CHS HIGH SCHOOL
Summer 2026
Reading and Math Requirements

CHS Parents,

As we conclude another successful school year, we are grateful for the growth, perseverance, and accomplishments demonstrated by our students. Summer provides an opportunity for rest, renewal, and continued growth as students steward the gifts and abilities God has given them. Remaining engaged in learning throughout the summer helps students retain essential skills and return to school prepared for the challenges and opportunities of a new academic year.

To support this goal, high school students are required to complete Summer Reading and Summer Math assignments prior to the start of the school year. These assignments are designed to strengthen reading, reinforce essential skills, and prepare students for success in their upcoming courses. Completion of the summer assignments is required, and they will be included as graded assignments in students' English and Mathematics classes at the beginning of the school year.

COURSE	MATH REQUIREMENTS

All 9-11th Grade Math Courses	**Summer math assignments will be available through Delta Math on Google Classroom.**
	• Assignments will be posted on Google Classroom for students to complete and turn in by Friday, August 14.
	  ◦ June 1
	  ◦ June 15
	  ◦ July 1
	  ◦ July 15
	• Math assignments are no more than 25 questions and do not have to be completed all in one sitting. Students may work at their own pace to complete the problems.
	• Please contact Alicia Evans (aevans@chslions.com) if you have questions about accessing required math assignments.
