School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides[1]

IPM statement

It is the goal of San Luis Coastal Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Our policy and goal is to always use the least toxic methods of pest control that have proven to be effective.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
David Rodriguez, Operations/ Maintenace Supervisor	All Areas

Pest management contracting

☑ Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Brezden Pest Control

☑ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: David Rodriguez, Operations Maintenance Supervisor; Brezden Pest Control
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by All Staff and results are communicated to the IPM Coordinator.
(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

All grounds and custodial staff do daily monitoring of pests at thier designated sites.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Rodents	☑	☐	☑	☑	☑	☑	☐	
Ants	☑	☐	☑	☑	☑	☐	☐	
Weeds	☐	☑	☐	☑	☑	☐	☑	
	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

See Attached

Healthy Schools Act

☑ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

☑ Pesticide specific safety training (Title 3 California Code of Regulations 6724)

☑ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

☑ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt[1] from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

☑ This IPM plan can be found online at the following web address: www.slcusd.org

☐ This IPM plan is sent out to all parents, guardians and staff annually.

Review

☑ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: July 1, 2027

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature:  Date: July 1, 2026

[1] These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Pesticide Use [E.C. 17612, 48980.3; AR 3514.2]

The district is proactive in the reduction and management of pesticide use at school sites. The goal is to use the least toxic methods and only as needed. The insecticides used are less toxic than most national brand products on the shelf at the local store. The Board of Education has voted to not use Round Up/Glyphosate on any of our campuses.The State of California has mandated that all school districts annually notify parents of the pesticides intended for use on school grounds within the coming school year, and the active ingredients of these products. That information follows:

MOST FREQUENTLY USED PESTICIDES – ACTIVE INGREDIENT		
Terro Ant Bait	Insecticide	Sodium Tetraborate Decahydrate (Borax)
Tomcat Bait Chunks	Rodenticide	Diphacinone
SELDOM USED PESTICIDES		
Drive 75 DF-	Herbicide	Dichloro-8, Quinolinecarboxylic acid
Fusilade II Turf And Ornamental	Herbicide	Fluazifop- p-butyl Technical
Turf Supreme Plus Trimec	Herbicide	Dichlorophenoxyacetic,Propionic Acid,Dicamba
The Giant Destroyer	Rodenticide	SodiumNitrate/Sulfur/Charcoal
Essentria IC3	Insecticide	Rosemary and Peppermint Oil, Geraniol
Cheetah Pro	Herbicide	Glufosinate-ammonium
RARELY USED PESTICIDES		
Ace Foaming wasp and Yellowjacket	Insecticide	Cypermethrin
Maxide Spider	Insecticide	Permethrin
Yellow Jacket Traps	Insecticide	Heptyl Butyrate
D-Con	Rodenticide	Diphacinone
Gopher Getter type 2 Bait	Rodenticide	Diphacinone
Kaput Ground Squirrel Bait	Rodenticide	Diphacinone
Termidor HE/SC/Dry	Termiticide	Fipronil
Delta Dust	Insecticide	Deltamethrin
Ranger Pro/Roundup Weather max	Herbicide	Glyphosate
Ranger Pro/Roundup Pro Max	Herbicide	Glyphosate

Safety Data Sheets (SDS) on these products are available for review during business hours at all school offices and at the Buildings, Grounds & Transportation office. The district only applies these products in situations where the application is a best/last resort or in the case of health and safety emergencies.

Applications are not made in the presence of students. Applications are performed on weekends, before or after school, or other times when students are not present. Parents may request to be personally notified before an application by contacting the Buildings, Grounds & Transportation Department at 596-4105. Information on these products is also available at www.cdpr.ca.gov.

Management Plan for Asbestos-Containing Material in School Buildings [40 CFR 763.93; AR 3514]

The district has available a complete and updated management plan for asbestos-containing material, which can be obtained from the Buildings, Grounds & Transportation Department, via SISC (Self Insured Schools of California) our property and liability insurance carrier.
