

. . . . Play, Learn, and Grow Together!

Owen J. Roberts School District Summer Enrichment Opportunities: Tuesday, June 9, 2026 – Thursday, August 6, 2026.

Programs are generally not scheduled on Fridays, Saturdays, or Sundays; however, please review each course description carefully, as the first week follows a modified schedule beginning on Tuesday. High school academic courses (main campus and online) will run from **Monday, June 15, 2026 through Thursday, July 16, 2026**. SAT online preparation courses will run from **Monday, July 20, 2026 through Friday, August 21, 2026**

PLEASE CHECK THE WEBSITE and SCHOOL PAY WEEKLY FOR ANY UPDATES.

BROCHURE QUICK LINKS

[GENERAL INFORMATION:](#)

The **General Information** section provides important details to help families prepare for camp, including dates, times, location, registration steps, fees, supervision, health and safety guidelines, and contact information. Please review this section carefully to ensure a smooth and successful camp experience for your child.

[CAMP DESCRIPTIONS](#)

Each **Camp Description** provides an overview of the camp by theme listing activities, and learning experiences, along with the grade levels served and any special materials or requirements. Families will gain a clear understanding of what campers will explore, create, and experience throughout the week.

[CALENDAR VIEW](#)

The **Calendar View** provides a summary in a week-by-week format so families can view all the offerings within a given week.

[CATEGORY VIEW](#)

The **Category View** provides a summary by Camp Themes so that families can view all offerings by similar kinds of camps.

[SUMMER ACADEMIC COURSE OPPORTUNITIES](#)

[ADDITIONAL SUMMER CAMP ADVERTISEMENT IN OUR AREA](#)

[SUMMER CONTACT INFORMATION](#) and [SCHOOL PRINCIPALS](#)

GENERAL INFORMATION

The Owen J. Roberts School District will offer both enrichment and academic opportunities this summer.

All opportunities are self-supporting and may only be offered with sufficient enrollments.

Families need to provide transportation and participants should bring personal snacks, drinks, and/or lunches as needed.

LOCATIONS

Please note camp locations provided for each activity. Field trips may be embedded within activities to include travel to off-site locations; these activities will then require special travel permission with registration. Please see TRAILBLAZERS—this requires additional permissions for water sports and hiking.

EC – EAST COVENTRY ELEMENTARY

FC – FRENCH CREEK ELEMENTARY

WV – WEST VINCENT ELEMENTARY

HS – HIGH SCHOOL

EV – EAST VINCENT ELEMENTARY

NC – NORTH COVENTRY ELEMENTARY

MS – MIDDLE SCHOOL

DSC – DISTRICT SERVICE CENTER

REGISTRATION

A preview for all camp and course offerings will be available online beginning Friday, **February 27, 2026.**

Registration will open in SCHOOL PAY on Tuesday, March 3, 2026 and will run through **Friday, June 5, 2026.** A direct registration link will be added to the brochure on Tuesday, March 3, 2026. Once in School Pay, please view the camp options under "2026 Summer Camps". Check the district webpage weekly during the spring for announcements, updates, and any new summer opportunities.

FEES ARE NON-REFUNDABLE

All camp or course fees must be paid in full at the time of registration. Refunds will only be made if a session is canceled due to low enrollment or for any unanticipated closure.

Refunds will be made in accordance with the original payment method.

TRANSPORTATION

Families must provide transportation for students to and from activity locations.

ACADEMIC COURSE PROGRESS REPORTS

Progress reports will be issued at the conclusion of the first full week of July for high school academic courses only. All summer academic in-person courses will run Mondays through Thursdays from **Monday, June 15, 2026 through Thursday, July 16, 2026.**

(No classes June 18 or July 2)

ATTENDANCE

Students are expected to be on time and in attendance for all in-person coursework and activity sessions. In the event of illness or any other unforeseeable absence, please contact either the instructor or the school office. Building contact information is available on the concluding page of this brochure.

CONDUCT and DRESS

Students are expected to follow the same rules for summer opportunities as they do during the regular school year. An infraction of the discipline code that warrants a suspension during the regular school year will mean an automatic expulsion from the Summer School Program. Tuition and Activity Fees will not be refunded if a student is withdrawn due to misbehavior or disciplinary violations.

