

CARROLL
SCHOOL

Entering 8th Grade Math Summer Assignment

2026

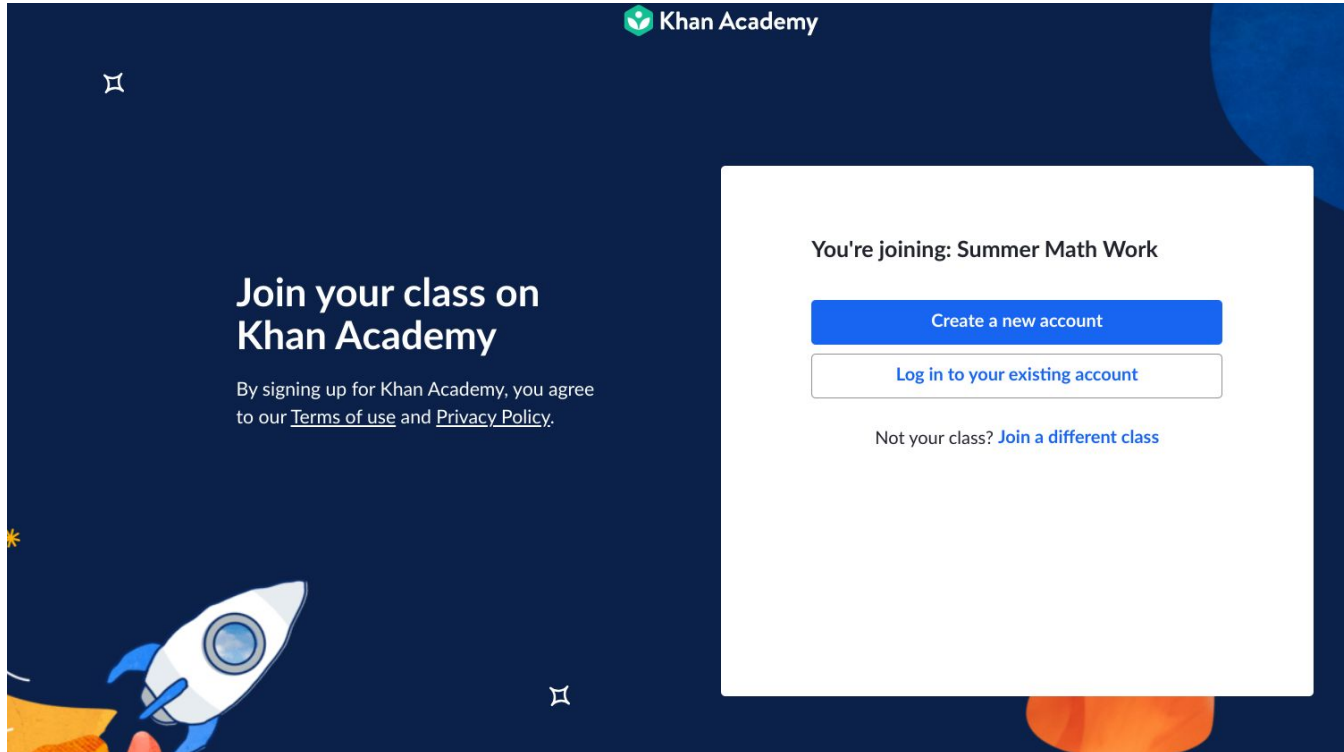

Summer Work

- Follow the directions on the next slide to join the Khan Academy Classroom.
- Work for a total of 20 minutes of practice per week. *If this is not possible with your summer schedule, then please stack the minutes however works best.*
- These are some of the units the students will work on:
 - Numbers and operations
 - Solving equations & systems of equations
 - Linear equations & functions
 - Expressions, equations, & inequalities
 - Geometry

Click on or Copy and paste this link: <https://www.khanacademy.org/join/9PQZEHHJ>

It will bring you to this screen.

Or go to www.khanacademy.org/join and enter your class code 9PQZEHHJ.

Click **Start** and work through the skills for a total of 20 minutes of practice per week.

The screenshot shows the CarrollStudent dashboard. At the top left is the CarrollStudent logo and name. To the right of the header are several small circular icons. On the left side, there is a sidebar menu with categories: SUMMER MATH WORK, MY STUFF, MY ACCOUNT, and Teachers. Under SUMMER MATH WORK, 'Courses' is selected. The main content area is titled 'Class courses' and 'Get ready for 8th grade math'. It lists five courses, each with an icon and a description. The first course, 'Get ready for ratios, rates, and percentages', has a blue 'Start' button circled in red. A red arrow points from the word 'Start' in the top instruction to this button. A 'See all (5)' link is also visible.
