DRAFT DISTRICT GOALS 2026-27

DISTRICT GOAL #1: INSTRUCTIONAL COHERENCE

Develop and implement a PK-12 system of instructional rounds, job-embedded coaching, and collaborative feedback practices aligned to a shared vision of effective practice ([9 Best Practices](#)).

- Design and implement a consistent instructional rounds model to support shared learning across classrooms and schools.
- Strengthen PK–12 instructional coaching systems to promote continuous, job-embedded professional growth.
- Clarify the distinct roles of instructional coaches and evaluators to ensure coaching remains focused on growth and support.
- Develop and share common expectations and best practices for post-observation feedback and reflective conversations.
- Promote structured peer classroom visits to encourage collaboration, reflection, and the sharing of effective instructional practices.

DISTRICT GOAL #2: DATA-INFORMED DECISION MAKING

Convene a PK-12 data team to analyze district data and further implement a culture of data-informed decision making relative to student growth and achievement within each school.

- Analyze district and subgroup data to identify trends, monitor progress, and inform instructional and systemic improvements.
- Expand the use and accessibility of data dashboards to support consistent, timely, and actionable use of student performance data at all levels.

DISTRICT GOAL #3: SAFE & SUPPORTIVE SYSTEMS

Revisit, refine, and align district-wide routines, policies, and systems across all schools to ensure consistent, safe, and supportive learning environments for all students and staff.

- Strengthen administrative capacity through ongoing training on relevant laws, regulations, and district protocols.
- Continue cross-building collaboration to calibrate and align practices for greater consistency and coherence.
- Provide clear, accessible resources to families that are aligned with school-wide curricula, expectations, and priorities.

RE: FY26 Operating Update
DATE: June 5, 2026

Attached please find:

- a. General Fund Revenues as of May 29, 2026
- b. Status of Appropriations as of May 29, 2026

Revenues

Chapter 70 and 71 revenue projections reflect the final Cherry Sheet amounts. The variance in Chapter 70 is due to increases in legislative funding in the final state budget approval (we use the Governor's Budget for our budget placeholder). We received the first of two installments of Chapter 71 transportation reimbursement in February. The first payment (assuming an equal second payment) reflects an 80% reimbursement rate. State budget discussions from FY26 indicated closer to a 90% reimbursement rate. The first payment is typically conservative as not all FY25 expenditures are reported yet. An additional 10% of reimbursement would increase the Region's reimbursement by approx. \$89,000. Projections reflect receiving an additional \$60,000 as it does appear the reimbursement rate will be higher than 80%.

You will note some variances in athletic, parking, and activity fees as we approach the end of the year. The most significant is a negative variance in athletic fees, driven by current participation rates. Due to this continued trend, we plan to ask the School Committee at the June meeting to increase the family cap for athletic fees back to five for FY27. (Note: When the fee rate was increased several years ago, the cap was lowered to four.) Additionally, interest rates remain favorable, resulting in a projected positive variance in interest income.

As a reminder, the approved FY27 Budget is utilizing \$200,000 of Excess and Deficiency Funds based on the FY26 operating results.

Operating Expenditures

Salaries

The majority of salaries have been encumbered. All FY26 stipends are now either expensed or encumbered. Custodial overtime and substitute costs are expensed as incurred. We are experiencing a material negative variance in substitute expenses due to higher number of leaves this year in comparison to previous years.

There are a few salary variances due to post-FY26 budget staffing changes. In addition, due to student needs, we are over-budget by two educational assistant positions.

Total salaries are projected to be over-budget by approximately \$100,000. We have available grant funds of approximately \$35,000 to cover a portion of this variance if needed.

Expenditures

At this time, we are projecting material variances in several operating expense line items. We are experiencing negative variances in Legal Services, Districtwide Technology Services, SPED Services and Utilities. More information regarding these variances will be shared at Tuesday's meeting.

Estimated health insurance costs have been encumbered. West Suburban Health Group (WSHG) approved rates for the Retiree Medicare supplemental healthcare plans in October, and as you may have seen in the news, healthcare premium increases are reaching double-digit percentages. CY26 rates for our two most subscribed retiree plans were approved at 12.4% (Medex) and 11.9% (HPHC Medicare Enhanced). The FY26 Budget was developed using a 9% increase, however current year participation is resulting in a small positive variance.

Summary of Operations

Current projections show a negative operating variance. We will continue to monitor the variances as we approach June 30th. As a point of information, the current statement reflects our planned \$250,000 OPEB contribution. If necessary, we will reduce the contribution for FY26 to cover any operating deficit.

FY25 Wrap-up

Our E&D certification was finalized on November 14, 2025. Undesignated Fund Balance of \$947,543 (3.25%) was adjusted for several prepayments on our ledger totaling \$161,466, resulting in a Certified E&D of \$786,077 (2.7%). This is a larger than normal prepayment amount as the Region prepaid rental fees for the SHEDA Program to facilitate the Pine Hill HVAC project. This balance will decrease as the expenditures are recognized in operations. This is an accounting adjustment made by the DOR but does not impact the Region's actual Undesignated Fund Balance.

