Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sweeny Independent School District (the "District") as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements - Continued

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, required pension schedules and required OPEB schedules on pages 15 through 25 and pages 81 through 89 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements, required Texas Education Agency schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, required Texas Education Agency schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

SWEENY INDEPENDENT SCHOOL DISTRICT

Management's Discussion and Analysis

For the Year Ended August 31, 2025

As management of the Sweeny Independent School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2025. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent period by \$ 61,918,539 (*net position*). The unrestricted net position, which represents the amounts available to meet the District's ongoing obligations was \$ 8,495,312. The District is committed to provide pension and postemployment benefits to its employees. As a result, the District has recognized substantial liabilities in the financial statements for these benefits. As of August 31, 2025, the District had net pension liability of \$ 7,767,992 and net OPEB liability of \$ 5,237,578.
- The District's total net position increased \$ 1,690,539.
- As of the close of the current fiscal year, the District's governmental funds reported combined fund balances of \$ 75,923,212, a decrease of \$ 5,011,245 in comparison with the prior year. Of this amount, \$ 18,745,192 or 24.69%, is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$ 18,753,497, or 68.61% of the total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The District has no *business-type activities*. The government-wide financial statements can be found on pages 26 through 27 of this report.

SWEENEY INDEPENDENT SCHOOL DISTRICT

Management's Discussion and Analysis

For the Year Ended August 31, 2025

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains twenty-one (21) governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund and capital projects fund; all of which are considered to be major funds. Data from the other eighteen (18) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for its general fund, national school breakfast and lunch program, and debt service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 28 through 31 of this report.

- **Proprietary funds.** The District maintains no proprietary funds.
- **Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reported in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs.

The District maintains two different types of fiduciary funds: the *Private-purpose trust fund* and the *Custodial fund*. The *private-purpose trust funds* are used to account for donations and other specified donor purposes for family crisis. The *Custodial fund* accounts for resources held in a custodial capacity by the District, and consists of funds that are the property of students or others. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position that can be found on pages 32 through 33.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 36 through 78 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 81 through 89 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining statements can be found on pages 92 through 99 of this report. Required Texas Education Agency schedules are to be found on pages 100 through 104 of this report.

Government-wide Overall Financial Analysis

Net position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$ 61,918,539 as of August 31, 2025. Net position of the District's governmental activities increased from \$ 60,228,000 to \$ 61,918,539.

Management's Discussion and Analysis

For the Year Ended August 31, 2025

Investment in capital assets (e.g., land, buildings and improvements, furniture, equipment, and vehicles, and right to use leased assets and construction in progress) less any related debt used to acquire those assets that is still outstanding is \$ 41,282,938. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* \$ 8,495,312 may be used to meet the District's ongoing obligations.

Governmental activities. The District's total net position increased by \$1,690,539. The total cost of all *governmental activities* this year was \$ 36,223,021. The amount that our taxpayers paid for these activities through property taxes was \$ 23,846,466 or 65.83% of total costs. The amount of costs that were paid by those who directly benefited from the programs was \$ 666,210. The costs that were paid by other governments and organizations that subsidized certain programs with grants and contributions or by some state equalization funding was \$ 3,858,702 or 10.65% and \$ 3,628,306 or 10.02%, respectively.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the District itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the District's Board of Trustees.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$ 75,923,212, a decrease of \$ 5,011,245 in comparison with the prior year. Approximately 24.69% of this total amount (\$ 18,745,192) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is either *nonspendable*, *restricted*, *committed*, or *assigned* to indicate that it is not available for new spending because it has already been classified 1) for inventories \$ 116,523, 2) for prepaid items \$ 415,255, 3) for grant funds \$ 999,670, 4) for capital acquisitions and contractual obligations \$ 41,885,083, 5) for debt service \$ 5,919,480, 6) for others \$ 5,342,009, 7) for claims and judgments \$ 250,000, 8) for capital expenditures for equipment \$ 350,000, and 9) for other assignment \$ 1,900,000.

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$ 18,753,497, while the total fund balance was \$ 21,714,735. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance and total fund balance to the total general fund expenditures. Unassigned fund balance represents 68.61% of the total general fund expenditures, while total fund balance represents 79.44% of that same amount.

The fund balance of the District's general fund decreased \$ 3,456,180 or 13.73% during the current fiscal year compared to last year's total general fund balance of \$ 25,170,915. Revenues decreased from prior year \$ 4,852,026 or 16.47%. Expenditures decreased 5.98% from prior year from \$ 29,071,117 to \$ 27,334,074. Key factors related to this change were as follows:

- Instruction cost decreased \$ 432,951 from prior year.
- Instructional leadership cost increased \$ 185,280 from prior year.
- Facilities maintenance and operations decreased \$ 682,335 from prior year.
- Facilities acquisition and construction decreased by \$ 602,834 from prior year.

The debt service fund has a total fund balance of \$ 5,919,480 all of which is restricted for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$ 885,452. The increase in fund balance was mainly due to the District budgeting for a partial defeasance of outstanding bonds but not completing this prior to year-end.

The capital projects fund has a total fund balance of \$ 41,885,083, all of which is restricted for capital acquisitions and contractual obligations. The net decrease in fund balance during the period in the capital projects fund was \$ 2,830,744 due to the use of funds for capital projects from the Series 2024 Unlimited Tax School Building Bonds.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved revisions to budgeted revenue and appropriations. These amendments fall into the following categories:

- Amendments approved shortly after the beginning of the new fiscal period for amounts reserved and designated in the prior year.
- Amendments to budget for donations received during the period.
- Amendments during the period for unexpected occurrences.
- Amendments to purchase a box truck and reinstall underground storage tank.

