| <p>The 12th grade counseling curriculum is focused on helping students successfully execute their post-secondary plans and transition confidently into their next chapter. Students reflect on the question, <i>"How do I launch into my next chapter?"</i> as they engage in activities centered on application completion, financial aid planning, and transition readiness.</p> <p>Throughout the year, students receive support with the college application process, scholarship research, financial aid literacy, and finalizing post-secondary plans. Counseling lessons and meetings guide students through important milestones such as completing applications, requesting recommendations and transcripts, understanding FAFSA and scholarship opportunities, and preparing for the transition beyond high school. Students are encouraged to develop independence, advocate for themselves, and build the skills necessary for success after graduation. By the end of 12th grade, students will have completed individualized next-step plans and developed the confidence and readiness needed to successfully transition into college, career training, military service, or the workforce.</p> |

| Unit 1:<br>Launching Your<br>Senior Year Roadmap | <p>In this unit, seniors build on their junior year exploration by engaging with the <a href="#">Senior Roadmap: College &amp; Career Readiness slide deck</a>. Supported by 1:1 counselor guidance, students transition from junior year "Empower Your Future" planning to active execution, finalizing their pathways across college, vocational, military, gap year, or workforce options.</p> <p>The slide deck serves a dual purpose: first as an operational roadmap for individual counselor sessions, and then as a system for mastering organization.</p> | Semester 1  |

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |

|  | <p>With direct counselor support, seniors establish professional communication, build tracking calendars with deadline buffers, and link application platforms like the Common Application to Naviance.</p> <p>Throughout the unit, students take full ownership of their upcoming transitions. By collaborating with their counselor to navigate complex admission timelines (Early Decision, Early Action, Regular Decision) and organize self-reported academic records, seniors turn their junior groundwork into a structured, successful launch.</p> |  |
