Mid-Year Plan Changes

Changes in your Benefit elections cannot be made in the middle of the plan year, unless you have an IRS approved **qualifying life event**. These include marriage, divorce, birth or adoption, and termination or commencement of a new job by your spouse. If any of these apply, please complete the Change in Status Election Form and Blue Cross Blue Shield enrollment application, if you plan to enroll in the TRS ActiveCare medical plan. If you are not enrolling in the medical plan, then only the Change in Status Election form is required. Forms **MUST** be submitted to the Benefits office **within 31 days** of the qualifying event date. Forms are available on our website.

Substitutes

Tomball ISD now offers medical insurance to substitutes. You have **31 days** from your hire date to accept or decline the medical plan. Substitutes are required to complete the TRS ActiveCare Enrollment Application before you will be eligible to accept assignments. Steps to enroll and steps to decline are included in the Substitute Benefits Information 2026-2027.

Substitutes may also participate in the 403(b) plan. You may elect to open a 403(b) at any time during the year and not just during your 31 day enrollment period.

Flexible Spending Accounts—FSA, DSA & HSA

Flexible Spending Accounts use pre-tax dollars to pay for medical co-pays, prescriptions, and/or daycare fees, thereby reducing your taxable income and increasing your take-home pay. Flex accounts allow you to save up to 30% on your eligible healthcare and/or dependent care expenses every year. TISD offers three options for the plan year September 1, 2026—August 31, 2027.

Some eligible expenses include:

- Medical/dental office visit co-pays
- Vaccinations
- Prescriptions
- Daycare Fees, Before/After School Care
- Dental/Orthodontic care services (*Limited FSA plan option available*)

TASC FlexSystem (FSA) enrollment and/ or Dependent Care FSA allows you determine the dollar amount you want to contribute to each account based on your estimated expenses for the upcoming Plan Year. Your contributions will be deducted in equal amounts from each paycheck, pre-tax, throughout the Plan Year. The more you contribute to these accounts, the more you reduce your taxable gross salary. With less taxes taken, your take-home pay increases.

The TASC FlexSystem Dependent Care FSA allows you to use pretax dollars to pay for eligible expenses related to care for your child, disabled spouse, elderly parent, or other dependent who is physically or mentally incapable of self-care, so you (or your spouse) can work, look for work, or attend school full time. Medical expenses for your dependent are not eligible for reimbursement under the Dependent Care FSA.

TASC HSA (Health Savings Account) increases your take-home pay by using pre-tax dollars to pay for eligible healthcare expenses. A Health Savings Account (HSA) works with your High Deductible Health Plan (HDHP) and lets you set aside a portion of your paycheck—before taxes—into an account. Use those funds to help pay for medical expenses (before you reach your deductible) that aren't covered by your HDHP.

- Reduces your taxable income. Your elected Plan contributions are deducted pre-tax, which reduces your taxable income and thereby increases your take-home pay.
- Gives you control. Funds in your TASC HSA stay with you, even if you change jobs. And, if you're no longer covered by an HDHP, your HSA stays active and remaining funds can still be used for medical expenses.
- Grows with you. If you maintain a minimum balance of \$2,000, any additional funds may be invested in top-ranking mutual funds yielding tax-free earnings.
- Helps you plan for the future. Until you turn 65, withdrawals used for eligible expenses are tax-free. After you turn 65, or if you become disabled, your HSA becomes similar to a regular IRA. Withdrawals you use for non-eligible expenses will be taxed at your regular income tax rate but won't incur additional penalties.

A complete list of eligible FSA items can be found at www.irs.gov in IRS Publications 502 & 503. Please note insurance premiums are NOT eligible for reimbursement.

Manhattan Hospital Indemnity Plan

Be prepared for what lies ahead

Maybe you're expecting to have a hospital stay — or maybe not. Either way, you can plan ahead to give yourself an extra financial cushion.

What is the Hospital Indemnity Plan?

The plan pays benefits when you have a planned, or unplanned hospital stay for an illness, injury, surgery or delivering a baby. It also pays a lump-sum benefit for admission and a daily benefit for a covered hospital stay. You can use the benefits to help pay out-of-pocket medical costs or personal expenses.

How is this different from a major medical plan?

Medical plans help pay providers for services and treatment. But, they don't cover unexpected costs that might come with a stay in the hospital.

The Aetna Hospital Indemnity Plan pays benefits directly to **you**, giving you extra cash when you need it most. It can help fill in the gaps, making it a great companion to your major medical plan.

How can you use the cash benefits?

It's completely up to you. You can use the money any way you want, like paying for:

- Deductibles or copays
- Mortgage or rent
- Groceries or utility bills

...or for anything else **you** choose.

Easy to use

Online tools make it easy to manage your plan. File a claim in about 90 seconds or less if you have a covered stay in a hospital. And, benefits get paid directly to you by check or direct deposit.

Critical Illness Insurance

Critical Illness Insurance pays a lump sum benefit if you are diagnosed with a covered illness or condition. The **Manhattan Critical Illness Plan** can help with expenses that may not be covered by major medical insurance – such as house payments, everyday expenses, lost income, and more.

Coverage includes health care costs stroke, major organ failure and end-failure.

Teacher's Retirement System

TRS (Teacher's Retirement System) administers a pension trust fund that has been serving the needs of Texas public education employees for over 80 years. In November 1936, voters approved an amendment to the Texas Constitution creating a statewide teacher retirement system, and in 1937, TRS was officially formed. The system is governed by a nine-member board of trustees appointed by the governor with the approval of the Texas Senate.

The TRS retirement plan provides service and disability retirement benefits and death benefits. The plan is administered as a qualified governmental retirement plan under the provisions of Section 401(a) of the U.S. Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). In addition, monthly member contributions are made on a pre-tax basis, meaning that at the time you receive your salary, you do not pay federal income tax on the portion of your salary used to make the contributions. Federal income tax on the contributions and interest credited to you is deferred until you receive a distribution from TRS, such as a refund or a retirement annuity. Amounts accumulated in your member account or your retirement benefits become taxable income in the years in which they are paid to you. As a governmental plan, TRS is not an "ERISA" plan under the federal Employees Retirement Income Security Act of 1974.

New York Life Long Term Care

New Long Term Care Insurance Benefit from New York Life Insurance Company

Creating a strategy for long-term care comes with many perks. Long-term care is the help you may need to perform basic daily activities, often as the result of a chronic health condition or cognitive impairment. These care services, which could be provided in the home, the community, or a facility are generally not covered by private health insurance or government programs. That's why preparing for long-term care is important.

Having a strategy in place can: Provide peace of mind, to both you and your loved ones

Reduce the financial and physical responsibilities of family and friends, who you may otherwise need to rely on for assistance

Help provide access to quality care, control of that care, and the flexibility to stay in your home for as long as possible

Allow you to lock in insurability now

Give you the option to spend more money and have more fun in retirement knowing you have coverage in place that can help fund a long-term care event if needed

Help protect your retirement and legacy, including preserving funds set aside for your loved ones For a product overview please click [here](#)