Following is a summary of amendments made to appropriations:

- \$ 1,282,165 increase in payroll cost
- \$ 294,963 increase in professional and contracted services
- \$ 33,902 decrease in supplies and materials
- \$ 25,773 decrease in other operating expenses
- \$ 43,000 increase in principal and interest on leases
- \$ 948,260 increase in capital outlay

After appropriations were amended as described above, actual revenues were more than the final budget by \$ 666,656 which was mainly due to the increase of state program revenue. Actual expenditures were \$ 2,153,654 below final budget amounts. The major portion of this positive variance was due to the decreases in expenditures in general administration, facilities maintenance and operations, and contracted instructional services between public schools.

Capital Asset and Debt Administration

Capital assets. The District's investments in capital assets for its governmental activities as of August 31, 2025 amounts to \$ 77,625,950 (net of accumulated depreciation/amortization). This investment in capital assets includes land, buildings and improvements, furniture, equipment and vehicles, right of use leased assets, and construction in progress. The total increase in capital assets for the current fiscal year was 1.97%.

Management's Discussion and Analysis

For the Year Ended August 31, 2025

Long-term debt. At August 31, 2025, the District had total long-term debt outstanding of \$ 91,266,112, a decrease of \$ 5,793,511 from the previous year, primarily due to the scheduled repayment of principal. Long-term debt is made up of the following:

	2025	2024
General obligation bonds	\$ 73,025,000	\$ 77,850,000
Tax notes	655,000	790,000
Lease liability	334,128	422,689
Net pension liability	7,767,992	9,322,393
Net OPEB liability	5,237,578	4,120,984
Premium on general obligation bonds	<u>4,246,414</u>	<u>4,553,557</u>
Total long-term debt	<u>\$ 91,266,112</u>	<u>\$ 97,059,623</u>

Moody's Aaa rating on the District's bonded indebtedness is provided by a guarantee of the Texas Permanent School Fund for timely payment of principal and interest in the event the District is unable to meet debt service requirements. Moody's Aaa underlying rating is representative of the District's sizable but highly concentrated tax base, low debt levels, and modest financial reserves. Additional information on the District's long-term debt can be found in Note 6 on pages 58 through 61 of this report.

Economic Factors and Next Year's Budgets and Rates

to the Governmental Activities Statement of Net Position
August 31, 2025*

Exhibit C-2

Total Fund Balances - Total Governmental Funds (Exhibit C-1) \$ 75,923,212

Amounts reported for *governmental activities* in the Statement of Net Position are different because:

Capital assets net of accumulated depreciation/amortization used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds. The cost of these assets is \$ 143,983,206 and the accumulated depreciation/amortization is \$ 66,357,256 resulting in a net addition to net position. 77,625,950

Some receivables are not available soon enough to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds. 324,787

Some liabilities, including bonds payable, notes payable, capital lease payable, premium on the issuance of bonds, and accrued bond interest are not due and payable in the current period and, therefore, are not reported as a liability in the funds. Liabilities at year-end related to such items consist of:

General obligation bonds	\$ (73,025,000)	
Tax notes	(655,000)	
Lease liability	(334,128)	
Premium on bonds	(4,246,414)	
Accrued interest payable	<u>(240,118)</u>	(78,500,660)

Deferred loss on refunding 32,447

The government-wide statement includes the District's proportionate share of TRS net pension liabilities, as well as pension related transactions accounted for as deferred inflows and outflows of resources. Liabilities at year-end related to such items consist of:

Net Pension liability	\$ (7,767,992)	
Deferred Outflows of Resources - TRS Pension	2,389,298	
Deferred Inflows of Resources - TRS Pension	<u>(576,131)</u>	(5,954,825)

The government-wide statement includes the District's proportionate share of TRS net OPEB liabilities, as well as pension related transactions accounted for as deferred inflows and outflows of resources. Liabilities at year-end related to such items consist of:

Net OPEB liability	\$ (5,237,578)	
Deferred Outflows of Resources - TRS OPEB	3,382,592	
Deferred Inflows of Resources - TRS OPEB	<u>(5,677,386)</u>	<u>(7,532,372)</u>

*Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances of Governmental Funds to the
Statement of Activities
For the Year Ended August 31, 2025*

Net Change in Fund Balances - Total Governmental Funds (Exhibit C-3) \$ (5,011,245)

Amounts reported for *governmental activities* in the statement of activities (B-1) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense.

Capital outlay	\$ 5,438,740	
Depreciation/amortization expense	<u>(3,942,655)</u>	1,496,085

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Also, governmental funds report the effect on premiums and similar items when debt is issued, whereas these amounts are amortized in the statement of activities.

Principal bond and tax note payments	\$ 4,960,000	
Principal on lease payments	88,561	
Change in accrued interest payable	4,923	
Amortization of bond premium	307,143	
Amortization of deferred charge on bond refunding	<u>(54,512)</u>	5,306,115

The net change in net pension liability, deferred outflows and deferred inflows is reported in the statement of activities but does not require the use of current resources and, therefore, is not reported as an expenditure in the governmental funds. The net change consists of the following:

Net pension liability decreased	\$ 1,554,401	
Deferred outflows decreased	(2,172,896)	
Deferred inflows increased	<u>(116,260)</u>	(734,755)

The net change in net OPEB liability, deferred outflows and deferred inflows is reported in the statement of activities but does not require the use of current resources and, therefore, is not reported as an expenditure in the governmental funds. The net change consists of the following:

Net OPEB liability increased	\$ (1,116,594)	
Deferred outflows increased	572,987	
Deferred inflows decreased	<u>1,156,770</u>	613,163

Because some property tax receivables will not be collected for several months after the District's fiscal year ends, they are not considered available revenues and are deferred inflows in the governmental funds.