CAMP DESCRIPTIONS

THE ARTS

ARTS & CRAFTS CAMP: MISH MASH

Calling all creative kids who love to get a little messy and try something new! Arts & Crafts Camp is the perfect place for young artists to explore a wide variety of art techniques while having tons of fun. Campers will create several unique works of art that combine a mish mash of materials guided by OJR art teachers. Creativity, imagination, hands-on learning, and all art supplies are included—just bring your enthusiasm!

Please bring a peanut free snack and drink. For students entering grades 2 & 3.

ART: H2O CAMP (Part 3)

What do alligators, parfaits, and snowflakes have in common? Water. We had so much fun with this theme last year - students asked for part 3! Students will have fun visually connecting a variety of artworks, working in a variety of mediums, and creating art that shares this common thread.

Please bring a peanut free snack, drink, and a bag lunch. For students entering grades 4-9.

ART: MOVEMENT & ART

Spooky spell books, robots, and a colorful wild beast - this all goes together in our Movement Art Camp. Pushing the boundaries of the word "movement" for art, students will also experiment with art that optically and physically moves. Students will have the opportunity to work in a variety of mediums creating artwork that can all be connected by this theme.

Please bring a peanut free snack, drink and a bag lunch. For students entering grade 4-9.

ARTS & CRAFTS CAMP: ANIMALS

Students will have fun creating art centered around real and imaginary animals! Get ready to be inspired, create lasting memories, and produce imaginative works of art while experiencing a variety of mediums through sculpture, collage, and painting. This is the perfect camp for younger artists to get messy, experiment with materials and processes guided by OJR art teachers. Creativity and a sense of accomplishment are all included — just bring some enthusiasm to try something new!

Please bring a peanut free snack and drink. For students entering grades 2 & 3.

BEETLEJUICE JR. MUSICAL PREP/CAMP

[NEW CAMP] Get ready for two weeks of strange and unusual fun! Step into the delightfully spooky world of Beetlejuice Jr., where ghosts gossip, chaos reigns, and nothing is quite as it seems. In this high-energy camp, performers will sing, dance, and act their way to a full-scale production — all in just a few unforgettable weeks.

Campers will build confidence, strengthen stage skills, and collaborate as an ensemble while learning show-stopping songs, hilarious scenes, and creepy-cool choreography. From auditions to final curtain call, every participant experiences the excitement of bringing a musical to life in a supportive, creative environment. Stage crew and set builders are also welcome! Bold. Hilarious. A little spooky. A perfect chance to connect with (or reunite with!) the OJRMS Directors Team. There will be an evening performance on the night of the last day (July 23, 2026).

Open to rising 7th, 8th, and 9th graders, with limited performance/leadership hybrid opportunities for rising 10th graders.

Please bring a peanut free snack, drink, and a bag lunch. For students entering grades 7-9.

FRIENDSHIP BRACELET CAMP

[NEW CAMP] Get ready to create, design, and shine! Friendship Bracelet Camp introduces students to a variety of bracelet styles and techniques as they learn how to knot, bead, braid, and personalize their creations. Campers will explore color patterns, practice fine motor skills, and express their creativity while making bracelets to keep or share with friends. This camp is perfect for students who love crafting, creating, and connecting with others!

Please bring a peanut free snack and drink. For students entering grades 2-4.

BROADWAY BOUND: MUSICAL THEATRE SUMMER CAMP ✨

Step into the spotlight and bring your performance skills to the next level in Broadway Bootcamp! Work with experienced directors and choreographers who specialize in high school musical theatre as you refine your singing, movement, and storytelling on stage.

Throughout the week, you'll rehearse exciting solo, small group, and ensemble numbers, learning how to bring songs to life with emotion, stage presence, and dynamic choreography. Every student will shine in at least one thrilling large-group performance, leading up to an exciting final showcase for family and friends! Before camp begins, you'll complete a short form to help our instructors match you with the perfect musical pieces, so you can hit the ground running from day one. Don't miss this chance to train like a true performer, build confidence, and be part of an unforgettable musical experience! Sing. Dance. Perform. Shine! Whether you're a seasoned performer or stepping onto the dance floor for the first time, this camp is your chance to shine like a Broadway star!

Please bring a snack, drink, and a bag lunch (if desired). For students entering grades 7-12.

FUTURE MUSIC MIXERS

[NEW CAMP] Create, record, and produce your own original digital music, just like real sound engineers do. At this camp, you'll dive into hands-on projects that let you explore music, sound, and storytelling in exciting ways. Using online tools like Soundtrap, you'll create and produce original work while experimenting with instruments, voice, and digital media.

