

Dear Nova Middle School Parent/Guardian,

Khan Academy is an online resource that allows students to learn with material that is uniquely appropriate for them and aligned to Florida B.E.S.T. Standards. Students can learn and strengthen their course skills by using interactive practice and tutorials. To engage student learning, Khan Academy has launched an artificial intelligence tool, a learning guide called **Khanmigo**.

We, as a district and community, are thrilled to embark on this new journey with Khan Academy, contributing to the evolution of the educational landscape. Our district's goal is to be a leader for innovative teaching and learning practices, making this opportunity a perfect fit for our mission.

Khanmigo will introduce a new layer of support within Khan Academy, guiding students through their lessons and providing assistance akin to that of a personal tutor.

Khan Academy has developed [guidelines for the responsible development of AI](#) and have used prompt engineering to guide and narrow the focus of the AI. This allows Khan Academy to train and tailor the AI for a learning setting. As an example, parents and teachers will have access to the chat history and activities of students who use Khanmigo.

Here are some Quick Start resources to ensure a smooth implementation:

- [Activating Student Accounts](#)
- [Navigating Student Accounts](#)
- [Setting up Parent/Guardian Accounts](#)
- [C.H.A.T. with Khanmigo - Student Prompting Guide](#)
- [How to maximize using Tutor Me](#)

We are very excited about having the opportunity to support this Khan Academy effort. If you have any additional questions related to this work, please email annmarie.evans@browardschools.com

Kind regards,

Ms. Johnkins, Assistant Principal
Math Department