SWEENY INDEPENDENT SCHOOL DISTRICT

Notes to the Financial Statements

For the Year Ended August 31, 2025

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sweeny Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees that are elected by registered voters of the District.

The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources; and it complies with the requirements of the appropriate version of Texas Education Agency's (the "TEA") *Financial Accountability System Resource Guide* (the "Resource Guide" or "FASRG") and the requirements of contracts and grants of agencies from which it receives funds.

The following is a summary of the most significant accounting policies.

Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared, based on considerations regarding the potential for inclusion of other entities, organizations, or functions, as part of the District's financial reporting entity. Based on these considerations, the District's basic financial statements do not include any other entities. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the District's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the District is part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are: that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments.

Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its statement No. 61, "The Financial Reporting Entity".

Reporting Entity - Continued

- Blended component unit. The Sweeny Independent School District Education Foundation was established under Internal Revenue Service regulations as a conduit for tax-deductible donations to the District. The Foundation's board is approved by the Superintendent. The Foundation is a supporting organization to the District. The Foundation is presented as a special revenue fund of the District.

The District receives support from various PTO and booster clubs. None of these organizations meet the criteria specified by GASB to be included in the District's financial statements.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report financial information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. The *governmental activities* are supported by tax revenues, state foundation funds, grants, and intergovernmental revenues. The District has no *business-type activities* that rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Interfund activities between governmental funds appear as due to/due from on the Governmental Funds Balance Sheet and as other resources and other uses on the Governmental Funds Statement of Revenues, Expenditure and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as receivables and payables on the government-wide statement of net position.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation - Continued

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt, including lease liabilities, as well as expenditures related to compensated absences, and claims and judgments, postemployment benefits and environmental obligations are recognized later based on specific accounting rules applicable to each, generally when payment is due. General capital asset acquisitions, including entering into contracts giving the District the right to use leased assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Texas are recognized under the susceptible-to-accrual concept, that is, when they are both measurable and available. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The fund financial statements provide information about the District's funds, including its fiduciary funds and blended component units. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund. Major revenue sources include local property taxes, state funding under the Foundation School Program and interest earnings. Expenditures include all costs associated with the daily operations of the District except for specific programs funded by the federal and state government, food service, debt service, and capital projects.

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation - Continued

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds for which a tax has been dedicated. This is a budgeted fund and a separate bank account is maintained for this fund. Any unused sinking fund balances are transferred to the general fund after all of the related debt obligations have been met. Major revenue sources include local property taxes, and interest earnings. Expenditures include all costs associated with related debt service.

The *capital projects* fund accounts for the resources accumulated and made for Board authorized acquisition, construction, or renovation, as well as, furnishing and equipping of major capital facilities. The major revenue source includes investment earnings and other resources from proceeds from sale of general obligation bonded debt.

Additionally, the District reports the following fiduciary funds:

The *private-purpose trust fund* is used to account for donations and other specified donor purposes for family crisis. The District uses the fund to pay for medical care needed by disadvantaged students who cannot afford such care.

The *custodial fund* is used to account for activities of student groups. The custodial fund accounts for resources held in a custodial capacity by the District, and consists of funds that are the property of students or others and cannot be used by the District in operations.

Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

Cash and Cash Equivalents

The District's cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are reported at fair value. Fair values are based on published market rates. Current investments have an original maturity greater than three months but less than one year at the time of purchase. Non-current investments have an original maturity of greater than one year at the time of purchase.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All outstanding balances between funds are reported as "due to/from other funds". The District had no advances between funds.

Inventories and Prepaid Items

The consumption method is used to account for inventories (food products, school supplies and athletic equipment) of governmental funds. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. Governmental fund inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources. Inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their market value is recorded as inventory and unearned revenue when received in the governmental funds. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets and Depreciation/Amortization

Capital assets, which include land, buildings and improvements, furniture, equipment and vehicles, and right to use leased assets are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$ 5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. When assets are retired or otherwise disposed of, the related costs or other recorded amounts are removed.

Buildings and improvements, furniture, equipment and vehicles, and right to use leased assets of the District are depreciated/amortized using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	20-40
Furniture, equipment and vehicles	5-20
Right to use leased assets	5

Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance - Continued

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for *deferred outflows of resources*. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position, and deferred amounts related to pension and OPEB. The deferred charge on refunding resulted from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred amounts related to pension and OPEB relate to differences between estimated and actual investment earnings, changes in actuarial assumptions, and other pension and OPEB related changes.

In addition to liabilities, the statement of financial position includes a separate section for *deferred inflows of resources*. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. *Unavailable revenue* is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide financial statements the District reports deferred amounts related to leases and deferred amounts related to pension and OPEB.

Compensated Absences

Compensated absences are absences for which employees will be paid. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the government and its employees is accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the government and its employees are accounted for in the period in which such services are rendered or such events take place.

In the governmental funds, compensated absences that are expected to be liquidated with expendable available resources are reported as an expenditure and fund liability in the fund that will pay for them. The remainder of the compensated absences liability is reported in long-term liabilities on the statement of net position.

Vacations are to be taken within the twelve month period that they are earned. Any unused vacation days will be forfeited with the exception of five carry over days per year. A maximum of twenty total days can be accumulated and paid when an employee retires without prior approval. Employees of the District are entitled to sick leave based on category/class of employment. Sick leave is allowed to be accumulated but does not vest. Therefore, no liability for unused sick leave has been accrued in the accompanying basic financial statements.

Compensated Absences - Continued

The following is a summary of changes in the accumulated unused vacation liability:

	<u>2025</u>
Balance, September 1	\$ 200,405
Additions - net unused	201,385
Deductions - payments	<u>(200,405)</u>
Balance, August 31	\$ <u>201,385</u>

The amounts attributable to the current and non-current portions on the liability resulting from this policy can only be estimated. As such, the entire amount of the liability is accounted for in the general fund and national school breakfast and lunch program fund as a current liability.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing resources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Net Position

Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- *Net investment in capital assets* consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- *Restricted* net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- *Unrestricted* net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance

The District's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes.