Throughout the camp, you'll work on a variety of creative projects. You might write and produce your own Radio Advertisement, complete with sound effects, music, and voice recordings, or create an Original Song by choosing a starting point that inspires you, such as a poem or favorite book. You'll step into the role of a film composer by creating a Movie Soundtrack, scoring videos to match the mood and action on screen. In the Musical Museum project, you'll use music to represent visual art, emotions, and ideas, turning sound into an expressive exhibit. You'll even learn how to plan, record, and edit your own Podcast Episode, exploring how stories and ideas come to life through audio.

Bring your own instrument or use classroom instruments; there's no wrong way to create. Whether you enjoy performing, composing, or producing behind the scenes, this camp is creative, collaborative, and an opportunity to share your own unique sound.

Please bring a snack, drink, and a bag lunch (if desired). For students entering grades 5-9.

MESSY MAKERS' STUDIO: *Where creativity gets delightfully messy!*

[NEW CAMP] Do you love to create, explore, and don't mind getting paint on your hands? Messy Makers' Studio is the perfect summer camp for school-aged children who aren't afraid to get a little (or a lot!) messy. At Messy Makers' Studio, campers may:

- Mix, stretch, and design slime
- Explore splatter painting and process art
- Create colorful **tie-dye** masterpieces
- Experiment with **shaving cream art** and marbling effects
- Play with textures, colors, and materials in fun, hands-on ways

This camp is all about **creative freedom, sensory exploration, and joyful mess-making**. There are no “right” answers—just bold ideas, curious hands, and plenty of laughs. Please send campers in clothes that can get messy! **Messy Makers' Studio:** Big imagination. Big messes. Big fun. **Please bring a peanut free snack and drink. AM Grades K-2; PM Grades 3-5.**

SIMPLE SEWING: *Stitch it. Create it. Love it!*

[NEW CAMP] Looking for a fun, hands-on summer activity? Simple Sewing Summer Camp is perfect for school-aged children who love to create! Campers will learn basic hand-sewing skills, including different stitches, while building confidence and creativity along the way.

Throughout the week, kids will: Learn beginner-friendly stitches, practice sewing safely and independently, create fun projects like ornaments, tote bags, and more, and develop fine motor skills, patience, and pride in their work. No prior sewing experience needed—just curiosity and creativity! All materials are provided, and projects go home with campers to show off their new skills. Simple Sewing Summer Camp is a cozy, creative space where kids can slow down, learn something new, and make something they're proud of—one stitch at a time.

Please bring a peanut free snack and drink. AM Grades K-2; PM Grades 3-5.

SPARKLE & SHINE JEWELRY CAMP

Calling all creative kids in grades K-5..... Join our *Sparkle & Shine Jewelry Camp* and dive into the world of colorful beads, threads, charms, and ribbons! Half and Full-day options available.

What's in Store? Make beautiful bracelets, necklaces, and more! Design unique pieces using vibrant beads, charms, thread, and ribbon. Learn simple jewelry-making techniques and unleash your inner artist! Perfect for students in grades K-5, no experience needed!

Camp Highlights: Crafting fun for everyone! Create one-of-a-kind jewelry to wear or give as gifts. Enjoy hands-on projects in a fun, friendly atmosphere. All materials provided—just bring your creativity! Spots are limited, so don't miss out! Let your child's imagination run wild while making gorgeous jewelry to show off!

Please bring a snack and bag lunch if attending the full day. For students entering grades K-5.

CULINARY SKILLS & WELLNESS

COOKING AND BAKING CAMP

Love to cook, bake, and taste your creations? Then this camp is the perfect recipe for summer fun! Campers will learn the basics of cooking and baking while creating delicious, hands-on treats they'll be excited to make again at home. From mixing and measuring to decorating and sampling, every day is packed with fun, creativity, and tasty rewards. Best of all, campers will work together to create a final recipe book to take home—a mouthwatering keepsake filled with their favorite creations and summer memories!

Please bring a peanut free snack and drink. For students entering grades 3-5.

CULINARY CAMP: FLAVORS OF ITALY

[NEW CAMP] Buon appetito! Join us for a delicious week of cooking adventures to explore the flavors of Italy! From classic pasta dishes and fresh sauces to sweet Italian treats, campers will learn basic cooking skills while creating and tasting foods inspired by Italian culture and cuisine. Each day is filled with hands-on cooking, teamwork, and fun as young chefs mix, prepare, and sample their creations. This camp is the perfect blend of culture, creativity, and culinary fun—and campers will leave with new skills, full bellies, and a love for Italian food!

