

School Year 2024-2025

School Highlight: We implemented a dedicated College & Career Readiness period at the middle school, to further strengthen our academic and college-and-career readiness programs. During this time, students engage in: Entrepreneurial Mindset (eMindset) lessons that build problem-solving, purpose, and agency; college and career readiness activities, including goal setting, pathway exploration, and skill-building; Targeted supports in ELA and math designed to accelerate growth and raise student outcomes. The outcomes from this pilot at the middle school informed our decision to implement a Rising Entrepreneurs period (40 minutes per day) for the 2025-2026 school year at the high school level. This structured period allows us to provide consistent, high-quality instruction and individualized support aligned to both our eMindset framework and our academic performance goals.