- *Nonspendable* fund balance represents amounts that are either not in a spendable form or are legally or contractually required to remain intact.
- *Restricted* fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers.
- *Committed* fund balance represents amounts that can be used only for the specific purposes determined by the adoption of an ordinance committing fund balance for a specified purpose by the District's Board of Trustees prior to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have been spent for the specified purpose or the Board of Trustees adopts another ordinance to remove or revise the limitation.
- *Assigned* fund balance represents amounts that are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board of Trustees delegates the responsibility to assign fund balances to the Superintendent or his designees.
- *Unassigned* fund balance represents the residual amount for the general fund that is not contained in the other classifications. The general fund is the only fund that reports a positive unassigned fund balance. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

As of August 31, 2025, nonspendable fund balances include \$ 55,988 for inventories and \$ 405,250 for prepaid items in the general fund and \$ 60,535 for inventories in national school breakfast and lunch program, \$ 8,305 for prepaid items in the State Instructional Materials Fund, and \$ 1,700 in the Sweeny Education Foundation Fund. Restricted fund balances include \$ 5,919,480 for debt service fund, \$ 41,885,083 for capital projects fund, and \$ 6,341,679 for special revenue funds. Committed fund balances include \$ 250,000 for claims and judgments and \$ 350,000 for capital expenditures for equipment in the general fund. Assigned fund balance includes \$ 1,900,000 in the general fund for other purposes. Unassigned fund balance includes \$ 18,753,497 in the general fund and \$ 8,305 deficit in special revenue fund.

In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Leases

Lessee: The District is a lessee for a noncancellable lease of equipment. The District recognizes a lease liability and an intangible right to use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$ 5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor: The District is a lessor for a noncancellable lease of communication channels. The District recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Leases - Continued

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of January 1 for all real and business property located in the district in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. The appraisal and recording of all property within the District is the responsibility of the Brazoria County Appraisal District (BCAD), an independent governmental unit with a board of directors appointed by the taxing jurisdictions within the county and funded from assessments against those taxing jurisdictions.

The assessed value of the property tax roll on August 1, 2024, upon which the levy for the 2024-25 fiscal year was based, was \$ 2,678,467,078. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges plus 20% delinquent collection fees for attorney costs.

The tax rates assessed for the year ended August 31, 2025 to finance general fund operations and the payment of principal and interest on general obligation long-term debt were \$ 0.7214 and \$ 0.1517 per \$ 100 valuation, respectively, for a total of \$ 0.8731 per \$ 100 valuation.

Current tax collections for the year ended August 31, 2025 were 98.73% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the general and debt service funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2025, property taxes receivable, net of estimated uncollectible taxes, totaled \$ 311,864 and \$ 65,099 for the general and debt service funds, respectively.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Budgetary Data

Formal budgetary accounting is employed for all required governmental funds, as outlined in TEA's FASRG, and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required governmental funds prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, debt service fund and the national school breakfast and lunch program (special revenue fund). The remaining special revenue funds and the capital projects fund (if utilized) adopt project-length budgets, which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles. The budget was properly amended throughout the year by the Board of Trustees. Such amendments are before the fact and are reflected in the official minutes of the Board.

The Official Budget was prepared for adoption for the general fund, national school breakfast and lunch program and debt service fund. The budget is prepared by fund, function, object, and organization. The budget is controlled at the organizational level by the appropriate department head or campus principal within Board allocations. Therefore, organizations may transfer appropriations as necessary without the approval of the board unless the intent is to cross fund, function or increase the overall budget allocations. Control of appropriations by the Board of Trustees is maintained within fund groups at the function code level and revenue object code level.

The Budget is formally adopted by the Board of Trustees at a duly advertised public meeting in accordance with law prior to the expenditure of funds. The approved budget is filed with the Texas Education Agency (TEA) through the Public Education Information Management System. Should any change in the approved budget be required, budget amendment requests are presented to the Board of Trustees for consideration. Amendments are made before the fact and once approved are reflected in the official minutes. During the year the budget was properly amended in accordance with the above procedures.

Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reporting amounts of assets and deferred outflows of resources, and, liabilities and deferred inflows of resources at the date of the financial statements, and the reported amounts of revenues and expenditures during the period. Actual results could differ from these estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Encumbrance Accounting

The District utilizes encumbrance accounting, in its governmental funds. Encumbrances represent commitments related to contracts not yet performed (executor contracts), and are used to control expenditures for the period and to enhance cash management. A school district often issues purchase orders or signs contracts for the purchase of goods and services to be received in the future. At the time these commitments are made, which in its simplest form means that when a purchase order is prepared, the appropriate account is checked for available funds. If an adequate balance exists, the amount of the order is immediately charged to the account to reduce the available balance for control purposes. The encumbrance account does not represent an expenditure for the period, only a commitment to expend resources.

Prior to the end of the current period, every effort should be made to liquidate outstanding encumbrances. When encumbrances are outstanding at the current period end, the school district likely will honor the open purchase orders or contracts that support the encumbrances. For reporting purposes, as noted earlier, outstanding encumbrances are not considered expenditures for the current period. If the school district allows encumbrances to lapse, even though it plans to honor the encumbrances, the appropriations authority expires and the items represented by the encumbrances are usually re-appropriated in the following year's budget. Open encumbrances at current period-end are included in restricted, committed or assigned fund balance, as appropriate.

The District canceled all the open purchase orders at the end of fiscal year. Therefore, the District had no outstanding encumbrances as of August 31, 2025.

Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the FASRG. The TEA requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

New Pronouncements

GASB issues statements on a routine basis with the intent to provide authoritative guidance on the preparation of financial statements and to improve governmental accounting and financial reporting of governmental entities. Management reviews these statements to ensure that preparation of its financial statements are in conformity with generally accepted accounting principles and to anticipate changes in those requirements. The following recent GASB Statements reflect the action and consideration of management regarding these requirements:

GASB Statement No. 101 "Compensated Absences" was issued in June 2022. The statement was implemented and did not have a material effect on the financial statements of the District. The requirements of this statement are effective for reporting periods beginning after December 15, 2023.

GASB Statement No. 102 "Certain Risk Disclosures" was issued in December 2023. The statement was implemented and did not have a material effect on the financial statements of the District. The requirements of this statement are effective for reporting periods beginning after June 15, 2024.

GASB Statement No. 103 "Financial Reporting Model Improvements" was issued in April 2024. The management of the District does not expect the implementation of this standard to have a material effect on the financial statements of the District. The requirements of this statement are effective for reporting periods beginning after June 15, 2025.

GASB Statement No. 104 "Disclosure of Certain Capital Assets" was issued in September 2024. The management of the District does not expect the implementation of this standard to have a material effect on the financial statements of the District. The requirements of this statement are effective for reporting periods beginning after June 15, 2025.

NOTE 2. DEPOSIT AND INVESTMENTS

The District classifies deposits and investments for financial statement purposes as cash and cash equivalents, current investments, and non-current investments based upon both liquidity (demand deposits) and maturity date (deposits and investments) of the asset at the date of purchase. For this purpose an investment is considered a cash equivalent if when purchased it has maturity of three months or less. Investments are classified as either current investments or non-current investments. Current investments have maturity of one year or less and non-current investments are those that have a maturity of one year or more.

Cash and cash equivalents, current investments, and non-current investments as reported on the statement of net position at August 31, 2025 are as follows:

NOTE 2. DEPOSITS AND INVESTMENTS - Continued

Deposits

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to them. The District requires that all deposits with financial institutions be collateralized in an amount equal to 100 percent of uninsured balances.

Under Texas state law, a bank serving as the school depository must have a bond or in lieu thereof, deposited or pledged securities with the District or an independent third party agent, an amount equal to the highest daily balance of all deposits the District may have during the term of the depository contract, less any applicable FDIC insurance.

At August 31, 2025, in addition to petty cash of \$ 154, the carrying amount of the District's cash, savings, and time deposits was \$ 5,311,093 and the financial institutions balances were \$ 5,459,620. Deposit balances of \$ 4,394,041 were covered by federal depository insurance, \$ 141,704 was covered by the Securities Investor Protection Corporation Insurance, and \$ 923,875 was covered by collateral pledged in the District's name. The collateral was held in safekeeping departments of unrelated banks, which act as the pledging bank's agent. These amounts include those of the Sweeny Education Foundation.

In addition the following is disclosed regarding coverage of combined balances on the date of highest deposit:

Depository:

- a. Name of bank: First State Bank of Louise, Sweeny, Texas.
- b. Amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$ 4,500,000.
- c. Largest cash, savings and time deposit combined account balance amounted to \$ 7,901,624 and occurred on April 11, 2025.
- d. Total amount of FDIC coverage at the time of the largest combined balance was \$ 4,366,704.

Investments

Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the District to invest its funds under written investment policy (the "investment policy") that primarily emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity and addresses the quality and capability of investment personnel. This investment policy defines what constitutes the legal list of investments allowed under the policies, which excludes certain instruments allowed under chapter 2256 of the Texas Government Code.

The District's deposits and investments are invested pursuant to the investment policy, which is approved by the Board of Trustees. The investment policy includes lists of authorized investment instruments and allowable stated maturity of individual investments. In addition it includes an "Investment Strategy Statement" that specifically addresses each investment option and describes the priorities of suitability of investment type, preservation and safety of principal, liquidity, marketability, diversification and yield. Additionally, the soundness of financial institutions (including broker/dealers) in which the District will deposit funds is addressed. The District's investment policy and types of investments are governed by the Public Funds Investment Act (PFIA). The District's management believes it complied with the requirements of the PFIA and the District's investment policy.

Investments - Continued

The District's Investment Officer submits an investment report each quarter to the Board of Trustees. The report details the investment positions of the District and the compliance of the investment portfolio's as they relate to both the adopted investment strategy statements and Texas State law.

The District is authorized to invest in the following investment instruments provided that they meet the guidelines of the investment policy:

1. Obligations of, or guaranteed by, governmental entities as permitted by Government Code 2256.009;
2. Certificates of deposit and share certificates as permitted by Government Code 2256.010;
3. Fully collateralized repurchase agreements permitted by Government Code 2256.011;
4. A securities lending program as permitted by Government Code 2256.0115;
5. Banker's acceptances as permitted by Government Code 2256.012;
6. Commercial paper as permitted by Government Code 2256.013;
7. No-load money market mutual funds and no-load mutual funds as permitted by Government Code 2256.014;
8. A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015; and
9. Public funds investment pools as permitted by Government Code 2256.016.

The District participates in three Local Government Investment Pools (LGIPs): Texpool, Lonestar and Texas Class. The State Comptroller oversees Texpool with Federated Investors managing the daily operations of the pool under a contract with the State Comptroller. Advisory boards consisting of participants or their designees, maintains oversight responsibility for Texas Class and Lonestar.

The District invests in Texpool, Lonestar and Texas Class to provide its liquidity needs. Texpool, Lonestar and Texas Class are local government investment pools that were established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Code. Texpool, Lonestar and Texas Class are 2(a)7 like funds, meaning that they are structured similar to a money market mutual fund. Such funds allow shareholders the ability to deposit or withdraw funds on a daily basis. Interest rates are also adjusted on a daily basis. Such funds seek to maintain a constant net asset value of \$ 1.00, although this cannot be fully guaranteed. Texpool, Lonestar and Texas Class are rated AAA and must maintain a dollar weighted average maturity not to exceed 60 days, which is the limit.

