

I don't know if there is a way for us to have a calendar or something like that so we can communicate with the public?

Hey Andy,

Just wanted to make you aware - I've been in communication with Angela and am going to be spending the day at Grafton on Friday, June 5th as a part of the project. Talking to her and staff and observing the once in action will be important for the credibility of the project.

Nothing needed from you related to that - just wanted to give you a heads up.

Thanks!

Dave
