LESD Hosts International Mental Health Delegation

Student Support hosted a delegation of Taiwanese mental health and social work practitioners with over 10 years of experience, selected by their leadership to learn about U.S. MSW practices, school-based mental health systems, and student support services.

During their visit, we showcased LESD's work in PBIS, SEL/Second Step, screening tools, attendance interventions/SARB, Hazel Health, and our district wide approach to student wellness and mental health.