At August 31, 2025, Texpool, Lonestar and Texas Class had a weighted average maturity of 43 days, 44 days and 44 days, respectively. Although Texpool, Lonestar and Texas Class portfolios had a weighted average maturity of 43 days, 44 days and 44 days, respectively, the District considers holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, unless there has been a significant change in value. The District's investments in LGIPs are insured, registered, or the District's agent holds the securities in the District's name; therefore, the District is not exposed to custodial risk.

NOTE 2. DEPOSITS AND INVESTMENTS - Continued

Investments - Continued

Credit Risk - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. As of August 31, 2025, the LGIPs (which represent approximately 93.92% of the portfolio) are rated AAAM by Standard and Poor's or AAA by Finch. The LGIPs do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amount. These pools do not impose any liquidity fees or redemption gates. Certificates of deposit (which represent approximately 5.31% of the portfolio) are fully insured by the Securities Investor Protection Corporation Insurance and by federal depository insurance through CDARS programs. The mutual fund (which represents approximately 0.77% of the portfolio) is not rated.

Interest Rate Risk - As a means of minimizing risk of loss due to interest rate fluctuations, the Investment Policy requires that any internally created pool fund group of the District shall have a maximum dollar weighted maturity of 180 days; the maximum allowable stated maturity of any other individual investment owned by the District shall not exceed two years from the time of purchase; the Board may specifically authorize a longer maturity for a given investment, within legal limits, the District's investment portfolio shall have sufficient liquidity to meet anticipated cash flow requirements

At August 31, 2025, 94.64% of the investment portfolio was invested in AAAM or AAA rated LGIPs (2(a)7 like pools) and certificates of deposit. 5.36% of the investment portfolio was invested in mutual funds. The dollar weighted average maturity for all investments was 37 days.

Fair Value - The District measures and records its investments using fair value measurement guidelines established by GAAP. These guidelines recognize a three-tiered fair value hierarchy as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the District's assets at fair value as of August 31, 2025:

Governmental Fund Construction Commitments

At August 31, 2025, the District had no construction commitments:

NOTE 6. LONG-TERM DEBT**General Obligation Bonds**

Long-term debt includes par bonds, capital appreciation (deep discount) serial bonds, contractual obligations and loans. Contractual obligations are issued at parity with general obligation bonds, but carry a secondary revenue stream pledge; however, all certificates of obligation are tax, not revenue, supported. This debt, unlike other tax-supported debt, can be issued without a vote of the citizens. Bond premiums and discounts, and gain and losses on refunding are amortized using the straight-line method.

NOTE 6. LONG-TERM DEBT - Continued

General Obligation Bonds - Continued

Bond indebtedness of the District is recorded in the governmental activities statement of net position, and current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. Proceeds of long-term issues are reflected as "Other Resources" in the operating statement of the recipient fund.

The District has entered into continuing disclosure undertaking to provide annual reports and material event notices to the State Information Depository of Texas (SID), which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of Sweeny Independent School District.

There are limitations and restrictions contained in the general obligation bond indentures. The District is in compliance with all significant limitations and restrictions at August 31, 2025.

Tax Notes

During the year ended August 31, 2016, the District issued \$ 2,000,000 in Maintenance Tax Notes - Tax Credit Qualified Energy Conservation Bonds (QECB) - Series 2015, bearing interest at 4.620% with a maturity date of 2030. These notes are available through the U.S. Department of Energy Green Community Program. The Notes contain a tax credit that is available to the purchaser of the bonds.

NOTE 8. DEFINED BENEFIT PENSION PLANS

Plan Description

The District participates in a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the internet at <https://www.trs.texas.gov/learning-resources/publications> ; by writing to TRS at attention Finance Division, PO BOX 149676, Austin, TX, 78714-0185, or by calling [1-800-223-8778](tel:1-800-223-8778).

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above. Accordingly, the 2023 Texas Legislature passed Senate Bill (SB) 10 and House Joint Resolution (HJR) 2 to provide eligible retirees with a one-time stipend and an ad hoc cost-of-living-adjustment (COLA).

One-Time Stipends

Stipends, regardless of annuity amount, were paid in September 2023 to annuitants who met the qualifying age requirement on or before August 31, 2023:

- A one-time \$7,500 stipend to eligible annuitants who are 75 years of age and older.
- A one-time \$2,400 stipend to eligible annuitants age 70 to 74.

Cost-of-Living Adjustment

A cost-of-living adjustment (COLA) was dependent on Texas voters approving a constitutional amendment (Proposition 9) to authorize the COLA. Voters approved the amendment in the November 2023 election and the following COLA was applied to eligible annuitants' payments beginning with their January 2024 payment:

- 2% COLA for eligible retirees who retired between September 1, 2013 through August 31, 2020.
- 4% COLA for eligible retirees who retired between September 1, 2001 through August 31, 2013.
- 6% COLA for eligible retirees who retired on or before August 31, 2001.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025.

Contribution Rates

	<u>2025</u>	<u>2024</u>
Member	8.25%	8.25%
Non-Employer Contributing Entity (State)	8.25%	8.25%
Employers	8.25%	8.25%

Employer # 1202 - 2025 Member Contributions	\$	1,429,789
Employer # 1202 - 2025 NECE On-Behalf Contributions	\$	1,040,897
Employer # 1202 - Medicare Part D Contributions	\$	124,500

Contributors to the plan include active members, employers, and the State of Texas as the only non- employer contributing entity. The State is also the employer for senior colleges and universities, medical schools, and other entities, including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public schools, junior colleges, other entities, or the State of Texas as the employer for senior colleges, universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees and 100 percent of the state contribution rate for all other employees.