Please bring a peanut free snack and drink. For students entering grades 5-9.

FIDGET FUN: CREATE FIDGETS and LEARN CALM DOWN ACTIVITIES

[NEW CAMP] Get ready for a fun-filled week of creativity and connection! This arts and crafts camp will let campers build their own fidgets, like slime, playdoh, calm bottles, fidget keychains, friendship bracelets, and more, while learning important skills to help them grow socially and emotionally. Each day focuses on a new theme, such as friendship, growth mindset, and calm down strategies, all woven into hands-on projects and group activities. Through stories, crafts, and games, campers will leave with new friendships and lots of fun fidgets.

Please bring a snack, drink, and a bag lunch (if desired). For students entering grades 1-4.

NO BAKE DESSERT CAMP

Want to learn how to bake—but without using an oven or stove? Join the *No-Bake, Easy-to-Create* Camp this summer for a sweet, hands-on cooking adventure! Campers will learn new kitchen skills while creating delicious treats using simple ingredients they can easily recreate at home. From pudding and cake pops to chocolate-fruit lasagna and cookie pizza, every day brings a new no-bake masterpiece. To top it off, campers will head home at the end of the week with their very own mini recipe book—a tasty keepsake filled with delicious memories and fantastic creations!

Please bring a peanut free snack and drink. For students entering grades K-3.

HEALTHY LIVING & LEARNING CAMP

Looking for some screen free activities this summer? Join us for a fun week full of various activities developed around living a healthy life. This camp will include lots of movement with both indoor and outdoor games. Your child will be involved in many activities including gaga ball, soccer, PE games, parachute games and kickball. We will also learn about the importance of nutrition and create our own cookbook full of healthy recipes.

Please bring a snack, drink, and a bag lunch. For students entering grades K-5.

WELLNESS CAMP

[NEW CAMP] This camp combines creativity, connection, movement, and mindfulness to help kids get energized in both body and mind! Each day is designed to balance active play with activities such as team building games, nature walks, and scavenger hunts, with focusing on emotional wellness through activities such as yoga, arts and crafts, and mindfulness exercises. This camp is a great place for kids to be active, learn new skills, and build friendships!

Please bring a peanut free snack and drink. For students entering grades 3-7.

YOGA, DANCE, & CREATIVE MOVEMENT

This camp offers a joyful opportunity for kids to blend the energy of yoga, dance, and creative movement with fun crafts, games, and interactive activities. Campers will build creativity, self-expression, and confidence while staying active and engaged. Designed to be both playful and meaningful, this camp helps children learn valuable skills—all while having a blast in a supportive, nurturing environment.

Please bring a peanut free snack and drink. For students entering grades K-5.

RECREATION and SPORTS

FISHING CAMP

Cast off into adventure at Junior Fishing Camp! Campers will explore local waterways while receiving personalized instruction in freshwater fishing techniques. From casting and tackle selection to fish identification, safety, and fishing regulations, young anglers will build skills and confidence both on and off the water. Transportation, live bait, and terminal tackle are provided—just bring your enthusiasm! Participants should bring a light- to medium-weight fishing rod and reel, sunscreen, a hat, a brown-bag lunch, a refillable water bottle, and a change of clothes. Get ready for hands-on learning, outdoor fun, and unforgettable days by the water!

Cost includes transportation, hooks, bobbers, & bait. For students entering grades 3-5.

(Limited seating due to 7-passenger van; additional permission slip required for travel)

GAME CAMP

Our summer Game Camp invites students to play, collaborate, and grow! Throughout the week, students will participate in a variety of team games and challenges that promote cooperation, communication, and sportsmanship. While enjoying friendly competition, campers will practice problem-solving, build confidence, and learn how to work together toward shared goals. Join us for active fun, new friendships, and an exciting celebration of teamwork!

Please bring a peanut free snack and drink. For students entering grades 2-4.

INTRODUCTION TO FLAG FOOTBALL

Get ready for fast-paced action at Flag Football Camp! This camp is perfect for young athletes who are new to flag football or looking to sharpen their skills. Campers will learn the fundamentals of the game on both sides of the ball—including passing, catching, de-flagging, and defensive positioning—through exciting drills and team-based activities, all in a fun and supportive environment. The week wraps up with live games and a round-robin tournament on Thursday, giving campers the chance to put their skills into action and show off everything they've learned!

