
 **MISSION BRIEFING: Operation "Unearth a Story"** 

CLASSIFICATION: TOP SECRET / FOR YOUR EYES ONLY

ACTIVE WINDOW: SUMMER 2026

OBJECTIVE: Artifact Retrieval & Deep-Earth Exploration

Attention, Operatives!

We are officially launching this year's Summer Reading undercover initiative:  
Operation "Unearth a Story"

Our intelligence reports indicate that millions of uncharted worlds, ancient dinosaur fossils, and long-lost civilizations are currently buried deep inside the library shelves. We need our sharpest minds to step into the boots of covert paleontologists and archaeologists to dig them up.

Reading is a skill that requires daily field training. The more you practice, the stronger your decoding skills become.

**YOUR FIELD ORDERS:**

Locate the Targets: Track down as many high-value books as you can this summer.

Form an Alliance: Share your discoveries and read alongside your trusted friends and family.

Log the Evidence: Document your progress on your Top-Secret Bingo Board.

Do not let your coordinates leak to the enemy! Return to headquarters this September with a fully completed Bingo Board to claim your classified reward.

Gear up, stay sharp, and get ready to dig deep into the unknown. This email will not self-destruct, but those books won't read themselves!  

**Have a great summer!**

**Lots of Love,**

**Mrs. Uveges**
