

AP Business with Personal Finance Summer Assignment 2026

Please navigate to the AP Business Course and Exam Description on the College Board Website:

<https://apcentral.collegeboard.org/media/pdf/ap-business-personal-finance-course-and-exam-description.pdf>

Please navigate to the section on the Business Canvas Project (page 143 using the number on the pages). Read the entire section through page 150. This project is the most important part of the course.

Please note that I will be designing our course this summer. I can't yet answer questions like individual vs. group, etc.

Over the summer, you should think about what type of business you would like to build. Where do you see an unmet need? Do you have interesting (and profitable) ideas to meet that need? You don't need to do the work yet... I just want you to be ready to hit the ground running in August.

Feel free to read as much of the Course and Exam Description as you like. This is a public document provided by College Board.

See you in August!

Mr. Lowe