Please bring a snack and sufficient water/drinks. For students entering grades 6-12.

TENNIS CAMP: BEGINNER or INTERMEDIATE

Serve up some summer fun at our Tennis Enrichment Camp! This exciting camp is designed to help players build strong tennis skills while having a blast on the court. Through a variety of fast-paced, game-centered drills, campers will develop forehand and backhand strokes, improve serving and volleying, and gain confidence with every swing. Along the way, students will learn how to play matches, understand the rules, and keep score correctly—all in a fun, supportive environment that keeps everyone moving and smiling.

For students entering grades 3-9. Beginners 8:00am- 10:00am and Intermediates 10:30am- 12:30pm.

All you need is a tennis racquet, sneakers, sunscreen, a water bottle and a positive attitude.

TRACK & FIELD ALL STARS

[NEW CAMP] Get ready to run, jump, throw, and have a blast! This week-long summer camp is perfect for athletes entering grades 3- 9 who want to build skills in sprints, jumps, throws, and distance events. Campers will learn from expert coaches while enjoying fast-paced drills, exciting relays, and team games. With a focus on proper technique, strength, confidence, and sportsmanship, this camp offers a supportive, high-energy environment where athletes can challenge themselves, make friends, and have fun all week long!

Please bring a snack and sufficient water/drinks. For students entering grades 3- 9.

TRAILBLAZERS: OUTDOOR ADVENTURE CAMP

If you're interested in a new adventure each day sign up for Trailblazers: Outdoor Adventures. This day camp is the perfect way for kids to experience the great outdoors with exciting single-day trips! Along with learning a variety of outdoor skills such as how to tie knots and outdoor games. Each day brings a new adventure, from hiking scenic trails to kayaking / paddle boarding and even exploring wildlife / geological wonders at local nature preserves / zoos.

Campers will discover the beauty of nature, build outdoor skills, and make lasting memories- all while having fun in a safe and supportive environment. Join us for an unforgettable summer of exploration and adventure! Camp costs include all transportation costs, kayak / paddle board rentals, and entrance fees to all our activities. All that campers need to bring is a bagged lunch, a water bottle, sunscreen, and their excitement for exploring outdoor adventures. **LIMITED to 7 participants per van. Trailblazer Jr. is for students entering grades 5-7; Trailblazer is for students entering grades 8-10. An additional permission slip is required for travel.**

VOLLEYBALL VIBES: VOLLEYBALL FUN FOR ALL

This camp offers the perfect blend of fun and skill-building for young athletes eager to learn the game! Designed for kids of all experience levels, this camp features exciting drills, friendly competitions, and team-building activities that keep players engaged while improving their technique. Experienced coaches teach essential skills like serving, passing, setting, and spiking in a supportive and energetic environment. With fun games, mini-competitions, and mini-tournaments, campers develop confidence on the court while making new friends. Whether your child is a beginner or looking to take their game to the next level, this camp is a great way to grow, learn, and have a blast!

Please bring a peanut free snack and drink. For students entering grades 3-9.

WILDCAT FISHING CAMP

Every day, campers will head to a local waterway to practice new fishing techniques, receive personalized instruction, and—fingers crossed—reel in a catch or two! Along the way, campers will explore the science and skills behind fishing, including basic entomology (learning about the insects’ fish love), knot tying, catch-and-release practices, Leave No Trace principles, and other essential outdoor skills. Participants should bring a light- to medium-weight fishing rod and reel, sunscreen, a hat, a brown-bag lunch, a refillable water bottle, and a change of clothes. Get ready for hands-on learning, outdoor adventure, and plenty of time by the water! Cost includes transportation, hooks, bobbers, bait and \$6 fee to visit Kurtz Fish Pond on day four.

For students entering grades 6-12. Limited seating due to 7-passenger van; additional permission slip required for travel.

SCIENCE, S.T.E.M., CREATIVITY and INNOVATION

ANIMAL ACADEMY

[NEW CAMP] Get ready for an action-packed science adventure where animals take center stage! In this immersive, hands-on camp, campers will explore the incredible ways animals survive, hunt, build, and move through their environments. Each day focuses on a fascinating survival strategy—from camouflage and nighttime adaptations to animal engineering and high-speed movement. Campers will experiment like scientists, create imaginative animal-inspired crafts, and burn energy through interactive games that bring these concepts to life. Along the way, they’ll discover how chameleons change color, how bats “see” with sound, how animals design powerful shelters, and why some species migrate or move at astonishing speeds. This camp blends STEM learning, creativity, and active play into a fun, curiosity-driven experience that encourages teamwork, problem-solving, and a deeper appreciation for the amazing animal world.

