MAY IN ACTION: GROWTH, GAINS, AND GRADUATES

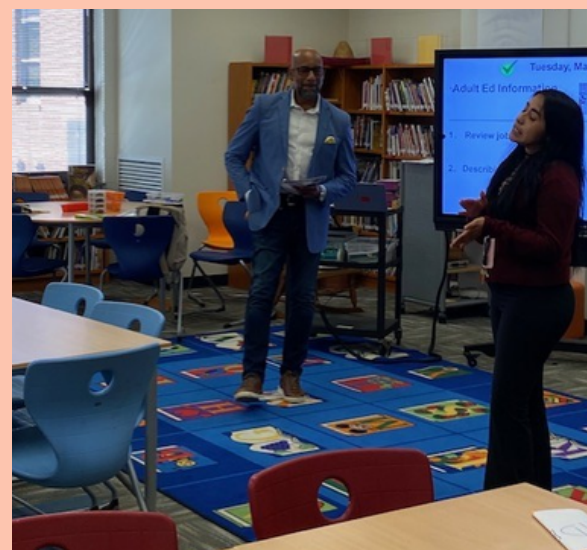

The month of May was filled with meaningful progress and celebration across our program. Our students demonstrated continued dedication by achieving measurable skill gains (MSGs), earning valuable WIN credentials and Northstar Digital Literacy certificates, and reaching the milestone of program completion. These accomplishments reflect not only academic growth, but also the resilience, determination, and commitment our students bring each day. We are proud to celebrate their success and remain committed to supporting every learner on their path forward.
