

Optional Summer Math Practice for Incoming IM 2 and Precalculus Students

Students who will be taking IM 2 or Precalculus next school year have the opportunity to complete optional summer math practice through Delta Math. These assignments are designed to help students review prerequisite skills and feel more prepared for their upcoming math course.

This summer practice is completely optional. It will not be graded, and no extra credit will be offered. Delta Math generates different questions for students within each topic.

Students who are interested may enroll in the appropriate Delta Math course using the information below:

Website: www.deltamath.com

Ms. Cheng's Delta Math Teacher Code: 103544

Incoming Precalculus Students

Course Code: **UA5Y-J44X**

Direct Link: <https://www.deltamath.com/students?code=UA5Y-J44X>

Incoming IM 2 Students

Course Code: **7237-WW7M**

Direct Link: <https://www.deltamath.com/students?code=7237-WW7M>

We encourage students who would like additional practice and preparation to take advantage of this optional opportunity over the summer.
