provided

The CalSTRS defined benefit plan has two benefit formulas:

1. CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS. CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.
2. CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS. CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

Contributions

Active plan CalSTRS 2% at 60 and 2% at 62 members are required to contribute 10.25% and 10.205% of their salary for fiscal year 2025, respectively, and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2025 was 19.10% of annual payroll. The contribution requirements of the plan members are established by state statute. Contributions to the plan from the District were \$6,777,056 for the year ended June 30, 2025.

On-Behalf Payments

The District was the recipient of on-behalf payments made by the State of California to CalSTRS for K-12 education. These payments consist of state general fund contributions of approximately \$3,326,319 to CalSTRS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$	35,904,897
State's proportionate share of the net pension liability associated with the District		17,203,357
Total	\$	<u>53,108,254</u>

The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2023 and rolling forward the total pension liability to June 30, 2024. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2024, the District's proportion was 0.053 percent, which was a decrease of 0.006 percent from its proportion measured as of June 30, 2023.

Actuarial Assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2023, and rolling forward the total pension liability to June 30, 2024 using the following actuarial assumptions, applied to all periods included in the measurement:

Consumer Price Inflation	2.75%
Investment Rate of Return*	7.10%
Wage Growth	3.50%

*Net of investment expenses, but gross of administrative expenses.

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on MP-2021 series tables adjusted to fit CalSTRS experience.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2017 through June 30, 2022.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance–PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in January 2024 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2024, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return*
Public Equity	38%	5.25%
Real Estate	15%	4.05%
Private Equity	14%	6.75%
Fixed Income	14%	2.45%
Risk Mitigating Strategies	10%	2.25%
Inflation Sensitive	7%	3.65%
Cash/Liquidity	2%	0.05%
	<u>100%</u>	

*Real return is net of assumed 2.75% inflation.

Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
District's proportionate share of the net pension liability	\$ 63,863,063	\$ 35,904,897	\$ 12,558,668

B. California Public Employees' Retirement System (CalPERS)

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate annual comprehensive financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811.

Benefits Provided

The benefits for the defined benefit plan are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years of credited service.

Contributions

Active plan members who entered into the plan prior to January 1, 2013, are required to contribute 7.0% of their salary. The California Public Employees' Pension Reform Act (PEPRA) specifies that new members entering into the plan on or after January 1, 2013, shall pay the higher of fifty percent of normal costs or 8.0% of their salary. Additionally, for new members entering the plan on or after January 1, 2013, the employer is prohibited from paying any of the employee contribution to CalPERS unless the employer payment of the member's contribution is specified in an employment agreement or collective bargaining agreement that expires after January 1, 2013.

The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2025 was 27.05% of annual payroll. Contributions to the plan from the District were \$3,247,241 for the year ended June 30, 2025.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability of \$19,995,403 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2023 and rolling forward the total pension liability to June 30, 2024. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2024, the District's proportion was 0.056 percent, which was a decrease of 0.002 percent from its proportion measured as of June 30, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2025, the District recognized pension expense of \$2,836,978. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual earnings on plan investments	\$ 776,706	\$ -
Differences between expected and actual experience	1,676,322	143,106

Actuarial Assumptions

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2023, and rolling forward the total pension liability to June 30, 2024 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Discount Rate	6.90%
Salary Increases	Varies by Entry Age and Service

CalPERS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are derived using CalPERS' membership data for all funds. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 80% of scale MP 2020.

The actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the period from 2000 through 2019.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were taken into account. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Actuarial Assumptions (continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	Assumed Asset Allocation	Real Return Years 1 – 10*
Global Equity – cap-weighted	30.0%	4.54%
Global Equity – non-cap-weighted	12.0%	3.84%
Private Equity	13.0%	7.28%
Treasury	5.0%	0.27%
Mortgage-backed securities	5.0%	0.50%

Emerging market debt	5.0%	2.48%
Private debt	5.0%	3.57%
Real assets	15.0%	3.21%
Leverage	(5.0)%	(0.59)%
	<u>100.0%</u>	

*An expected inflation of 2.30% used for this period. Figures are based on the 2021-22 CalPERS Asset Liability Management Study

Discount Rate

The discount rate used to measure the total pension liability was 6.90 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Schools Pool. The results of the crossover testing for the Schools Pool are presented in a detailed report that can be obtained at CalPERS’ website.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.90 percent) or 1-percentage-point higher (7.90 percent) than the current rate:

	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
District's proportionate share of the net pension liability	\$ 29,703,338	\$ 19,995,403	\$ 11,975,876

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2025.

B. Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2025.