The Region's EOYR was filed with DESE. We are required to undergo a compliance audit each year to ensure our data reporting is in-line with their directives. This compliance audit is underway.

Our auditors have completed their fieldwork for our FY25 Financial Audit. With this timing, the presentation of the audited financial statements will occur at the September meeting. In addition, it was noted that we are required to conduct a Single Audit for FY25 as our federal fund expenditures exceeded the threshold of \$750,000. This was primarily due to the final use of approx. \$240,000 of remaining ESSER funding. This audit will be completed in July.

We will be happy to answer any questions the Committee may have at Tuesday's meeting.

RE: Update on Capital Projects
DATE: June 5, 2026

Recently Completed Capital Projects

High School Rooftop Unit Replacements

We closed out this project in March with the majority of the work completed last summer. As a reminder, this project entailed replacing all seven High School RTU's with new equipment which was fully electric, eliminating any use of natural gas. The total cost of the project was **\$2,053,226.58** which included one change order for unplanned curb adaptation that resulted in **\$33,482.58** of additional costs. This was charged to the Operating Budget against the Building Maintenance Reserve line item.

Turf/Track/Fencing/Lights Replacement

This project was also closed out in March with the majority of the work completed by the end of September. The total cost of the project was **\$1,723,521.10** which included **\$42,021.10** of change orders. The largest change order was a post-design decision to move the discus cage/pad from the turf site to a location on the fields near Farm Street. This was a safety-related decision that made sense to take advantage of during this construction as the structure itself had to be removed in connection with the track/field replacement work. Other change orders included replacement of previously broken/damaged grates and sand pit covers, painting of the goal posts and additional electrical work relating to the lighting replacement. These change orders were covered using funds from the Athletic Revolving and Sports Gift funds as well as some costs charge to the Operating Budget against Athletic Supplies line item.

The project closeout was delayed while we addressed concerns regarding outstanding punch list items. Further review revealed installation issues that could negatively affect the long-term wear of the turf. We agreed to close out the project, with the understanding that additional remedial work will be completed this summer under the manufacturer's warranty. This work will be completed at no additional cost to the District, and our project management team's oversight costs are fully covered. This ensures the District receives the full benefit of the replacement without concerns of significant repairs during the warranty period.

Upcoming Projects

The High School Roof Restoration project is starting preliminary work this weekend. They will be doing some small detailing to take advantage of optimal weather days as this will give them some buffer from any rainy or extremely hot days that may occur in July and August. They are scheduled to have the work completed, including the replacement of the skylights, by August 21st.

Use student leaders such as Peer Leaders and National Honor Society members to create learning communities where older students mentor and give direct feedback on transitioning to high school academic work as well as school involvement.

The transition from 8th to 9th grade is one of the most critical turning points in a student's K-12 academic career. Research consistently shows that 9th grade is a pivotal year; a drop in academic performance or a lack of school connectedness during this time is a primary predictor of long-term high school success and graduation rates.

- Middle school compared to high school work is very different. They contrast each other due to middle school work having more structure and guidelines, compared to high school where the work allows for more independence and self advocacy..
- Studying sometimes not being beneficial is a major problem when transitioning to high school. There is efficient and wasteful studying and wasteful studying happens when students study to make themselves feel good by spending a lot of time on the topic to feel a sense of accomplishment but not truly understanding it.

Introducing new forms of studying could be beneficial

RE: Proposed Change to High School Athletic Fee Family Cap

As discussed in May; to help offset the negative variance in Athletic Fee Revenues, we are requesting the Committee amend the current family cap of \$1,340 per family (represents four fees) to \$1,675 per family (represents five fees). Historically the family cap was set at five fees but was reduced in FY23 when the Committee voted to increase the fee from \$300 to \$335. Changing the family cap for FY27 could yield an additional \$10,000 of fees. As always, if a student needs financial assistance, Administration is able to waive a portion or all of a fee.

The motion requested is **to amend the current family cap for athletic fees of \$1,340 to \$1,675 effective July 1, 2026.**

RE: Request for increase in Building Rental Fees

DATE: June 8, 2026

We recently completed a review of our building rental policies, procedures, and fees, as the current rental rates have been in place for over 10 years. Part of this process included comparing area district rates and policies, as we have seen an increase in non-town group usage over the past several years. Based on this, we are proposing two tiers of building rental fees: one for Dover and Sherborn groups and a second for non-town groups. Additionally, we collaborated with the Athletics Department to review gym and the new turf/track usage in order to develop reasonable yet competitive rates. Please see the attached table for the proposed rate increases; current rates are included for comparison purposes.

We are also requesting an increase in fees for weekend custodial/food service coverage to align with our actual costs. Current rates are \$40 for Saturdays and \$55 for Sundays and holidays; our staff is paid time and a half for Saturdays and double time for Sundays and holidays. As a point of information, unless an outside group stays past 11:00 p.m. on a weekday or requires specific coverage, they are not charged additional fees for custodial services. These stated fees have been in effect for the last six years. The requested rates are also reflected on the attached table.

