

LinkIt! Data Warehouse Trainers

Just a reminder that each building has a group of trainers who have now received multiple train the trainer sessions. If you are looking for time to fill during one of the Act 80 or Inservice days, consider having your trainers lead review sessions on using Reporting and digging down into students' data using the Student Hub.

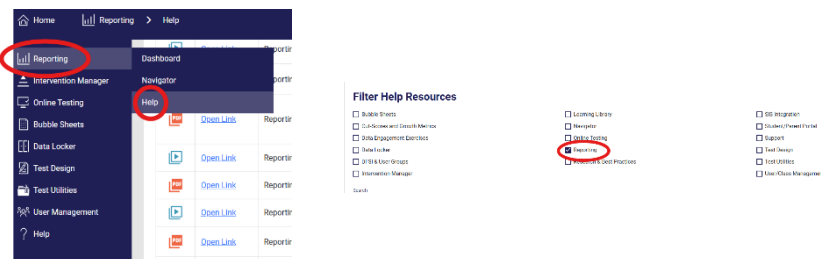

For the

Winter Keystones are in!

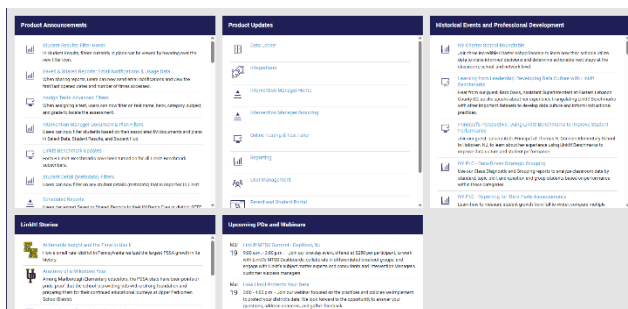

Winter Keystones are now in LinkIt! As a result, the Keystone Best category is also updated!

If you need a refresher on how to search and view data, visit HELP found under the reporting menu. From there, you can filter down to REPORTING and you'll see a wealth of resources available to you related to data selection, reports, grouping, student hub, and so much more!

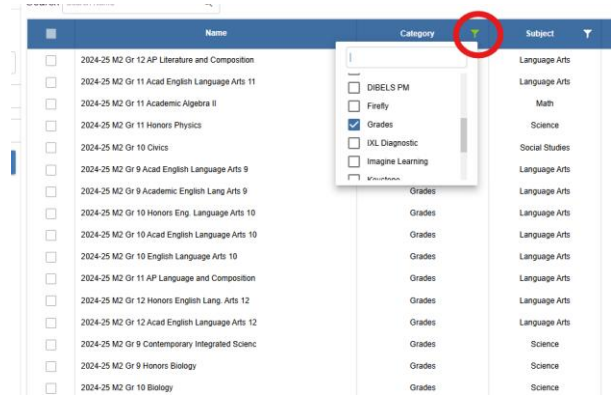

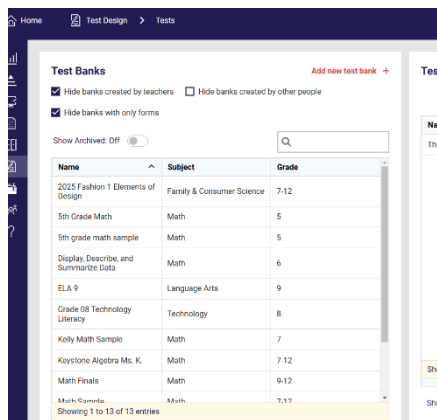

Landing Page

The landing page is full of information! You'll find product updates and announcements that highlight new program features and functions, news from other districts highlighting implementation, information on professional development, and more!

2nd Marking Period Grades

2nd Marking Period grades have been rolled into LinkIt! When a marking period ends and report cards go out, we push our end of MP grades over into LinkIt! They filter the entire listing of courses down to only the core content areas. Grades are named by class and are filterable by content area and display for each student in the Student Hub.

Online Testing

LinkIt!'s system features an online testing tool that gives the district the ability to add and deliver local and customized assessments online. The system grades the assessments and then populates the scores in the data warehouse. This is perfect for finals or common assessments.

Upcoming Trainings:

- **3/5/25** – A group of school counselors, school psychologists, and speech teachers were trained on the basics Intervention Manager.
- **5/7/25** – The remainder of school counselors, school psychologists, and speech teachers will be trained on the basics of Intervention Manager.
- **6/4/25** – IST, instructional coaches, and assistant principals will be trained on the data warehouse side of LinkIt!
- **10/25** - Plan ahead for next year's in-service to have your building trainers offer 1.5 hour sessions to repeat to staff throughout the day!

DATA Updates:

The following data sets are scheduled to upload in the upcoming weeks and months as per the district's assessment calendar:

- Firefly (Data provided 3/31)
- CDTs (Updated 3/28)
- mClass DIBELS (May)
- Acadience (Updated 4/1)
- Achieve (April)
- IXL Algebra I (May)
- Imagine Math (May)
- LAS Links (May)
- Spring keystones/PSSA (Mid-Summer)

As we move through district's testing schedule and assessment periods are completed, the data for the assessments get updated accordingly.