C. Construction Commitments

As of June 30, 2025, the District had commitments with respect to unfinished capital projects of \$78,647,432.

NOTE 13 – PARTICIPATION IN JOINT POWERS AUTHORITIES

The District participates in one joint venture under a joint powers agreement (JPA) with the San Diego County Schools Risk Management JPA (RM). The JPA arranges the operation and maintenance for the services and other necessary items associated with administering a self-insurance plan for workers' compensation, health, and property and liability insurance for its member school districts.

San Diego Schools Risk Management JPA (RM) arranges for the operation and maintenance for the services and other necessary items associated with administering a self-insurance plan for workers' compensation, health, and property and liability insurance for its member school districts.

Copies of the annual financial report for RM can be obtained from the Risk Management Department of the San Diego County Office of Education, 6401 Linda Vista Road; San Diego, California, 92111.

NOTE 14 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

A. Pension Plans

Pursuant to GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, the District recognized deferred outflows of resources related to pensions and deferred inflows of resources related to pensions in the District-wide financial statements. Further information regarding the deferred outflows of resources and deferred inflows of resources can be found at Note 11. At June 30, 2025, total deferred outflows related to pensions was \$21,559,051 and total deferred inflows related to pensions was \$8,767,890.

Pursuant to GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the District recognized deferred outflows of resources related to other postemployment benefits and deferred inflows of resources related to other postemployment benefits in the District-wide financial statements. Further information regarding the deferred outflows of resources and deferred inflows of resources can be found at Note 10. At June 30, 2025, total deferred outflows related to other postemployment benefits was \$548,244 and total deferred inflows related to other postemployment benefits was \$3,111,783.

NOTE 15 – RESTATEMENT OF NET POSITION

The beginning net position of the Governmental Activities has been restated due to the implementation of Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. GASB 101 establishes recognition and measurement guidance for liabilities related to compensated absences, requiring that the liability be recognized when leave is attributable to services already rendered and it is probable that the leave will be used or paid. This standard supersedes certain provisions of GASB Statement No. 16.

The cumulative effect of applying GASB 101 required a restatement of the beginning net position, as follows:

	Governmental Activities
Net Position - Beginning, as Previously Reported	\$ 15,029,123
Restatement	(1,680,838)

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 1 – PURPOSE OF SCHEDULES

Budgetary Comparison Schedule

This schedule is required by GASB Statement No. 34 as required supplementary information (RSI) for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedule presents both (a) the original and (b) the final appropriated budgets for the reporting period as well as (c) actual inflows, outflows, and balances, stated on the District's budgetary basis. A separate column to report the variance between the final budget and actual amounts is also presented, although not required.

Schedule of Changes in Total OPEB Liability and Related Ratios

This 10-year schedule is required by GASB Statement No. 75 for all sole and agent employers that provide other postemployment benefits (OPEB). Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 75 was applicable. The schedule presents the sources of change in the total OPEB liability, and the components of the total OPEB liability and related ratios, including the total OPEB liability as a percentage of covered-employee payroll.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuation.

Changes in Assumptions

The discount rate used in the current measurement was 5.20%, while the discount rate in the previous measurement was 3.93%. Assumed rates of retirement, termination, and mortality have been updated to align with those currently being used by the statewide pension systems.

Schedule of the District's Proportionate Share of the Net Pension Liability

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. The schedule presents the District's proportion (percentage) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability, the District's covered payroll, the District's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for CalSTRS or CalPERS.

Changes in Assumptions

There were no changes in economic assumptions since the previous valuations for CalSTRS or CalPERS.

Schedule of District Contributions

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. The schedule presents the District's statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the difference between the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the District's covered payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution as a percentage of the District's covered payroll.

The General Fund ending fund balance has increased by \$1,760,533 over the past two years. However, the fiscal year 2025-26 budget projects a decrease of \$1,756,463. For a District this size, the State recommends available reserves of at least 3% of General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surpluses in each of the past three years but anticipates incurring an operating deficit during the 2025-26 fiscal year. Total long-term obligations have increased by \$54,359,539 over the past two years.

Average daily attendance has decreased by 272 ADA over the past two years. A further decrease of 138 ADA is anticipated during the 2025-26 fiscal year.

*Available reserves consist of all unassigned fund balance within the General Fund.

**The actual amounts reported in this schedule are for the General Fund only, and do not agree with the amounts reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances because the amounts on that schedule include the financial activity of the Special Reserve Fund for Other Than Capital Outlay Projects, in accordance with the fund type definitions promulgated by GASB Statement No. 54.