Please bring a peanut free snack and drink. For students entering grades K-3.

DUNGEONS & DRAGONS

[NEW CAMP] Embark on an epic adventure this summer with Dungeons & Dragons! This engaging program introduces students to the world's most popular tabletop role-playing game, where imagination meets strategy in a collaborative storytelling experience. Students will learn the fundamentals of Dungeons & Dragons 5th Edition, including character creation, gameplay mechanics, and narrative development. Through guided campaigns set in the legendary Forgotten Realms, participants will work together to solve complex problems, battle mythical creatures, and forge unforgettable stories. No prior experience is necessary—just bring your creativity and willingness to explore new worlds!

Beyond the excitement of rolling dice and battling dragons, this course provides a rich learning environment that combines creative writing, mathematical reasoning, and social-emotional development. Students will develop their own characters with detailed backstories, navigate moral dilemmas, and practice public speaking through in-character roleplay. Our facilitators will guide multiple adventure groups, ensuring each student receives personalized attention while fostering teamwork and leadership skills. Whether your student is a fantasy enthusiast or completely new to role-playing games, this course offers an inclusive environment where every voice matters and every decision shapes the story. **Please bring a peanut free snack and drink. For students entering grades 6-12.**

LEGO FAMOUS ARCHITECTURE CAMP

Enter the world of famous structures and design in "Famous Architecture Around the World Summer LEGO Camp!" Travel the globe learning how ancient architectural breakthroughs led to the fundamental design elements we know today. From walls and arches to post-and-lintel building techniques, use LEGOs each day to construct and learn how similar design elements evolved at the same time in different societies around the world. Discover and replicate some of the most famous structures in history. Put your hands to work and construct a love for STEM in Famous Architecture Around the World.

Please bring a peanut free snack and drink. For students entering grades 3-5.

LEGO SPIKE CAMP Jr. and LEGO SPIKE CAMP

Have you ever dreamed of bringing your LEGO® creations to life? In this exciting hands-on camp, campers will combine LEGO building with beginner-friendly coding to design and engineer projects that move, spin, light up, make sounds, and respond to commands! Using motors, sensors, and simple programming, students will explore the fundamentals of robotics and problem-solving while unleashing their creativity. Perfect for curious builders and future engineers, this camp turns imagination into action—one coded LEGO creation at a time!

Please bring a peanut free snack and drink. AM Grades 1-3; PM Grades 4-6.

LEGO ZOO CAMP

Do you love LEGO® bricks and animals? Then get ready to build your way through the wild in this animal-themed brick-building camp! Each day, campers will design and create models inspired by animals from around the world—from camels to lobsters and beyond—while learning fun facts about their habitats and adaptations. Through hands-on building challenges, students will strengthen communication skills, teamwork, and creative problem-solving. Join us for an exciting adventure where engineering meets zoology and imagination comes to life!

Please bring a peanut free snack and drink. For students entering grades K-2.

NEXTGEN INNOVATORS

[NEW CAMP] Are you a fan of STEAM class in school? Do you love to build, design, and experiment? Join us to learn how engineering and programming can be used to solve problems and have fun. Are you ready to take your STEAM skills to the next level? Led by two elementary STEAM teachers—students will participate in activities to improve their robot designing and programming, spontaneous problem solving, structure engineering, and teamwork skills. Students will have the opportunity to use some high tech equipment, such as a Laser Cutter and a ChompSaw.

Please bring a healthy, nut-free snack, water, and a bag lunch to each session. CAMP is limited to 20 participants for students entering grades 4-9.

PLANET PIONEERS: THE GREAT BIOME ADVENTURE

[NEW CAMP] Biomes of the World is an exciting, hands-on science adventure that takes campers on a journey across Earth’s most fascinating ecosystems! From the lush layers of the tropical rainforest to the frozen Arctic tundra, scorching deserts, and the mysterious deep ocean, campers will explore how plants and animals survive in extreme environments. Each day blends discovery, creativity, and movement as campers conduct fun experiments, build imaginative projects like terrariums, igloos, sand art, and glowing sea creatures, and dive into high-energy games themed around predators, prey, survival, and teamwork. This camp sparks curiosity, creativity, and a love of science while keeping kids active, engaged, and amazed by the incredible diversity of life on our planet.