NOTE 8. DEFINED BENEFIT PENSION PLANS - Continued

In addition to the employer contributions listed above, there is a surcharge an employer is subject to.

- All public schools, charter schools, and regional education service centers must contribute 1.9 percent of the member's salary beginning in fiscal year 2024, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions

The total pension liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2023 rolled forward to August 31, 2024
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term expected Investment Rate of Return	7.00%
Municipal Bond Rate as of August 2024	3.87% - The source of the rate is the Bond Buyers 20 Index which represents the estimated yield of a portfolio of 20 general obligation bonds maturing in 20 years based on a survey of municipal bond traders.
Inflation	2.30%
Salary Increases including inflation	2.95% to 8.95% including inflation
Benefit Changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2023. For a full description of these assumptions please see the actuarial valuation report dated November 21, 2023.

Discount Rate

A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.54 percent of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2024 are summarized below:

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net pension liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (7.00%) in measuring the Net pension liability.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

On August 31, 2025, the District reported a liability of \$ 7,667,992 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate share of the collective net pension liability	\$ 7,667,992
State's proportionate share that is associated with the District	<u>10,207,666</u>
Total	\$ <u>17,975,658</u>

The net pension liability was measured as of August 31, 2023 and rolled forward to August 31, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2023 thru August 31, 2024.

On August 31, 2024, the employer's proportion of the collective net pension liability was 0.0127168640% which was a decrease of 0.0008547553% from its proportion measured as of August 31, 2023.

Changes in Assumptions and Benefits Since the Prior Actuarial Valuation

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The 2023 Texas Legislature passed Senate Bill 10 (SB 10), which provided a stipend payment to certain retirees and variable ad hoc cost-of-living adjustments (COLA) to certain retirees in early fiscal year 2024. Due to its timing, the legislation and payments were not reflected in the August 31, 2023 actuarial valuation. Under the roll forward method, an adjustment was made to reflect the legislation in the rolled forward liabilities for the current measurement year, August 31, 2024. SB 10 and House Joint Resolution 2 (HJR 2) of the 88th Regular Legislative Session appropriated payments of \$1.645 billion for one-time stipends and \$3.355 billion for COLAs. This appropriation is treated as a supplemental contribution and included in other additions. Since the Legislature appropriated funds for this one-time stipend and COLA, there was no impact on the Net Pension Liability of TRS.

The amount of pension expense recognized by (Employer) in the reporting period was \$ 1,444,676.

For the year ended August 31, 2025, the District recognized pension expense of \$ 1,219,987 and revenue of \$ 941,714 for support provided by the State.

On August 31, 2025, the District reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of</u>
Differences between expected and actual economic experience	\$ 428,161	\$ 60,649

NOTE 9. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multiple-employer, cost-sharing, defined benefit OPEB plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position

Detail information about TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/learning-resources/publications>; by writing to TRS at P.O. Box 149676, Austin, TX, 78714-0185; or by calling (800) 223-8778.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates

	<u>Medicare</u>	<u>Non-Medicare</u>
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions, and contributions from the state, active employees, and participating employers are based on active employee compensation. The TRS Board does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65 percent of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75 percent of each active employee's pay for fiscal year 2024. The following table shows contributions to the TRS-Care plan by type of contributor.

Contribution Rates

	<u>2025</u>	<u>2024</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
Employer # 1202 - 2025 Employer Contributions	\$	161,665
Employer # 1202 - 2025 Member Contributions	\$	112,652
Employer # 1202 - 2025 NECE On-behalf Contributions	\$	203,141

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether they participate in the TRS-Care OPEB program*). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2023. Update procedures were used to roll forward the total OPEB liability to August 31, 2024. The actuarial valuation was determined using the following actuarial assumptions.

SWEENEY INDEPENDENT SCHOOL DISTRICT

Notes to the Financial Statements

For the Year Ended August 31, 2025

NOTE 9. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - Continued

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2023 TRS pension actuarial valuation that was rolled forward to August 31, 2024:

Rates of Mortality
Rates of Retirement
Rates of Termination

Rates of Disability
General Inflation
Wage Inflation

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2023 rolled forward to August 31, 2024
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	3.87% as of August 31, 2024
Aging Factors	Based on the Society of Actuaries' 2013 Study "Health Care Costs - From Birth to Death"
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Projected Salary Increases	2.95% to 8.95%, including inflation
Healthcare Trend Rates	The initial medical trend rates were 6.75% for non-Medicare retirees. For Medicare retirees, trend rates are higher in the first two years due to anticipated growth but thereafter match those of non-Medicare retirees. The initial prescription drug trend rate was 7.25% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 11 years.
Election Rates	Normal Retirement - 62.00% participation rate prior to age 65 and 25.00% participation rate after age 65. Pre-65 retirees - 30.00% of pre-65 retirees are assumed to discontinue coverage at age 65
Ad hoc post-employment benefit changes	None

Discount Rate

A single discount rate of 3.87 percent was used to measure the total OPEB liability. This was a decrease of 0.26 percent in the discount rate since the previous year.

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Bond Buyer's "20-Bond GO Index" as of August 31, 2024, using the Fixed Income Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (3.87%) in measuring the net OPEB liability.

