Shawano School District Facilities Project – Article 2

What is included in the Facilities Improvement Project?

How *did the project get determined?*	The Shawano School District and Hoffman identified 14 potential solutions (some with variations) to address our needs. These solutions ranged from addressing only immediate needs to addressing both immediate and more long-term planning needs. The needs of all facilities were considered in the planning process. The school board has played a key role in evaluating these solutions. A final solution was selected after a great deal of discussion and consideration of feedback from the community survey and listening sessions. With every discussion, the administration, staff, and community have responded with feedback supporting the goal of improving the Shawano School District and the Shawano area community.
WHAT *is included in the referendum scope?*	**Hillcrest Primary School** **$5,200,000** • Update immediate infrastructure and maintenance needs. • Remodel 7,552 square feet to house childcare program and update educational spaces. • Add additional playground space and equipment. **Olga Brener Intermediate School** **$4,400,000** • Address immediate infrastructure and maintenance needs. **Shawano Community Middle School** **$2,300,000** • Address critical infrastructure and maintenance needs. • Perform minimum work to protect the building and extend its useful life. • Address roofs and repair envelope and electrical code issues. **Shawano Community High School** **$30,000,000** • Address immediate infrastructure and maintenance needs. • Remodel 7,602 square feet of collaboration spaces, two science labs, and 35 classrooms to update educational environment. • Construct 10,467 square feet of additional space for the performing arts center. Include new seating and orchestra pit, update lighting, rigging, and audio systems for auditorium and performing arts center. • Construct 2,936 square feet of additional space for technical education. • Construct 15,828 square feet of additional and remodeled space for the fitness center, including community space. **Swimming Pool Repairs** **$500,000** • Address minimum maintenance needs. (liner, pool deck, minimal equipment) **Safe Routes to Schools Site Work** **$3,000,000** • Addresses vehicle and pedestrian issues and needs at all school sites. **Fitness and Athletic Fields** **$9,100,000** • Track and field event space • Synthetic turf football / soccer field • 2,000 seat grandstand with press box and storage • Entry plaza and concessions / restroom facility **Total of All Projects** **$54,500,000**
