[Vincent] Here in our Gastroenterology Fellowship, we get plenty of opportunities for general gastroenterology procedures. We have a great opportunity for, high numbers in EGD' s. In these EGD's we have the opportunity to perform, hemostasis for gastric ulcers or various bleeds. We also have opportunities for variceal screening as well as variceal hemostasis. We get chances to dilate the esophagus.	A tan man with short curly dark hair and a short, scruffy beard and mustache is wearing a white lab coat and standing on a balcony overlooking a stairwell with a large purple and gold L S U Health Shreveport logo towering over the stairs. Text: Vincent Herlevic, M D Gastroenterology Program Graduate
In this fellowship, we get great training with lower endoscopy, with colonoscopies and flexible sigmoidoscopies. We have ample opportunities to take care of patients with, ulcerative colitis or Crohn's disease. We get great opportunities to learn polypectomy techniques as well as endoscopic mucosal resection. And monitor patients with various ranges of disease severity and diagnoses.	Vincent addressing camera.
