AP FRENCH
SUMMER ASSIGNMENT 2026
Madame Mauritz

Please take some time over the summer to continue practicing your French. Try to watch or listen to something French throughout the summer. It is important just to hear the language. Try reading something in French. Again, there are lots of things you can find on the Internet. Check out the daily news on a French website. These are suggestions and there is not an actual assignment connected to them.

Here is what is required:

- Learn the vocabulary attached to this assignment. These are words you will see and hear throughout the course. Look up definitions for any of the unknown words. Many are words we have discussed or are cognates. **There will be a quiz on these words during our first few weeks of school.**

- Keep a writing journal. Disconnect from any device, set the timer for 10 minutes, and just write in French. Do not look anything up, don't worry about grammar or verb conjugations; just write. You can write about anything: your day, your week, a funny moment, a hobby, a book you read, a friend, etc. It is your choice.
    - Please do each entry on paper. No electronic versions will be accepted.
    - Write for only 10 minutes at a time.
    - Any topic
    - Do not look anything up.
    - Stay away from English or invented words.
    - **You must submit 5 different entries on the second day of school on paper.**

- Practice your verbs. At least three times during the summer, visit Conjuguemos and complete an all-tense review. https://conjuguemos.com/verb/homework/1
    - Take a screen shot each of the three times that you tried the exercise.
    - Skip the following :
        - Le passé anterieur
        - Le plus-que-parfait du subjonctif
        - Le passé simple
        - L'imparfait du subjonctif

Vocabulaire: liste de mots clés que les élèves doivent maîtriser