Please bring a peanut free snack and drink. For students entering grades K-3.

STEMpire

If science and engineering are two of your favorite subjects—and you love hands-on fun—this camp is for you! Campers will explore how science, technology, engineering, and math connect through building, testing, and improving interactive models. Projects may include marble roller coasters, water bottle rockets, tetrahedral kites, hurricane-resistant houses, and crash-test cars. Each session features a unique set of challenges, so campers can join for multiple sessions and discover something new every time!

Please bring a snack and bag lunch if attending two sessions a day. For students entering grades 3-8.

VIDEO GAME DESIGN CAMP

Are you a fan of video games? Are you interested in coding and creating your own video games? Join us for a week of creativity, challenge, and fun as we explore the fundamental skills necessary to develop video games. By the end of the week, participants will be coming home with a video game that they **designed** and **built** themselves along with fundamental skills to advance within the fast-growing opportunities of computer science! We will explore the how, why, and what behind what makes video games fun while incorporating movement and outside breaks into the day. All experience levels of coding are welcome, the only things you need to bring are a lunch, your creativity, and most importantly your excitement to create your own video game!

Please bring a peanut free snack and drink. For students entering grades 4-9.

ADDITIONAL SUMMER CAMP ADVERTISEMENT IN OUR AREA

LEARN TO ROW

Let's get on the water and learn how they row those boats on Philadelphia's Boathouse Row, in the Olympics and as a student at the high school! Sessions are led by former and current rowing coaches of OJR and Upper Merion High School crews; both with decades of experience coaching and rowing competitively. All equipment is provided. You will get on the water the first day and by the final session, you and your boatmates will be comfortable with all the basics, best of all, rowing well on a world-class course.

REGISTRATION: <https://pegasusrowing.com/>

Location, Upper Merion Boathouse, Bridgeport, PA. Bring water, sunscreen and weather/gym appropriate clothing.

For students entering grades 8-12.

SUMMER CAMP at WELKINWEIR - Registration is open!

Every Child Outside (ECO) is where we take kids participating in our summer camp. Held at Welkinweir Preserve, we offer 10 weeks of outdoor adventure for children ages 6 to 12! Visit the camp page (<https://greenvalleys.org/summer-nature-day-camp>) where you will find the camp brochure with detailed descriptions of each week, links to register (each age group has its own registration link), as well as links for our extra WACKY Weeks of camp and for before and after care for camp.

Camp scholarships are available thanks to your support through our camp scholarship fund. You can donate to the fund when you register for camp. Scholarship applications are available on the website. Aged out of camp? Consider participating in our Leadership in Training or Counselor in Training programs - the applications, due May 15th, are on the website. The majority of our current counselors are former LIT / CIT participants.

Interested in being a camp counselor - you can find the description and application of everything you need on the [ECO Camp page](#).

SUMMER ACADEMIC COURSE OPPORTUNITIES

MATHEMATICS COURSE PLACEMENT & ORIGINAL CREDIT OFFERINGS

<u>Dates:</u>	June 15,16,17, 22,23,24,25,29,30 and July 1,6,7,8,9,13,14,15,16 (18 days total)
<u>Hours:</u>	8:00-11:30 AM
<u>Registration closes:</u>	June 5, 2026
<u>Location:</u>	Owen J. Roberts High School
<u>Target:</u>	Course placement & acceleration opportunities for students entering grades 7-12
<u>Cost:</u>	\$400

PLEASE NOTE: Summer courses do not count in the student grade point average (GPA)

- Students who meet the minimum course grade requirement can earn placement into the subsequent math course. Per Board regulation 213A, rising 9th graders will not earn high school credit by passing this course; however, the course may count for academic placement.
- Rising 10th-12th graders will earn one credit upon completing course requirements. For credit to be awarded, students are expected to attend/make-up all sessions, work at an accelerated pace, complete assigned tasks, and obtain a course grade of 75% or better.
- Changes to student schedules will be made upon course completion/grade submission.
- Please contact [Dr. Dennis Fletcher](#) (District Mathematics Supervisor at 610-469-5368) with course, placement, or acceleration questions.
- Courses with low enrollment could be canceled.

