# CARLMONT HIGH SCHOOL

## Dear Sequoia Union High School District Community:

On behalf of the Sequoia Union High School District (SUHSD) and its Board of Trustees, we thank you for supporting Measure A, which has provided our district with the means to deliver high quality education through the facility enhancements throughout our schools.

Because of you, we have been able to upgrade facilities and bring them into the modern era. From flexible-use classrooms to state-of-the-art science labs, we have been able to ensure the very best learning environment for our students.

We are examining methods by which to absorb growth without having to compromise the quality academic standards that have made us one of the best high school districts in California. By improving and constructing facilities, SUHSD has been placed on a course that best assures maintaining those standards.

Community support has allowed for students and staff to make their dreams a reality in tremendous spaces which brings the 21st century into focus.

Upgrading of facilities is an ongoing process which constantly evolves toward meeting the needs of our dynamic student population. In this effort, I want to assure you that SUHSD will always work to seek input and guidance as the community is critical to our success.

# SCHOOLS FACILITIES UPDATE

Measure A has made it possible to support high quality education and upgrade our local high schools.

## Districtwide Goals:

1. Add classrooms, science labs, and schools to support projected growth
2. Provide updated classrooms with labs, technology, and Career Technical Education facilities to support educational programs
3. Renovate aging classrooms and repair, construct, or acquire equipment, classrooms, and facilities to support delivery of services
4. Construct a new alternative small school to meet the diverse needs of our incoming student population

## Measure A Funding

### at Carlmont High School:

- ✔ New 10 classroom S-wing with state-of-the-art labs for science, world language, and journalism, outside courtyards, and collaboration space
- ✔ Main kitchen and student union improvements
- ✔ Infrastructure improvements: heating, ventilation, and air conditioning system and updated school entrance
- ✔ Renovation of athletic facilities: locker rooms, weight room expansion, bleacher replacement in the basketball gymnasium, track resurfaced, pool replastering
