

United States History I Honors

Summer Assignment

Google Classroom Class Code: **kc25t4uw**

*need to join in order to view online textbook

The Social Studies Department is excited that you have chosen to take US History I Honors in the coming school year. Since US I Honors represents the first half of AP United States History, it is a challenging course that will require you to exert your best effort. However, you will be supported along the way, and if you remain diligent and focused you will find the workload to be manageable and the experience to be rewarding!

In order to be prepared for the transition to class, we have compiled the following assignment for you to complete over the summer. It serves as an introduction to the kinds of tasks you will see when we arrive in September, and it also gives us a head start on the content, which is ample and difficult to cover in the time afforded by the school year alone.

Part I: Read Chapters 1-5 in The American Pageant. Chapter PDF links are in the summer google classroom. As you read, prepare detailed ***hand written*** notes.

Part II: While reading Chapters 1-5 fill in the following graphic organizer. Recreate the graphic organizer in your notebook and ***hand write*** your responses. Focus on social, economic, religious, and political factors for each region.

[Link](#)

Part III: Conflicts and Cooperation with Native Americans. Identify and provide descriptions on what factors lead to increased conflict between colonists and natives as time went on? Use the [Link](#) to view the events and ***hand write*** your responses in your notebook.

- PARTS 2 and 3 should be separate sections in your notebook!!!

Should you have any questions along the way, you can feel free to contact me via email at dathans@oceanschools.org. I will be checking my email over the summer and I will do my best to assist you in any way that I can.