PRE-ALGEBRA Room 150

This course develops algebraic concepts by applying previously learned arithmetic topics. Students will study integer operations, solving linear equations, solving inequalities, rates of change, and linear functions. A scientific calculator is recommended for this course. This course is perfect for students who are transitioning to 7th Grade. Students can qualify for Grade 7 Algebra I with a minimum score of 85% and the recommendation of the summer instructor.

GEOMETRY Room 148

This course is at an accelerated pace for students who demonstrate advanced math ability. The main emphasis is placed on applications of Geometry, the algebra skills needed for Geometry, and use of deductive reasoning for proving theorems. After completing this course, students can qualify for Honors Algebra 2 with a minimum score of 85% and the recommendation of the summer instructor. Completion of Algebra 1 with a 95% or better is the minimum requirement for taking this course.* In addition to classroom performance, entrance into this course is based on district assessment and standardized testing data. After registration, student data will be reviewed and the student's math teacher will be consulted to confirm entrance into the course. Refunds will be issued to families if the course is not appropriate for the student.

*The intent for our summer enrichment math courses is to offer the opportunity for students who did not qualify for Algebra I in 7th or 8th grade to accelerate their progress through our [OJR Math Pathway](#). OJR does NOT recommend that rising 8th grade students take Summer Geometry. Students who have completed Algebra I in grade 7 are already on an accelerated pathway.

PRECALCULUS Room 143

This course reviews and expands upon topics from Algebra 2 and introduces and develops concepts of trigonometry for students who demonstrate exceptional ability in mathematics and who plan to take Calculus. More emphasis is placed on elementary concepts of calculus. A graphing calculator is recommended for this course. Students can qualify for Honors or AP Calculus with a minimum score of 85% and the recommendation of the summer instructor. Students registering for this course should be recommended by their Algebra 2 teacher. This course is for rising sophomores, juniors, or seniors.

HIGH SCHOOL ONLINE ORIGINAL CREDIT COURSE OFFERINGS

IMPORTANT REMINDERS FOR ONLINE COURSEWORK

- **Students with vacation plans or other summer obligations should keep the following expectations in mind. These accelerated courses will move quickly.**
- Students must have internet access.
- Students must be disciplined to access course content on a daily basis.
- Students must communicate regularly with the instructor.
- Students must exercise successful time management and consistently complete course projects by the given deadlines.
- Courses are accelerated. Semester or year-long courses are completed in 5 weeks.
- All courses are available during the school year for no additional cost.
- Rising 10th-12th grade students are eligible to take/earn credit for these courses.

ONLINE HEALTH & WELLNESS:

ONLINE HEALTH & WELLNESS

This course examines essential skills to make beneficial individual health choices as well as maintaining the health of others. Emphasis is placed on first aid, CPR techniques, nutrition, exercise, and drug and alcohol awareness. This course guides students in making important life decisions in the psychological, physiological, social, emotional, and mental aspects of their lives. Students acquire a deeper understanding of nutrition and their personal daily nutritional needs. Digital citizenship topics help students develop a positive digital footprint while focusing on the use of technology and its effects on overall health. Students will also learn about contemporary social health issues that affect individuals. Finally, students will analyze the interdependence existing among the body systems.

- ***Students must work approximately 10 hours per week to keep pace with the course requirements.***
- Students may work ahead, but there are weekly due dates.
- Contact [Mrs. Stoltzfus](#) with course questions.
- **Students will earn .5 credit for this course. [Grading is S/U.] COST: \$200**

ONLINE SAT PREP COURSES:

- Registration closes July 13, 2026.
- Course access on Canvas along with password/account creation will be available July 16, 2026.
- Students must be ready to begin course requirements by July 20, 2026.
- Courses *do not* count in student grade point average (GPA); however, they do count towards the elective credit graduation requirement.

ONLINE SAT Reading Prep

This course is designed for students taking the SAT on August 22nd, providing them with an opportunity to refine their test-taking skills, focus on sample questions, and practice in the area of reading only.

- Begins July 20th and runs through August 21, 2026.
- **Students must work approximately 1 hour per weekday to keep pace with the course requirements.**
- Contact [Mrs. Erin Sanchez](#) with course questions.
- **Students will earn .25 credit for this course. [Grading is S/U.] COST: \$100**

ONLINE SAT Math Prep

This course is designed for students taking the SAT on August 22nd, providing them with an opportunity to refine their test-taking skills, focus on sample questions, and practice in the area of mathematics only.

- Begins July 20th and runs through August 21, 2026.
- **Students must work approximately 1 hour per weekday to keep pace with the course requirements.**