	1% Decrease in Discount Rate (2.87%)	Current Single Discount Rate (3.87%)	1% Increase in Discount Rate (4.87%)
District's proportionate share of the Net OPEB Liability	\$ <u>6,222,487</u>	\$ <u>5,237,578</u>	\$ <u>4,441,756</u>

Healthcare Trend Rate Sensitivity Analysis

The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	1% Decrease in Healthcare Trend Rate	Current Single Healthcare Trend Rate	1% Increase in Healthcare Trend Rate
District's proportionate share of the Net OPEB Liability	\$ <u>4,265,230</u>	\$ <u>5,237,578</u>	\$ <u>6,504,645</u>

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

On August 31, 2025, the District reported a liability of \$ 5,237,578 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's Proportionate share of the collective net OPEB liability	\$ 5,237,578
State's proportionate share that is associated with the District	<u>6,562,614</u>
Total	\$ <u>11,800,192</u>

NOTE 9. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - Continued

The net OPEB liability was measured as of August 31, 2023 and rolled forward to August 31, 2024 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2023 thru August 31, 2024.

On August 31, 2024, the employer's proportion of the collective net OPEB liability was 0.0060772983% which was a decrease of 0.0013583333% from its proportion measured as of August 31, 2023.

Changes since the prior Actual Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability (TOL) since the prior measurement period:

- The single discount rate changed from 4.13 percent as of August 31, 2023 to 3.87 percent as of August 31, 2024, accompanied by revised demographic and economic assumptions based on the TRS experience study.
- The tables used to model the impact of aging on the underlying claims were revised.

Changes of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2025, the District recognized OPEB expense of \$ 853,019 and revenue of \$ 196,403 for support provided by the State.

On August 31, 2025, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources: (The amounts shown below will be the cumulative layers for the current and prior years combined.)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 1,003,868	\$ 2,613,835
Changes in actuarial assumptions	670,348	1,708,961

SWEENEY INDEPENDENT SCHOOL DISTRICT*Notes to the Financial Statements**For the Year Ended August 31, 2025***NOTE 9. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - Continued**

The District recognized \$ 161,665 as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the year ended August 31, 2026. The other amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended August 31,</u>	<u>OPEB Expense Amount</u>
2026	\$ (587,255)
2027	(350,038)
2028	(498,824)

For the Year Ended August 31, 2025

NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year ended August 31, 2025, the district purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

NOTE 13. RISK POOL PARTICIPATION

The District is a participant in the Texas Association of School Boards, Inc. (TASB) Risk Management for coverage of unemployment compensation and worker's compensation. The District pays annual premiums to the pool for coverage stated. The District participates in a pool and is not responsible for its own claims.

Auto, Liability, and/or Property Programs

During the year ended August 31, 2025, Sweeny ISD participated in the following TASB Risk Management Fund (the Fund) programs:

Auto Liability
Auto Physical Damage
Legal Liability
Privacy & Information Security

The Fund was created and is operated under the provision of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2025, the Fund anticipates that the District has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2024, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

Unemployment Compensation Pool

During the year ended August 31, 2025, Sweeny ISD provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

NOTE 13. RISK POOL PARTICIPATION - Continued

Unemployment Compensation Pool - Continued

The Fund meets its quarterly obligations to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool. For the year ended August 31, 2025, the Fund anticipates that the District has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2024 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

Workers' Compensation Pool

During the year ended August 31, 2025, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers' Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$ 2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. For the year-ended August 31, 2025, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2024, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

NOTE 14. LITIGATION AND CONTINGENCIES

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2025 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 15. TAX ABATEMENTS

The District enters into appraised value limitations with local businesses under the Texas Economic Development Act (Tax Code Chapter 313). Under the Act, an appraised value limitation is an agreement in which a taxpayer agrees to build or install property and create jobs in exchange for a 10-year limitation on the taxable property value for the District's maintenance and operations tax (M&O) purposes. The minimum limitation value varies by District. The application for a limitation on the appraised value for M&O purposes is submitted directly to the District and requires an application fee that is established by the District. To qualify for a tax credit, a separate application must be submitted to the District after property taxes for the last complete year of the qualifying time period are paid. The credit is for M&O taxes paid in excess of the limitation amount in each complete year of the qualifying time period. The District's tax collector must credit the overage in equal parts over the last seven years of the agreement, but the credit in each year may not exceed 50 percent of the total taxes paid on the qualified property during that year. Any eligible amount not credited during the seven-year period are to be credited over the following three years, but the amount credited in each year may not exceed the total taxes paid on the qualified property in that year. The following are brief descriptions of each agreement followed by a summary of the agreements as of August 31, 2025.

The District entered into an agreement with Chevron Phillips Chemical Company on December 31, 2013. In addition to the tax abatement, Chevron Phillips Chemical Company has committed to the payment in lieu of taxes program. The agreement and all supporting documentation was assigned Texas Comptroller Application No. 281.

Independent Auditor's Report

On Internal Control Over Financial Reporting and on Compliance and Other Matters Based on
an Audit of Financial Statements Performed in Accordance With *Government Auditing
Standards*

To the Board of Trustees
Sweeny Independent School District
Sweeny, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sweeny Independent School District (the "District"), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 5, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

On Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Trustees
Sweeny Independent School District
Sweeny, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Sweeny Independent School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of District's major federal programs for the year ended August 31, 2025. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

*Notes to Schedule of Expenditures of Federal Awards
For the Year Ended August 31, 2025*

NOTE 1 - BASIS OF ACCOUNTING

The District accounts for all awards under federal programs in the General and certain special revenue funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources, and current liabilities and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current position.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e. both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally unused balances are returned to the grantor at the close of specified project periods.

Commodity Supplement (ALN 10.555) received like kind goods and no grant revenue received was reported on the schedule for the monetary value of these goods. The monetary value of goods received was \$ 104,227, while the monetary value of goods used and recognized as income and expenditures was \$ 104,227.

NOTE 2 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2025. The information in the Schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

NOTE 3 - FEDERAL INDIRECT RATE

The District does not use 10% de minimis cost rate as described in Section 200.414 of the Uniform Guidance.