NOTE 1 – PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenue, Expenditures, and Changes in Fund Balance, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues in a prior year that have been expended by June 30, 2025 or Federal funds that have been recorded as revenues in the current year and were not expended by June 30, 2025.

The District has not elected to use the de minimis indirect cost rate of up to 15 percent.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the article 8 (commencing with section 46200) of chapter 2 of part 26 of the *Education Code*.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Annual Financial and Budget Report Unaudited Actuals to the audited financial statements.

Combining Statements – Non-Major Funds

These statements provide information on the District's non-major funds.

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

OTHER INDEPENDENT AUDITORS' REPORTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**Independent Auditors' Report

Governing Board
Encinitas Union School District
Encinitas, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Encinitas Union School District, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Encinitas Union School District's basic financial statements, and have issued our report thereon dated December 15, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Encinitas Union School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Encinitas Union School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Encinitas Union School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Encinitas Union School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**Independent Auditors' Report

Governing Board
Encinitas Union School District
Encinitas, California

Report on Compliance for Each Major Federal Program***Opinion on Each Major Federal Program***

We have audited Encinitas Union School District's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Encinitas Union School District's major federal programs for the year ended June 30, 2025. Encinitas Union School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Encinitas Union School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Encinitas Union School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal program. Our audit does not provide a legal determination of Encinitas Union School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of the laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Encinitas Union School District's federal programs.

Auditor's Responsibilities for the Audit for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Encinitas Union School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user of the report on compliance about Encinitas Union School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Encinitas Union School District's compliance with compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Encinitas Union School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Encinitas Union School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Report on Internal Control Over Compliance (continued)

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**REPORT ON STATE COMPLIANCE AND ON INTERNAL CONTROL OVER
COMPLIANCE FOR STATE PROGRAMS**Independent Auditors' Report

Governing Board
Encinitas Union School District
Encinitas, California

Report on State Compliance***Opinion on State Compliance***

We have audited Encinitas Union School District's compliance with the requirements specified in the *2024-2025 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* applicable to Encinitas Union School District's state program requirements as identified in the table in the Auditor's Responsibilities for the Audit of State Compliance section of our report for the year ended June 30, 2025.

In our opinion, Encinitas Union School District complied, in all material respects, with the laws and regulations of the applicable laws and regulations of the applicable state programs for the year ended June 30, 2025.

Basis for Opinion on State Compliance

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2024-2025 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* (the K-12 Audit Guide). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of State Compliance section of our report.

We are required to be independent of Encinitas Union School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of Encinitas Union School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of the laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Encinitas Union School District's state programs.

Auditor's Responsibilities for the Audit of State Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the state compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Encinitas Union School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the K-12 Audit Guide will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Encinitas Union School District's compliance with the requirements of the applicable state programs as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the K-12 Audit Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Encinitas Union School District's compliance with compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances;
- Obtain an understanding of Encinitas Union School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the K-12 Audit Guide, but not for the purpose of expressing an opinion on the effectiveness of Encinitas Union School District's internal control over compliance. Accordingly, we express no such opinion; and
- Select and test transactions and records to determine Encinitas Union School District's compliance with the state laws and regulations applicable to the following items:

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identify during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Report on Internal Control Over Compliance (continued)

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of State Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the K-12 Audit Guide. Accordingly, this report is not suitable for any other purpose.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2025**

FINDING #2024-001: EXPANDED LEARNING OPPORTUNITIES PROGRAM (40000)

Criteria: Pupils enrolled in the Expanded Learning Opportunities Program (ELOP) must have supporting documentation that includes a signed registration form by a parent or guardian, the completed registration form is on file enrolling the pupil in the Expanded Learning Opportunities Program, and the pupil is on the master enrollment list. Auditors are required to verify compliance with Education Code Section 46120(g)(6) in Section DZ of the 2023-24 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting.

Condition: The District used online registration forms that did not include a section for a parent or guardian signature to agree to enroll their pupil into the program. The auditor determined that two (2) out of six (6) students from the ELOP enrollment listing who were classified as unduplicated pupils did not have a signed registration form by a parent or guardian.

Effect: The District is not in compliance with applicable State requirements.

Cause: Administrative oversight.

Questioned Costs: There are no questioned costs associated with this finding as we found no evidence to indicate that the District failed to meet ELOP offering or access requirements.

Repeat Finding: This is not a repeat finding.

Recommendation: We recommend the District to work with their ELOP contractors to include a section on ELOP registration forms for a parent or guardian signature.

Corrective Action Plan: The District has notified all of its ELOP vendors that all student registration forms must include a signature line. Moving forward, each form will include a line indicating that the parent agrees to the terms of the enrollment, along with the date of the agreement.

Current: Implemented.