All approved increases will be effective for new bookings as of July 1, 2026. We remain committed to sharing our facilities with community groups while balancing the need to properly maintain the spaces vital to our daily school operations.

We will be happy to answer any questions at Tuesday's meeting.

Goli Sepehr called the meeting to order 6:32 pm.

2) Community Comments - none

Dover Public Schools - Public Hearing on the Proposed FY27 Budget

Dawn Fattore presented the proposed FY27 Operating Budget 2.0. There have been no changes since it was last discussed at the February meeting:

- *Budget Drivers: In-District* - payroll represents approximately 85% of the in-district operating budget and contractual salary increases for all District employees are accounted for in a *Reserve for Contracted Increases* currently residing in *Other Educational Expenditures* as negotiations are ongoing; enrollment is projected at 450 students and 24 classroom sections; and operating expenses are estimated based on trend budgeting.
- FY27 Operating Budget is \$9,380,175: in-district = increase of \$233,887 or 2.63% over FY26; out-of-district = decrease of \$2,307,000 or -90.4% over FY26 as a result of a change in accounting (shift to the Region).

There were comments/questions from members of the audience concerning class sizes for next year as well as options to continue learning Spanish for those interested.

3) Vote on FY27 Operating Budget

Kate Cook made a motion to approve the FY27 Operating Budget in the amount of \$9,380,175. Jessie Hole seconded.

26-02 VOTE: 3 - 0 via roll call

4) Financial Reports

- Warrant Report
- FY26 Monthly Report
 - Salaries - there are no material variances since the last report
 - Expenses - there are no material variances since the last report
 - Out-of-District - tuition encumbrances are reflected for all OOD placements as of March 3rd. There are currently 23 placements, six more than budgeted. The total negative variance in tuition costs is approximately \$789,000: \$460,000 from new

 - Update on Cooling Project - the Library and Cafe HVAC units and the ERV unit for the Auditorium are all up and running.

4) Continued Discussion on FY27 Budget - V3.0 reflects adjustments related to the addition of a District-Wide Curriculum Coordinator offset by a reduction in requested PD costs and additional use of Pre-K revolving funds for a net zero impact vs V2.0.

Sherborn Public Schools - Public Hearing on the Proposed FY27 Budget

Dawn Fattore presented the proposed FY27 Operating Budget 3.0:

- *Budget Drivers: In-District* - payroll represents approximately 85% of the in-district operating budget and contractual salary increases for all District employees are accounted for in a *Reserve for Contracted Increases* currently residing in *Other Educational Expenditures* as negotiations are ongoing; enrollment is projected at 403 students and 21 classroom sections; and operating expenses are estimated based on trend budgeting.
- FY27 Operating Budget is \$7,842,291: in-district = increase of \$104,006 or 1.43% over FY26; out-of-district = decrease of \$694,000 or -60.4% over FY26 as a result of a change in accounting (shift to the Region).
- Capital Projects: Water Tank Replacement - project is currently out to bid; School Committee will approve the actual project costs once confirmed.

Financial Reports

- Warrant Report
- FY26 Monthly Report
 - Salaries: there are no additional variances to report.
 - Expenditures: there has been higher usage of electricity in the winter months with the conversion of the RTU's to fully electric models. The settings are being reviewed on these units to minimize usage if possible.
 - Out-of-District: current tuition costs are over-budget by \$178,000 and transportation costs are over-budget by \$90,000 resulting in a negative variance of \$268,000 at this date.
 - FY27 Capital Project - the water tank replacement and a new treatment system were approved at Annual Town Meeting for a total cost of \$506,250. The work is scheduled to take place over the summer under the oversight of the Town's DPW staff with a completion date of August 21st.
 - Update on Cooling Project - the Library and Cafe HVAC units and the ERV unit for the Auditorium are all up and running.

Megha Kadiyala made a motion to approve the Consent Agenda. Bill Alfano seconded.

26-04 VOTE: 3 - 0

Informational Items

Civil Rights Grievance Procedure

Dover Sherborn Regional Committee minutes of February 3 and March 12, 2026

Items for June 2, 2026 meeting

Superintendent Comments - Superintendent McCoy gave an update on enrollment - it has been determined that there are 4 sections needed in next year's 4th grade. The additional educator salary will be covered by post-budget changes in staffing. There are expected retirements next year so the new hire will likely have a position going forward.

- Elementary Literacy Pilot Program - Denny Conklin review the work done to date to determine which programs to pilot next year which will be McGraw Hill Emerge and Fishtank ELA.
- Technology Use at the Elementary Level - The Administration will be forming two committees (one for the Elementary and one for the Secondary level) to determine guidelines for technology use both by teachers and students. The goal is to have technology used intentionally and interactively with an emphasis on high value for students.

Recognition - Megha Kadiyala thanked Becca Hammond for her years of service on the school committee.

Adjournment at 6:41 pm.
