

LinkIt! Data Warehouse Trainers

Just a reminder that each building has a group of trainers who have now received 2 train the trainer sessions. If you are looking for time to fill during one of the Act 80 or Inservice days, consider having your trainers lead review sessions on using Reporting and digging down into students' data using the Student Hub.

Student Assessment Data

We work with LinkIt! to maintain a constant flow of data from our assessments and into the LinkIt! system. Some scores are moved over by hand, while others flow automatically. Just a reminder that if a student takes an assessment outside the assessment window, those results may not show up in LinkIt! If a student doesn't complete an assessment, it will also not show up over in LinkIt! until the next data import.

The screenshot shows the 'Dashboard Home' interface with a sidebar on the left containing icons for various functions. The main area is titled 'Data Filter' and includes a search bar and several filter options: 'SCHOOL YEARS' (set to 2024 - 2025), 'ADVANCED DATE', 'Router Filter', and 'Plans & Documents Filter'. Below these filters is an 'APPLY' button. The main content area displays a table with columns for 'Name', 'Category', and 'Subject'. The table lists various assessment items, such as '2024-25 Winter Gr 6 ELA Final', '2024-25 Winter Gr 7 ELA Final', '2024-25 Winter Gr 8 Math Algebra I Final', etc., all categorized as 'Final' and listed under 'Language Arts' or 'Math'.

Intervention Manager

Currently being piloted in grades K-6, Intervention Manager is an online management suite to support and enhance the district's processes for MTSS/RTI, Gifted, ML/ELLs, 504 Plans, Behavior, etc. A fully online system, it supports process, communications, customizable performance criteria, grouping, goal setting, and progress monitoring. Plus, it's connected to all student data to better support the process!

Marking Period grades are now integrated into LinkIt! When a marking period ends and report cards go out, we push our end of MP grades over into LinkIt! Originally displaying every class/grade, we worked with LinkIt! to display only the core classes. This greatly cleaned up the list. Grades are named by class and are filterable by content area and also display for each student in the Student Hub.

LinkIt!'s system features an online testing tool that gives the district the ability to add and deliver local and customized assessments online. The system grades the assessments and then populates the scores in the data warehouse. This is perfect for finals or common assessments.

- Our **discipline** data is in LinkIt! We are working on improving the display and configuration of how that data appears in your searches and for display in the Student Hub. LinkIt!'s integration team is actively engaging with us about improving this feature.
- **Attendance** data flows out of PowerSchool and directly into LinkIt! nightly and reflects all attendance up to the previous school day.
- LinkIt! is in discussion with many of our vendors to create **automated data dumps** that would greatly simplify the processes tied to getting assessment data into their system.

The following data sets are up to date or are scheduled to upload in the near future:

- Acadience Scores (BOY and EOY)
- Acadience Progress Monitoring
- Access for ELLs (testing window closes 2/28)
- Amplify DIBELS 8 (BOY and MOY)
- Amplify DIBELS 8 Progress Monitoring
- Achieve 3000/LevelSet
- CDT (next week after window closes)
- Firefly
- Imagine Math
- IXL
- LAS Links
- Winter Keystones should be released soon!
- PVAAS Projections
- Savvas

As we move through testing schedule and assessment periods are completed, the data for the assessments get updated accordingly.
