Re: District statement regarding FEMA Award

The Jasper-Troupsburg Central School District is pleased to announce that FEMA has officially obligated funding for the replacement of the Jasper-Troupsburg Jr./Sr. High School following the devastating impacts of Tropical Storm Fred in 2021. This milestone represents a major step forward in the district's ongoing efforts to rebuild a permanent home for Jasper-Troupsburg students, staff, and community members.

The district extends its sincere gratitude to Senator Charles E. Schumer and Congressman Nick Langworthy for their steadfast advocacy and support throughout this process. Their offices remained engaged, responsive, and committed to helping the district navigate the federal recovery process and advance this critical project on behalf of the Jasper-Troupsburg community.

The district would also like to recognize the tremendous work completed behind the scenes by staff from FEMA and the New York State Division of Homeland Security and Emergency Services. Their guidance, professionalism, and commitment were instrumental in supporting the district.

In addition, the Jasper-Troupsburg Board of Education has provided steady leadership and support throughout the rebuilding effort, helping ensure the district remained focused on long term planning and the needs of students and staff.

"This is a day that many in our community have been waiting for," said Board of Education President Jodi VanGorden. "The obligation of this project represents years of perseverance by our students, staff, families, and community members. While there is still important work ahead, this milestone brings us one step closer to providing our students and staff with a permanent home and a facility that will serve generations of Wildcats to come. On behalf of the Board of Education, I want to thank everyone who played a role in helping us reach this point."

While the obligation of funding is a critical step, several important phases remain, including continued design work, state level approvals, and ultimately a public vote. District officials emphasize that the work ahead will continue to require collaboration, transparency, and community involvement.
